Today is a supermoon full moon at this degree.
The full moon is 1 Virgo, the heavenly hosts of politics.
The sun shines heart wisdom
and the moon reflects it,
illuminating darkness with beautiful light.

1 degree Pisces

The Angels of Heart Wisdom

Also known as

The Angels of

Haja

Beloved,

The constellation of Pisces,
like the other two water signs,
opens initiations of flowing emotions.

Whereas Scorpio flows divine love, and Cancer flows divine
willpower,
Pisces is the last constellation of cosmic completion,
and opens initiations of flowing emotions of Divine
Wisdom,
which is the offspring of Divine Will conjoined with Divine
Love.

In wisdom, the head and the heart work together.

*The heart generates plasma, which is
life.*

*The heart is first to develop in the
womb,
and after birth can generate a tube toriodial
energy field
that surrounds the body
that is over 5,000 times stronger than the energy
field produced by the brain.*

**That is why living centered in the heart
is the path of heaven on earth to the enlightened.**

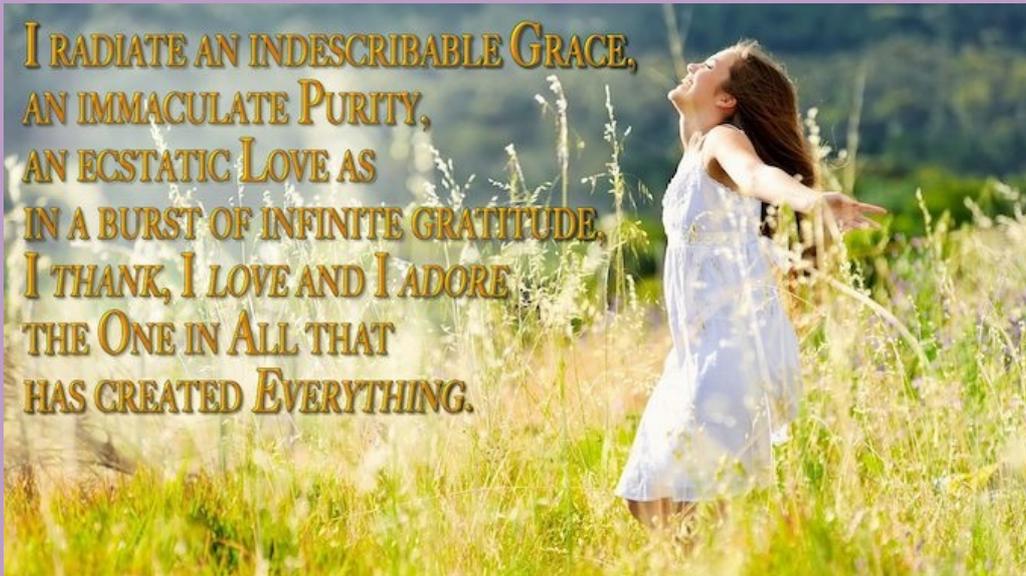

Instead of being centered in the genitals,
which is physical reality,
or the emotions,
which are located in the abdomen,
or the throat,
which is creativity,
or the head,
which is subtle realms of enlightenment and intent,
a person joins all the realms
in the heart,
and stays centered there,

in love.

Love conquers all.

**The heart is *The Throne*
and actual Fountain
*of Cosmic Flowing Love.***

When the heart has been wounded,
and is guarded or shut down,
life also becomes guarded and shuts down.

**I RADIATE AN INDESCRIBABLE GRACE,
AN IMMACULATE PURITY,
AN ECSTATIC LOVE AS
IN A BURST OF INFINITE GRATITUDE,
I THANK, I LOVE AND I ADORE
THE ONE IN ALL THAT
HAS CREATED EVERYTHING.**

***It has been said that the longest journey
is the journey from the head to the heart.***

Divine Will and thought is the essence of the spirit,
the electrical creative aspect of Divinity in each person.
Divine Emotion and Sensation is the essence of the soul,
the magnetic receptive aspect of Divinity in each person.

The heart is the mediating connection between spirit and soul.

There are three chackras, or spinning vortexes of energy
connected to glandular centers above the heart,
and three chackras below the heart,
making seven in all.

These seven are opposite charges in men and women.

Electricity spins clockwise, magnetism spins counterclockwise.

