Beloved,

***We are guides and teachers as a person becomes ever more deeply involved in World Service.***

**It is our job to help world servers discover special meditations that empower them to bring Heaven to Earth.**

**We are excellent initiators into the powers of The Cosmic Language.**

**We make you acquainted with special methods that help you use of all of your acquired mystical faculties when helping other people.**

**Optimal awareness utilizes equal input from both hemispheres of the brain, the perception of outer world and the inner world, and with the heart.**

***Working from the common paradigm of Beta brainwave dominance, which is awareness of the five senses, memory and logic, projects of World Service would seem overwhelming, most often they might appear to be Herculean tasks with endless setbacks.***

***For this reason, we guide spiritually mature World Servers to develop deeper levels of awareness, to use whole brain awareness, to do their work with ease and joy.***

**We give more advanced instructions about the manifestation of divine virtues in the mental, the emotional, and the physical world through the use of the cosmic language.**

**These practices facilitate uniting individual awareness with Divine Awareness, with flooding desires, thoughts, emotions and sensory awareness with divine virtues in meditation.**

**It requires staying in a state of pure being, like in deep dreamless sleep, even while you are awake.**

**>From this state, the waking dream of everyday life is experienced, using all the divine virtues taken together combined with The Law of One, The Highest Good of All Concerned.**

**Optimal awareness utilizes equal input from both hemispheres of the brain, the perception of outer world and the inner world, and with the heart.**

**We excel in helping a world server join this awareness to the heart, to use the powerful energy of love from the heart to create miracles. The energy field of the heart is 5000 times stronger than that of the brain.**

**Remember, in addition to this, that we help inspire willpower and emotional psychic awareness of the right brain in unity with the deep inner thought and logic, memory, and five senses of the left.**

**Remember that visualizations in deep inner imagination create templates for new creation.**

**Then flowing emotions of these templates already existing in meditation attract new realities into physical manifestation.**

**People on the spiritual path of World Service therefore seek to flow with positive visualizations and beautiful divine emotions.**

**However, because many people have suffered deep emotional wounding that occurred during particularly formative times ranging from past lives, conception, through prenatal development, birth and childhood, we along with many other heavenly host help with healing the heart and the emotions.**

**Many Children of Light that have tried to heal deep cellular negative emotions through logic or will, have had difficulty because the nature of the watery emotional realm is to heal through flowing and validation seas of unconditional all encompassing love.**

**To lovingly accept and validate painful tangible wounded feelings and emotions instead of fearing them or denying them or acting them out, is to witness the power of love to conquer everything.**

**Attempting to cast out negative emotions or astral beings, bypassing negative emotions, denying them, medicating them, or destructively acting them out, etc., compounds wounding.**

**When wounded emotions are healed through acceptance, gratitude and love, the corresponding painful visualizations and beliefs also heal.**

**It is by centering in the heart and loving as God loves, with empathy for the inner wounded younger selves, allowing any wounded emotions to be validated and flow in a safe and non-destructive way, that emotions TRANSFORM and heal, bringing insights and wisdom.**

**Gods love is like the sun, it shines EQUALLY on the good and the bad alike.**

**Love is the most powerful transmutational agent.**

**Emotions that are allowed to flow in the presence of unconditional divine love are purified in its influence.**

**By learning to love and heal one's own emotional wounding, it becomes easy to love and understand painful emotions of others.**

***Some people believe that when they enter upon the path of World Service their emotions will remain uplifted and high, so we help them understand this necessity for ongoing***

***emotional healing practices in meditation.***

We know that the most common problem World servers are encountering in this time of tremendous change is this emotional fear and resistance that gets triggered by day to day events.

Deeply suppressed or buried emotional wounds in their unconsciousness become activated as part of the purification and transformational process.

***We inspire world servers with the awareness that as they heal their own inner emotional wounding, they are, like the 100th monkey, contributing to the healing of the emotional reality of the whole world.***

***Healing one's own wounded heart IS world service.***

Many spiritual seekers have enlightened their minds, but still have deep layers of emotional pain that manifest as tension in muscle tissue and a deep underlying discomfort.

We encourage people to be aware of painful triggered emotions and to embrace them in a timely way with unconditional love instead of fear, shame, judgement, or destructively acting out.

When uncomfortable emotions come up, go deeper into them, sending healing understanding love to the emotions themselves as well as to the parts of the self that are generating them.

In this way emotions heal as they come up spontaneously in the course of daily service.

When emotions are allowed to flow in a safe and loving environment in a non-destructive way, instead of with denial and bypass, deep psychic healing is experienced.

