The Angels of Other Worlds

Also known as

The Angels of

Hagomi

Beloved,

**We help people access other realities and journey to other spheres,
we help people move beyond the limitations of the earth.**

**As a person seeks perfection of life on Earth, it is equally important to
mentally
and emotionally explore other spheres,
to learn lessons that are as important as those from teachers on Earth.**

"In my Father's house are MANY mansions."

**Enlightenment involves beings, realms and heavenly bodies outside
Earth itself.**

**Just as Earth has her own gifts, divine qualities, and attributes, other
planets also have unique particular divine blessings meant to uplift the
unified field.**

Everything that has been created, from the smallest snowflake to the largest universe, is unique, each creation is an individual one-of-a-kind expression of Divine Providence.

The exact knowledge, assistance and practices that a person may need at any particular juncture in growth might be found in any part of the created universes and dimensions.

Just as the consciousness of beings can be accessed by calling forth their names (or colors and patterns) or by attuning to their presences vibrationally through intention and omnipresence, similarly all spheres can be accessed for the highest good of all concerned.

We teach people to travel in thought and emotions to other spheres, to learn lessons about Divine Consciousness and Being.

We inspire people to apply this wisdom to manifest miracles on levels of being, will, mind, emotions, and sensations, which is the process of mastering The Power of The Word.

For example, it has long been known that the planet Mercury relates to the art of communication.

By traveling in thought and emotion to this sphere and asking to be taught the secrets of communication, a person can meet wondrous beings who dwell in dimensions connected to Mercury.

There people increase their own skills of communication, and can cause anyone upon the Earth to communicate better as well, through the practice of intent, visualization, emotions, and sensations.

They apply their imaginations and emotions, and ask the Mercury beings to also apply visualizations and emotions, to an individual or to groups or continents of people, or indeed, to the whole world, for the purpose of establishing better communications.

Practice spherical meditation in order to get a sense of its power and practicality.

Here is one of our stories:

SAVING SARAH

Professor Fred sat exhausted and discouraged in his big easy chair.

**It was late afternoon near Christmastime,
and towering oaks outside of his office on the old campus
were backed by shades of blue and tinges of pink.**

He didnt know what to do.

**Sarah, a sweet student in his Wednesday afternoon quantum physics
class,
was severely blocked in understanding concepts that he was teaching,
even though she was trying very hard to understand.**

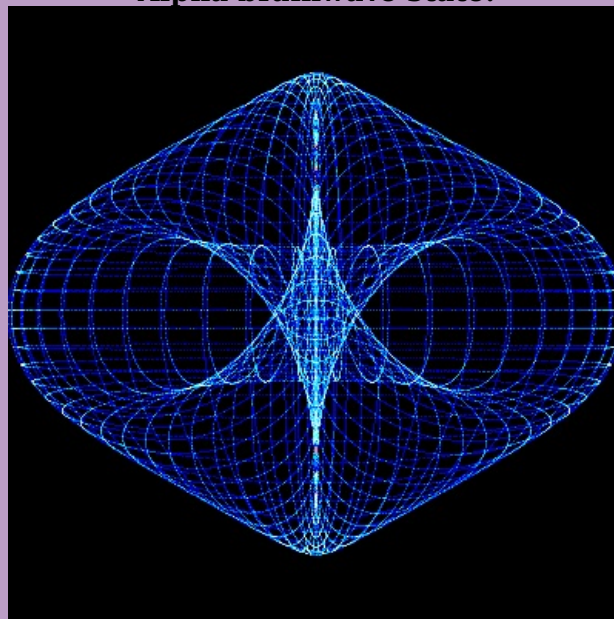

**She had exhausted both herself and him in complete frustration
after numerous special counseling sessions that were to no avail.**

**No matter what books he told her to read, no matter how many ways he
had
tried to simplify and approach the subject from different angles, she did
not get it.**