The three above the heart, in a man, the spirit, which is masculine,
electric, being, will, and mind, and creativity,
there are two chackras that have a clockwise spin, and one chackra,
the third eye, has a counter clockwise spin.

The three below the heart in a man are the soul of receptivity and
magnetism, the divine feminine,
and are flowing feelings and emotion, relationship, and physical form.

In a man two chakras have a clockwise spin, and one, the womb, has a counter clockwise spin.

**This is why a man gives to a woman on four levels,
while he receives from a woman on three levels**

**The heart, the mediating chakra between the three above and the three below,
in women is masculine, electric, or clockwise,
and in men it is feminine, magnetic, or counterclockwise.**

That is why it is written that behind every successful man is a loving woman!

**As men nurture and protect the divine feminine in all her forms,
and receive her deep divine love and gratitude into their own hearts,
their hearts too emit an even more amazing powerful energy field of life giving plasma.**

**Just as a tiny sperm is received by the divine feminine
and is joined with her egg and changed into a living being,
so too, when a man receives true divine love and gratitude from a woman,
that joins with his longing to create a new reality,
the energy is changed into a miracle
that is more than the sum of the two parts.**

**In Pisces, the journey of spiritual maturity is completed,
and the loving life giving heart of the divine feminine becomes the center of intelligence.**

"Love conquers all."

**This activates scalar waves that unite heaven and earth along the spine
and chakra system,
enlivening powerful psychoactive compounds from corresponding glands into the bloodstream.**

Divine love heals emotions of the soul and conditions of the body as well as the will and the mind of spirit.

**Because emotions attract specific physical realities
out of the quantum field of infinite possibility,
emotions must be positive and life giving for earth to manifest as heaven.**

Only love conquers wounded emotions.

It is well known that motivation, not confrontation, is most effective in actually healing addictions.

All life heals from love of the nurturing heart of the goddess.

**Remember that when the soul is open and flowing, in safety and peace,
an open heart generates a tube torus energy field that is 5000 times stronger
than the energy field of the brain.**

As a Child of Light is in the heart, and meditates in a whole brain manner

**according to the wisdom of love in the heart,
beautiful emotions of any of the divine qualities,
which are the focus of The Power of the Word,
manifest the original purity of all ideas in Divine Mind on Earth.**

**This is why in nature a man's beard connects the front of the cranial
sphere to the heart,
and long hair on the head of both men and women
connects the brain to the heart chakra and other energy centers along
the spine.**

**NOW is the time of regaining whole brain awareness,
so that the heavenly hosts and the children of Earth
create splendor and majesty in this new cycle together.**

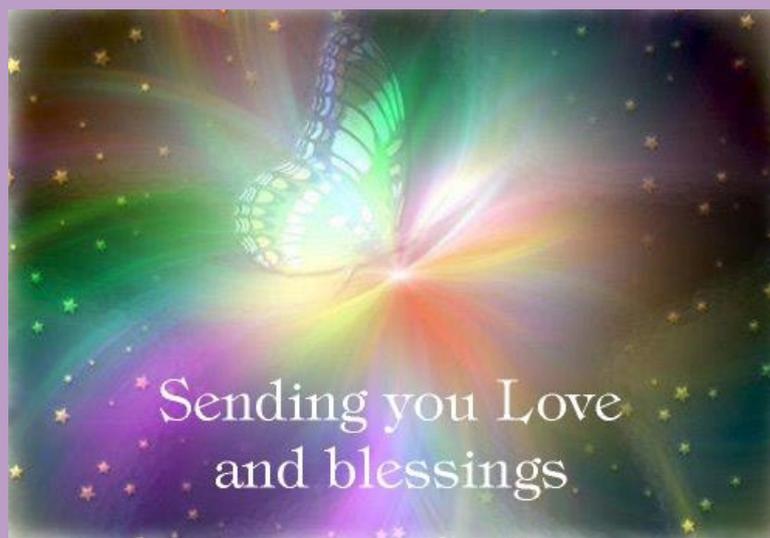

**Emotions are processed in the Alpha state of approximately 6 to 12
oscillations per second.**

If emotions are negative and unhealed, blocked or numbed out, then this part
of whole brain awareness,
the emotional awareness, the soul,
needs healing,
so that the heart is no longer afraid to open and be vulnerable,
and the miracle of an open heart can awaken Heaven on Earth,
so that joy can manifest in life.

