The Angels of Oaths

Also known as

The Angels
of

Boreb

Beloved,

Whenever an oath is taken, we are the heavenly host who witness it,
writing it into the book of Life.

Oaths have immense power, and we strictly control the oaths taken by
human beings
whether they are oaths taken before a court of law or
whether they are oaths of World Service, loyalty or love, or inadvertent
oaths.

We are the heavenly hosts who teach people how to understand fully
what it means to take an oath, especially a spiritual one,

and we teach exactly what can be achieved by keeping an oath.

If a person wishes to break an oath, we are the angels who see how the oath can be broken without incurring negative results, and we advise you on ways to accomplish this.

**As a person walks the Path of World Service, many times through inner guidance he or she will make an oath before God to help uplift humanity,
to bring Heaven to Earth in some way.**

The sacredness of such an oath attracts legions of heavenly host who make a similar oath to assist this person in their work.

An oath utilizes a double lock composed of will and emotions.

Will and emotions are the electro-magnetic fluids that govern life and death in Creation.

The power of an oath depends on conviction and intensity of will combined with the intensity, purity, and frequency of emotions.

The Virtue of Polarity and Universal Life is represented by the beginning and end of our name in the divine virtue of letter B.

B

The Divine Virtue represented by B is Universal Life in all of its infinite forms and thereby the cognition of all polarities, particularly electricity and the magnetism, will and emotion.

The attunement to Universal Life recognizes how the Divine manifests in endless varieties of expressions in will, mind, emotion and form.

These expressions represent opposites of every imaginable description on all levels.

By meditating on this Divine Virtue, a person understands the meaning and necessity of polarity.

When meditating on B, first relax into a state of pure being and unity with Divine Being and all creation.

Now visualize yourself as a tiny dot in your midriff region, and your body as a universe all around you.

See this virtue as a tiny sun shining light violet light in the leg region that radiates a sensation of weight.

Meditate on polarity, especially on the polarity of Divine Will and Love, as it manifests in Creation.

Tone the letter B to the musical note A as you flow with emotions and feelings of polarities flowing and changing, enabling creation to exist and live in all of its forms.

With the out breath visualize this light violet light and virtue passing through the pores of the right eye and filling whatever inner guidance directs.

It could be a person, an object, a situation

or even the outer universe.

With the in breath see this light violet light passing in through the right eye
and filling the body or part of the body.

Keep the breathing rhythm natural and dissolve the light in the body
when you are finished,
to protect the balance of elements in the body.

This meditation strengthens and heals and enlivens the right eye.

Meditating on this virtue will, in time, give perfect control of the
electric and magnetic
energy of the inner world, the microcosm, and also the outer world,
the macrocosm or the Universe.

Divine Will and Emotions/Feeling energy sustains reality.

Mastery of will and emotion gives a person mastery over life and fate.

Polarities are the ends of continuums of energy,
such as will and emotions, which are the elements of fire and water,
on a continuum of creative energy,
or hot and cold on a continuum of temperature,
or big and small
on a continuum of size.

On an emotional plane, love and hate are polarities
on a continuum of a feelings.

Both polarities are necessary for a continuum to exist.

All continuums are necessary for Creation to exist.

The double lock that occurs when an oath is taken, therefore, occurs
with the two polarities of will and emotion.

Remember the polarities on the continuum of will and emotion
are the electro-magnetic fluid of creation.

Depending on the nature of an oath,
a powerful flow of will and emotional energy
moves along a number of different will and emotion continuums.

These join the person making the oath and those who help them fulfill
it.

Suppose a person following inner guidance makes an oath to save the
wetlands near his or her home.

Upon making this oath, the angels of Boreb contact as many other
angelic orders and beings as necessary
for this oath to be fulfilled.

It is as if an army is formed and put into service along the course of
action of saving the wetlands.

**Suppose that in order to save these wetlands
a number of political, legal, financial, organizational, and public
awareness changes
have to be made.**

**The angelic groups that work with each of these departments
are contacted by the Angels of Boreb and put into action.**

**If old feuds between people need to be healed,
if buildings need to be moved,
or plans to build one prevented,
or if documentation and research are needed,
the angels begin to contact
people on the inner planes who can provide answers and fulfill these
duties .**

**The heavenly hosts inspire those who made the oath to contact the
"movers and shakers"
and take the necessary steps on the physical plane
to bring it all together.**

**Whenever an oath is made,
an amazing reorganization of many dimensions results in a living
blueprint
that enables the oath to be successfully
carried out to completion.**

**It is for this reason that breaking an oath causes chaos
unless special steps are taken by all the beings concerned.
A broken oath, unwisely done, causes an energy rupture in the Unified
Field.**

**If for some reason a person feels that an oath must be broken,
one way to redo it without creating adverse karma,
is to upgrade it,
to replace it with a higher
one more wisely made.**

**For instance, suppose a person has made an oath to serve in an army of
a country
that later falls under the leadership of a corrupt leader.
It then becomes necessary to break the oath
to avoid following orders that are disastrous.**

