The Angels of Miraculous Rescue

Also known as

The Angels of

Kiliosa

Beloved,

***"For I have not given you the spirit of fear,
but of joy,
and life everlasting."***

**Throughout all ages and cultures,
children are told myths about glorious beings with supernatural
powers,
that rescue sentient beings,
both human and animal,
from every conceivable harm and injustice.**

**Many religions have stories about supernatural powers,
and beings who have mastered supernatural powers,
that respond to rescue those who put their faith in them.**

**In this way we have inspired The Children of Light to access Divine
Powers through prayer and meditation,
so that when danger arises,
rescue is certain.**

We come to you in moments of great distress.

We instantly help you in moments of highest danger.

**We inspire words of power which may only be applied in
moments of utmost danger,
words which save life at once.**

**There are times when we inspire words of power
so that a person becomes invisible or escapes in some other
amazing way.**

Many difficult situations are changed by words of power.

**Sometimes the effects are realized within tenths of
seconds.**

In prayer we inspire people to ask for help from the heavenly hosts for quick and complete safety when they are in great fear for life, family, loved ones, possessions, freedom, soul, or environment.

Over millions of years the human body has evolved into a miraculous physical temple for indwelling divine spirit and soul.

Even for people with little spiritual training, in moments of great danger, through faith and imagination, whole brain awareness is made available through ancient survival mechanisms in the super and subconscious mind.

There are three areas in the human brain, which we will call the superconsciousness, the consciousness, and the subconsciousness.

The superconsciousness processes 400 billion bits of information a second.

The consciousness processes 4 to 40 bits of information a second.

The subconsciousness processes 400 billion bits of information a second.

When the conscious mind, through faith and visualization, imagines being safe and protected miraculously, with corresponding emotions of this happening, the superconsciousness and subconsciousness are activated to bring this about.

They form an hour glass or figure eight configuration, with the conscious mind in the middle, holding the imagined visual image of safety and protection, so that miraculous powers are activated naturally.

"All that I do, ye shall do and more."

Emotions are the language of DNA and quantum physics, creating powerful changes in the blood.

A person in great danger produces extraordinary amounts of powerful psychoactive glandular chemicals such as adrenalin, so thought forms and feelings of immediate rescue are greatly energized and magnetize to attract miraculous changes on physical levels.

For students of the sacred language, we inspire states of pure being and unity with Divine Mind and The Unified Field of Creation.

This awakens quickly omnipotent divine will for the highest good of all, visualization of desired harmonious outcomes, and deep inner thoughts of the original purity of all ideas in Divine Mind.

Strong flowing divine emotions and sensations then alter the quantum field to manifest miraculous rescue.

In moments of great danger, we inspire The Children of Light to speak words of power, such as The Law of One, special prayers, or words made of letters that are equated with the divine virtues.

At this time of Alpha and Omega more are learning the sacred knowledge of invocation and evocation, and The Power of the Word.

This knowledge has been carefully guarded and preserved through the ages.

As whole brain awareness in being, will, thoughts, emotions and sensations are mastered and used to speak the letters of divine virtues, words made from them have dramatic power to create in proportion to the intensity and purity of will and emotion.

When a person who knows the ancient language calls for help, we inspire specific virtues to activate to manifest the most perfect remedy.

At this time The Children of Light are being attuned to the meanings of the letters and their divine virtues with ever greater clarity, synchronizing the energy of individual awareness with Divine awareness.

The microcosm is becoming one in consciousness with the macrocosm.

This is how being, will, mind, emotions, and sensations are used with maximum efficiency and minimum effort.

By learning the ancient cosmic language, which is the use of awareness of unity with all that becomes will, visualization, concept, and emotions, specific manifestations are created and attracted so that it is easy to understand the Masters who said, "*All that I do, ye shall do and more.*"

We inspire the children of Divine Being to do this themselves.

Even for people with little spiritual training, in moments of great danger, we help with miraculous rescue, as fate allows, when asked.

On Earth as it is in Heaven.

MIRACLES

Kiliosa

K The sound of this letter is the virtue of omnipotence. In the akasha, the subtle pre-matter, it is the highest and purest light and is analogous to the original fire, or desire principle.