**We, the heavenly hosts of Haja,
offer to World Servers deeper understanding of The Power of the Word,
greater access to wisdom and enlightenment
and the power of transformation,
especially of the emotional nature.**

**This initiation of Cosmic Love
in turn leads to even greater wisdom
and enlightenment and transformation.**

**Remember that transformation, umlaut A, ae,
is the RELEASE of imperfections, including in emotions,
in the microcosm or the macrocosm,
for changes into other states that are the highest good of all.**

For imperfect emotions to release, they must first be connected with.

**By becoming aware of anger, sadness, fear, or sorrow,
and thanking these emotional states for all the wisdom
you have gained from experiencing them,
you will see that emotions heal themselves quickly in the
energy of validation and gratitude.**

**It is only when we don't realize the healing power that is inherent in energy itself,
on all continuums and brainwave levels,
that we become fearful or hopeless.**

**Fear and hopelessness is a self fulfilling prophecy,
and the discovery of faith and wisdom frees a person
from consciously or unconsciously
creating a self perpetuating negative feedback loop.**

**All-embracing Divine Love is the highest of all the Divine Virtues,
which why it leads to ultimate wisdom and enlightenment.**

**This love is the greatest power in all creation
and holds the fabric of creation together through magnetism.**

**With emotions of all-embracing love,
a person has the correct frequency of magnetism
to attract miracles onto the physical plane.**

Gratitude is part of all embracing love.

**Remember, that by creating enlightenment,
through the power of transformation,
and flowing emotions of Divine Cosmic Love,
Paradise is attracted into form.**

**The Children of Light attract into form the original purity of all ideas in
Divine Mind
through flowing emotions of wisdom in the love of the heart.**

**Since this is the first degree of Pisces,
we wish to give a brief overview of the flow of divine consciousness
as it embodies the water constellations of Scorpio, Cancer, and Pisces.**

**There are two types of Power; electric and magnetic,
which are masculine and feminine, or will and emotions.**

**The Masculine Power comes from a state of PURE BEING and unity
with Divine Being and all creation
in the Unified Field
and is a combination of will [Delta brainwaves] and deep inner thought
[Theta brainwaves].**

**The Feminine Power is Emotions [Alpha brainwaves]
that attract manifestation into the physical dimension of matter and
form [Beta brainwaves].**

**Divine Providence has three attributes.
They are Love, Wisdom, and Will.**

**Each of these three attributes expresses itself through the four levels of
will, mind, emotion, and sensation,
which are the four brainwave patterns.**

**The three attributes [Love, Wisdom, Will] times the four levels [Will,
Thought, Emotion, Sensation]
make twelve groups in all.**

**All together they represent the twelve astrological constellations of the
zodiac in the zone girdling the Earth.**

**The heavenly hosts of Scorpio, Cancer, and Pisces represent mastery of
the Feminine Power,
which is flowing magnetic energy of emotions, change, and fluidity.**

From these initiations come mastery of Alpha brainwave patterns.