***They transform and many insights and lessons are revealed. These insights enter into the mass conscious mind and function as lights to others who are also on the path to emotional healing.***

***On a subconscious level, others download this path to emotional transformation.***

On this path, as wounded emotions flow, a Child of Light often remembers and goes back to their source in a memory of an early traumatic experience.

As this early experience is remembered all the way through from beginning to end, more and more related buried emotions are remembered and then felt to their depths and validated and therefore healed.

Living and reliving completely in the imagination, the memory from beginning to end, over and over about five or six times, will unearth all the negative emotions that were generated during this traumatic event.

***Many world servers suffered similar early emotional wounding in troubled conception, gestation, birth and childhood.***

***When a world server heals his or her own wounded experiences, many others are helped and affected through the telepathic connections and abilities of their subconscious minds.***

**As all the old emotions are finally allowed to flow in a sea of unconditional love from the heart, the forgotten parts of the original traumatic events are recalled and insights arise from the psyche.**

**These new insights rewrite the memory completely.**

**These insights into the powerful forces behind the traumatic event, that caused it to manifest in the first place,**

**bring positive healing, empowerment and enlightenment.**

**In this process of flowing with wounded emotions with an attitude of unconditional love, negative emotions, along with their accompanying negative beliefs, transform into positive ones.**

**Then, by merging the final visual healing image that has arisen spontaneously during the process of flowing with the emotions with the original picture of the memory, the two images merge and a resolution image is formed.**

**Now the memory is healed permanently, even in thought.**

**Remember that a memory is composed of only three things:  
emotions,  
visual images  
and thoughts.**

**Through the process of reliving a memory of an emotionally traumatic event, the wounded emotions change, the negative beliefs about reality change, and the visual images also change for the better.**

***From that point on, whenever this memory is remembered, research has shown that the new positive emotions, the new positive beliefs, and the new positive visual images are recalled.***

**As you can see, it is only as Paradise already exists in the mental, emotional, and physical bodies that a person is in the best position to create paradise and manifest divine virtues and qualities in the physical world.**

**We facilitate special meditations to enhance the visualization of colors combined with will and meaning, to enhance flowing divine emotions combined with sound and tone, and enhanced sensation of a virtues element.**

**The mystical powers of these unique combinations of each letter and virtue of the cosmic language are thereby enhanced as well.**

***These meditations and practices activate nerve ganglia, all up and down the spine, to release powerful psychoactive glandular chemistry.***

**Through the divine virtues of our name Koreh, we help each Child of Light with empowering unity with Divine Being and all creation, with divine will, intellect, emotions and sensations.**

**All levels of awarenessbeing,will, intellect, emotions, and sensation are accordingly ever empowered on this path into Divine Consciousness.**

**A World Server increasingly manifests new realities of greater perfection in the micro-and macrocosm.**

**A person on the path of World Service at some point is usually guided by Divine Providence to work with others who are dancing awake The Sacred Dream of Paradise.**

**They work together while maintaining individual sovereignty, for each person follows their own inner guidance from Divine Providence.**

**Divine Consciousness and Flowing Divine Emotions are the birthright of every person.**

**As more people access this level of awareness, a morphogenetic field, or hundredth monkey effect,**

**is created that makes this Consciousness easier to achieve for others.**

**At one point, critical mass is reached and enlightenment becomes a reality for all.**

## **MIRACLES**

**By meditating on the divine virtues of the letters of our name, and calling on our help, it is possible to master many special methods for creating miracles.**

### **Koreh**

**K. The sound of this letter is the sound of the virtue of omnipotence, the highest power imaginable.**

**To those who master this virtue, omnipotence reveals itself as the all embracing power by which a person works direct miracles in the microcosm as well as the macrocosm, which means within their own body temple and in the outer universe.**

**This virtue is manifested in the Akasha-principle, which is the principle of consciousness-penetrating-all, as the highest and purest light.**

**In the mind, this virtue corresponds to the manifestation of faith.**

**Anyone who is able to evoke this virtue on a mental level will achieve, as its result, a state of manifestation in which any idea, any wish, will atonce become reality in whichever plane it is desired: spiritual, mental, emotional, or physical.**

**In the emotions, this virtue creates courage with all its aspects, such as endurance and toughness.**

**Anyone who is able to summon up great courage within him/herself and in other people is able to overcome and remove any emotions of fear within himself or in his brothers and sisters.**