In the mind, it manifests as the state of faith.

This is the faith that was spoken of in the Bible that moves mountains and does all things.

In the soul, which is also called the astral or feeling body, this virtue manifests as endurance, toughness, courage, and the ability to remove any feeling of fear within yourself or within others.

This virtue gives one courage to face the fear of the unknown and create the cure.

**Since it is the fire and air element, it has the sensation of warmth and ease;
it has the musical note of B, and the color of silvery blue.**

I This is the law of cause and effect. All doings, all life come under this law.

This is the tenth letter and represents the one in its highest form.

Meditating on this virtue brings about perfect memory, remembrance, and conscience in the mind. You master the understanding of feelings, and learn how to heal your own or another's emotions by the use of cause

and effect. In the physical you understand the laws of analogy between the micro and the macrocosm.

Musical note G. Light opal color. Earth element sense with a feeling of weight. Enlivens the left kidney.

L The sound of this letter is the sound of the Divine Virtues all taken together.

**This letter represents the highest divine virtues that may be described by words,
irrespective of whatever sort they may be.**

**This letter oscillation is used to comprehend the Divine Majesty and the greatness of God
in the form of the purest virtues.**

From this virtue comes the faculty of comprehending true morality as seen from the highest point of view.

**This leads to the borders of saintliness.
On the feeling level true equilibrium of character occurs
and mastery of flooding the emotions with the highest light is attained.**

**On the physical level you gain perfect health, beauty and harmony and
you become absolute master of your own vitality.**

**I Cause and effect, and the mastery of number, weight, measure, and
shape
which gives the ability to manifest anything on the physical plane.**

**Umlaut O, eu, transmutation through cognition brought about by Love
Divine.**

**O The sound of letter O is the sound of the initiation into the original
principle of divine justice.**

**Mentally you will be able to give expression to the absolute legality
of harmony in all four basic qualities of the elements.
You will have a high power of judgement and the ability to comprehend
spiritually any
legality, any interference by Divine Providence for the sake of justice.
You will never be able to condemn anyone unjustly.**

**This will bring about the abilities to create any change in the
emotional situations that you find yourself in and to have absolute
success and happiness on all levels.**

**The ability to control emotions is the ability to control the element
of water and magnetism, which is the ability to attract any situation into
manifestation in the physical world.**

**It is also the ability to manifest anything on the physical level.
This virtue has an ultramarine blue color, the musical note of C, and is
the
earth element so it has the sensation of weight. It formed the throat and
windpipe.**

**S This sound is the sound of all-penetrating-power.
This is the most subtle substance of the divine spirit, i.e., with the
original divine
will or fire which works as a substantial power in everything that has
been created by Divine Providence.**

**A child of God using this divine virtue attains the spiritual gift of
perfect mastery over the electrical fluid, which is the use of will,**

and is able to control everything analogous to will.

A state of clairvoyance in its purest form
and perfect control over other beings is gained by this virtue in the
feeling nature.

This power is used to completely align all situations with the energy of
divine virtues.

The color of this virtue is purple red, its musical note is G-sharp, it
is the fire element of will and so it has the sensation of warmth,
and the gall bladder is the part of the body that is formed by it.

A This is the sound of the divine virtue of highest wisdom and
enlightenment.

