The Angels of the Atmosphere

Also known as

The Angels of

Kama

Beloved,

*We control the atmosphere
through states of faith, emotion, and mind.*

We are the rulers of the physical atmosphere of Earth.

We control the drifts of air, warmth and cold, and fix the pre-conditions for vegetation.

Cold and warmth, heat and dryness, storms, frosts, all weather falls under our range of competence.

We initiate and teach masters of the atmosphere.

We teach how to co-create weather conditions that reflect Heaven on Earth through divine faith, enlightenment and divine emotions .

The concepts of "angels" and heavenly hosts are very ancient.

They are beings providing information feedback loops of divine consciousness between many manifestations of self.

These feedback loops of consciousness and feeling manifest throughout the realms of fire, air, water, and earth and all the dimensions of will, thought, emotion, and forms of creation.

Concepts of how divine consciousness flows are keys that unlock many mysteries to enlightened scientists, especially those who understand that consciousness, especially visual images and emotions, affect outcomes.

This is mastery of the continuum of physics and metaphysics, of cause and effect.

Conscious beings may or may not be in physical incarnation, and those who are can join with those who are not.

With meditation, secrets of consciousness are revealed from within as well as from outward observation.

With dramatic chemical changes in the body brought about by meditation, in which visualization and emotion activates the pineal and other glands, people become masters and work seeming miracles.

"All that I do, ye shall do and more."

With higher awareness it is easy to find angels to be those intelligent beings who are helpful interactive self-aware consciousness particle/wave-forms that function in the five level energy continuum.

At the same time, the ancient concepts of the intelligent beings of fire- the Salamanders, the beings of air-the Sylphs, the beings of water-the Undines, and the beings of earth-the Gnomes reveal themselves to be based on actual fact.

These beings are the intelligences that govern natural forces.

As the Children of Light utilize states of awareness to communicate and control fire, air, water, and earth, through the divine virtues of Kama, weather comes under control.

Fire, air, water, and earth correspond to desire, thought, emotions, and form, which are functions of the Delta, Theta, Alpha, and Beta brainwaves respectively.

The element of fire that is necessary is omnipotent faith, which is the divine virtue of omnipotence as a quality, the letter K.

The element of air that is necessary is oneness with the original purity of all ideas in Divine Mind.

This awakens mystical faculties and is the virtue of wisdom and enlightenment, the divine virtue of letter A.

The element of water that is required is mastery of emotions in the abdomen, governed by THE HEART, directing divine flowing emotion, change, and fluidity. This is the virtue of letter M.

The element of earth that is required is mastery over the origin and mystery of life and death regarding their transformations.

There is no true death, only changes of state. Therefore, this is the virtue of release of any harmful desires, concepts, emotions or sensations, conditions or forms that are imperfect in self or others or

situations.

This virtue gives control over negative beings,
and awakens freedom from clinging to any negative states
of being, desires, beliefs, emotions, or sensations in self or
others that no longer serve the highest good of all concerned.
This is the ability to release imperfections on every level to Divine
Being for
changes to states that are the highest good of all. This is the divine
virtue of unlaut A, ae.

*As mankind moves into a unified paradigm of wholeness and
harmlessness,
we are destined to reveal a number of secrets of the atmosphere
that are as yet unknown to many.*

*By communicating with and directing the awesome intelligences of
fire [the Salamanders],
the air [the Sylphs],
of water [the Undines],
and the earth [the gnomes],
weather and atmospheric conditions are controlled and
maintained.*

To the uninitiated, these secrets seem like fairy tales.

*A Child of Light develops the ability to communicate with these
beings
through the divine virtues of Kama, in this way he/she becomes
privy to the secrets of the atmosphere.*

When harmlessness towards all life becomes an indisputable rule to
live by,
many secrets of the atmosphere are then safe to be revealed.

One of the most important paradigm shifts is for left brain
dominant
people [the five senses, memory and logic/Beta brainwaves] to pivot
into whole brain awareness.

In this way intelligent and deliberate communication opens with
The Oneness of Life, The Unified Field.

*Quantum fields then become like art materials,
used to create beauty and love.*

Many kingdoms of intelligent elemental beings can be directed
then to bring Heaven on Earth.

Divine mastery of will comes from alignment with Omnipotent
Divine Will for the highest good of all.

Mastery of emotion opens the heart to flowing divine emotions
that attract beautiful realities into manifestation.

DNA responds to emotion.

Divine emotion allows the ultimate potential of spiritual perfection
to unfold in self and others and in creation.

As a person experiences unity with Divine Mind and all creation,
qualities of Divine Being are recognized IN ALL LIFE, in ALL of its
forms.

It is at this point that the concept expressed in the saying, " I have given man dominion over all that I have created" is understood on a much deeper and more practical basis than has been previously dreamed.

Quantum physicists have known for some time that a wave becomes a particle when it is observed.

These particles are packets of information, zip files from the universe of light.

Scientists are now reporting the next steps that join ancient metaphysics with quantum and plasma theory.

For example, a major theory of physics has revealed 11 dimensions, consisting of two realities.

These realities are the same reported by shamen for centuries. Our present reality consists of dimensions of length, width and depth plus time, making four dimensions.

The other reality, called by shamen "the dreamtime", also consists of length, width, depth and time making 8 dimensions in all.

We spend half our time awake in one reality and the other half dreaming in the other.

There are 2 dimensions connecting these realities, adding up to 10 dimensions.

The 11th dimension could be called The I AM Presence or the virtue of omnipresence, containing all of the other 10.