**This virtue also strengthens the instinct of self-preservation, perserverance, and patience.**

**On the physical level this virtue gives the faculty of becoming absolute master of all terrestrial treasures.**

**[color: silvery blue, musical note: B, element: fire, heals: left ear]**

### **Umlaut O, eu**

**Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything.**

**The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.**

**Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition, which can only be brought about by love divine.**

**By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields. He/she is**

**informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.**

**A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.**

**I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.**

**Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.**

**Astral/ emotional level: In the emotions, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.**

**Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.**

**Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.**

**A person is taught the true preparation and charging of the philosopher's stone in the physical sense.**

**He/she can influence, at will, anyoscillation-atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.**

**Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired.**

**By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.**

**O. The sound of letter O is the sound of the initiation into the original principle of divine justice.**

**Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements.**

**[Intent controls thought and thought controls emotion. Emotion controls earth.]**

**You will have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.**

**You will never be able to condemn anyone unjustly.**

**This brings about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.**

**This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It formed the throat and windpipe.**

**R. The letter R is the divine virtue of becoming the master and guardian of freedom and independence.**

**It is this virtue that is used by each child of God who listens to and follows their own inner voice of guidance. This inner guidance is a person's unmistakable link with the Universal Mind of Divine Providence that lives and moves in all space and time and beyond.**

**In this state of freedom and independence there are emotions of freedom of any pressing burden of the laws, for by the mastery of all the preceding virtues you have achieved a state of maturity by which this feeling of independence has been transformed into an absolute state of security and unimpeachability.**

**This comes from the realization of the harmony and perfection of all divine laws and the identification and love of them so intensely that they have actually become merged with oneself. In this case you are the personification and representation of the divine laws and they will serve you, and your sense of freedom will derive from them rather than in spite of them.**

**This is a very high state of consciousness, but it is the state that every human being is destined to accomplish.**

**It is for this reason that your teachers have told you that "the truth is written within your heart". The color of this virtue is golden; the musical note is C. The left side of the nose is formed from it. It has the sensation of weight.**

**E. This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.**

**Meditating on this virtue unites your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principal, omnipresence yourself. This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.**

**You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space.**

**Divinity in His highest form is able to speak through you.**

**The most profound mysteries of materialization and dematerialization become obvious to you as you master this, everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it becomes physically visible.**

**In the emotional body, the oscillation of letter E represents the control of the emotional consciousness of oneself and of other people.**

**Especially easy is it to achieve special clairaudience by meditating on this virtue.**

**By "special clairaudience" not only the hearing of beings, etc., is meant, but also the understanding of the language of all animals**

and the perception of the remotest past, the present, and even the future,  
indiscriminately of distance or kingdom, i.e., human kingdom or animal kingdom.

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

H... The sound of this letter is the divine virtue of the POWER OF THE WORD.

This group of messages, taken together, help explain the technology of the cosmic language, the use of THE WORD in the science of miracles and theurgy.

The letters of the alphabet have states of being, colors, meanings, flowing emotions, sounds, and sensations that correspond to the divine virtues.

Words, whose letters are uttered with the following attunements, while using the meditation technique explained below, have great power to manifest miracles.

The proper utterance of each letter, requires experiencing a state of pure being that is one with Divine Being and all Creation. Then meditation of a divine virtue as omnipresent and one with self is experienced with omnipotent will-intent and visualization of the color, understanding of the meaning, flowing emotions of the virtue, and sensation of the element of the virtue.

This activates Delta, Theta, Alpha, and Beta brainwaves, or either, fire, air, water, and earth frequencies.

To meditate on a virtue, locate yourself in time and space by visualizing and feeling yourself as a tiny dot in your solar plexus with the rest of your body as an infinite swirling Creation all around you.

Remember, in a deep Delta State of pure being,  
feel yourself ONE with ALL THAT IS,  
and feel yourself ONE with the virtue.

WILL and visualize the divine virtue manifesting within you and within all of creation, or within any person, place, object or situation, according to your inner guidance.

VISUALIZE the color of the virtue penetrating ALL of this.

Meditate on the meaning of the virtue with your intellect, in a Theta brainwave state of deep inward thought.

Feel the emotions of the virtue, with your dreamy Alpha wave brainwave state.

Tone the sound of the letter of the virtue to its musical note.

If you tone inwardly, it enlivens the emotions themselves,  
if you tone out loud, it enlivens the physical manifestations of the virtue.

Then with your Beta wave State of the five senses, logic, and memory, imagine the sensation of the virtue's element.

When you breathe out; will, visualize, emote, and sense this virtue radiating out through the pores of your skin from the area of the body formed by the virtue, and filling the entire outer universe or whatever your inner guidance directs.

When you breathe in, will, visualize, emote, and sense this virtue coming in through the pores of your skin around this same area and

filling you completely, or filling the elemental region or organ of the virtue from the outer universe.

Learn how to breathe this virtue in and out effortlessly in this way so that anytime you wish to manifest it, this meditation comes easily to you.

Be sure to keep the rhythm of the breath normal and natural, and to dissolve the light in the body when you are finished, in order to preserve the natural balance of elements in the body.

#### Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