**Having studied a little about mental wandering, Fred decided to give it
the acid test.**

**He settled down deeper into his favorite overstuffed easy chair and
closed his eyes.**

**He slowed his breathing and felt himself fall into the deep Delta-Theta-
Alpha brainwave state.**

**He summoned the Angels of Hagomi and meditated on the divine
virtues of the letters of their name.**

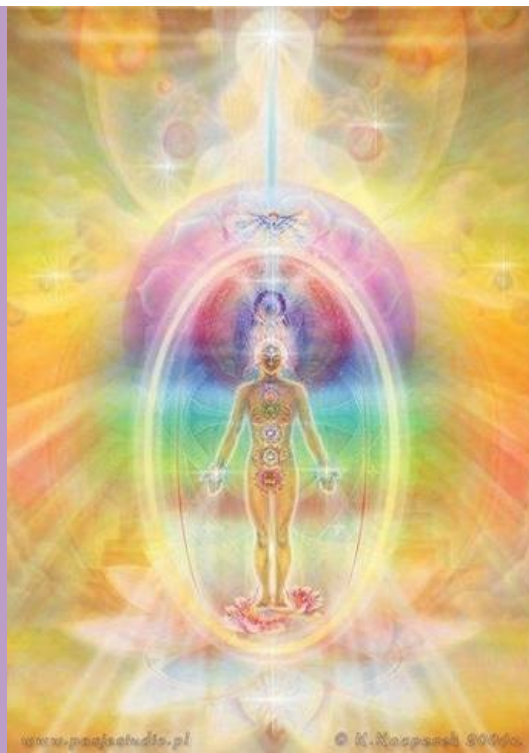

**He asked them to take him to the appropriate sphere
and help him find a suitable teacher to help his blocked student.**

**The angels inspired him to visualize a golden background
with a hexagonal grid in light opal over it.**

He jumped through it in his imagination.

**All of a sudden in vivid inner reality, he was in a different land,
a land of golden light, shot with various other colors.**

A kind being with a wise and penetrating countenance approached him.

Telepathic rapport flowed completely and clearly.

Fred visualized Sarah and their endless counseling sessions filled with grueling effort and frustration.

He visualized the course and information that he wished to impart to her.

Then he offered it up to the powerful being before him for guidance and instruction.

Immediately he saw visions of white and black building blocks against a green background.

He watched in fascination as the blocks began to shift formation, turning, and morphing into new configurations.

He saw the blocks from different angles and saw that everything he had been teaching was being shown to him in visual images instead of linear logical reasoning.

It dawned on him that Sarah was right brain dominant and that this was the only way she would ever comprehend quantum principles.

That had been the problem!

He had been approaching it from a linear logical verbal angle, appropriate only for a left brain dominant person.

He knew what he had to do!

Sarah could understand complex theories in spatial and visual concepts, instead of linear logical explanations.

Just to be sure, he created an image of the whole class, and asked the Being for help with each of the students.

He wanted all of them to understand the wonders of quantum field mechanics on an ongoing basis.

Feeling an affirmative response,

Fred gave deep thanks and felt joyful anticipation for the future.

Flowing with delight, understanding, divine love and grace, he came back to normal consciousness.

After taking down a few notes, he turned off the light, and slept peacefully and gratefully the rest of the night in his chair.

The next day he contacted the computer imaging lab and described the green background with the black and white blocks, carefully guiding the technician through the appropriate visual sequences.

The next Wednesday his classes watched in fascination as the whole quantum theory they had been studying played before them in moving symbols on a screen.

The moment of triumph came as Sarah broke down in tears of joy, amazement and relief.

She was in such delightful shock and amazement that she met privately with him after class.

"Why didnt you tell me it was so simple?", she exclaimed in disbelief!

Fred was overjoyed, heaving a deep sigh of relief, he gave her a fatherly hug, as tears flowed down both their faces.

After that triumphant breakthrough, Fred met often in meditation with his new friend, whom he came to know as Hihauioh.

Fred felt his presence each time he taught and a supernatural electric intensity flowed through all his classes.

