## The Angels of Human Emanations

Also known as

The Angels of

# Hagus

Beloved,

We give the seeker who reaches this stage on their journey, exact information on mental, emotional, and physical radiation that comes from others.

*We teach how to tell from the radiation emitted by a human being the degree of maturity of his mental and emotional body.*

*The meaning of the word Armageddon translates to "when all is revealed".*

*At this time of the alpha and omega, it becomes almost impossible for people to "hide" their true state of spiritual, mental, emotional, and physical maturity.*

By understanding that each person's state of being, will, thoughts, emotions, and sensations have the power to help or harm self and others, a seeker can observe others on these same levels to determine their degree of spiritual maturity.

*A spiritually mature person uses all forms of power, the power of being, will, thought, tangible feelings and emotions in the body, and sensations, to equally love and bless all of creation and self.*

**We inspire a Child of Light to understand The Power of the Word, the divine virtue of letter 'H', the first letter of Hagus, that shines with a silvery violet light and the sensation of warmth and expansion, because it is a virtue of the fire element of will. The right arm and hand are formed from this virtue.**

**There are a number of divine virtues, each with an intention, a concept, an emotion, and a sensation.**

**Remember that all intention is electric, it goes outward in motion, it is like fire.**

**All thoughts and concepts are light and expansive, like air, and receive the heat of intentions that gives them life.**

**These thoughts then transform by becoming emotions, the water magnetic element of creation.**

**Emotions then attract changes in form, the earth element.**

**We inspire a Child of Light to see how 'speaking' with the divine virtues, BY INTENDING THEM, visualizing them, THINKING about THEM, FEELING EMOTIONS OF THEM AND SENSING THEM, mystically blesses others and carries out the will of Divine Providence.**

*This is the meaning of 'the power of the word'.*

**Meditate on the divine virtue of the power of the word, the letter H in our name.  
It is a fire element virtue of intention, so it is felt as hot and expansive like fire  
as it shines with a silvery violet color and rings with the musical note of A.**

**We inspire the application of the Power of the Word in the akasha principle, which is the principle of oneness with all, so that the seeker understands and uses the cosmic language for the purpose of enlightenment, grace and mercy, the change of fate, and control over manifestation.**

**The mastery of the Power of the Word in the Akasha, or consciousness-penetrating-everything everywhere, enables a seeker to give each divine virtue dynamic and creative power.**

**To meditate on this virtue, do the following:**

**In the realm of the Akasha meditate on how you are one with all in the deep delta brainwave state.**

**As you do this, meditate on the Power of the Word by visualizing the silvery violet light everywhere, in and through all things.**

**See how the experience of unity with Divine Mind and all creation makes it possible to enliven a divine virtue anywhere at any time through visualization and emotions .**

**Imagine the head region as an immense universe and see a small silvery violet sun in the head region that radiates immense power whenever you use this virtue. See this silvery violet light penetrating all creation.**

**The head region is the part of the body that corresponds to the fire element of will.**

**Focus on will and intention and visualization of the silvery violet light. Meditate on willpower that penetrates all with the Power of the Word, the silvery violet light.**

**Contemplate on the idea that the Power of the Word is the way that Divine Providence works through the sons and daughters of divine being.**

**Not only is the seeker able to perceive it with the intellect, he is also able to receive it symbolically, in the form of pictures in his or her imagination, the spiritual senses.**

**By frequent repetition of the exercises with this letter, the ability of purest clairvoyance will be achieved.**

**At this point one learns the full meaning of the words "it shall be".**

**Imagine flowing with emotions of the Power of the Word  
and tone the sound of the letter H to the musical note A inwardly to  
enliven these  
feelings on the emotional plane, and out loud to enliven these emotions  
in the material level.**

**The emotional realm is magnetic and feminine and receives energy from  
the mental realm.**

**Emotions attract specific new realities into physical  
manifestation.**

**At this stage, emotions of the Power of the Word are attracting the  
miracles that you wish to manifest.**

**Focus so strongly on these emotions of the Power of the Word  
that they can be remembered and evoked at will whenever you wish to  
use them in World Service.**

**In doing this the seeker attains the faculty of influencing , through  
the magnetic power of emotions, each fate at will, and also the faculty  
of fully comprehending,  
understanding and applying the cosmic language  
in all of its forms as well as all the mantra and tantra practices in their  
truest forms.**