**At this point, we might inspire this person to replace their original oath
of service
and allegiance to a particular country
with a greater oath,
this time an oath to serve in the army of Divine Providence,
to serve all creation,
to follow inner guidance,
and to do so with great
faithfulness and courage.**

**In this way, the original blueprint of the oath is modified and enlarged
and operates without interruption.**

**All of the beings that are supporting the original oath
transfer their activity to the revised oath.**

**Suppose a spiritual oath that has been made by a Mother to her infant
ends up being broken.**

**Previously at the moment of original eye and heart contact,
the Mother had bonded with her infant,
and pledged before all of Heaven
that she loved this child
and would nurture, protect, and love this child forever.**

**Later, due to unforeseen stresses,
the relationship soured.**

**A fissure opened up and created a tear in the fabric of this oath that
was not healed,
but continued to deteriorate
until the oath was broken
and the Mother turned against the child.**

**We guide the Mother to heal her negative karma and heal the Unified
Field
by making a new oath to Divine Providence
to seek enlightenment on a spiritual path
and heal her will and emotions
by becoming one with Divine Will and Love above all else.**

**This new oath replaces the old one
in a way that will eventually transmute the chaos in the life of the
mother
and help heal it also in the Child.**

**Broken "positive" oaths and inadvertent "negative" oaths
blurted out in an emotionally triggered moment share the need to
evolve.**

**The truth about "inadvertent" oaths is very important to know so that
you can take responsibility for them,
undo them,
and reprogram them.**

Oaths like "I swear to make sure you pay for this," etc., made hastily in moments of emotional upsetness, do not express a true, enduring intention, and typically go against what a person really wants to manifest in the divine self.

An oath such as this even creates the opposite reality of what is really wanted in the heart.

Nevertheless, the truth is that such an oath still has much power because of the strong emotional charge combined with the power of intention of the words.

In most cases these "curses" hinder progress on the spiritual path; they should be consciously reversed, even if they were originally uttered unconsciously in a moment of frustration.

This can be done by intention and the Law of one, or by asking our help in correcting them, or by using the virtues of Boreb to transmute them through cognition brought about by Love Divine, justice and harmony, inner guidance, working in the akasha, which is consciousness-penetrating-all, and mastery of will and emotion.

We inspire a person to become more creative and more assertive when making an oath.

We also offer our help in perfecting oaths that have already been made.

A typical prayer to ask for our help might look like this:

"I ask Divine Providence, and you, the Angels of Boreb, to open my heart to be one with flowing Cosmic Divine Love, and to initiate me so that my individual will becomes one with Omnipotent Divine Will for the highest good of all concerned.

I ask you to help take over my oath and to perfect it.

You have my wholehearted request to restructure this oath.

I am asking you to revise all my oaths, to make them beautiful, inspiring

to one and all, and effective in bringing Paradise to Earth.

I give you my total permission to reform all my oaths, curses, and past utterances

in any lifetime, whether made consciously or unconsciously, to serve my highest good and the highest good of all concerned.

Correct the record.

Do whatever you have to do to bring any and all my past utterances into harmony and congruence with The Law of One.

Search my history, read my unconscious mind, plan and implement perfect oaths that are formed out of perfecting what I have said.

Heal all the unwanted consequences of any and all of these past (present and future) utterances, whether made consciously or unconsciously by me.

Let the net effect of everything I have ever said be to bring the greatest blessings to me, to everyone I have ever influenced, and to The One Being.

Let my words and my oaths bring love, joy, peace and fulfillment to everyone concerned.

Do this also on behalf of all Beings who have a similar intention as mine.

Perfect all the oaths of everyone who would want you to do it, according to The Law of One.

Also, please give me a vision of the impact these changes have made so that I may appreciate more deeply and fully what you have done.

I give thanks to you with humble gratitude that all of this is already accomplished.

**Thank you.
Thank you."**

**Because inadvertent oaths that are made without full awareness of their consequences,
have been one of the major barriers standing in the way of
bringing Heaven to Earth,
correcting them in this way is a most powerful cleansing and
transformational step to take in World Service.**

**Divine Providence directs World Servers to become aware of the power
of
oath-taking.**

**Inner guidance directs that all oaths be made under The Law of One,
the Highest Good of All Concerned, the ultimate moral standard.**

In this way oaths bring the highest happiness to all.

**An oath that brings happiness to all is easy to keep and blesses the
Unified Field.**

**An oath that is made for the Highest Good of All Concerned creates an
interdimensional blueprint
that results in a royal road to success and to miracles.**

**Making and keeping a Divine Oath unites you with the Spirit of Creation
itself.**

We are the Angels of Boreb.

**We help you embody the archetype of the
Divine Magician
who is at one with the Divine Will and Divine Love
and brings Paradise to Earth.**

Become one with the divine virtues of our name through meditation.

Then it is possible to perform all of these actions on your own.

