The Angels of Truth Seekers

Also known as

The Angels of

Abusis

Beloved,

***We assist all those people who seek the truth;
we help them find their teachers.***

**The Ultimate Teacher, of course, dwells
everywhere in everything.**

**Often, with divine help flowing through an
enlightened teacher,
the connection to this "everywhere and
everything" is found within the student.**

**Now more than ever people desire to find wisdom and
knowledge.**

**We guide each truth seeker whenever he/she is ready
into the presence of people who are initiated into spiritual knowledge.**

**This is a beautiful time
when a quantum leap in consciousness is occurring throughout earth
and the surrounding universal ecosystem.**

Wisdom and enlightenment is the virtue of letter A of Abusis.

**This divine virtue shines with a beautiful light blue light and has
sensation of ease and relaxation,
because it is a virtue of the air element of thought.**

**As the wisdom of the original purity of all ideas in divine mind are
embraced,
imperfections are recognized on every level
and gladly released for transformation into other states
that are the highest good of all.
This is the virtue of umlaut A, ae.**

**The divine virtue of umlaut A, ae, is the virtue of life and death and
transformation
and shines with a loamy brown light with the sensation of weight.**

**It reveals that in reality there is no true death,
only transformation from one state into another.**

**Universal Life is Divine Consciousness manifesting in creation through
desire, visualization, thoughts, visceral flowing emotions, and
sensations.**

In the virtue of Universal Life comes the understanding that polarity

must exist for creation to exist.

Therefore, polarity in all of its forms is necessary and can be mastered.

The primary polarity of will and emotion, or electricity and magnetism, is particularly mastered, giving power over life and death.

Whatever is willed and imagined with form and flowing emotion is given life.

This virtue of Universal Life and polarity is the virtue of letter B.

Universal Life shines with a light violet light and has the sensation of weight,

because it is a virtue of the earth element.

The right eye is formed from it.

The ability to change fate is the creative act with its ongoing effects through time.

Therefore, the ability to change fate is the divine virtue of letter U of Abusis.

By meditating on this virtue a Child of Light understands the original source of everything that has ever been created, and can enter into deep trance states to see the causes of anything and change these causes.

In doing this, a person can change fate of self and others.

The ongoing effects of the creative act are seen and understood, so that no error is made.

This virtue shines with a velvet black light and has the sensation of consciousness-penetrating-everything, because it is a virtue of the akashic element of divine unity with all creation.

These changes of fate are quantum leaps in consciousness that open up divine love and beauty so that Heaven manifests on Earth, and in all of creation.

This fulfills omnipotent original Divine Will for the highest good of all that is omnipresent in all

creation.

Divine Will penetrating all is the divine virtue of letter S, which shines with a purple red light.

Mastery of this virtue gives control over consciousness of self and others and the gift of prophecy.

This virtue has the sensation of warmth and expansion, since it is a virtue of the fire element of will.

The Law of Cause and Effect, the letter I, is the next letter of our name. It is the divine virtue that reveals memory, remembrance, and conscience, and the mastery of breath.

This virtue shines with a light opalescent light and has the sensation of weight, because it is a virtue of the earth element of form.

All of the elements have different grades of density that range from subtle to dense.

The most subtle level of density is the akasha, or the subtle prematter of the Unified Field.

Next comes desire and visualization, which is known as electricity and fire,

then the level of thought and air

then the levels of

emotions, magnetism and water,

and finally the most dense of all

the physical forms on Earth.

Therefore, the earth element of cause and effect can be said to be present in its most subtle form, as ether, then fire or electricity, when it exists in the realm of desire.

It is present as airy forms on the level of thoughts, as watery forms and magnetism on the level of emotions, and has material effects on physical bodies in its most dense expression on Earth.

The final virtue of Abusis is again S, the virtue of all-penetrating-Divine Will.

When this fire element virtue manifests in its most subtle expression of fire, it gives perfect control over will in self and others.

