## The Angels of Optical Technology

Also known as

The Angels of

**Trisacha**

Beloved,

*Omnipresent, omnipotent, and omniscient divine intelligence of the  
cosmos  
speaks the language of images.*

*We have inspired all optical inventions.*

*Television was inspired by us.*

As mankind spiritually matures,  
so that harmlessness is understood philosophically as well as  
scientifically,  
we make available ever greater technical inventions  
that duplicate all the skills of clairvoyance,  
including the ability to see into the past, present, or future at any  
distance.

By seeing effects of causes previously made,  
high inspiration reveals imperfections due to manifest from limited  
causes,  
to inspire corrective actions.

*The divine cosmos  
speaks the language of images.*

We teach that whether images are received from the outer world,  
or from inner worlds of meditation and dreams,  
divine omnipresent, omnipotent, and omniscient intelligence of the cosmos  
speaks the language of visual images.

Whether it is an image of sacred geometry,  
or a telepathic message,  
visual images are blueprints that inform communication.

For example, an image of a horse is the same in any place and time,  
whereas the verbal words for "horse" vary from place to place and time to time.

Images enter the eyes and travel through the optic nerve to the pineal gland,  
where over 20,000 psychoactive chemicals are stored.  
Images activate this gland to secrete corresponding chemicals into the blood stream.

Images seen in the imagination during meditation also activate the pineal gland.

The subconscious mind processes 400 billion bits of information a second,  
and this mind does not distinguish between a visual image received  
through the optic nerve or an imagined visual image.

The conscious mind processes 4 to 40 bits of information a second,  
which is why it was written,  
"keep your eye single and the body shall be filled with light."

By keeping the conscious mind focused  
on imagined images of desired manifestations,  
a person becomes a transmitter and receiver of corresponding  
frequencies,  
governing the quantum field.

"Know ye not that ye are gods?"

"All that I do, ye shall do and more."

Sacred images,  
such as flowers, mandalas and sacred geometry,  
that reflect the divine beauty and harmony of creation,  
cause chemical changes that lead to enlightenment.

Within one minute of having a thought,  
over a hundred thousand chemical reactions occur in the body.

At this point of scientific evolution,  
kindness, harmlessness and responsibility to all life  
are viewed as scientifically viable and verifiable,  
because all are indeed ONE in the unified field of energy,  
the web of life.

It is lawful in Divine Mind,  
for images to reflect divine perfection through The Law of One,  
the original Law of Creation that all other laws come from.

The Law of One that is the original law of Creation,  
and is the supreme Law over all laws in all dimensions.

#### THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,  
and I am one with all there is;

I ask that ONLY THE HIGHEST GOOD, OF ALL CONCERNED, happen .  
I give thanks that this is done.  
SO BE IT!

This law awakens DNA  
to the original divine blueprints of will, thought, and emotion of Divine  
Being for creation.

When this Law is called forth,  
it overrides all lesser laws in all dimensions and universes.

In the time of Heaven on Earth,  
technology to SEE all of creation,

**the inner and the outer creation,  
is made available.**

**As we inspire technical inventions that mirror mystical faculties such  
as remote seeing or clairvoyance,  
this fulfills the "as above, so below" law of correspondence.**

**Spirit and volition correspond to light and to the eye.  
Original divine will for the highest good of all must be identified with  
to obtain the greatest secrets of optical technology.**

**As researchers enlarge scientific paradigms to include metaphysics,  
conscious access to the help of the heavenly hosts and divine virtues in  
scientific projects  
make so much more possible.**

**The invention of advanced technology is accessed through the divine  
virtue of High Inspiration.**

**This is the virtue of the first letter T of our name Trisacha.**

**The divine virtues of our name are a pathway to invent technology that  
mirrors the gifts of the spirit.**

**They are: high inspiration-T, inner guidance-R, the laws of Cause and  
Effect-I, all-penetrating-Divine Will-S, wisdom and enlightenment-A,  
releasing all ideas that no longer serve the highest good-umlaut A, ae,  
clarity and perfect purity-Ch, and again, knowing the original purity of  
all ideas in Divine Mind-A,  
which awakens mystical faculties and finally  
again the release of imperfections for change into other states-umlaut  
A, ae.**

**Whether a person views creation inwardly through meditation or outwardly through optical inventions, the most important consideration is attunement to The Law of One and following inner guidance, in states of consciousness attuned to the virtues of Trisacha.**

**The divine virtues in being-visualization- will, thought, emotions, and sensations, make it possible to change, or recreate, anything that exists in any time frame for the highest good of all concerned.**