Boreb

B Akasha: In the principle of consciousness-penetrating-all, the letter B indicates the perception of universal life; further more, the cognition of polarity in all forms of existence which leads to the profoundest wisdom.

By letter B a person learns to perceive fully the plus and the minus; it becomes quite clear that nothing has been made in vain and that the negative as well as the positive must exist, for without these contradictions the one could not be told from the other.

Mental: Mastery of polarity and Universal Consciousness gives a person perfect control of will and feeling in all spheres and planes.

A person thereby becomes master of life and death and is given the power to change any fate. But he/she will never cause a change in the planned karma of a human being without good reason and approval by Divine Providence; he/she will not cause any chaos.

Astral: The mastery of polarity in the emotional body imparts the faculty of evoking volts by magic and the cosmic language, of charging talismans and of bringing about sexual-magical effects.

Everything that is connected to polarity in the feeling kingdom becomes quite clear. A person gets acquainted with the profoundest mysteries and attains a faculty of intuition that cannot be described by words.

Material: Universal Consciousness represents all laws of polarization on earth and gives expression to them in matter.

A person thereby becomes perfect master over the physical world.

Apart from that, by mastering polarity, a person is given the power to remedy any disharmony

**in the human body, that is, to cure any disease,
and to charge analogous remedies through will, thought, feeling, and
sensation.**

**Furthermore, the
power of controlling life and death is attained in the three kingdoms of
the material world.**

**Light violet color. The element of earth with a sensation of weight.
The musical note A. The right eyeball is formed from this virtue.**

**umlaut O, euCognition brought about by Love Divine. The power of
transmutation.**

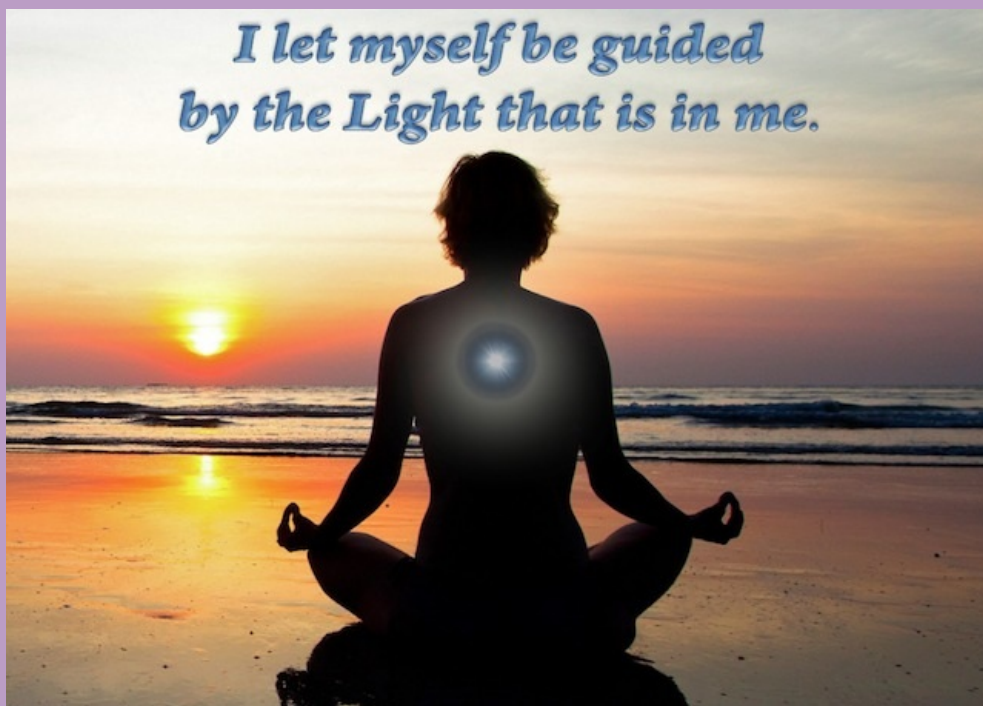

ODivine Justice and Harmony.

**RFreedom and independence, following inner guidance from Divine
Providence.**

EOmnipresence. Oneness with all life everywhere.

BPolarity and Universal Consciousness.

Footnotes

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a
common precursor, or root,

of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly
host in the zone girdling the earth, and the angels who work with
him or her.

The being and the angels share the same name. This name is a key

to their powers and influence.

* Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

Free downloads of segments of the sound current are available at www.spiritussanctus.com .

This music has been tested by sound therapy experts and proven to stimulate deep brainwaves, even in waking states.

This was given to help in these times of enlightenment and the joining of Heaven and Earth.

Playing this music continuously in the background works wonders for people, animals,

and plants, soothing the nervous system and attuning to higher consciousness.

To understand Universal Consciousness, and immortality, it is very helpful to read The Life and Teachings of the Masters of The Far East by Baird Spalding

The first three volumes are field notes taken on a scientific expedition to Nepal in the late 1800's.

The Law of One is the original law of Creation,

and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM, and I am one with all there is;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.

I give thanks that this is done.

SO BE IT!