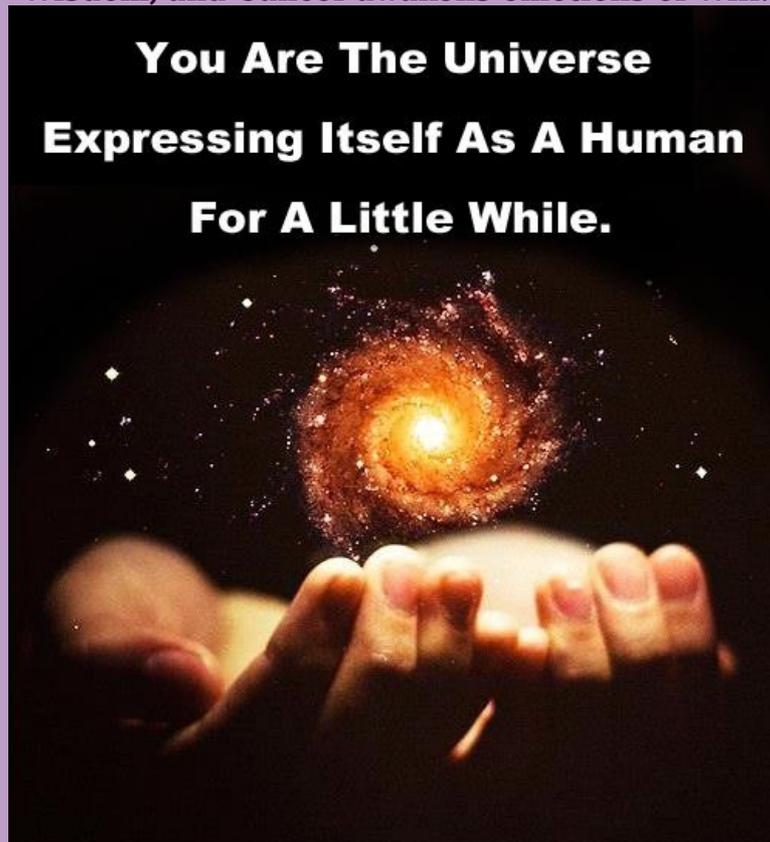

Alpha brainwave patterns are predominantly developed and dominant during adolescence.

On the path to enlightenment it is important to access all ages, including the adolescent self within, to have whole brain awareness.

"Ye must be as little children to enter the kingdom of heaven."

Therefore, in the initiations of Scorpio, Cancer, and Pisces, a Child of Light accesses awareness of adolescence, of flowing emotions.

Scorpio awakens emotions of Love, Pisces awakens emotions of Wisdom, and Cancer awakens emotions of Will.

Mastery of Feminine magnetism of flowing emotions is necessary for the mastery of the physical plane, because emotions attract matter into form.

In Scorpio, Pisces, and Cancer, the Children of Light learn how to flow with powerful divine emotions.

The feminine power of flowing emotions is the inner essence of water, and both emotions and water must flow freely to remain clean and pure.

**Strong flows of emotion from the heart attract and give birth to Heaven on Earth
as emotions of Cosmic Love [Scorpio]
join with strong emotions of Will [Cancer],
that together result in flowing emotions of Wisdom [Pisces].**

Emotions of Love and Will joined together in Pisces bring about Cosmic Completion as Heaven manifests on Earth.

Therefore, Pisces is the last constellation of the zodiac.

Pisces is the last constellation of a cycle and prepares for a new turn of

**the astrological wheel,
the beginning of spring,
of new birth and a new cycle.**

**Pisces is the wise flowing emotions of a heart that has taken Aquarian
creative genius and willpower
to unite all polarities into harmonious aspects of the One Being,
completing the circle of the one and the many,
the Alpha and the Omega, Heaven and Earth.**

**The sign of Pisces is two fishes swimming in opposite directions in a
circle,
which forms a scalar wave,
or a caduceus.**

**Pisces represents flowing with wise emotions
concerning whichever polarities Divine Providence has provided ,
attracting a cyclic process of manifesting them with cosmic love
and divine will rhythmically on the physical plane.**

**An example of two opposite qualities manifesting together as a scalar
wave
is the precession of the equinoxes,
which are the slower 2000 + year cycles in which the astrological clock
goes clockwise
[which is why the Earth has just left the Piscean
Age and is entering the Aquarian Age]
at the same time that we are leaving mental Aquarius
to enter the emotional Pisces on a monthly level.**

**Another polarity expressed here is that of speed --fast and slow-- in that
one
clockwise spin of an Age is composed of over 2000 counterclockwise
spins of the years that make up an age.**

**Clockwise is masculine divine will and thought.
Counterclockwise is feminine emotions and sensations [form].**

**The entire universe is made up of wheels within wheels,
turning in opposite directions at different speeds.**

**At this time many of these wheels, large and small,
are reaching a completion of turns at the same exact time as a whole
new universal cycle is beginning.**

**The Mayans call this "The Time of the Enchantment",
they also call it "The Ancient Future",
and "The Age of Flowers".**

**This is why the prophets have said that NOW is the time of
High Magic or Miracles,
a time of giving birth to Paradise,
a new Heaven and a new Earth.**

MIRACLES

Haja

**H. This letter represents The Power of the Word. The color of this divine
virtue is**

silvery violet, the musical note is A, the element is fire so it has the sensation of warmth.

The right arm is formed from it.

This virtue of The Power Of The Word is the out picturing of divine virtues

in being, will, thoughts, emotions, and then into sensations in meditation.

This is done by meditating on the divine virtue with colors, meanings, emotions, and sounds in a whole brain manner.

Each letter represents a divine virtue.

The ancient language is the use of each letter so that the entire brain and body are utilized in being, will, thoughts, emotions, and sensations.

