15 degrees Pisces

*The Angels  
of*

*Gesture*

Also known as

The Angels

of

*Gomognu*

Beloved,

The 15th degree of any sign is the most pure essence of that sign, because it is furthest from the influences of the previous and following signs on either side.

This degree of Pisces is the ultimate perfection of wisdom in the emotional realm.

Because the human body is a sacred temple that mirrors The Holiest Mysteries of Divine Consciousness, when a Child of Light unites individual awareness with emotions of divine wisdom,

spontaneous gestures of the human body activate powerful frequencies within the body and also in the world that transform consciousness.

We inspire Grace and Mercy, Cognition brought about by Love Divine, Flowing Divine Emotions, Justice and Harmony, Supreme Happiness,

**and the ability to master** each Creative Act and its ongoing effects.

**As virtues are mastered, the resulting emotions bring about effortless and natural gestures of**

**The Human Body Temple that have power to restore Paradise in the material realm.**

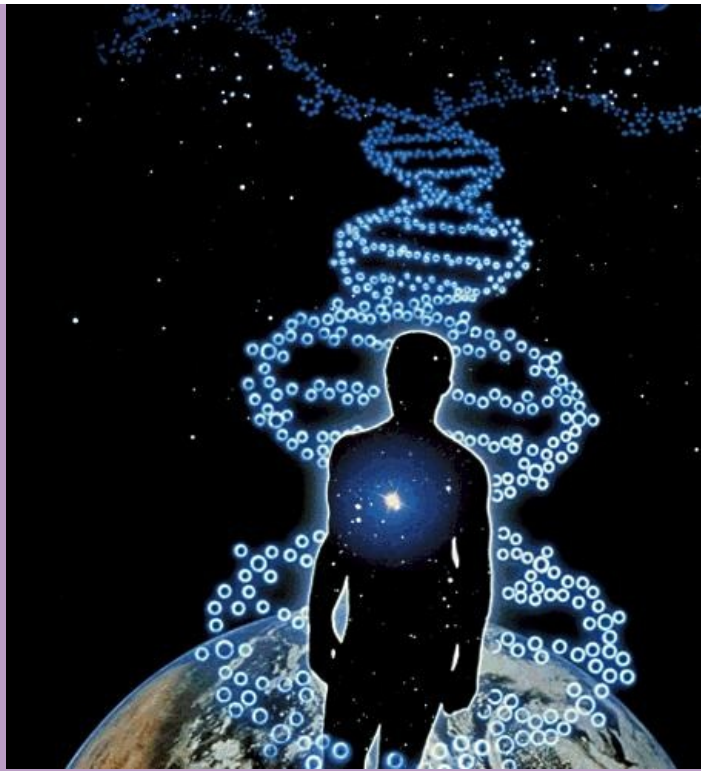

**By controlling emotions through mastery of divine virtues, the quantum field itself is controlled, and physical reality becomes and maintains what it was always meant to be:  
"on earth as it is in heaven."**

Physical movements have energetic connections to every part of the physical body and also to the furthest reaches of the stars.

Tiny filaments of light burst forth from each finger, light shoots out from the gaze of the eyes.

All types of hand movements, mudras, asanas, and sacred bodily movements that communicate with others come under our inspiration.

There are 72 thousand chackras in the human body,  
all shine pulsing lights of Divine Consciousness into creation.

Emotions and subtlety are expressed through the tiniest movements.

The slightest tilt of the head, or glance of the eye, the rhythm of gait, or the movement of an arm speaks volumes.

Taken together, the flow of movement and gesture are a complete language unto themselves,  
one that is understood by man, animal, and spirit alike.

Not only does communication flow to other beings, people and stars from the movements of a person's body,  
but by moving, the body is actually healing and balancing itself, keeping energy meridians alive and flowing.

Desires, thoughts and emotions flow through the hands and arms, indeed, the whole body, creating each gesture.

*We help the deaf communicate with sign language, and the blind read braille.*

*Technical inventions for helping the blind and deaf to communicate also fall under our jurisdiction.*

The divine virtues represented by the letters of our name give expressive movements

of the body that create the highest Paradise.

**Here is one of our stories:**

## **BODY LANGUAGE**

**Once upon a time, a man named Aaron sat at the computer, eyes on the screen,  
fingers poised over the keyboard.**

**He had been sitting there for hours,  
when all of a sudden an angel of *Gomognu* came into the room**

as he was reading messages on the screen.

