The Angels of Philanthropy

Also known as

The Angels

of

Echami

Beloved,

*By giving freely,
for the sake of giving itself,
a person receives effects that far
outweigh
any preconceived returns.*

**We help people discover
that the most fulfilling wonders on the path of
world service
are the joys of unconditional giving.**

***We teach people to perform good deeds for no
other reason than kindness
and best wishes for everyone.***

**Through the divine virtues of Echami,
we teach the Children of Light the original divine
blueprints
of how to interact with each other on the Earth.**

**As the Children of Light act with powerful cosmic divine will to nourish
all,
with flowing emotions of divine all embracing love,
with no thought of personal return,
the energy of the action goes out quickly,
without any built in limitations,
to wherever it is sent.**

It goes into all eternity with great power and no limitations.

**These energies of nourishing all then,
through the Laws of Cause and Effect,
attract more and more nourishment and all-embracing love to the
senders.**

"Ye reap what you sow."

**We help those who journey on a path to spiritual perfection understand
the nature of energy,
which by its very nature must expand and move in cycles and rhythms.**

***A LIFE PATH DEAD ENDS
when the road itself is too narrow
and fails to link up in divine love
with anything outside of itself.***

We are the heavenly hosts of Karma-Yoga.

Love itself is plasma, life energy.

***What you do for others comes back to you,
for all is ONE,***

so what you do for others you do also for yourself.

The energy of loving nourishing actions expands into infinity with the maximum charge it is created with, collecting more and more of itself, through the magnetic attraction of the original emotions of divine virtues.

Love is plasma, it comes from the heart which is the first organ to develop in the womb.
The heart, when happy and flowing, creates a tube torus field that is 5,000 times stronger than that of the brain.

By opening hearts, flowing love blesses all with life, in whatever ways guidance directs, in each and every moment and situation.

All energy travels in circular motions, so when all of this energy comes back to the original senders, it can return from everywhere, from all of space, and can extend throughout time.

This is karma-yoga,
the yoga of bliss through reaping the results of service to all.

Because we are all one, when harm is done, to self or others, it affects everyone.
When help is done, to self or others, it affects everyone.

A female incarnation of Divine Being is magnetic.
A male incarnation is electric.

As a woman takes good care of herself, and gives to herself, in loving ways, she, in turn, stays strong, and her heart blesses all around her.
As a man gives to others, in wise and creative ways, he, in turn, reaps the satisfaction and harmony and love that he has created for others and in so doing blesses himself.

There are seven energy centers in the body.
They alternate electric and magnetic up the spine.

They are opposite and complimentary in self and others, male and female.

A man's first, third, fifth and seventh chakras are electric.
His second, fourth, and sixth chakras are magnetic.

A woman's second, fourth, and sixth chakras are electric.
Her first, third, fifth, and seventh chakras are magnetic.

The sacred marriage of these chakras, which are spinning vortexes of energy activating physical glands, is made possible through manifesting the original divine plan of divinity in each person.

That is why the happiness of women and all that is physical and emotional, creative and divine must be protected and nurtured by masculine powers, both within her and from outside relationships.

And this is why the will, creativity, emotions and physical powers of the masculine must receive the plasma of blazing love, relationship, and recognition, from within himself and as well as from outside relationships.

This is the scalar wave between masculine and feminine that anchors

divine bliss.

The return happens of itself.

**Philanthropy, therefore, is guidance from the experience of ONENESS
with all,
oneness within the self and also oneness with all others.**

**This oneness is the source of divine creativity, emotional bliss, and
physical perfection.**

**We teach people how unselfish deeds are valued from the point of view
of the Akasha-principle, which is the principle of Divine Being--
penetrating-all.**

**We show how unselfish deeds are rewarded with
various kinds of mystical faculties and with delivery from unpleasant
results.**

***Once seekers understand how energy works within the universe,
they long for opportunities to do unselfish deeds.***

**Attain the realization of the fourfold nature of reality.
Whatever exists in the physical world does so by the fact that it first
existed in emotions, thoughts, and will.**

**To cause effects in the physical world, create changes in will, thoughts,
and emotions.**

**By making changes in the inner world, create changes in the outer
world.**

The same laws apply to the micro and the macrocosm.

