The Angels of Reincarnation

Also known as

The Angels of

Cermiel

Beloved,

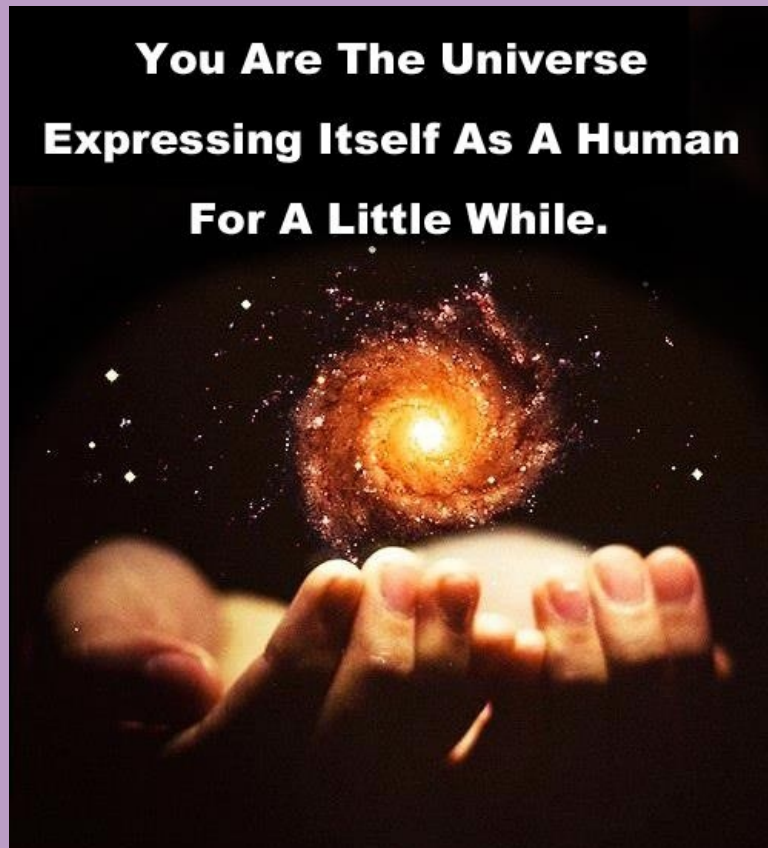

As a particular aspect of Divine Consciousness and Life wishes to express it's akashic state, through an incarnated individual consciousness, in a form, the heavenly hosts of Cermiel carefully guide and orchestrate the entire process.

Through the virtue of the spiritualization of matter, divine virtues, qualities, powers, and might enter into physical form.

This is the virtue of letter C of Cermiel, shining vermillion light and sensations of ease.

The spiritualization of matter is a virtue of the air element of thought with musical notes of D. The stomach is formed from it.

Divine Consciousness and Life are fully OMNIPRESENT, in all space and in all time.

This is the virtue of letter E, shining deep purple light with sensations of consciousness-penetrating-all and musical notes of D. The spine is formed from omnipresence.

OMNIPRESENCE exists in the most subtle and refined state, called AKASHA, the pre-matter of all existence.

It is through following inner guidance from Divine Providence, that a Spirit chooses to manifest it's unique expression of akasha as an incarnate form.

Inner guidance is the virtue of letter R, shining golden light and sensations of weight or gravity, since inner guidance is a virtue of the earth element, of Beta brainwave patterns of the five senses, memory and logic. Inner guidance has musical notes of C. The left side of the nose is formed from it.

Divine loving emotions attract a particular physical form and circumstances that provide growth.

Remember that emotions are compressed information that create magnetism to ATTRACT a particular form from the infinite possibilities in the quantum field.

Divine emotions are the virtue of letter M, shining beautiful blue-green light and sensations of coolness.

Flowing emotions are a virtue of the water element with musical s of D. The abdomen, seen as a hollow space, is formed from flowing emotions.

It is in incarnation that the law of Cause and Effect and karma are mastered.

This awakens memory, conscience and remembrance and teaches each Child of Light that every desire, thought, emotion, and sensation creates effects that come back to the one who creates them.

Cause and Effect reveals the mysteries and the power of breath.

By remembering causes and understanding effects, much is learned.

Because of this learning, it is easy to see why:

All things work for good.

All major events in life happen for a reason.

When a person goes back in
memory and emotions and relives earlier events,
even traumatic episodes, to the point of delving into their deepest
depths,
they see in brilliant flashes of insight
the wisdom and benefits that these carefully orchestrated events
catalyzed in their soul.