When this fire element virtue manifests in its magnetic expression of emotions, it gives control over the emotional nature of all beings and the most profound state of clairvoyance.

The Children of Light are now aligning individual will with all-penetrating Divine Will for the highest good of all concerned, the letter S.

As this process unfolds according to the divine virtue of The Creative Act and its karma, the letter U, there is a great drive to find truth and the teachers of truth, the letter A, and to release for change any imperfections on any level, letter umlaut A, ae.

**Through the Law of Cause and Effect, the letter I,
as desires and emotions for spiritual guidance become sufficiently
intense,
a magnetic attraction connecting each person with an appropriate
teacher is formed.**

**If you call on us and desire a contact with a spiritual master,
we see to it that you are guided to a true teacher who can help you to
the next level of understanding.**

**A teacher,
who has successfully traveled the journey of enlightenment in emotion,
consciousness,
and will
within their own being,
can help you undertake this journey within yourself.**

**A true teacher directs your attention within yourself because
paradoxically,
it is often through the very darkness inside that you wish to avoid,
that the light is found.**

**It has been thought that a teacher must take the form of one realized
human being.**

**This may be true at times,
but teaching works through many beings in many different forms.**

Teaching occurs through different modalities, even dreams.

**Because of the wealth of information and forms of instruction,
the challenge is to be able to recognize authentic help when it is
offered,
even if it comes in an unfamiliar or unusual form,
or in the form of an unlikely person.**

**Always, always a proper teacher offers ways that help the student look
within,
follow inner guidance
and find the Kingdom of Heaven that resides there.**

**If working within a particular path with a teacher at a particular time in
life "loses its juice" and does not feel right within,
this is a definite sign to re-examine what is the appropriate path for the
next phase of growth.**

**Enlightenment is the natural birthright of all,
and is claimed in whole brain awareness.**

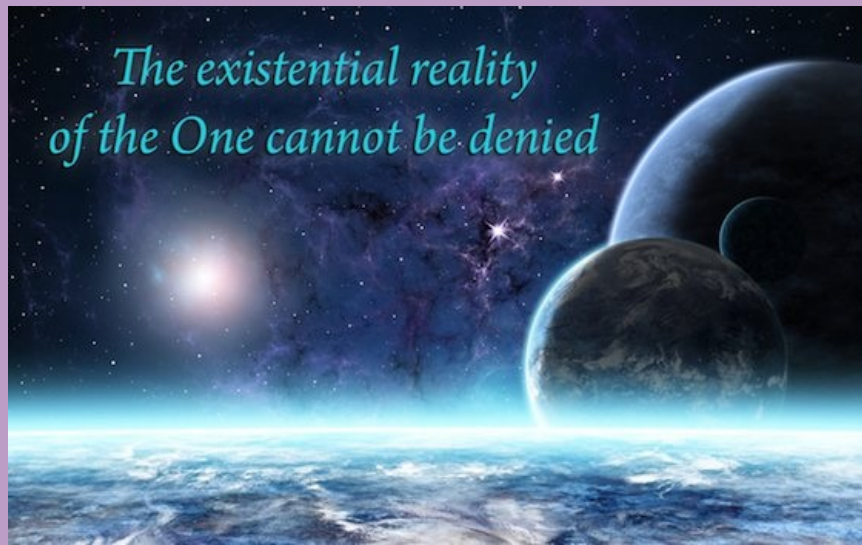

**Whole brain awareness happens naturally in the process of growth and
sleeping and waking.**

**Each night during dreaming, images flow in the Theta state and
emotions flow in the Alpha state.**

**In dreamless sleep,
the Delta brainwave state is accessed,**

opening up deep healing.

The key is to stay in whole brain awareness at all times even in the waking state,
and to direct this awareness through will and emotion to divine awareness on the physical plane.

The Ultimate Teacher, of course, dwells everywhere in everything.