The angel brought divine virtues of Grace and Mercy, Cognition brought about by Love  
Divine,  
Justice and Harmony,  
Flowing Emotions, even more Grace and Mercy, Supreme Happiness,

and understanding of the Creative Act and its ongoing effects.

Unusual emotions

of anticipation,  
excitement,  
sacredness,  
and nostalgia began to flow within him.

Looking over to the left, he noticed that the computer tower had a faint  
glow that he had never seen before.

What could this be?

Feelings of anticipation began to change into more sublime emotions.

He relaxed into deep childlike peacefulness.

As ancient deep familiar emotions of divine remembrance uplifted his  
spirit and soul,  
a relaxing sigh escaped through his lips,  
and tight muscles in his shoulders relaxed.

He pushed his chair back and stretched out his legs, wiggling his toes.  
His head tipped slightly back and a slight spasm shook his body as  
energy coursed up his spine.

All of a sudden he found his attention focused in the region behind his  
forehead.

There, in his mind's eye, he  
saw shimmering lights beginning to form on the screen of his inner  
vision.

The angel watched Aaron breathe.

With satisfaction she saw that a wonderful change had come over  
Aaron.

The backward tip of the head showed that a deeper brainwave state had  
taken complete hold.

The shimmering lights in his mind became a beautiful memory.

Aaron was remembering a day in a sunny meadow, many long years ago,  
when he was with friends and everyone was celebrating a dream of  
peace on Earth,  
of love and freedom for all sentient beings.

The sun was shining especially bright that day,  
and many people were meditating,

dancing

and listening to beautiful music.

Lost in the dream, Aaron's back, sitting in the chair, suddenly became  
very straight.

*Memories of previous lifetimes on sacred pathways awakened within him.*

**He brought his feet into a cross legged position like an ancient Yogi,  
and his breathing became very deep and slow, with long pauses  
between breaths.**

**He remembered how deeply he and everyone there had known each  
other before,  
how they had all longed for the time when Earth could be enlightened  
and happy,  
as  
Earth returned to a pristine state of Paradise.**

**A smile played upon his face.**

**His eyebrows raised.**

**Delight opened musical ecstasy in his inner hearing.**

**The fingers on both hands rested on his lap and formed an ancient  
mudra,  
with the thumbs touching forefingers  
while forefingers of each hand touched the fingers of the other hand.**

**So many lifetimes of spiritual journeying flashed in his awareness.**

**Amazing experiences of other times were relived so vividly and real**

**as if they had happened just yesterday.**

**His body slightly swayed with the flow of kundalini  
to the music that he was hearing from the heavenly realms.**

**Meanwhile, as all this was going on,  
his friend Frank had quietly opened the door.**

**He was looking at Aaron in total and complete amazement.**

**Aaron felt Frank's presence.**

**He slowly looked around at Frank and made a move to say something,  
but before he could utter a sound Frank said,  
" No, don't say anything! You look so radiant, peaceful and happy."**

**In the softest and most respectful voice he continued, "  
I can see that you are smiling,  
you must be in a sacred place.  
I don't want to interrupt anything."**

**In response, a powerful beam of divine blessing entered into Frank from  
Aaron's grateful glance.**

**Smiling and in awe, Frank felt a rush of blessing from a higher power.**

**Turning quietly, he reverently walked away.**

**Aaron realized that his gestures had said it all to Frank.**

**Nothing had to be spoken out loud because everything he was doing  
and feeling**

**was being communicated through his gestures and his body.**

**He looked up and gave thanks, glad to be left alone again,  
and closed his eyes in ever deeper bliss and happiness.**

**Sinking even deeper into his meditation,  
he saw more and more lifetimes passing before him in the stream of  
vivid images and emotions.**

**With deep satisfaction he took a deep sigh of relief.**

**He realized that life never ends,  
that new beginnings and new opportunities always exist on the path to**

**spiritual perfection.**

**He smiled again.**

**“How wonderful life is”, he thought.**

**Such deep happiness flowed in his heart.**

**Then his attention turned back to his present life situation.**

**Suddenly he saw clear and easy solutions to personal situations that had previously bothered him.**

**With great excitement he saw a new future for himself and his family, realizing how beautifully it would unfold in the days to come.**

**Later that evening when he went home, his family saw by his movements, especially in the lift in his gait, that he was a changed man.**

**His step had a bounce to it that had not been there before.**

**The worried tired look was gone.**

**His eyes sparkled and mirth played through his expressions.**

**They felt the relief.**

**Their hearts felt hope, their shoulders straightened, no longer bent over with the weight of the world upon them.**

**As they continued to watch him, the mysterious deep peace came over them too, and that night they all dreamed beautiful healing dreams.**