As above, so below. As within, so without.

**By uniting individual will, thoughts, emotions and sensations with
Divine Will, Thoughts, Emotions, and Sensations, a Child of Light brings
Heaven to Earth.**

**Let your heart become the embodiment of the archetype of a divine
cornucopia
of goodness that brings joy to all beings.**

**Those who have not experienced the joy and satisfaction that comes
from "pure service"
can learn much about bliss and emotions of peace.**

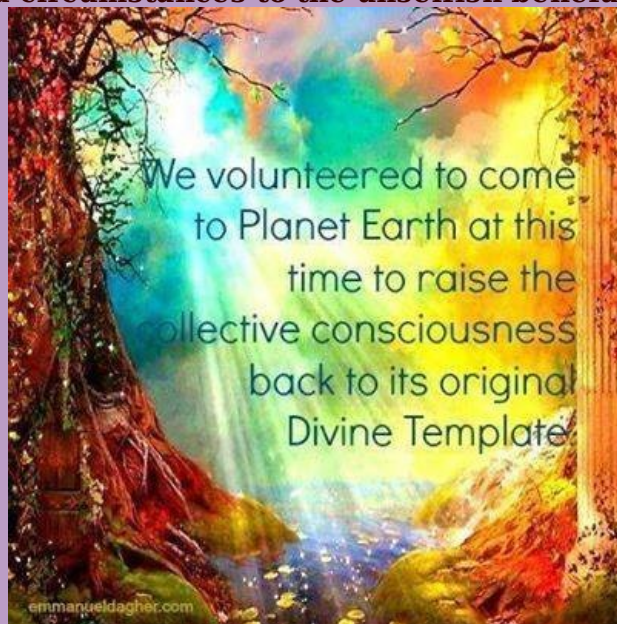

**One of the greatest gifts one can give oneself is the "full cup" of
unspeakable fulfillment
that comes from unselfish service through World Service.**

Omnipresence is the divine virtue of letter E of Echami.

**By meditating on this virtue, which shines with a deep purple light, a
Child of Light
identifies with Divine Being and with the Unified Field,
and experiences loving unity with all beings throughout all times and
spaces.**

**In the area of service to humanity, any effort to benefit others,
without attachment to getting credit or payment for it,
leads to a return which is surprisingly more wonderful than words can
describe.**

**The greater the numbers of beings which are helped, the more
powerful are the resultant good feelings
and circumstances to the unselfish benefactor.**

**Clarity and perfect purity of emotion are the divine virtues of Ch, which
shines with a medium violet light.**

**By meditating on this virtue, a person communicates deeply with others
and becomes one in emotions with the original purity of all ideas in
Divine Mind.**

**Mental understanding of the original purity of all ideas in Divine Mind
is Wisdom and Enlightenment, the divine virtue of letter A. This virtue
shines with a sky blue light.**

**This leads to release of imperfections for changes into other states that
are the highest good,
the virtue of umlaut A, ae, shining with a loamy brown light.**

**By opening the heart and flowing with strong divine emotions, a Child
of Light becomes one with the virtue of letter M, which shines with a
beautiful blue green light.**