With divine help flowing through an enlightened teacher, the connection to this "everywhere and everything" is found within the student.

This type of connection is experienced through the Delta brain wave state of deep inner pure being, that infants produce almost constantly and that is experienced each night in deep dreamless sleep.

That is why it was said that,
"Ye must be as little children to enter the Kingdom of Heaven."

The state of pure being and unity with Divine Being and all creation experienced in Delta is interpreted in the state of Theta brainwaves, which is deep inner thought.

This is the source of the divine virtue of wisdom and enlightenment, contact with the original purity of all ideas.

Theta waves are found in small children, in meditators and in the visual images of imagination and in deep dreaming states each night.

Building on this contact with original divine thought, the brain then goes on to produce Alpha waves that are flowing divine emotions.

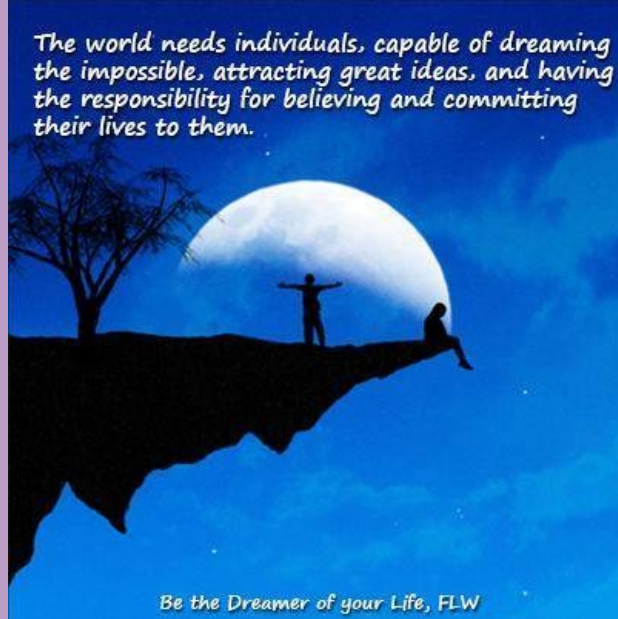

The state of wisdom and enlightenment thereby turns into the ecstasy of divine emotions.

Divine emotions then cause the body to go through beneficial changes in glandular chemistry.

These chemical changes psychoactively alter perception in the Beta brain wave state of memory, logic, and the five senses.

It is from this state that it is natural to "give thanks for all things", for the divine reveals itself to be omnipresent in everything.

The world needs individuals, capable of dreaming the impossible, attracting great ideas, and having the responsibility for believing and committing their lives to them.

Be the Dreamer of your Life, FLW

"To the pure all things are pure."

The alchemy of turning lead into gold is the alchemy of the soul, in which the deepest fears and pain are braved within with unconditional love and empathy for the wounded self, so that the light of spirit reveals the treasures of wisdom that lie hidden within.

This revelation occurs as wounded emotions are transformed safely through flowing in an atmosphere of unconditional all encompassing love.

Underneath pain and fear is The True Self that is the Divine Infant Self, the purest divine consciousness, ever young, ever beautiful.

Reuniting in consciousness with this Original Self, the soul, is as much the destination of the journey of enlightenment, as is experiencing oneness with All that is, the spirit.

They are interdependent.

In rediscovering the Self of pure being within, a person discovers the omnipresent spiritual self that is at the same time at one with all and exists in all.

Imagine a society in which each person has found this divine perfection within!

It is this Authentic Original Self, which is Ancient of Days at the same time that it is the Divine Infant within.

This is the Alpha and the Omega within each Child of Light.

It is this joyful eternal infant Self which manifests the Ancient Future time of The Enchantment, the time of Heaven on Earth.

Enlightenment is to discover yourself as an immortal blissful child of God.