**\*\*\*\*\***

**In this time of the Alpha and the Omega,**

**powerful emotions of grace and mercy,**

**cognition brought about by Love Divine, justice and harmony,**

**supreme happiness, and the understanding of each creative act and its on going effects are flooding earth.**

**These powerful energies are flushing out and healing the wounds in the hearts of all.**

**Healed divine emotions course through the physical bodies of the Children of Light, and are clearly communicated through nonverbal gestures and body language.**

**People become adept at reading every tiny nuance of behavior, and the divine virtues of *Gomognu* play very important roles in the unfoldment of Paradise on Earth.**

**As heaven manifests on earth in the "as above, so below", movements are constant sources of beautiful communications of bliss**

and rapture of Divine Awareness.

change process.  
Umlaut O, eu...Seeing indwelling divine perfection through the eyes of  
love awaken

O...even greater harmony, success, and

G... grace and mercy blesses all.

N..... This results in supreme happiness which expresses itself in the

U.....comprehension of the original source (& meaning) behind material  
forms and movements

and the creative acts flowing through all levels of a person's being.

### *Gomognu*

G... The letter G symbolizes the virtue of divine grace and mercy.

In the physical world this virtue represents '*all phases of riches and wealth, of happiness and satisfaction.*

*By this virtue Divine Providence has created abundance and, like the Creator, a Child of Light may also bring about, for him or her self or other people,*

*abundance in everything, should that be desired.  
On an emotional level this virtue gives the feeling of happiness, of complete satisfaction.*

*Situations may be created by means of the elements and the will and feelings causing success and wealth in the world that is for the highest good of all concerned.*

*In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.*

The color is deep grass green. The element is water and has the sensation of chill.

The musical note is F. The left eye is formed from this divine quality.

O...Umlaut O, eu,  
Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most  
profound cognition  
which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit,  
all the systems and ways serving this end, and all knowledge concerning transformation in all other  
fields.

He/she is informed about everything that, deriving from the act of creation,  
had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible  
by Love Divine,  
in the principle of consciousness-penetrating-all, and must make use of all possibilities,  
in order to get convinced that they cannot be described by words, by must be experienced, lived  
through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises,  
because by the help of their virtues one is able to comprehend,  
from the principle of consciousness-penetrating-all,  
the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present  
state of evolution,  
and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine  
gives the understanding of the transformation of ideas, virtues, etc.  
by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the feelings, the virtue of profound cognition brought about by love  
divine  
develops the faculty of perfect astral projection and the mastery of all occult  
and magical phenomena that have reference to transformation,  
so that a person may, for instance, assume any desired vibration in the emotional body  
without being recognized by other beings and with only Divine Providence seeing through him/her.  
Apart from this, a person is able to transform any emotional oscillation into the oscillation  
he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine  
leads to perfect knowledge of quabbalistic alchemy in the material world.  
A person is taught the true preparation and charging of the philosopher's stone in the physical  
sense.

He/she can influence, at will, any oscillation—atomic, oscillation, electronic oscillation- by  
quabbalah,  
and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal  
into gold,  
any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties of which he/she cannot  
even dream now  
and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth  
which has the sensation of weight penetrating everything.

The ovaries and testicles are formed from this virtue of the profound cognition brought about by  
Love Divine.

In healing, heal the left ovary first and then the right one.

O...see below

M...In the akasha principle, which is the principle of consciousness-penetrating-all, this is the virtue of the original water principle

by which Divine Providence has created water in all its forms of existence, i.e., in its original principle, the principle of fluidity, up to its realization in the material world.

In the mental world this virtue manifests as life, emotion, and sensation, and by mastering it a person is given the mental faculty of becoming perfect master of his emotions, sensations and life spirit.

This faculty also enables him/her to penetrate into the life, emotions and sensations of any other person

with his/her own consciousness, and to study and master them.

In the emotional world, or astral, the virtue of fluidity helps a person comprehend and master the fluid emotional element

in all spheres of action in the emotional world.

At the same time, a person thereby becomes absolute master of the pure magnetic fluid, which is analogous to the water element,

which is to say that the magnetic fluid originates from this principle of fluidity.

On the material level the virtue of fluidity bestows on a person the power of controlling the fluid principle in the whole world and universe, i.e., in the micro-as well as in the macrocosm.

Not only is a person able to comprehend, with his/her consciousness, everything fluid in its original principle,

but he/she is also made absolute master of it.

This faculty, when acquired by this virtue, also makes him/her master of the magnetic fluid and of everything that is connected with it.