**Optical viewing within all time frames helps in this regard.**

**Inventions such as these help manifest The Law of One, and give scientific verification that everything is interdependent and what affects one affects all.**

**All that I do, you shall do and more.**

**Technical inventions that allow remote viewing of any sort falls under our jurisdiction.**

**Remember that as mankind spiritually matures, we make available technical inventions to duplicate all the skills of clairvoyance, including the ability to see into the past, present, or future at any distance.**

**MIRACLES**

**By meditating in will, thought, emotion, and sensation on the divine virtues of the letters of our name, and calling on our help, it is possible to merge with our consciousness.**

### **Trisacha**

**T** The sound of the letter T in the ancient language is the divine virtue of high inspiration with all the legal matters of this principle.

In the intellect, this virtue awakens remarkable inventive faculties and memory.

***When a person chooses the path of creating optical inventions for the highest good of all, the heavenly hosts awaken high levels of inspiration, so that ingeniousness removes all obstacles.***

**R** The sound of the letter R is the divine virtue of becoming the master and guardian of freedom and independence.

It is this virtue that is used by each child of God who listens to and follows their own inner voice of guidance.

This inner guidance is a person's unmistakable link with the Universal Mind of Divine Providence that lives and moves in all space and time and beyond.

In this state of freedom and independence there is the feeling of freedom of any pressing burden of the laws,

for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed into an absolute state of security and unimpeachability.

This comes from the realization of the harmony and perfection of all divine laws and the identification and love of them so intensely that they have actually become merged with oneself.

***In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of***

*them.*

This is a very high state of consciousness, but it is the state that every human being is destined to accomplish. It is for this reason that teachers have told you that "the truth is written within your heart".

The color of this virtue is golden; the musical note is C.

The left side of the nose is formed from it.

I The sound of this letter is the virtue of cause and effect, which is the karma law. On the mental level, this is analogous to memory, remembrance and conscience.

In the emotional body, this corresponds to the astral/physical matrix, which is the connection between emotions and physical form, with all of its functions.

***On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue, metaphysics is understood.***

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.

S This is the sound of all-penetrating power, ALL-POWER. This virtue gives the WILLPOWER to attune to the inherent divine gift of seeing everything in the web of life, through time and space.

**This all-power is to be understood substantially.  
With all-power you get into contact with the subtlest substance of the divine spirit, i.e.,  
with the original divine fire, or will, which works as a substantial power in everything  
that has been created by Divine Providence.**

**Oneness with all-power gives mastery over the fire principle of desire and will and brings about a state of clairvoyance in its purest form.**

***Complete control over consciousness results from this,  
because original pure omnipresent indwelling divine purpose is  
enlivened.***

The color of this virtue is purple red, its musical note is G-sharp,  
it is the fire element of will and so it has the sensation of warmth,  
and the gall bladder is the part of the body that is formed by it.

A This is the sound of the divine virtue of highest wisdom and enlightenment.

This sound[soft as in a sighahhhhh] and virtue is an initiation  
into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind. Reasoning,  
perception, the cognition of the most profound truths, highest knowledge,  
high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudence, the art of levitation, and  
the control of  
the air element and its beings are all aroused by meditating on this virtue.

On the physical plane the command of the beings of the air, control over storms,  
are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note  
is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

umlaut A, ae The sound of this letter, the long A, in the cosmic  
language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of  
God becomes convinced that in reality death does not exist,  
for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.  
With this comes the ability to master all negative spiritual beings  
in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.  
Since, in the original principle all beings are alike, each  
having been created by Divine Providence to fulfill a certain task,  
there is no dissimulation of negative beings, for from the enlightened  
persons point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings,  
it would be impossible to distinguish between good and evil;  
and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible:  
"through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning  
matter,  
and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue  
in their emotions becomes absolute master and ruler of all desires and passions.  
Also, a person is able to not cling to mental, emotional, and  
material virtues and objects.

This means complete independence and freedom and fulfills the saying "bind yourself and you will  
be free".

On the material level this virtue is one of the most materialized.  
No matter whether you evoke it in the mind, the feelings, the akasha, or  
the material world, the earth is influenced by it to a larger extent.

*The ability to infuse matter with divine virtues is heightened,  
because disharmony on every level has been removed from matter.*

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

Ch This is the sound of clarity and perfect purity.  
A person becomes one with this divine virtue in order to penetrate confusion and unknowing.

