The Angels of Out of Body Science

Also known as

The Angels of

Negani

Beloved,

We give further instructions on mystical wandering of other planets and dimensions.

We inspire ways and means to experience the supreme happiness and grace and mercy of highly evolved realms.

**Remember it was spoken:
In my Fathers house are MANY mansions.**

**There are many Children of Light that dwell on other planets,
in other mansions.**

**These brothers and sisters have much to share,
and have wonderful keys to the great mysteries
within Divine Mind and Being.**

**To wander and study in these realms is an important gift of Divine
Providence.**

**The color and grid location technique,
that the Angels of Ebaron described in 26 Aquarius,
has been passed down through the ages
and used to locate and study with teachers from many universes and
realms.**

We teach this and other methods.

**The 'many mansions' are practically infinite.
Therefore the combinations of colors, shades, and intensities with
which to create the
background and the shapes and patterns for the grid overlays are
infinite as well.**

**With whole brain thinking, the ability to vividly daydream is restored in
deep Theta brainwave states.**

**Children have this ability naturally
because Theta brainwaves are dominant in childhood.**

**Children are often in the deeper brainwave patterns of Delta, Theta,
and Alpha.**

**The ancients said,
Unless ye be as little children, ye shall in no way enter the Kingdom of
Heaven.**

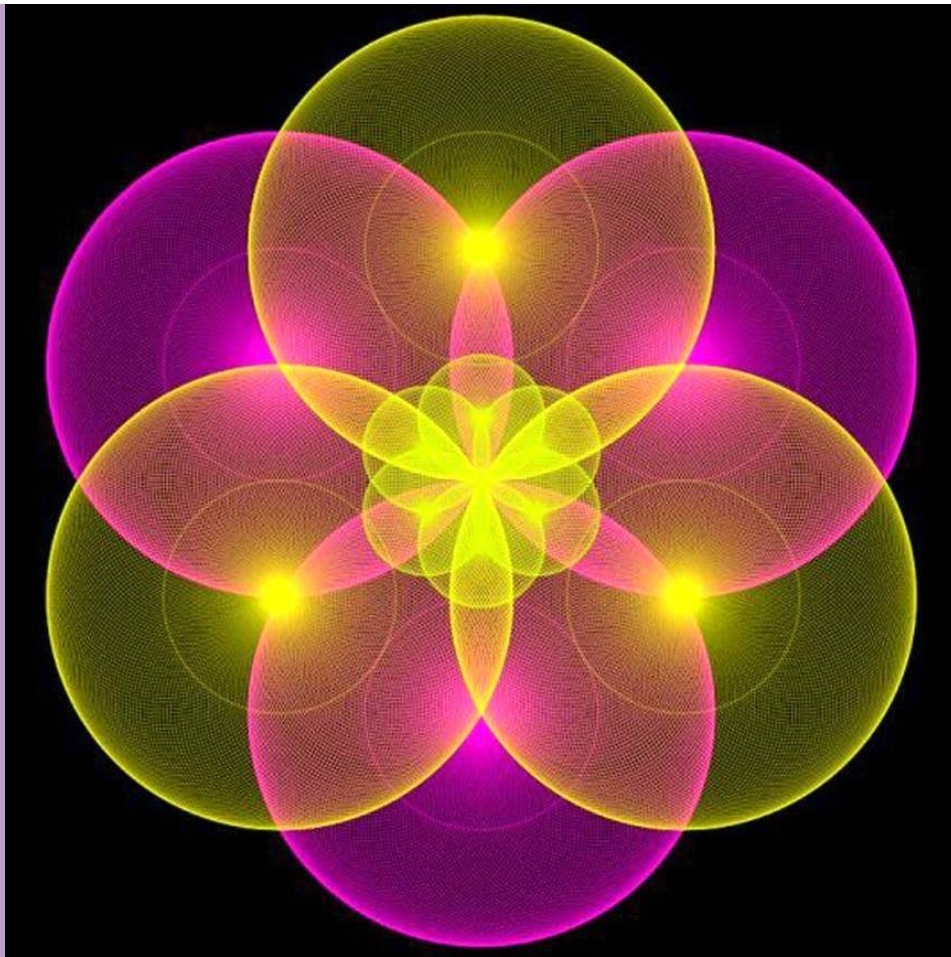

**Out of body travel depends on these deeper brainwaves,
and when you call upon us, we help you,
through the divine virtues of our name,
to again utilize this part of consciousness in mediation.**

**We help you choose the exact colors, shades and pattern overlays to
bring the greatest happiness, unity, grace, and wisdom as you explore
the Unified Field.**

**With whole brain awareness and the use of many techniques, including
the ancient color and grid
locator technology, not only does this become easy, it is a wonderful
source of higher learning and joy.**

**Use colors and patterns that are pure and beautiful to locate
destinations of high consciousness
and flowing divine emotions.**

