**The Moon Angels of Infinite
Power**

Angels of 'L-I-T-E-V-I-Ch-E'

23rd Day of Lunar Cycle

'Sobadoha', using Stejnar cipher

Beloved,

As a child of God explores, heals, purifies, and strengthens
flowing tangible feelings and everyday emotions,
according to the Angels of the first 22 stations of the Moon Sphere,
we teach how to use the magnetic powers of beautiful flowing emotions
to attract miraculous results with infinite power,
combined with clear visual images, faith and conviction.

The language of creation is made up of visual images and flowing emotions.

*'We inspire powerful words, sometimes made from whole brain use
of
the divine virtues of the letters of the ancient language,
that generate visualizations and emotions
to calm the greatest storms,*

*stop erupting volcanoes, and
stop whole armies etc.*

*We inspire this only in accordance with the
highest good and with Divine Providence.*

*Only very mature and
ethical students come under our tutelage, so no harm comes to
them
or others by the misuse of such words of power.*

*Misuse is anything
that would oppose the legality of Divine Harmony and The Law of
One.'*

By meditating on the divine virtues associated with the letters of our name,
and calling on our help, the following is gained:

L-I-T-E-V-I-Ch-E

L

***The letter L represents the majesty and splendor of all the
divine
virtues taken together, that reveal the splendor and
majesty of
The Divine and true spiritual morality, vitality, and
immortality.***

***In the realm of flowing emotions, the mystery of emotional
equilibrium in
interacting with others is mastered by meditating on this
letter and virtue.***

***A person gains the ability to be filled with high flowing
emotions that attract the
splendor and majesty of Divine Consciousness and Flowing
Emotion into form.***

***He or she becomes emotionally identical with all divine
virtues.***

I

***The letter I represents the law of cause and effect. This
virtue awakens
memory, remembrance, conscience, and the understanding
of the analogy
between the microcosm of the human being and the
macrocosm of the
entire Creation. In the emotions, this virtue corresponds to
the emotional
matrix with all its functions. The emotional matrix is the
connecting link
between the material body and the emotions, which is also
called the soul,
and is the principle of life. The emotional matrix is kept
alive by breathing,
so mastering cause and effect in the emotional body means
the mastering
of breath. Meditating on the letter I, the virtue of cause
and effect,
reveals the secrets of breath. With this virtue all causes
are known
and any effect can be created in the material world.***

T

The letter T represents high inspiration. In the emotions , high inspiration enables one to carry through miracles of magnetic attraction through attunement to the proper feelings needed in any situation.

E

The letter E represents the omnipresence of Divine Consciousness, and Flowing Emotions. In the emotional body, the letter E represents the control of flowing emotions of oneself and of other people.

V

The letter V when pronounced sharply is phonetically equivalent to the letter F. The letter F represents the legality and harmony of all visible worlds in the micro and macrocosm. In the feelings, this virtue makes one perceive and control the mysteries of the quadrapolar magnet, which are the four levels of will, intellect, emotion, and form. At the same time, it gives control over the elements, which correspond to these four levels of consciousness. The understanding of all universal laws is attained by meditating on this letter.

I

The letter I is the law of cause and effect. In the feeling world this gives mastery over breath, and therefore mastery over life and death. If a person has died, by evoking the emotional matrix back into the body, breathing will resume. Likewise, by removing the emotional matrix, breathing will stop.

Ch

The sound of Ch represents the virtue of perfect purity and clarity of flowing feelings of Divine Consciousness. In the emotional body, the faculty of understanding and practically applying rhythm in the macro and microcosm, [i.e. a person's own body and the whole universe], is attained. This virtue also gives power over life and death in the feeling world. By applying rhythm one way, life is given, by applying it in the opposite way, life is withdrawn. This is the method that Christ used to make a tree wither within a few moments to demonstrate his power.

E

The letter E is the virtue of Omnipresence, the presence of Divine Consciousness and Flowing Emotions of Love are everywhere, in everything. When this virtue is felt in the emotions, not only is control over flowing emotions in self and others gained, but also the ability to understand the language of all beings, and to see the past, present, and future.'

We encourage everyone to meditate on the divine virtues of all the letters of the alphabet in the way of the ancient language, and especially the letters of our name, with particular emphasis on flowing emotions.

As you grow in maturity, ethicalness, and harmlessness, we infuse you and any situation you are in with such powerful flowing emotions of these divine virtues, that in times of need, feats of miraculous power that words can hardly describe are successfully carried out.

Call on us whenever infinite power is needed to restore emotional harmony on Earth.

"Divine Providence puts angels in charge of you to protect you wherever you go. They hold you up with their hands to keep you from hurting your feet on the stones."

On the 23rd day of every 28-Day Moon Cycle we flood the Earth with flowing feelings of infinite power for the highest good of all, so that people feel the strength to attract only the highest good, which brings joy and harmony to Earth.