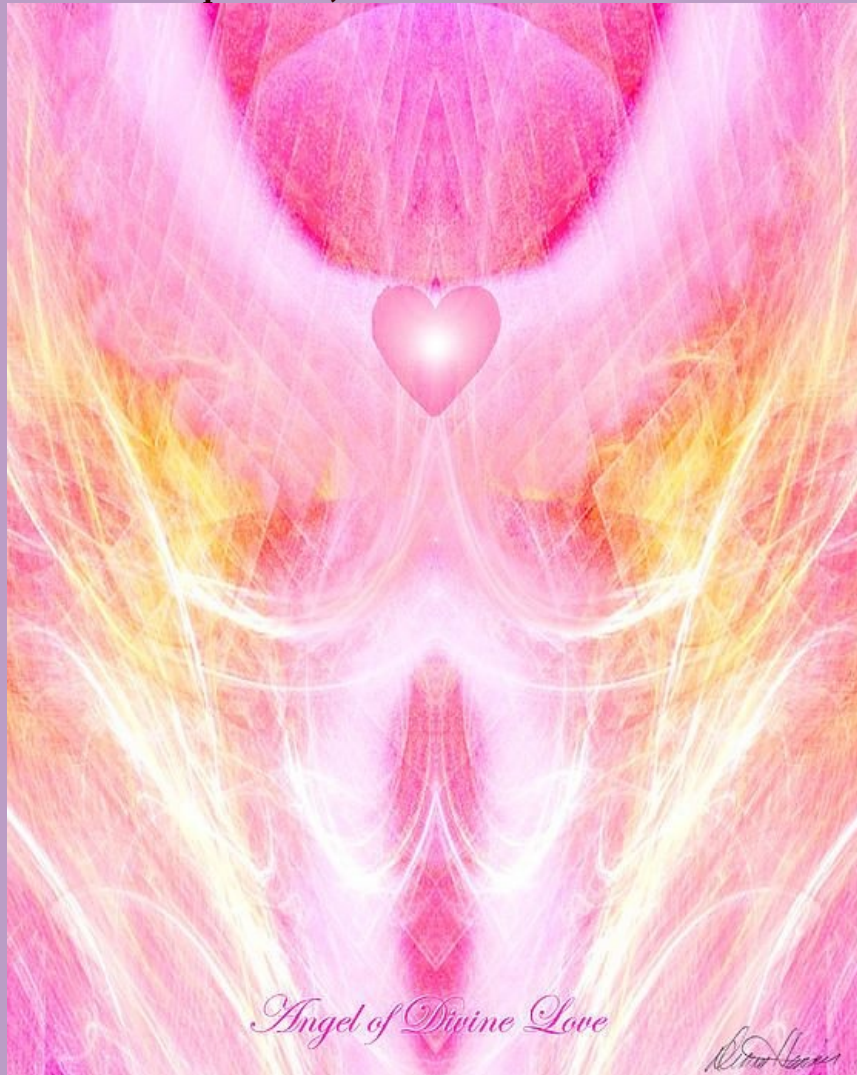

**The ability to flow with strong emotions of
divine virtues gives a Child of Light mastery over magnetism,
the ability to attract realities of perfection into physical manifestation.**

**And finally, understanding the Laws of Cause and Effect, the letter I,
opens up memory, remembrance, and conscience.
This virtue also reveals the secrets of breath to create.
It shines with a light opalescent radiance.**

These virtues help a person to benefit self and others equally, through love and identification with All, instead of seeking only to benefit the limited self, aiming for personal gain alone, without consideration of the "highest good of all".

Without these virtues, the search for personal success is elusive for people that seek "the good life" for themselves.

According to superficial social values, when a winner achieves "complete success", in spite of accomplishing every goal, there are historically feelings of disappointment leading to soul searching and the question, "Is this all there is?"

A LIFE PATH DEAD ENDS when the road itself is too narrow and fails to link up in divine love with anything outside of itself.

Therefore, as a person performs an action with the purpose of reaping some commensurate reward, they usually do not know that the same amount of energy expended on a kind and selfless deed brings about rewards that are much greater than could rationally be expected.

The greater the thrust of energy from the source, the further the energy travels.

The thrust of energy of an action corresponds to the intensity of the will and emotions with which it is performed.

The emotions that a person feels when performing the action are magnetic and attract more of the same kind of energy to itself.

The stronger the emotions, the greater the magnetic attraction to similar energy.

The intensity of resultant charge determines how fast and far the energy goes out.

If an action is performed for some specific reward, the limits of the energy of the action are built incircumscribed by the imagination and intent of the nature of the reward.

Another way to explain it is that the outgoing energy is being held back by the persons limiting concepts and attachment to it.

Usually such an action is accompanied by emotions of neediness, of competition, or envy.

These emotions attract more of themselves and out picture situations in the physical realm that embody them.

For example, a person attracting a large mansion with such powerful negative emotions often finds that there are needy, competitive, and envious people drawn into their lives who have much bigger and grander mansions, making the new mansion, their new trophy-home, appear small and inadequate yet again.