**As each person becomes enlightened,
the entire being of God responds with love and happiness and is
blessed,
for when one is helped, all are helped.**

**Go within.
Brave your deepest emotions.
Discover the pure innocent child within that you are and have always
been.**

**In doing so, realize that all people have this pure innocent child self
within.**

**Forgive them.
Forgive yourself.
Forgive everyone.
Discover peace.**

MIRACLES

Abusis

**A Wisdom and enlightenment, clairvoyance, clairsentience, and all
occult and artistic gifts. [Light blue, musical note G, ease, lungs]**

**Umlaut A, aethe mysteries of life and death and transformation through
release of imperfections for changes into other states that are the
highest good of all concerned.**

**B Polarity. This is the virtue of universal life, with all of its
polarities of expression. Mastering this virtue through meditation gives
control over will and feeling, and therefore over life and death.**

**This divine virtue is a light violet color, is the earth element so it
has the sensation of weight, vibrates to the musical note of A, and forms
the right eyeball.**

**U The virtue of the act of creation and karma. This virtue reveals the
original source of everything. [Velvet black, stomach and pancreas,
musical note B, consciousness-penetrating-everything.]**

**S This sound is the sound of all-penetrating-power. It has to do with
everything regarding enthusiasm and the absolute mastery of will.**

**This is the most subtle substance of the divine spirit, i.e., with
the original divine will or fire which works as a substantial power in
everything that has been created by Divine Providence.**

A Child of Light using this divine virtue attains the spiritual gift of perfect mastery over the electrical fluid, which is the use of will, and is able to control everything analogous to will.

A state of clairvoyance in its purest form and perfect control over other beings is gained by this virtue in the emotional nature.

The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.

I The sound of this letter is the virtue of cause and effect, which is the karma law.

On the mental level, this is analogous to memory, remembrance and conscience.

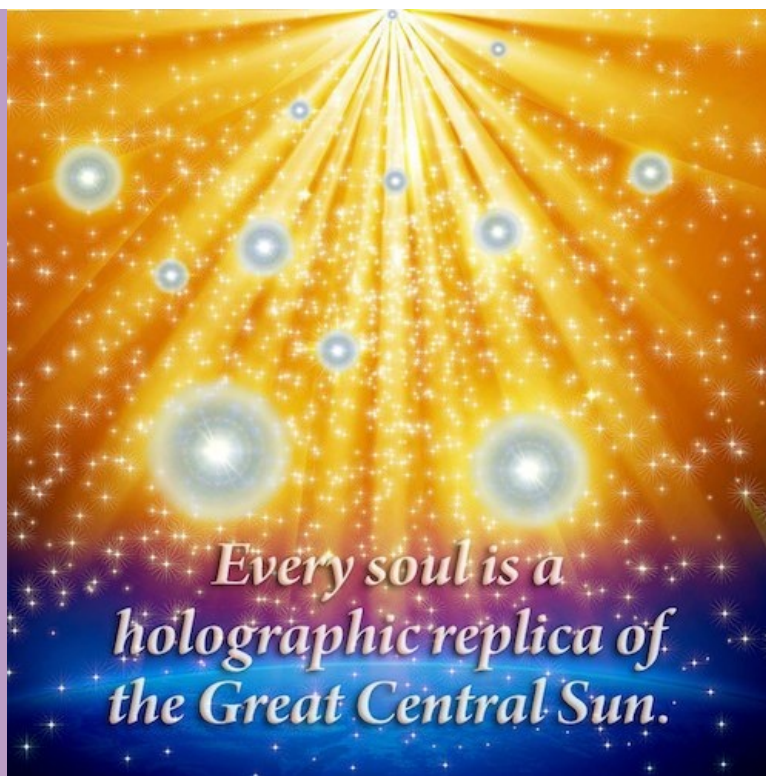

In the emotional body, this corresponds to the astral/physical matrix, which is the connection between emotion and physical form, with all of its functions.

On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.*

The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.*

SAll penetrating will power.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany

. These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.