He became known as a genius in simplifying complex theories.

The students were aflame with sharp inquiry and penetrating insights.

They were turning out brilliant papers and receiving acclaim.

Some of them later became famous.

Remember, it is important to utilize mental and emotional wandering to other spheres.

**Whether the spheres are in this solar system or others,
the wisdom of the heart knows where to look and how to get there.**

**So much of the wisdom of the ages is kept in these other mansions of
The Divine Kingdom.**

**Remember that the music of the spheres is the combined orchestra of
all
the spheres taken together, for all of them together form the universal
body of The One Being.**

**When children are taught how to safely journey to other spheres in their
visualization at night before they go to sleep,
they wake up wiser and stimulated,
with profound insights and greater understanding and flowing emotions
of being loved and supported by the heavenly hosts.**

**A person learns great truths and skills from these other spheres and the
benefits flow both ways.**

These beings also learn great truths.

**Flowing emotions of satisfaction along with expansions of
understanding are limitless.**

**The Divine Creation knows no bounds and the fruits of these unending
kingdoms bless
and are the inheritance of all.**

**Inside everyone, of any age, is an inner divine child, still alive and
waiting for the excitement of infinite learning and fellowship with other
beings
of the many kingdoms of Heaven.**

MIRACLES

Hagomi

H The sound of this letter attunes a person to the divine virtue of The Power of the Word.

This virtue is HOW to create with the different divine qualities through whole brain awareness.

In fourfold whole brain thinking, pure being and unity with Divine Being and all creation awakens the WILL to manifest a divine virtue by visualization.

This is the inner infant state of Delta brainwaves.

The intellectual CONCEPT AND MEANING of a divine virtue awakens in the deep inward of a young child state of Theta brainwaves.

EMOTIONS of a divine virtue flows in the emotional reality of the adolescent state of Alpha brainwaves.

The SENSATION is held in the five senses, memory, and logic of the adult state of Beta brainwaves.

By using this technique to utter letters of power in various combinations first in the body seen as a microcosm and then through breath in the macrocosm, creativity of the highest order occurs.

We inspire letter combinations that allow contact and unity of consciousness with the beings of the spheres.

The letter H has a silvery violet color, is the fire element of will and has the sensation of warmth and fire, it has the musical note of A, and is the virtue by which the right arm of every child of God is created.

Calling All Angels

ADivine Providence has created the original principle of the elements by the three virtues represented by A, Sch, and M. A is the air principle of intellect and wisdom.

M is the original water element of love, the original feminine power. For reasons of balance the A has a mediating role between the original fire and the original water. This is to say that intellect mediates between will and emotion. Sch is the original fire principle of will.

This sound, the soft ahhhh of a sigh, is the virtue of wisdom and enlightenment in its highest form.

This virtue gives clairvoyance, clairaudience, eloquence and musical and artistic gifts and control over the beings of the air.

Mastering this virtue gives the mind access to the purity of all ideas in their original form.

The beauty and perfection of all original ideas arouses the desire, or will, to manifest these on earth.

On earth as it is in heaven.

This virtue gives mystical powers such as clairvoyance, clairaudience, clairsentience, and the ability to levitate, so that survival even in the most difficult circumstances is possible.

All that I do ye shall do and more.

The color is light blue, the sensation is ease, the musical note is G, and the part of the body that is formed by this virtue is the lungs.

Umlaut A, a transformation of imperfections of will, thought, emotion, and form through release to Divine Being for changes into other states that are the highest good.

GTThe letter G symbolizes the virtue of divine grace and mercy.

In the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction. By this virtue Divine Providence has created abundance and, like the Creator, a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired.

On an emotional level this virtue gives the feeling of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and emotions causing success and wealth in the world that is for the highest good of all concerned.

In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

**The color is deep grass green.
The element is water and has the sensation of chill.
The musical note is F.
The left eye is formed from this divine quality.**

Umlaut O, eu,transmutation through cognition brought about by love divine.