*Just as a fire purifies and refines gold,
so do burning emotions caused by frictions of polarity
in the experience of having a physical form purify,
transform, and refine a soul.*

This friction is caused by situations that have been attracted
through past karma and intense emotions and longing for spiritual
perfection.

Cause and effect shines light opalescent light and sensations of
weight, since it is a virtue of the earth element. It has musical notes of G.
The left kidney is formed from cause and effect.

*Because Divine Consciousness and Life are everywhere
present in subtle form,
an incarnated soul learns to meditate
and use Omnipresence to unite individual
consciousness with Divine Consciousness through
experiencing pure being,
a state of deep intuition in meditation.*

The Delta brainwave state of pure being,
0 to 4 oscillations per second,
is produced effortlessly and naturally during deep dreamless sleep
each night.

It is during this time that the body heals.

In an incarnation in which enlightenment is realized,
a Child of Light learns to go into this state consciously,
to relax and slow and deepen his or her breathing,
in a position which straightens the spine.

Correct posture and breathing combined with one pointed intention
in time calms emotions into deep stillness and peace.

Busy thoughts slow and the mind becomes still.

Delta brainwaves of pure being are then produced in a consciously
aware state.

Subtle Omnipresent Divine Consciousness and Emotion
is accessed and remembered in awareness.

Individual consciousness and emotion entrain and become one with
Divine Consciousness and Emotions.

In this state, communication and unity with Divine Being and all
Creation is experienced.

*A Child of Light in this deep state of trance can merge consciousness
with any being and receive answers to any question concerning their
karma.*

Then it is understood that by reincarnating over and over again,

the spirit and soul matures,
so that eventually cause and effect are mastered and heaven and earth
become one.

This is the virtue of the second letter E of Cermiel.

*Through uniting individual consciousness with Divine Consciousness,
the splendor and majesty of Divine Consciousness and Life,
ever present in the element of akasha,
works its way all the way through will which is fire,
into thought which is air,
then emotions which are water,
and finally into form which is earth.*

It is in this way that the splendor and majesty of Divine Being IN A
FORM expresses HEAVEN ON EARTH,
and ultimately manifests eternal life through the divine virtue of letter
L,
which gives vitality and eternal youth.

The letter L represents the highest divine virtues, taken all together,
which reveal the splendor and the majesty of Divine Consciousness, Will
and Emotion.

As heaven is mirrored in earth, death is overcome.

*Enlightenment and immortality are the ultimate purpose
and outcome of reincarnation.*

As the Children of Light reach awareness of spiritual perfection from
within,
reincarnation is no longer inevitable, and death is overcome.

The last enemy to be overcome is death.

The splendor and majesty of Divine Consciousness and Emotion
shine forth with a glowing translucent olive green lights
with musical notes of F and sensations of ease and relaxation.
This is a virtue of the air element of ideas, thoughts, and beliefs. The
spleen is formed from it.

*The height and depth of Divine Love, Wisdom, and Will
in these matters are beyond words to describe.*

In every step of life's journey,
in the invisible and the visible worlds,
heavenly hosts protect and guide each soul.

We have been appointed by Divine Providence to control the incarnation or reincarnation of every human being.

We know how long each individual must dwell in the invisible world in order to become mature for rebirth on earth, before going back into the school of life (in embodiment).

We know many secrets in respect to the life and death of any human being.

If allowed by Divine Providence, we can tell you the exact moment of anyones death and also the time and place of reincarnation.

When the soul is ready to reenter the school of life on the physical plane, the best situation and circumstances are chosen for their advancement.

The Divine Virtues represented by the the letters in our name are keys to understanding reincarnation.

Meditate on them in being, will, thought, feelings, and sensations, while invoking our help, to receive answers concerning the life or death of any Child of Light.

C

In the principle of consciousness-penetrating-all, the virtue behind the mystery of the eucharist is represented by this letter.

This is the mystery of self-spiritualization.

He who masters this mystery well, comprehends and understands the profundity of the eucharist and masters all the practical methods relating to it.

The eucharist has to do with the transformation or incorporation of a divine idea, a higher virtue, into a certain form.

Mentally this virtue covers all practices dealing with influencing

**ones own mental body or the spirit of somebody else by a divine idea,
virtue, quality, power, or might.**

**Whatever divine quality that is being incorporated completely
and permanently permeates the emotions.**

**On the physical plane the Virtue of the Eucharist gives one the ability to
enliven the whole of matter
and to equip it with the mental and emotional qualities of the Divine
Virtues.**

This is the true "modification of matter by the word."