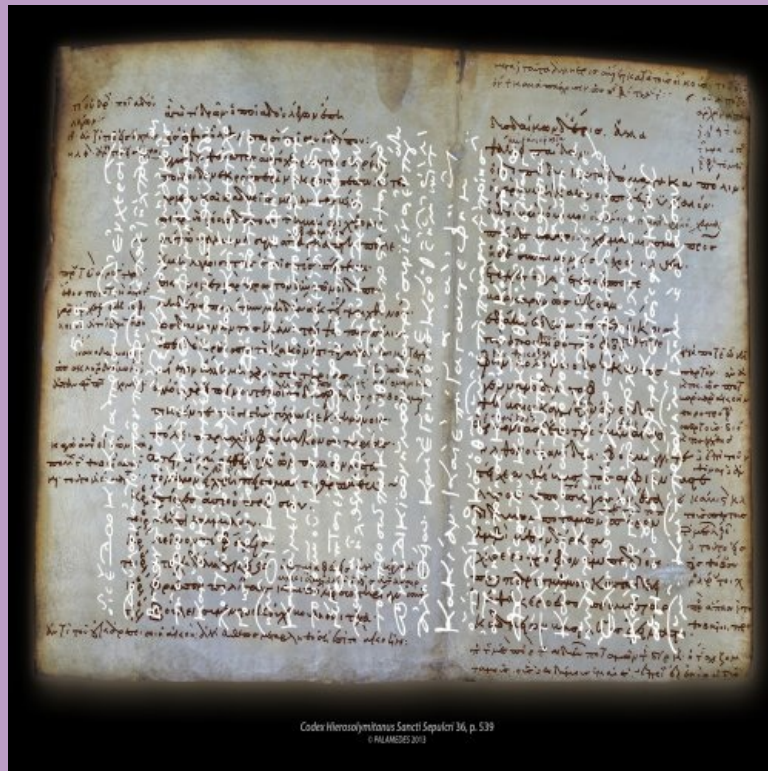

A Child of Light who masters this oscillation will achieve the faculty of differentiating the clear from the unclear, to eliminate any obscurities and to perceive and understand everything in its purest form.

*All that is meant by the word the purity of all ideas is expressed by this letter oscillation.*

In the mental realm: By this help of this oscillation, the spirit-mental body will learn to consciously perceive and understand all the languages of the universe,  
i.e., all the languages of the spheres  
and planes in their utmost clarity, and gain the faculty not only of understanding all spiritual beings, men and animals,  
but also of being understood by them all.

***That it will thereby be easy to understand all the symbols existing in the universe, goes without saying.***

*using optical technology, invisible ancient writing is seen underneath visible writing*

**In the astral or emotional body:**

Emotionally, a Child of Light will attain, by the help of this virtue, the faculty of understanding and practically applying rhythm in the macro-and microcosm in all its phases.

By this he or she achieves the power over life and death of every being in all spheres and planes. If it is desirable, he or she may awake the dead to life again or revive any decayed plant since he or she has been revealed, by this letter oscillation, the secret of rhythm, i.e., the secret of life.

Applying the same letter oscillation, he or she may, of course, also make use of the opposite rhythm and cause immediate decay: for instance, to make a fully blooming tree wither within a few minutes, a.s.o. Even the Bible mentions such an event as a miracle by which Christ made a tree wither within a few moments to demonstrate his power.

A Child of Light knows that such a miracle can only be caused by the power of the word, which is conscious use of the 4 brainwaves corresponding to the four elements.

**In the material world:**

This letter oscillation is analogous to the water element.

It bestows on a Child of Light the faculty of solving all the mysteries of the water element and the magnetic fluids in all analogies and of mastering them at will. By this letter oscillation, he or she will get the water element on our earth under his or her will, at his or her own discretion. If he or she so wishes, he or she can have water everywhere:

he or she can calm the waves of the sea, walk over the water, make rain showers cease, or vice versa, cause rain: he or she can become master of all the water spirits and can achieve many other things.

The color is light violet, the musical note is D-sharp, and it has the sensation of coolness because it is the water element of feeling. The left leg is formed by this virtue.

A see above

"Ye are made in the image and likeness of God."

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies. thank you! The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

## **La ley de Uno**

Cuando Uno está herido, Todos estamos heridos  
Cuando Uno está bendecido, Todos estamos bendecidos  
Por lo tanto, en el nombre de El Sagrado, mi Dios, yo soy presencia  
    Quien es uno con todo lo que es  
    Quien es Todopoderoso, Amoroso y Sabio  
Pido sólo que el bien de las alturas de todos los involucrados,  
se manifieste justo aquí y ahora y en cada dimensión y en cada línea

Doy gracias de que esté pasando ahora.