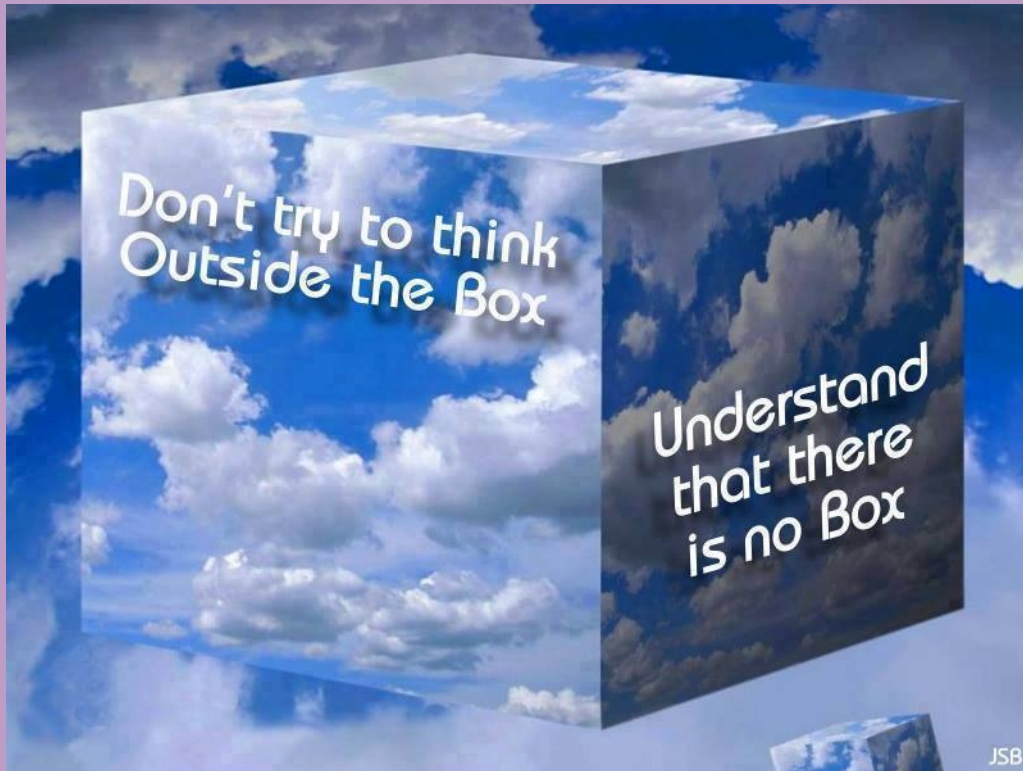

This sound [soft as in a sighahhhhh] and virtue is an initiation into the
highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind.
Reasoning, perception, the cognition of the most profound truths,
highest knowledge, high intelligence, and the arousing of all
intellectual
faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience,
the art of levitation, and the control of
the air element and its beings are all aroused by meditating on this
virtue.

On the physical plane the command of the beings of the air,
control over storms, are all made possible by initiation into the highest
wisdom.

The color of wisdom and enlightenment is light blue, the musical note
is G, the element is air so it has the sensation of ease, and the lungs are
formed from it.

umlaut A, aeThe realization of wishes regarding physical matter is
subjected to this virtue.

The sound of this letter, the long A, ae, in the cosmic language is
the virtue of the origin and mystery of life and death regarding their
transformation.

By meditating on this virtue, a child of God becomes
convinced that in reality death does not exist,

for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened persons point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain. If there were no negative beings, it would be impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the emotions, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their emotions becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to mental, emotional, and material virtues and objects when they are no longer the highest good of all concerned.

This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized. No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent. The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

Miracles

Here is an inquiry about how to master the letters and transfer the letter oscillation to others.

Question from reader:

I feel an unusual kinship (or urgency) with today's message. I'm certain there is something I must learn from it. However, there are some terms that I am not clear on their meaning.

This passage:

N.Supreme divine happiness.

In the akasha principle the highest state of happiness may be evoked by the mastery of this letter.

This quality, when meditated on and mastered, gives you the ability of knowing the state of mental maturity of other people.

You have the faculty of enlightening anyone who you deem worthy, on account of his state of maturity, by transferring the letter oscillation on him.

First what does it mean by "mastery of this letter?" Does that mean to understand the meaning fully?

Finally, what does it mean by transferring the letter oscillation on him? I know what the word oscillate means in electronics, but I can't seem to apply that meaning here.

Answer:

The practice for mastering each of the letters is the same technique for all of them. It is recommended to start at the beginning of the alphabet and work letter by letter through it sequentially.

The following explanation is quoted or paraphrased from Franz Bardon in the book THE KEY TO THE TRUE QUABBALAH:

The practical application of letter A [ah], wisdom and enlightenment, is started from the principle of consciousness-penetrating-all, referred to as the akasha principle.

First you picture to yourself your physical body, then your emotional body, which has the same shape as your material body, then the spirit dwelling in the emotional body, which is the I, the ego.

At the same time, you meditate on there being a connection between your material body and the physical world, also a connection between your emotional body and the emotional world, and a connection between your mental body and the mental world.