Different chackras, or glands, respond to different divine virtues. By using The Power of the Word, specific desired neurotransmitters are produced.

In speaking the letter A, for instance, first a person goes into deep Delta brainwaves

and experiences pure being and unity with Divine Being and all Creation.

Then the virtue of enlightenment is identified with as being part of one's self.

**A [soft A, ah] is imagined as the color sky blue shining from a tiny sun in the lung region
Align individual will with Divine WILL for all wisdom and enlightenment of Divine Mind.**

Then, in deep inner thought, CONTEMPLATE wisdom and enlightenment, the original purity of all ideas in Divine Mind.

The sound of Ah is toned with the musical note of G, while flowing with emotions of wisdom and enlightenment, eloquence, artistic talent, clairaudience, and clairvoyance.

It is imagined with the SENSATIONS of ease, because this virtue is of the air element of thought.

This exercise utilizes the entire brain, and stimulates powerful glands to produce neurotransmitters that lead to higher consciousness.

In other words, the Delta brainwave, which is the brainwave pattern of pure being, is used with WILL, the Theta brainwave of deep inward thought is used with CONTEMPLATION, the Alpha brainwave of emotion is used with emotions, and the Beta brainwave of the five senses, memory, and logic is used with SENSATIONS.

This is done from the point of view of the "As above, so below."

The ancients have left us this technique for doing this:

Imagine yourself as a tiny dot located in your own solar plexus with your body

as an infinitely huge universe all around you.

From this vantage point, imagine the light blue radiance shining from a tiny sun in the lung area.

At the same time, contemplate on wisdom and enlightenment with the sensation of ease filling the entire body.

Feel emotions of wisdom and enlightenment while toning the letter A in the musical note of G.

With the out breath, see this light blue radiance passing through the pores of the skin over the lungs and filling whatever inner guidance so directs. With the in breath see this light blue radiance coming in through these same pores and filling the body, or part of the body.

Keep the breathing rhythm natural and dissolve the light in the body when the meditation is finished in order to keep the elements of the body in balance.

This becomes easy and automatic with practice, as in learning any language.

In using the Power of the Word, a Child of Light learns to understand how Divine Providence created everything.

A. This is the sound of the divine virtue of highest wisdom and enlightenment.

This sound [soft as in a sigh-ahhhhh] and virtue is an initiation into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind. Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed. Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by meditating on this virtue.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

umlaut A, long A, ae .The realization of wishes regarding physical matter is subjected to this virtue.

The sound of this letter, the long A, ae, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another'.

Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

'The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened person's point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings, it would be impossible to distinguish
between good and evil;
and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible:
"through night to light", the deep symbolic meaning of which now
becomes clear.

In the intellect the ability is gained to 'see through all thoughts, actions
and wishes concerning matter,
and of becoming their absolute master.

In the feelings, this virtue represents desires, passions,
and the inclination to self-satisfaction etc.

A person who masters this virtue
in their feelings

becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to imperfect mental, emotional, and
material values and objects.

This means complete independence and freedom and fulfills the saying
"bind yourself and you will be free".

On the material level this virtue is one of the most materialized. No
matter whether you evoke it in the mind, the emotions, the akasha, or
the

material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C.
The element is earth so it has the sensation of weight. The anus is
formed from this virtue.

J. Akasha: in the akasha principle, the principle of
consciousness-penetrating-all, the oscillation of J is the highest, all
embracing
love, that is, of cosmic love. Meditating on this virtue enables a person
to
comprehend and feel this love, which is one of the highest divine
virtues, in all
its aspects, in the microcosm [the person's own self] as well as the
macrocosm [the outer universe].

Mental: Mentally seen, Cosmic Love expresses the mystery of rapture
or ecstasy in
its highest form. Cosmic Love makes one comprehend, master and
evoke at will the
mystery of all four forms of ecstasy that are analogous to the elements.

If a person masters the virtue of cosmic love, he/she is able to evoke any
ecstasy,
especially ecstasies that are analogous to the love element, the water
element.

It should be noted, however, that an ecstasy evoked in this way has
nothing to do with
a hypnotic ecstasy or with a state of trance which usually serves
somnanbulistic purposes.

In our case, we talk of the ecstasy of one or several qualities of the
spirit.

Thus, there exists, for instance, an ecstasy of will,
intellect [most enlightened intellect], love and consciousness.