OThe letter O represents divine justice.Divine justice on a mental level gives a high level of justice, so that a person is completely filled with the legality of Divine Providence.

**By becoming one with the virtue of justice,
the power of creativity of the word is always used according to the absolute legality of harmony.**

Divine justice in the physical level evokes situations which bring about absolute success and happiness in every respect.

The child of God mastering this virtue learns to understand, and eventually control completely, the working and functioning of the electromagnetic fluid, which is the will and the emotions, in the human body and material world, and in their relation to the higher spheres.

**Endowed with this ability,
a child of God becomes perfect master of astrophysics and metaphysics.**

The color is ultramarine blue.The musical note is C.The element is earth and has a sensation of weight.The throat and windpipe is formed from this virtue.

**MIn the akasha principle, which is the principle of consciousness-penetrating-all,
this is the virtue of the original water principle
by which Divine Providence has created water in all its forms of existence, i.e., in its original principle,
the principle of fluidity, up to is realization in the material world.**

In the mental world this virtue manifests as life, feeling, and sensation, and by mastering it a person is given the mental faculty of becoming perfect master of his feelings, sensations and life spirit.

This faculty also enables him/her to penetrate into the life, emotions and sensations of any other person with his/her own consciousness, and to study and master them.

In the emotional world, or astral, the virtue of fluidity helps a person comprehend and master the fluid emotional element in all spheres of action in the emotional world.

**At the same time, a person thereby becomes absolute master of the
pure magnetic fluid,
which is analogous to the water element,
which is to say that the magnetic fluid originates from this principle of
fluidity.**

**On the material level the virtue of fluidity bestows on a person the
power of controlling the fluid principle in the whole world and universe,
i.e.,
in the micro-as well as in the macrocosm.**

**Not only is a person able to comprehend, with his/her consciousness,
everything fluid in its original principle, but he/she is also made
absolute master of it.**

**This faculty, when acquired by this virtue, also makes him/her master of
the magnetic fluid
and of everything that is connected with it.
Thus, for instance, he/she may, if desired,
control the laws of gravitation , and many other things.**

**The color is the most lovely blue green imaginable.
The musical note is D.
It has the sensation of coolness and chill and the abdomen is formed
from it.**

**I The sound of the letter I is the virtue of Cause and Effect.
The law of cause and effect is the law of evolution of everything.
This law gives the understanding and mastery of the akasha, or subtle
pre-matter principle.
The sensation of akasha is consciousness-penetrating-all.**

**The understanding of cause and effect also enables the perfection of
memory and conscience and complete mastery of the physical plane
through the understanding of shape, measure, weight, and number.**

**The letter I[as in I AM] with its light opalescent color, representing the
law of cause and effect,
is the spiritual essence of the left kidney.
This virtue is of the earth element, so it has the sensation of weight.
The musical note is G.**

The melody of our name is A, G, C, F, D sharp, C, D, and G.