In your meditation you further go on with the consciousness that you are not only pronouncing letter A [ah] with your physical voice, but simultaneously with your will and mind, which is known as your spirit, and your emotions, [which is known as your soul] and your feelings or sensations, which is your physical body.

Now it is time to meditate on the meaning. Meditate on the purity of all original ideas in Divine Mind.

**You meditate on the qualities and the analogies of the A [ah]
as they have been described, as wisdom and enlightenment.**

**You see that parallel to the akasha principle of unity with
all,
and emanating from it,
the mental is also manifested in the intellect and clear
visual images are formed.
You realize that it is from the will and the mind that
enlightenment is realized
in the emotional and in the material world.**

**Then one emotionally comprehends the original ideas of enlightenment.
This means that you get
the "emotions" and feelings of these qualities,
of wisdom and enlightenment, penetrating all:**

**After these meditations you are ready to transfer yourself, with your
consciousness,
into the akasha principle in the material world by sensing that you are a
dot
in your solar plexus, I.e., your own microcosm, retaining a space- and
timeless state, a state of trance.**

**The practice of transferring yourself into a state of trance in this
way is an ancient exercise secretly passed down through the ages from
one master to another.**

**As soon as you feel yourself to be the center, the focal point or center of
gravity,
of your microcosm and sense your whole body to be an
infinite space, you utter in the three-dimensional way, letter A[ah] into
your whole universe.**

**This means that you imagine that the whole universe, that is your body,
is filled,
with the relevant color which is the light-blue color with letter A [ah].**

**At the same time you imagine the sound of the G tone
also filling the universe and the consciousness of emotions of all
penetrating wisdom and enlightenment.**

**The greatest care should be devoted to the virtues and the qualities.
The emotions with the color, sensation, or the tone, of each virtue are
information
that attract specific results out of the quantum field of infinite
possibilities.**

**The color, sensation and tone stimulate Beta brainwaves of the five
senses which is the earth element,
and give form to the virtue on the physical plane.**

**With each outbreath, you imagine that this quality of enlightenment
going out to bless whatever you feel guided to send it to.**

**This may be the entire world, or the entire outer universe, or
a part of it you are guided to send it to.**

**With each inbreath you BREATHE BACK IN the quality of
enlightenment, with its light blue color etc.
You breathe it in from everywhere.**

When you are finished, you return to your normal consciousness and then meditate on the meaning and deeper significance of the qualities of letter A {ah}.

Be sure to dissolve the colors and sensations in the body when you are through with your meditation in order to protect the natural balance of elements in the body. Keep your breathing rhythm normal.

Depending on your diligence, maturity, and perseverance, the virtues analogous to each letter will be expressed in the will and mental body [the spirit] as well as in your emotional and physical body [soul].

Persistent exercise will teach you to perceive the connections, oscillations or energy signatures, powers, and spheres of influence of each virtue more and more clearly, and you will be able to eventually apply each letter from various states of consciousness.

You will be able to picture to yourself the relevant virtues and to perceive them consciously. You will digest them spiritually.

This is what is meant by mastering a letter.

Sometimes people have worked with the letter A [ah] for several years before going on to letter B.

Most of the students of the cosmic language, however, practice the first letter very well in a few months.

Once I had mastered the letter A, it was easy for me to work with the following letters much faster, for the skills are the same for all the letters.

To transfer the letter oscillation onto another person simply means to go into deep meditation, a trance state of consciousness, in which you feel yourself one with consciousness- penetrating- all, a state of oneness with all creation and therefore oneness with the person or situation you are working with, and to imagine, sense, and feel the desired quality penetrating his/her or their consciousness in will, mind, emotion, and body.

The state of the world is such now that it is of the greatest importance that people be given this instruction so that they can move into their God-consciousness and work the miracles that bring heaven on earth.

Anyone receiving these instructions who would misuse them is prevented from doing so by those whose job it is to protect the purity of the sacred knowledge. Usually this is done by never letting immature people get this information in the first place. In the case that they did, they would find themselves distracted by doubt, confusion, and rigidity in limited belief systems.

I just found this really, really old picture of you.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.