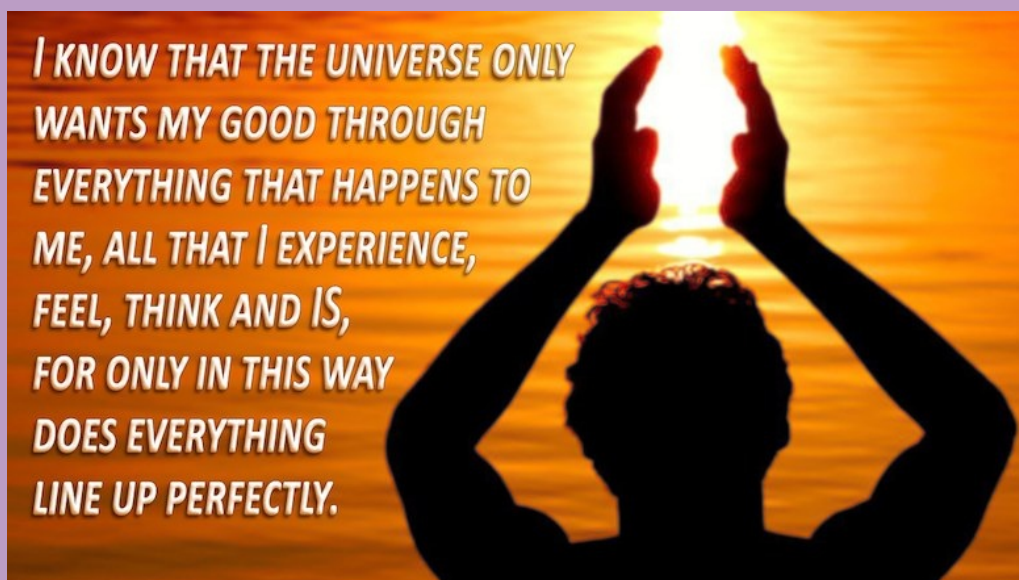

**Memorize the Law of One before using this or any technique.
This is extremely important, especially if at any time you happen to
travel in a realm
that is not of the highest consciousness.
By invoking this Law, complete protection is provided, since The Law of
One operates throughout The
Unified Field, activates divine DNA remembrance in all life, and
overrides all lessor laws.**

The Law of One

**We are all one.
When one is harmed, all are harmed.
When one is helped, all are healed.
Therefore, in the name of Who I Am;
I am one with all there is;**

**I ask that only the Highest Good
of All concerned happen.
I give thanks that this is done.**

**I KNOW THAT THE UNIVERSE ONLY
WANTS MY GOOD THROUGH
EVERYTHING THAT HAPPENS TO
ME, ALL THAT I EXPERIENCE,
FEEL, THINK AND IS,
FOR ONLY IN THIS WAY
DOES EVERYTHING
LINE UP PERFECTLY.**

Use the colors of the divine virtues.

Choose the divine quality that you wish to study and feel.

**Then refer to the divine meaning and
qualities of the numbers to construct,
in your imagination,
an appropriate pattern or shape,
to make the grid to place over a background color.**

**When you dive through this visualized color and pattern in meditation,
you go to a place where these virtues are manifest.**

Suppose that you wish to increase your capacity for love.

**The color of blue-green for emotions, letter M,
and deep grass green for Grace and Mercy, letter G,
and the dark opal color for Cosmic Love, letter J,
could be chosen as a background colors
or used in the pattern overlay.**

**Now suppose you wanted the divine quality of manifestation.
The number four embodies that quality.**

The number four represents the four elements, and the four directions.

**It also represents the four levels of will, mind, emotion, and matter.
It is the number of everything that is created in the visible and the
invisible worlds.**

As a divine idea, the number four means highest wisdom.

**It is the number of length, width, height and
depth. It is graphically represented by a cross whose arms are of equal
length, or by an equilateral quadrangle.**

**Therefore, as one of many possible combinations,
you could create a background of a soft light blue-green with an
emerald green cross
that is surrounded by a dark opal equilateral quadrangle.**

**Then in your meditation, jump or dive through this like
a clown diving through a paper hoop at the circus.**

**When you come out the other side, you will find yourself in an
intensely emotional realm of cosmic love, grace, mercy, and wisdom.**

**Any variation of these colors and patterns leads to a different place
vibrating these qualities.**

**The more pure the colors and patterns, the higher the consciousness of
the destination.**

In this type of meditation, reality is that of an extremely lucid dream.

**The connection is made in the realms of the spiritual, intellectual and
emotional levels of consciousness,
which activate the parasympathetic nervous system
and the right brain and balances it with the left.**

**With practice, out of body travel seems as real or perhaps even more
real
than the 'realness' of everyday Beta brainwave consciousness of the
five senses and memory.**

**We suggest that once you find yourself in a new place, ask Divine
Providence to guide you
to whichever Being is the highest in
consciousness there.**

Then you may ask this Being for whatever initiations, teachings,

healing, or instructions that he or she can give
you through The Law of One, the highest good of all concerned.

You may receive an initiation of the most beautiful order.
In turn, leave your highest blessing there as well.

***Our name, Negani, begins with
N, which signifies flowing feelings of the most Supreme Happiness
possible.**

Supreme Consciousness shines with a deep red light.

**The other divine virtues are:
E Omnipresence, a deep purple light.
G Divine Mercy and Grace, an emerald green light.
A Wisdom and Enlightenment, faculties of clairvoyance, eloquence, etc.,
a sky blue light.
Umlaut A, ae Transformation through release of imperfection for change
into other states that are the highest good.
N Supreme Happiness, deep red light.
I The Law of Cause and Effect, an opalescent light.**

Footnotes

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common precursor, or root, of three
of the world's religions:

Judaism, Islam, and Christianity.
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the
earth, and the angels who work with him or her.
The being and the angels share the same name.
This name is a key to their powers and influence.
Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of
Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE
OF MAGICAL EVOCATION, ISBN 3-921338-02-6,
and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE
QUABALLAH, ISBN 3-921338-12-4].
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.
These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician",
gives historical background and was compiled by his German publisher from notes written by Franz
Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are healed.

**Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .**

I give thanks that this is done.

SO BE IT!