**A person who has mastered this ability may transform any place,
any thing, by infusing it with the essence of a higher virtue.**

**Color: Vermillon, Element: fire and air, warmth and ease, Musical note
D, heals the stomach.**

E

**In the Akasha, which is the principle of
consciousness-penetrating-all, E represents the universal
consciousness
which is omnipresent in everything that has ever been created.**

**Meditating on this virtue unites a persons normal consciousness with
the universal consciousness, with cosmic consciousness.
This is the essence of the oriental Nirve-Kalpa-Samadhi.**

Mentally the highest form of intuition is achieved.

The ability to transfer consciousness is mastered.

**There is no sense of time or space.
Divinity in His highest form is speaking through this Virtue.**

This attunement gives control over the feelings of oneself and others.

**Clairaudience and the understanding of the language of all
animals and the perception of the remote past, present, and future are
mastered.**

**The mysteries of materialization-condensation and dematerialization-
refinement
are understood on the physical plane through this attunement to
Universal Consciousness.**

**A person learns to intensify any idea, concept, mental or emotional
energy
in such a way that they become physically visible.**

**Everything in the physical world,
its coming into form and its going back into the subtle worlds,
was made possible by the Virtue of Universal Consciousness.**

**Color:dark violet, Element: akasha-penetrating all, Musical note D,
heals the whole spine.**

Profound changes are coming to this planet

R

In the principle of consciousness-penetrating-all, this is the Virtue of Freedom and Independence.

Meditating on this virtue creates a mental state of perfection and a feeling of freedom from any pressing burden of the laws, since by mastery of all the preceding letters a state of maturity has been reached that has transformed a person into a state of absolute justice and unimpeachability.

An eminent mind and a feeling of absolute security is attained.

Even though there is absolute freedom, a person who has reached this point desires to subject themselves willingly to Divine Providence and accept missions to serve Divine Providence with deep humility, immense gratitude and highest devotion.

This is done without losing the feeling of absolute freedom of will in any way.

In the emotions an ingenuity is awakened which manifests as a number of abilities.

In the material world, the virtue of freedom and independence causes a rational widening of intellect which enables the comprehension of any knowledge quickly and without difficulty. The ability to express in words is enlivened and any mission undertaken is met with success.

Color: golden light, earth element, Musical note:C, heals left side of nose.

M

The letter M and its sound represent the virtue of emotion, the ability to flow in consciousness and of emotions in general in the principle of consciousness-penetrating-all.

All water is created with this Virtue.

In the mind this virtue is manifested as life, emotion and sensation. By mastering this virtue one is given the mental faculty of mastering all emotions, sensations and life spirit.

This enables one to penetrate into the life, emotions and sensations of anyone with his own consciousness.

In the emotions this virtue gives one the mastery of attracting anything.

In the physical world, the power of controlling the principle of flowing in the micro and macrocosms is achieved. Among other things, this gives control over gravity.

This power is the power of magnetism and the ability to attract realities into form.

Color: blue-green, Element:water-chill, Musical note: D, heals the abdomen area as a hollow space of energy

I

In the Akasha principle of consciousness-penetrating-all, this letter represents the virtue of Fate and Karma, the law of Cause and Effect.

All doings and all actions, all life, come under this law. The law of the evolution of everything that has been created is expressed by the virtue of Cause and Effect.

At the same time, Divine Providence in the most subtle form is manifested in this virtue.

In the alphabet the letter I is the tenth letter and number ten represents the one as its highest form.

In the mind this virtue creates memory, remembrance and conscience.

By mastering Cause and Effect, one is able to enliven everything and master it.

At the same time, he achieves the spiritual ability to evoke any remembrance in his memory or the memory of someone else and to sharpen the conscience of another whenever it is permitted by Divine Providence.

In the feelings this virtue controls the very act of feeling itself and therefore controls the life force and the act of breathing.

Perfect control of the Virtue of Cause and Effect brings the ability to restore life and breath to the dead.

On the material plane this virtue corresponds to all laws of analogies between the micro-and the macrocosm, the above and the below, the inward and the outward.