**This way each letter's sound and musical note carries the frequencies of  
the emotions of the virtue.**

**It is the flowing of emotions of a divine virtue that  
attract the virtue into form on the physical plane. A word made up of  
various letters,  
toned in the proper musical notes of each letter with strong tangible  
flowing feelings and emotions, creates a song  
of mystical power. These words are the ancient songs of the language of  
Creation.**

**It may take several months of intense concentration to master one  
letter, but once the first letter is mastered, the others are easier. It is  
traditional to start with letter A and work through the alphabet.  
When all of the letters are mastered, then combine two or more letters  
into powerful combinations of meanings and sounds.**

***At this stage in the spiritual journey, a seeker has become  
so immersed  
in the inner alchemical fire, that his or her mental,  
emotional,  
and physical emanations have a healing effect on everyone***

*he or she comes  
into contact with. There is a chain reaction of energy  
transfers  
from the seeker to everything around them.*

The divine virtue of letter H was used to create the right arm of every human being.

Meditate on this letter permeating the right arm.

When you breathe out; will, see, flow emotions, and sense this virtue radiating out through the pores of your skin over the area of the body formed by the virtue, the right arm, and filling the entire outer universe. When you breathe in; will, see, flow emotions, and sense this coming in through the pores of your skin around this same area and filling you from the outer universe.

Learn how to breathe this virtue in and out effortlessly in this way so that anytime you wish to manifest it, this meditation comes easily to you.

**BE SURE TO KEEP THE NORMAL RHYTHM OF YOUR BREATH AS YOU DO THIS.**

Do not hold or prolong the breath. When you are finished, dissolve the light and other sensations in the body so that you keep the elements of the body balanced and do not over stimulate any area of the body.

To give or receive enlightenment, a Child of Light next learns to use the Power of the Word with the divine virtue of A, which is all wisdom and enlightenment. It is a virtue of the air element, with the sensation of relaxation and ease. It has a light blue light, the musical note G and is the virtue that was used to create the lungs.

*To the extent that other people are enlightened, truth emanates from them, and a sensation of relaxation and ease results from being in their presence.*

*If being around another person causes tension, it is a sign that more enlightenment can be asked for and healing and purification will then help.*

Purify any imperfection through the virtue of umlaut A, ae. Release any imperfection in self or others for change into other states that are the highest good of all.

True divine blessing is the virtue of letter G, which is flowing feelings of Divine Grace and Mercy. G is a virtue of the water element, with a feeling of coolness and flowing. It shines with the most lovely emerald grass green light, the musical note F, and forms the left eye.

A spiritually mature person emanates flowing emotions of divine blessings.

*The late Dr. Ron Tucker, Brookhaven Chiropractic Clinic Atlanta,  
who rescued many homeless animals and was a blessing to many people.*

**A spiritually mature person can change the fate of self and others.**

**This can be done in a deep trance state using the Power of the Word with letter U, which is the virtue of the Creative act and its on going effects, its karma.**

**With this virtue fate can be changed, and a person sees the ongoing effects of an intervention that he or she is making through the Power of the Word in a deep trance state.**

**This virtue is of the akashic element, with the sensation of consciousness-penetrating -all.**

**The creative act and its karma shines with a velvet black light, it has the musical note of B. It is the virtue that created the pancreas and pit of the stomach.**

**Finally, a Child of Light uses the Power of the Word with letter S, which is the virtue of attuning to Divine Will for the highest good of all concerned in the form of all-penetrating-power in everything. By attuning to this virtue, the power to change any part of creation, any being,**

**and the enthusiasm to carry through with manifesting Divine Will in any situation is attained. When a person is in tune with this virtue, only the highest good is desired and given in any situation.**

***A spiritually mature person attunes to the already existing indwelling divine omnipotent will for highest good in all creation.***

***He or she will only want to facilitate this manifestation.***

**All penetrating divine will is a virtue of the fire element, with the sensation of warmth and expansion. It has a purple red light, the musical note of G-sharp, and is the virtue that created the gall bladder.**

***Imagine all beings, through divine grace, being initiated into whatever divine will, thought, emotion and sensation is the highest good.***

**Imagine**

**MIRACLES**

**The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.**

**THE LAW OF ONE**

**We are all one.**

CONCERNED happen here and now,  
and through all time and space.**

**I give thanks that this is done.**

**SO BE IT!**