Thus, for instance, he/she may, if desired, control the laws of gravitation, and many other things.

The color is the most lovely blue green imaginable. The musical note is D.

It has the sensation of coolness and chill and the abdomen is formed from it.

Umlaut O, eu...see above

O...The letter O represents divine justice. Divine justice on a mental level gives a high level of justice, so that a person is '*completely filled with the legality of Divine Providence.*'

By becoming one with the virtue of justice, the power of creativity of the word is always used according to '*the absolute legality of harmony.*'

Divine justice in the physical level '*evokes situations which bring about absolute success and happiness in every respect.*

*The child of God mastering this virtue learns to understand, and eventually control completely, the working and functioning of the electromagnetic fluid, which is the will and the emotions, in the human body and material world, and in their relation to the higher spheres.*

*Endowed with this ability, a child of God becomes perfect master of astrophysics and metaphysics.'*

The color is ultramarine blue. The musical note is C. The element is earth and has a sensation of weight.

The throat and windpipe is formed from this virtue.

G...The Divine Virtue of Grace and Mercy.

N... This sound is the sound of supreme happiness and fulfillment. The purpose of theurgic healing is to bless everyone with happiness.

This virtue gives control over the mental matrix, which is *'the spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.'*

*The mastery of this virtue reveals to the child of God all the mysteries relating to the mind and the emotions and bestows the ability to comprehend, see, sense and control, the mental matrix with its sphere of action, either in regard of self or others.'*

On a physical plane, this virtue gives mastery over *'the principle of cohesion or coherence, gravity and the attractive power of everything material.'*

The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation. The liver is formed from this virtue.

*U...Akasha: This is the divine virtue of the creative act and karma. By meditating on this virtue, the original source of everything that exists in all its forms is revealed so that full comprehension of it is attained.*

*'Mental: This virtue evokes the highest form of intuition and inspiration in the intellect,*

*and at the same time renders it possible for a person to explore and master his/her own karma and its modification.*

*Astral: When mastering this virtue in the feeling body, a person is endowed with the faculty of transferring his/her consciousness wherever he/she wants it to be,*

*and thus becoming perfect master of it.*

*At the same time, he/she will gain the ability to evoke states of trance of any kind, and to master the art of emitting the astral or emotional body completely.*

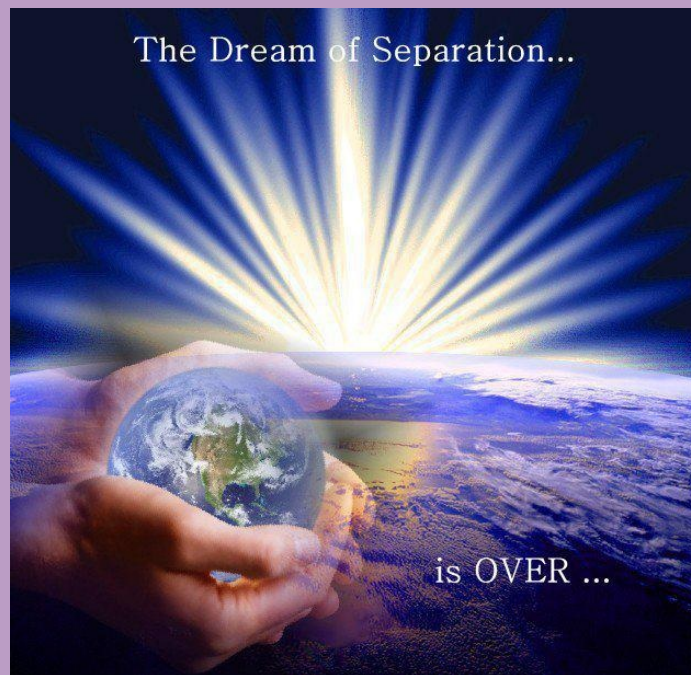

*Material: In the material world the virtue of the creative act and karma makes one understand and apply the secrets of the akasha principle, which is the principle of consciousness-penetrating-all, in respect to matter and impart the faculty of comprehending the mode of action of the quadripolar magnet [which is the action of will, intellect, feeling, and sensation]*

*with regard to the whole of matter, of penetrating into all its mysteries and of mastering it. Apart from other things, a person,*

*by the help of the creative act, learns to apply the principle of ether in our material world from the magic point of view.*

The color is velvet black. The musical note is B. The element is akasha, which has the sensation of consciousness penetrating all.

The pancreas and pit of the stomach is formed from this virtue.