When an action is performed simply for the goodness of it, with no thought of personal reward, then there is no limit to the flow of the energy.

It will go out into infinity to bless all beings with a force corresponding to the intensity of the will with which it was performed, drawing to itself similar energy to the loving abundant emotions with which it was performed.

When this happens, the person who sent it out can receive this same energy, greatly potentized, FROM EVERYWHERE through all TIME.

The letters of our name are the formula of philanthropy for all sentient beings:

EAll beings everywhere throughout Creation are part of one Unified Being.

Ch By flowing with divine emotions of perfect clarity and purity and having enlightenment and wisdom of the original purity of all ideas,

Umlaut A, aetransformation of imperfection through release occurs Mand with a heart full of kindness and love,

I a Child of Light creates Paradise in each situation according to the true nature of Cause and Effect.

Our melody is the musical notes of D, D sharp, G, C, D,G, in this order.

MIRACLES

By meditating on the divine virtues of our name, it is possible to attract to yourself such an opportunity in all situations.

Echami

The divine virtue of omnipresence is represented by this letter in the ancient language. Meditate on a deep violet color filling your body and imagine the note of D ringing.

Feel the sense of God-penetrating-all, and meditate on the ONE LIFE and consciousness that fills all of space and all beings.

This virtue gives control over the emotions of self and others, because in this state the consciousness is one with all consciousness everywhere.

Divine Consciousness is omnipresent. Divine Consciousness is everywhere.

The ability to merge individual consciousness with Divine Consciousness is the essence of intuitive wisdom. This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.

Meditating on this virtue unites normal consciousness with universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principle, omnipresence yourself.

This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.

You attain the highest form of intuition in your mental world; you are able to transfer your consciousness so that there exists no sense of time and space.

Divinity in His highest form is then able to speak through you.

The most profound mysteries of materialization and dematerialization become obvious to you as you master this virtue through meditation.

Everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it will become physically visible.

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

ChAkasha: In the principle of consciousness-penetrating-all, the virtue of clarity and perfect purity is manifested by the oscillation of letter Ch.

A person who masters this achieves the faculty of differentiating the clear from the unclear, to eliminate any obscurities and to perceive and understand everything in its purest form. All that is meant by the word, the purity of all ideas is expressed by this letter oscillation.

Mental:By the help of this virtue, the spirit, or intellect, learns to consciously perceive and understand all the languages of the universe, i.e., all the languages of the spheres and planes in their utmost clarity, and gain the faculty not only of understanding all spiritual beings, men, and animals, but also of being understood by them all.

All symbols existing in the universe are understood.

Astral:In the emotional body, a person attains the faculty of understanding and practically applying rhythm in all its phases in the macro- and the microcosm, which means in his/her own physical body and in the outer world .

By this one achieves the power over life and death of every being in all spheres and planes.

If it is desirable, a person may awake the dead to life again or revive any decayed plant since he has been revealed, by this letter oscillation, the secret of rhythm, i.e., the secret of life.

Material: In the material world this virtue is analogous to the water element.

It bestows the faculty of solving all the mysteries of the water element and the magnetic fluid [emotion] in all analogies and of mastering them at will.

The water element comes under his/her will.

A Wisdom and Enlightenment come to those who meditate with the intent of becoming one with Divine Mind.

Visualize the light blue color and fill yourself with a sense of ease as you meditate upon the virtue of wisdom and enlightenment.

In this state, the purity of all original ideas becomes known.

This virtue awakens artistic gifts and mystical faculties such as clairvoyance and telepathy.

umlaut A, ae, the virtue of transformation.

This is the mastery of negative passions and beings through releasing them for change into other states

that are the highest good, and detachment from rigidity in thoughts, emotions, and ownership of anything that is not serving the highest good, including physical goods.

It is the understanding and mastery of life and death, of change, of good and evil, and why Divine Providence uses these for the purpose of transformation.

With this virtue, any difficulty with having attachments is overcome

successfully.

The color is loamy brown, the musical note is C, and it is the earth element and has the sensation of weight.

The anus is formed from this virtue.

M This letter represents flowing divine emotions.