**Everything that has shape, measure, number and weight
has been created by the help of this virtue of Cause and Effect.**

**Once this virtue is mastered,
the greatest miracles in the material world can be caused by using the
respective analogies to shape,
measure, number and weight,
which are the chief components of the material world.**

**Besides mastering these, a person may become a perfect
metaphysician and to comprehend all laws presently still unknown and
to apply them in all fields.**

**[Color:light opal, Musical note: G, Element earth-weight, heals the left
kidney.]**

E

**Universal Consciousness and omnipresence, being present everywhere
through all time and space.**

see above

L

**In the principle of consciousness-penetrating-all, the letter L with
its sound represents the highest divine virtues that may be described by
words, irrespective of whatever sort they may be.**

**This virtue is used to comprehend the Divine Majesty or the greatness
of God in the form of the purest virtues.**

**By meditating on L the perception of how divine virtues work in the
various spheres is mastered.**

**It is not possible to enumerate all the divine virtues because
it is impossible to describe their greatness, purity, and profundity.
They can only be felt.**

**In the mind true morality is attained.
The understanding that both positive and negative moral qualities must
exist in order to be
differentiated from each other is grasped.**

This will cause an enlightenment which leads to saintliness.

**In the emotions complete equilibrium and spiritualization is mastered
by becoming one with the feelings of the divine virtues.**

This gives emotional strength and invulnerability.

**On the physical world perfect health, beauty and harmony are attained
and this creates perfect vitality.**

This is the path to permanent youth.

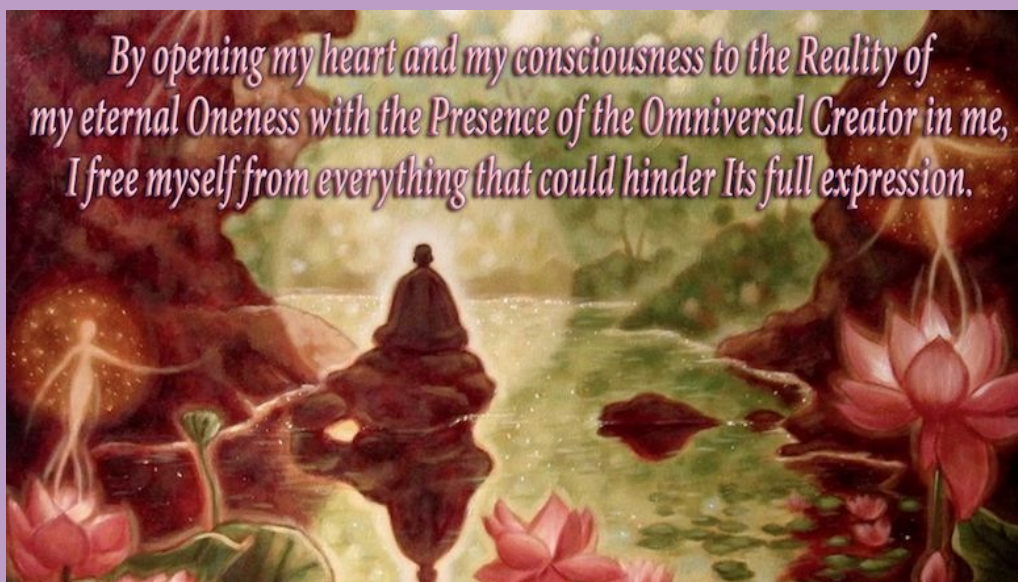

**With permission from Divine Providence a person who has mastered the
Divine Virtues may give permanent youth to another.**

**The vital energy controlled by this mastery may be connected to any
other letter and
virtue for intensification.**

In this way matter can be spiritualized to make medicines.

**Color:dark olive green, Element: air-ease, Musical note: F, heals the
spleen.**

Footnotes

**The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common precursor, or root, of three
of the world's religions:**

Judaism, Islam, and Christianity.

**Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the
earth, and the angels who work with him or her.**

The being and the angels share the same name.

This name is a key to their powers and influence.

**Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of
Franz Bardon.**

*What are the deep desires of your heart?
For yourself?*

For this planet?

*If all things were equally possible,
if any wish could be granted with equal ease,
what would you materialize for yourself and others that is the highest
good of all?*

*Visualize this happening on all levels:
the physical, the emotional, the mental, and the spiritual.*

Creation thanks you.

*Thank you for radiating and receiving these divine information packets
of loveliness and grace.*

*Thank you for creating.
Thank you for being you.*

To understand Universal Consciousness, and immortality, it is very helpful to read the first three volumes of The Life and Teachings of the Masters of The Far East by Baird Spalding

The first three volumes are field notes taken on a scientific expedition to Nepal in the late 1800's.

Please feel free to share these with others.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

**Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .**

I give thanks that this is done.

SO BE IT!
