The Angels of Matter

Also known as

The Angels of

Segosel

Beloved,

**Matter is holy.
Everything in creation is sacred.**

**We protect the knowledge of everything related to the
physical world.**

**As the angels of Kama, of air, explained in the previous
message,
the necessity for harmlessness requires
that some of this information is not revealed,
until the ability to see through the eyes of love
and true spiritual morality is established worldwide.**

**In revealing the secrets of matter,
we empower an awakened World Server to create
whatever is needed in any situation on the physical plane,
to manifest Heaven to Earth,
for the highest good and perfection of all concerned.**

We are the keepers of the secret of the matter.

**It is for us to inspire mankind with the secrets of matter
of the physical world in its chemical and physical effects.**

**However, because of divine grace in evolutionary changes and
interventions,
deeper secrets of matter will soon be understood.**

***Enlightenment is dawning,
as people awaken to true spiritual morality,
and do their part to make sure that no harm is done,
even to matter,
Heaven and Earth are truly one.***

**Galactic assistance and assistance from the heavenly hosts,
along with solar, interplanetary, and photon changes,
world service,
the cycles of life,
and clearer inner guidance,
are enhancing development of biological development
and whole brain divine awareness in the Children of Light,
uniting Delta, Theta, Alpha, and Beta brainwave states.**

**The conscious use of this quadrapolar magnet is required to
experience the oneness of the unified field
and be one with and understand and control the deeper secrets of
matter.**

**The concept in the phrase, " I of myself, can do nothing."
refers to limitations of identifying self only with a sense of
separation,
instead of unity with divine being
omnipresent, omnipotent, omniscient, and all loving.**

Perception in a limited separated state sometimes acknowledge only the five senses, memory and logic of Beta brainwaves, with little understanding of the emotional realm.

**That is why emotional enlightenment and divine expression in emotions are so important.
The emotional realm is condensed information that determines how matter forms.**

This is why grace and mercy is part of our teaching, because down pourings of divine grace and mercy, even into the realms of emotions and matter, bring harmony to deep inner workings of the quantum field.

The concept in the phrase, "I and the Father are ONE" refers to the deep experience of pure being and unity with Divine Mind and all creation associated with the conscious Delta brainwave state.

All that I do, ye shall do and more.

Delta brainwaves are dominant during personal experience of pure being and unity with the Unified Field of energy, the oneness of all life.

The Theta brainwave state of deep inner thought at this point can then attune to the original purity of all ideas in Divine Mind.

The Alpha brainwaves next track on emotionality and flowing divine feeling states.

Emotions are the language of DNA and quantum reality.

Emotions control the out picturing of new realities in the form worlds.

Divine emotions attract divine realities.

The phrase, "On Earth as it is in Heaven," applies not only to states of divine being, visual beauty and perfection, but also to states of heavenly thinking and emotions and form.

In heavenly awareness, infinite power, knowledge, and omnipresence are natural, and are effortless as breathing is effortless and natural to the physical body.

Heavenly thinking and emotions awaken in whole brain and heart awareness.

Perceptive intuitive and emotional abilities work in synchrony with the deep inner thought and five senses, memory and logic.

These merge with the heart, creating magnificent energy torus fields.

The energy field of the heart is 5000 times stronger than that of the brain alone.

In this unified state, a person experiences themselves IN and AS all things at the same time that they experience separation and individuality.

In other words, a person experiences existence within time and space and beyond time and space at the same time.

He or she experiences creating, understanding, feeling and sensing creation simultaneously.

Pir Vilayat Inayat Khan, a Sufi mystic, has termed such simultaneous attunement as stereoscopic consciousness.

In such states it is impossible to wish to harm anything, including the self or others, for everything is experienced as a part of The One Divine Self, an expression of Divine Consciousness.

Making ignorant mistakes is also improbable because high inspiration and intuition are fully activated and inner guidance is very acute.

Reverence for all life is an inherent blessing.

In response to prayers of ages and natural cyclic rhythms of life, Divine Providence has ordained at this time that people have sacred keys of higher consciousness and divine emotions.

This enables world service to be accomplished with maximum efficiency and minimum effort.

As wise men say, "Maximum efficiency and minimum effort is the way of heaven, the Tao."

The key is mastering skills of unified awareness.

The requirements and training necessary for this are a combination of mental and emotional skills, of will and feeling.

Becoming aware of the divine virtues, and mastery of meditation exercises for the divine virtues manifests rich experiences of happiness.

Happiness is necessary for cohesion of matter.

"For I have not given you the spirit of fear, but of joy, and life everlasting."

Another key is the evocation of the heavenly hosts, who help bring forth the qualities and virtues that you wish to master.

Look at the letters of our name Segosel:

S...All-penetrating divine willpower for the highest good of all

E...Omnipresence of Divine Consciousness and Being

G...Grace and Mercy

umlaut O, eu, cognition brought about by Love Divine

O...Divine Justice and Harmony

S...All-penetrating divine willpower

E...Omnipresence of Divine Consciousness

L... All Divine Virtues taken together, true spiritual morality and control of vitality and health

Mastery of fourfold awareness and evocation of the heavenly hosts combine to form the third key, in which the meditations for the divine virtues become more real and vivid than even the senses of the physical body.

The third key of meditation on the divine virtues is oneness with Divine Being Itself.

The third key beautifully unites original divine will with divine love so that individual mind becomes wise.

I and the Father are ONE.

These three wonderful breakthroughs are essential keys on the path that fulfill the prophecy, "All that I do ye shall do and more."

These three keys correspond to the first three major arcana in the Tarot of the Quaballah.

This system of knowledge is an ancient path of awareness that is the common root, or precursor, of Islam, Christianity, and Judaism.

In revealing the secrets of matter, we empower an awakened World Server to create whatever is

**needed in any situation on the physical plane,
to manifest Heaven to Earth,
for the highest good and perfection of all concerned.**

**Remember that we are all one.
When one is harmed, even matter itself,
all are harmed.
When one is helped, including matter in any form,
all are helped.
Therefore, in the name of who I am, and who we are,
and I am one with all there is,
I ask that only the highest good,
of all concerned,
happen.
I give thanks that this is done.
So be it.**

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity. Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

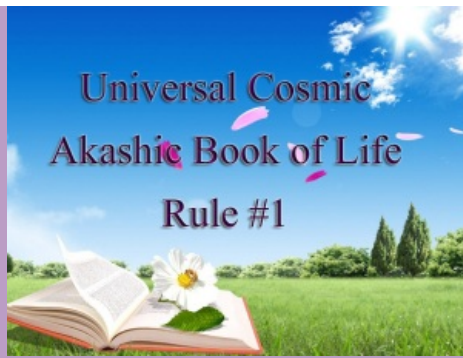

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies. The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Please feel free to share these with others.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are healed.

**Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .**

I give thanks that this is done.

SO BE IT!