Emotions are the attractive feminine magnetism of the universe.

Emotions create new realities on the physical plane through attraction.

With this virtue comes flow intelligence.

Flow intelligence is the ability to use streaming intuition and emotions in present time in the process of creation.

By flowing with emotions within the heart, the magnetic power to transform reality is attained.

This divine virtue of emotion is the water element, so it has the sensation of coolness. Its color is blue-green, its musical note is D, and the abdomens of all the children of God were formed by this virtue.

I The sound of this letter is the virtue of cause and effect, which is the karma law. On the mental level, this is analogous to memory, remembrance and conscience.

In the emotional body, this corresponds to the astral/physical matrix, which is the connection between emotion and physical form, with all of its functions.

On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

As one can see, shape, measure, number and weight are the chief components of the material world,

and by getting this letter oscillation under control, the child of God becomes their absolute master.

It stands to reason that he/she also becomes a perfect metaphysician, too and, furthermore, to comprehend all laws presently still unknown to our physical world and to apply them, as he/she pleases, in all fields.

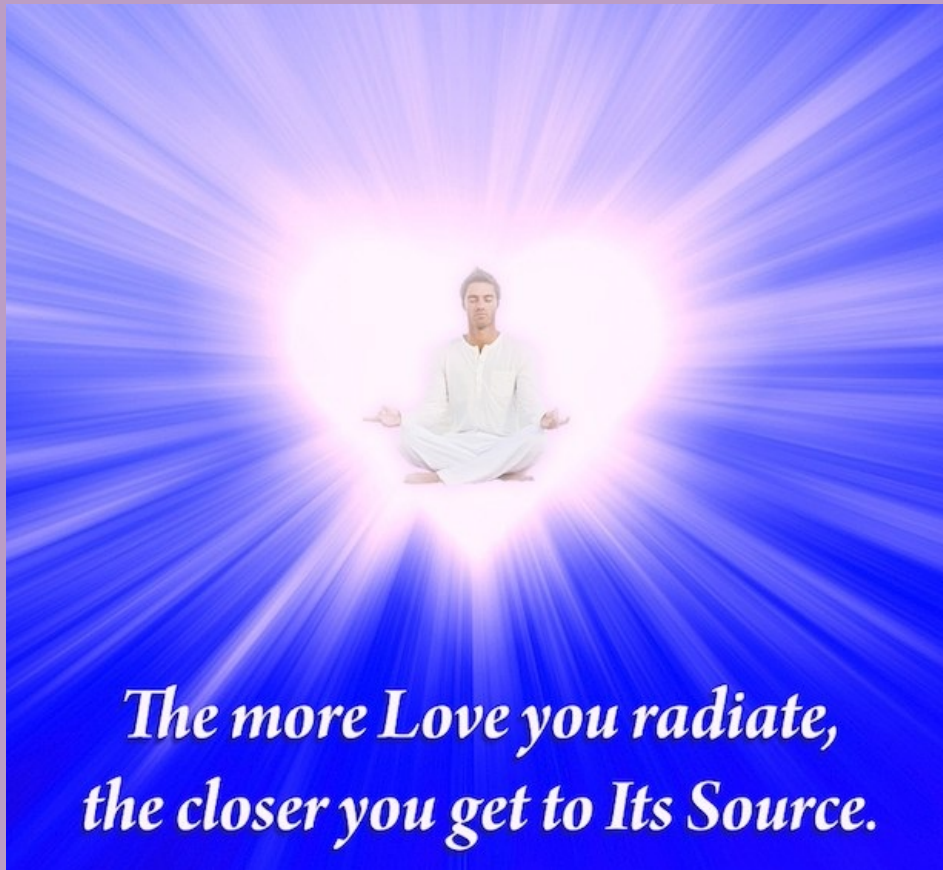

It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.

With the initiation into karma law, which is the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.

All mystical abilities are subject to the mastery of breath.

The color is light opal, the musical note is G, the element is earth so it has a sensation of weight.
The left kidney is formed from this virtue.