Miracles

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

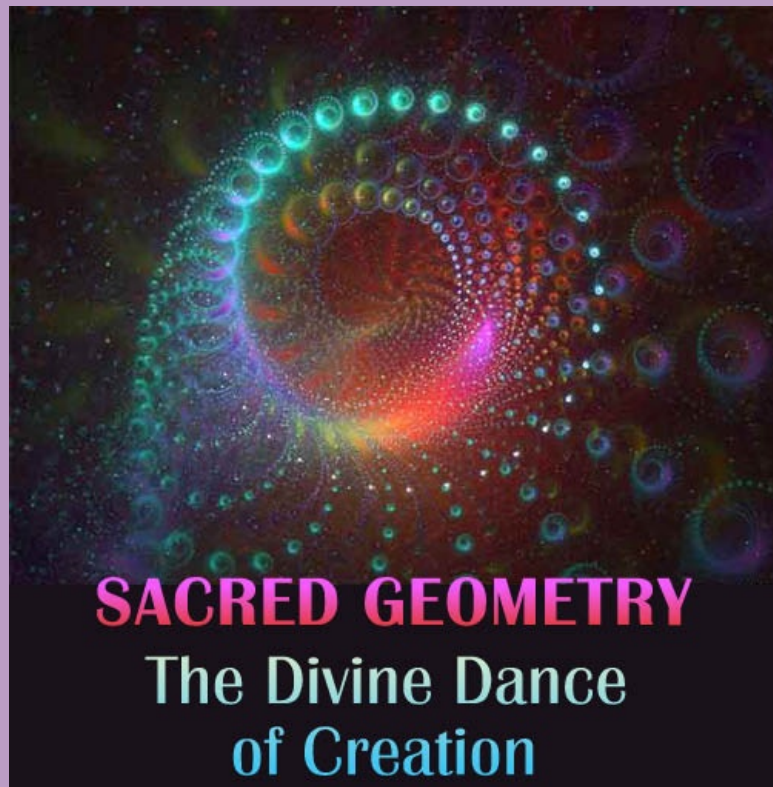

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

To understand Universal Consciousness, and immortality,
it is very helpful to read The Life and Teachings of the Masters of The Far East by Baird Spalding

The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE
We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.
Therefore, in the name of who I AM, and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .
I give thanks that this is done.
SO BE IT!

Important update.

I have been given this work, to present to you reasons for the symbolic nature of ancient writings including the Bible.

What were we being told and why?

I am not asking you to believe anything.

I am simply asking you to read this and allow it to be part of your mind because it may be extremely important.

First, I would share with you a passage in the Book of Revelation that deals with something to come upon the earth.

Revelation 19:11

And I saw heaven opened and behold a white horse; and he that sat upon him was called Faithful and True.

Revelation 19:14

And the armies which were in heaven followed him upon white horses

Please keep in mind, this is Greek myth.

It is symbolic, it is not talking about real white horses riding thru the sky.

Now who is the white horse riding thru the sky in ancient writings?

Pegasus.

**Pegasus father was Poseidon the God of the sea.
Pegasus was white, making Pegasus a white sea horse**

Pegasus kicked the fountain of Hippocrene which made the water flow and made Pegasus

sacred to the Goddess of memory, Mnemosyne and the 9 muses.

So, we have a white sea horse connected to memory and written of in scripture as bringing something to earth.

A white sea horse connected to memory.

In your head, the memory organ is called hippocampus.

The word hippocampus means sea horse. It is in your head. In your brain.

Now what color is the hippocampus in your head.

Let us go to Stedmans Medical Dictionary.

Stedmans Medical Dictionary defines the hippocampus (your memory organ) of the brain as a white eminence.

Revelation says a white horse in the sky will bring something to earth.

The white horse in the sky is Pegasus who is a white sea horse sacred to memory.

In your brain the memory organ is hippocampus which means sea horse and it is white.

Why do I bring this to you as important?

NEWS RELEASE PUBLISHED FEBRUARY 21 2019

New moon found in our solar system: Scientists unveil Hippocamp floating around Neptune

Scientists have found an entirely new moon in our own [solar system](#) and it had been Hiding in plain sight.

The new moon is named Hippocamp, after the sea creature in Greek mythology.

The breakthrough new discovery used the latest highly technical image processing techniques

and images from Nasa's Hubble Space Telescope,

I am simply bringing this to you because I feel obligated to do it. Hippocamp is the white horse in the sky.

The white horse just discovered.

Is it a coincidence that this white horse appears in the sky and Revelation spoke of a white horse bringing something to us?

And science names it hippocamp, the white horse.

NOW HERE IS SOME ADDITIONAL LATE NEWS

As I indicated, the Mythical Pegasus (Hippocampus) father was Poseidon the Greek God of the Sea.

Well this discovered Hippocamp was found orbiting Neptune, the Roman God of the sea.

The great white sea horse has returned to the sea,

and we must ask if this is the one of Revelation.

I am sure there will be more to come.

The Question: Is this hippocamp the one?

Consider it. It is all I ask you to do for now.