With Cosmic Love, two of these
states [if necessary even all four of them]
may be evoked at will either in one's own or in somebody else's spirit.

A state in which all four elements are equally brought into highest

ecstasy
can hardly be comprehensible to a non-initiate and cannot be described
by mere words.'

Astral: Cosmic love is analogous to all laws of sympathy and attractive
power in the emotions.

It helps one to achieve the ability of mastering, evoking or diminishing
love and sympathy at will,
in human beings as well as in animals.

All the mysteries of love miracles relating to man, beings and Godheads
are
revealed to the person who commands this virtue.

Material: In the material world Cosmic Love corresponds to the
progenitive act of man, woman, and animal. A person who masters
Cosmic Love in the
material body is able to evoke the sexual desire in man, woman, and
animal, and to
increase it: he/she is also able to predetermine and influence the sex of
the
expected child, and, above that, to bestow all the desired qualities on
the child at the
moment of the sexual act. Many other mysteries of love in its highest
and lowest
fore, in all phases and spheres, are revealed to the person mastering
Cosmic Love.'

The color is dark opal, it is the water element so it has the sensation of
coolness
or chill. The musical note is G-sharp and the diaphragm, or midriff, is
created from it.

A. This is the sound of the divine virtue of highest wisdom and
enlightenment.

'This sound [soft as in a sigh-ahhhhh] and virtue is an initiation
into the highest wisdom and the purity of all ideas.

This has as a fundamental feature the enlightened mind. Reasoning,
perception, the
cognition of the most profound truths, highest knowledge,
high intelligence, and the arousing of all intellectual faculties are
expressed.

Musical gifts, eloquence,
poetic talent, and clairvoyance, clairaudience, the art of levitation,
and the control of the air element and its beings are all aroused by
meditating on this virtue.

On the physical plane the command of the beings of the air, control over

are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is

Umlaut A, ae. the mysteries of life and death
and transformation through release of imperfection for change into
other states.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

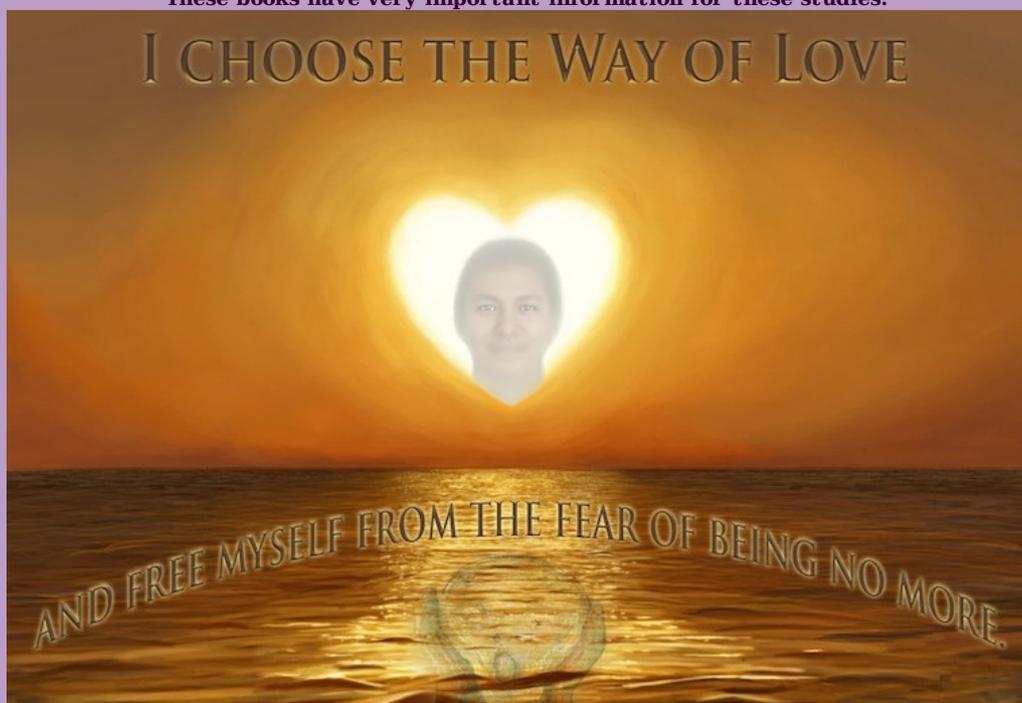

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.
These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