MIRACLES

*The more Love you radiate,
the closer you get to Its Source.*

Note:

For those of you using the color and grid locator technique for mental and emotional wandering, as taught in 27 Aquarius, the Angels of Ebaron message;

it is important to use only very pure spiritual color backgrounds and beautiful overlaying patterns and shapes. Also learn and understand The Law of One for your own protection.

If someone uses a color and grid combination that is not a high vibration, there could be danger.

A low vibration color and grid goes to a destination of low consciousness.

The beings of such a place could be very selfish, ancient, cunning, skilled, and powerful. If you come into the aura of such beings, you are in no danger as long as you do not believe they can control you. However, they are sometimes very convincing, cleverly playing on subconscious fears.

In such a place, the way out is using the Law of One and leaving quickly, calling on the help of Christ or the angels of Ebaron, or your personal guardian angels, if you feel you need help.

Invoke the Law of One and leave through intention.

This means that you must use mental willpower to take your mind off of whatever is going on and put it fully to the intention of coming back. You will come back instantly and effortlessly.

This works the same way an intention works with picking up a glass of water.

**Once you make the decision to do it,
the arm automatically picks up the glass. It just does it effortlessly.**

**In any situation anywhere, the Law of One is your most effective and
highest prayer,
gift, protection, and truth.**

Below is the Law of One.

**Memorize it so that you can even say it in your dreams.
In this way you will remember it in all emotional situations.**

**Be sure to think about each line of this law until you feel that you
understand it.**

**If you need to reword it slightly in order to resonate
with it better, this is recommended as long as the original meaning is
kept intact.**

LAW OF ONE:

WE ARE ALL ONE

WHEN ONE IS HARMED, ALL ARE HARMED.

WHEN ONE IS HELPED, ALL ARE HELPED.

THEREFORE, IN THE NAME OF WHO I AM;

AND I AM ONE WITH ALL THERE IS,

I ASK THAT ONLY THE HIGHEST GOOD

OF ALL CONCERNED

HAPPEN HERE.

I GIVE THANKS THAT THIS IS DONE.

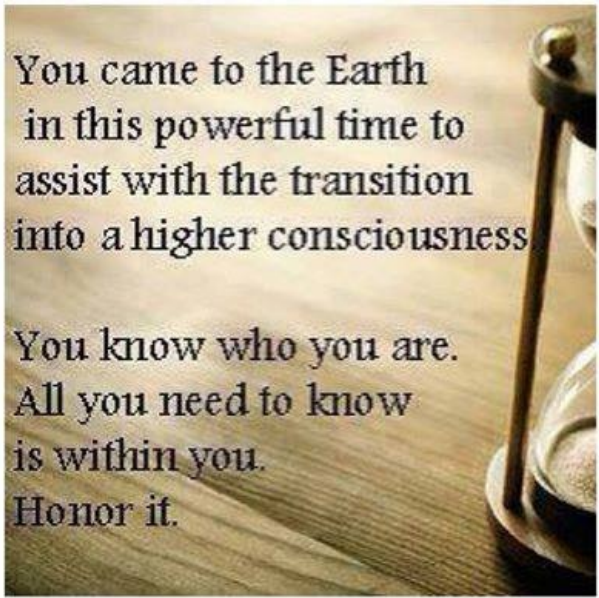

So be it.

Use this law in all situations with complete confidence.

**This is the
Law of Laws in all universes and all times.
It is written in the DNA of all beings that exist.**

It overrides all other laws.

**All beings embrace this law, because they understand it
and because it asks for their highest good along with the highest good
of all others.**

You came to the Earth
in this powerful time to
assist with the transition
into a higher consciousness

You know who you are.
All you need to know
is within you.
Honor it.

Footnotes

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common precursor, or root, of three
of the world's religions:

Judaism, Islam, and Christianity.
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the
earth,
and the angels who work with him or her.

The being and the angels share the same name.
This name is a key to their powers and influence.
Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of
Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE
OF MAGICAL EVOCATION, ISBN 3-921338-02-6,
and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE
QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.
These books have very important information for these studies.
The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz
Bardon.

This book is most important for understanding present day political issues.

We have a yahoo group for people who want to receive only the angel messages and have access to

THE LAW OF ONE

**We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.
