**19 degrees Capricorn**

## **The Angels of Ores and Mines**

Also known as

**The Angels  
of**

## **Kamual**

**Beloved,**

**Along with all of the heavenly hosts,  
we teach how to relate to The Earth,  
*as a living, intelligent being.***

**Similar to a human body, each part of Earth is important**

**to every other part.**

**Because of this, divine mining is an ancient science that  
works on four levels,  
will and faith for the highest good of all,  
clear concepts of enlightenment concerning mining and  
ores,  
divine emotions,  
and impeccable actions.**

**We are responsible for enlightening everyone to the  
sacredness of ores and coal.**

**The science of mining ores and coals as a way of  
changing fate,  
for the highest good of all concerned,  
is understood and mastered as the unified field  
is understood as an interdependent web of life  
in which everything is affected by everything else.**

**Old destructive paradigms are recalibrated for the highest good of  
all concerned.**

**As it was in the beginning is now and ever shall be,  
world without end.**

***Understanding how to relate to the earth is analogous to  
understanding how to relate to a child.***

**If a child is seen only as a physical body, without emotions, mind,  
or spirit, then the child is most likely treated as a neutral object**

**Relating to children as neutral objects results in suffering and  
trauma  
which derives from mental and emotional neglect.**

**The flowing emotions, minds and spirits of children are divine and  
precious, and their  
treatment determines how the physical bodies and realities of the  
children develop.**

**By receiving divine love, the spiritual, mental, emotional, and  
physical realities of  
children have the optimum environment to grow in perfect health  
and beauty on every level.**

**Likewise is this true for every form in creation, be it mineral, plant,  
animal, or human.**

**Even though physical forms are perceived by the five senses,  
the energies of other more subtle levels determine how the forms  
function.**

**Everything in creation is connected.**

**Everything effects everything else. When one is blessed, all are blessed.**

**Grace and Mercy flows as this connection is understood and carefully tended by more and more of the Children of Light.**

**The five senses, logic, and memory are the Beta brainwave level of perception, which is one fourth of the spectrum of perception available.**

**The other three fourths are Delta brainwaves of pure being and will, Theta brainwaves of deep inner thought, and Alpha brainwaves of flowing emotions.**

**In old limited paradigms that are passing away as enlightenment dawns for all, Beta brainwaves were often the only recognized reality, often developed at the cost of the other three levels of perception.**

**The Garden of Eden, the beloved creation of Divine Being, then manifested as a land of suffering for many.**

**You can tell a tree by its fruits.**

**Now the new paradigms, which are really ancient paradigms from the original purity of all ideas in Divine Mind, are being embraced by science.**

**The ONENESS and innate divine intelligence and sensitivity of ALL LIFE is being proved.**

**This perception is re-introducing whole brain awareness, which enables people to perceive and work intelligently on all levels with all other physical expressions of Divine Life.**

**This is important to know as you work even with the ores of the earth.**

***We control all ore and coal mines of the earth.***

***We are the initiators of all people having to do with the mining of ores and coal that work for the highest good of all.***

***All miners, mining engineers, and mining experts are under our guidance and protection.***

**One of the ways of looking at the sacredness of matter is implied within new theories of Physics.**

**It reveals that physics is one end of a continuum that on the other end becomes metaphysics.**

**Physics has shown two realities, each of which have four dimensions of length, width, depth and time.**

**There are two dimensions connecting these two realities.**

**One of them is electric, and is activated through belief and visualizations.**

**The other one is magnetic, and is activated through flowing emotions.**

**All of these ten dimensions, the four each in the two realities and the two that connect them, exist in the eleventh dimension which is the aether, akasha, or unified field of Divine Being; omnipotent, omnipresent, and omniscient, The Great I AM THAT I AM.**

**On Earth as it is in Heaven.**

**By understanding the power of visualization and emotion, and believing in and visualizing  
That Which is the Highest Good of All,  
with flowing emotions of divine love and supreme happiness,  
people can manifest Divine Perfection in both realities through all dimensions in miraculous ways.**