The two dimensions that connect the two realities, [this reality and the one each person experiences each night in dreaming] are often referred to as strings.

These two dimensions can be comprehended as first will/visualization and secondly as emotion, together they are the electric and magnetic dimensions.

It is possible to visualize a new reality in the waking state,

then use will to visualize it, to construct it, in the dreamtime and
bring it back here
into this reality through the magnetism of appropriate flowing
emotion of it.

Through science and other ways, human consciousness is finally
evolving
to the point of acknowledging Divine Love, omnipresence,
omnipotence,
and omniscience in everything that is created in the quantum field,
in the manifest worlds.

At this very time of the Alpha and the Omega,
left and right brain cultures come together in mutual respect.

Together people follow inner guidance and meditation
to create rehabilitated environments and experiences of living in
great beauty.

The time of whole brain awareness amongst all people and cultures
dawns.

As it was explained by the Angels of Ybario, [22 degrees
Capricorn, the angels who control negative forces] ,
as whole brain awareness occurs, it becomes impossible for harm to
get the upper hand,
because people actually experience the oneness of all life.

Wholebrain awareness is now evolving naturally and biologically in
creation.

In the combined Delta, Theta, Alpha, and Beta brainwave states
there is an innate knowing and experience of the oneness of all life.

*This is an intimate and real personal experience and
knowing, not an abstraction.*

The clarity of wisdom dawns and the magnetic attraction of
beautiful flowing emotion attracts lives of splendor.

Just as people feel at one with their own physical bodies, so they
feel at one with the world.

The world is seen and experienced as an extension of the physical
body itself.

"What you do unto the least of these you do unto me."

At this point communication with all forms of life, visible and
invisible occurs naturally and easily.

As above, so below.

It is also at this point of conscious development that concepts of
The
Oneness of All Life and the omnipresence of Universal Mind or
Intelligence
becomes natural to experience and understand.

Harmlessness ceases to be a debatable theory or an ethical
hypothesis.

Harmlessness is seen to be common sense and the key to life
that even little children understand.

We are all one.

When one is harmed, all are harmed.

When one is helped, all are healed.

This deep inner knowing functions energetically to keep the matrix of life itself nourished and healthy.

Any conflicts between spirituality and science disappears.

A person operating from this wholebrain paradigm finds it logical and possible to communicate and work with all spirits, including the spirits of fire, air, water, and earth, according to inner guidance and the highest good of all concerned.

We initiate and teach masters of the atmosphere.

MIRACLES

**By meditating on the divine virtues of our name, and calling on our help,
it is possible to become one with our consciousness.**

Kama

KThe sound of this letter is the virtue of omnipotence. In the akasha, the subtle pre-matter, it is the highest and purest light and is analogous to the original fire, or desire principle.

In the mind, it manifests as the state of faith. This is the faith that was spoken of in the Bible that moves mountains and does all things.

In the soul, which is also called the astral or emotional body, this virtue manifests as /endurance, toughness, courage, and the ability to remove any emotion of fear within yourself or within others.

This virtue gives courage to face the awesome spirits of the atmosphere and the faith to command them.

**Since it is the fire and air element, it has the sensation of warmth and ease;
it has the musical note of B, and the color of silvery blue.**

AThis is the sound of the divine virtue of highest wisdom and enlightenment.

This sound [soft as in a sighahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind. Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all

**intellectual
faculties are expressed.**

**Musical gifts, eloquence, poetic talent, and clairvoyance,
clairaudience, the art of levitation, and the control of
the air element and its beings are all aroused by meditating on this
virtue.**

**On the physical plane the command of the beings of the air,
control over storms, are all made possible by initiation into the
highest wisdom.**

**The color of wisdom and enlightenment is light blue, the musical
note
is G, the element is air so it has the sensation of ease, and the lungs
are formed from it.**

Umlaut A, ae.transformation, see below

**MThe sound of the letter M is the sound of the divine virtue of
divine emotion.**

**This virtue is the magnetic power of the Universe that attracts
energy into form on the material plane.**

**To control the material plane in a positive way, emotions must be
healed and beautiful.**

**Everything in nature is formed through the magnetic power of
emotion.**

Divine Emotion manifests in form as the element of water.

Water is the material manifestation of emotion.

**In the material world the oscillation of letter M bestows on a
child of God the power of controlling the fluid principle in the
whole world, i.e.,
in the micro-as well as the macrocosm.**

**Not only is a person
able to comprehend, with his/her consciousness, everything fluid in
its original principle,
but he/she is also made absolute master of it.**

**This faculty, when acquired by meditating on this oscillation, also
makes him/her master of magnetism,
emotion, and everything that is connected with it.**

**Thus, for instance, he/she may control the laws of gravitation, and
many other things."**

**The color of this virtue is the most beautiful blue-green imaginable.
The musical note is D. The element is water so it has the sensation
of coolness.**

The abdomen is formed from this virtue.

Awisdom and enlightenment, see above

**umlaut A, aeThe realization of wishes regarding physical matter is
subjected to this virtue.**

**The sound of this letter, the long A, ae, in the cosmic language is
the virtue of the origin and mystery of life and death regarding their
transformation.**

**By meditating on this virtue, a child of God becomes
convinced that in reality death does not exist,**

for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to mental, emotional, and material virtues and objects when they are harmful.

This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the emotions, the akasha, or

the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.
This name is a key to their powers and influence.
Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from **THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6**, and Information of the divine virtues and the letters are referenced from **THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4**.
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.
The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

**Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .**

I give thanks that this is done.

SO BE IT!

So it is.