**By relaxing and attuning to the original purity of all ideas in Divine Mind,  
and giving attention to Alpha brainwaves which is flowing divine emotions, all sorts of new realities and perceptions become available through magnetic attraction from the parallel dimension of visualization, even to the five senses.**

***In this way we teach people to relate in perfect love, happiness and spiritual perfection with the spirit, mind, and emotions found in all physical forms.  
The understanding of miracles becomes childlike, the alteration of matter made simple.***

***"Ye must be as little children to enter the kingdom of heaven."***

**Children, whose minds and hearts develop naturally in loving environments,  
demonstrate abilities to relate to matter in seemingly miraculous ways.**

**The regions of their brains that produce Delta [pure being and oneness with all and will],  
Theta [deep inner thought and visualization],  
and Alpha [flowing emotions]  
function equally with the five senses, linear logic, and memories of beta brainwaves.  
Now, by staying consciously in trust and innocence and producing unlimited fantasies and imagination with emotion, they relate to sacredness and divine intelligence in all life as creators.**

**It was written that people of all ages would come relate to creation in this way  
and perceive Divine Life in everything.**

**Ye must be as little children to enter the Kingdom of Heaven.**

***The ores of the Earth, when loved and perceived on all***

*levels as divine,  
are happy to contribute their gifts in wondrous ways.*

*The heavenly beings called gnomes,  
who protect and guide the development of earth and  
ores,  
play their beautiful part intelligently in the  
interdependent structure of the unified whole.*

People involved in mining in ways that are the highest good of all  
concerned are blessed by these beings.

*With their help, mining for ores  
is an amazing spiritual adventure, exciting and  
beneficial for everyone involved.*

Mining done in sacredness, respecting the consciousness of the  
miners,  
the Earth, the gnomes, and the entire web of life which are affected  
by  
it, enhances surrounding areas, protects ground and surface  
waters, and beautifies the overall environment.

Along with the mining of ores and coal, the science of their use is  
going through a period of tremendous purification and  
enlightenment.

Each grain of ore or coal is precious and took millions of years of  
intelligence in matter to form.

The gifts of the Earth, the ores and coal, can be used in new ways  
to create that which is beautiful and healing for all.

Each use that is made of them is important to the web of life,  
and is done with respect and gratitude  
combined with understanding higher purpose.

Many changes are in process of reducing the amount of ore and  
coal used.

New technologies are creating free energy with non-polluting  
durable machines.

New paradigms are creating completely different work, travel,  
social, educational, and political habits.

People rediscover the gifts of the spirit, so that mystical gifts are  
remembered to keep the body warm,  
or to teleport,  
or receive nourishment from pranic and other sources.

People are moving into  
combining work and play, living where they work and working where  
they live.

Needs are met in new ways that bless all and free up time for divine  
creativity.

Divine education, work, play, and happiness mature with freedom  
to follow inner guidance in beautiful natural environments.

**Work and play are combined instead of being separated in time and space.**

**What once seemed impossible is very possible indeed, as Heaven manifests easily on Earth.**

**Along with all of the heavenly hosts, we teach people to relate to The Earth as a living, intelligent being.**

**Each part of Earth is important to every other part.**

**Not only that, but each physical part has emotions, intelligence, and spirit that are unique.**

**Quantum and plasma scientists, among others, are being inspired about omnipresent, omnipotent, omniscient Divine Love and Being that exists in all.**

***This knowledge encourages values of happiness and ever greater beauty for all life on every level.***

#### Footnotes

The names and meaning of angel groups come from Quaballah,  
which is a very ancient set of teachings which together form a common precursor, or root, of three  
of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the  
earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of  
Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from  
THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE  
QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important  
information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",  
gives historical background and was compiled by his German publisher from notes written by Franz  
Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all  
dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM, and I am one with all there is;  
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .

I give thanks that this is done.

SO BE IT!

The best of all medicines is  
resting and fasting
