Relationships**

Also known as

The Angels of

Lotogi

Beloved,

Life must be sweet and nourishing for the body and soul to love life.

Trauma deadens the will to live if it is left unhealed.

**Trauma finds its roots in the lack of being loved,
loved for who one really is as a spiritual being,
especially as an infant and child.
By loving those parts of ourselves which feel unloved,
we watch the power of love to heal.**

**Take time in meditation, find areas of self which feel
unloved,
love those areas.**

**As we feel love, our heart opens wider,
and we automatically love others.**

**Love transmutes all causes which resulted in deadening
of the heart.**

The underlying difficulty for most people has been numbing out.

**Because of the rapid pace of life,
accelerated rate of change with attendant loss and wounding,
and resultant pressure to adapt to sudden reversals,
vast numbers of people have had to deaden themselves to painful
emotions,
or turn to substance use or other coping measures.**

Numbing out to pain means deadening to loving feelings also.

**Insensitivity to the partner,
"emotional novocaine",
resulting in emotional "bull in china closet" syndrome,
has made partners feel unsafe and at risk when opening to the deep
loving emotions of the inner child**

"Ye must be as little children to enter the kingdom of God."

**The longevity of love between family, friends, lovers, spouses,
and ALL creatures and sentient beings,**

**is dependent on tangible feelings in the body of emotions of love and
faith.**

**This results in divine wisdom,
which are a combination of love and faith.**

**This allows life energy, kundalini, to move into the heart center,
from the lowest chackra of physical reality to the highest chackra of
oneness with Divine Being.**

We inspire methods to heal the heart, to open it.

**The heart is the first organ to develop in the womb,
and has an energy field that is more powerful than the brain by 5000
percent.**

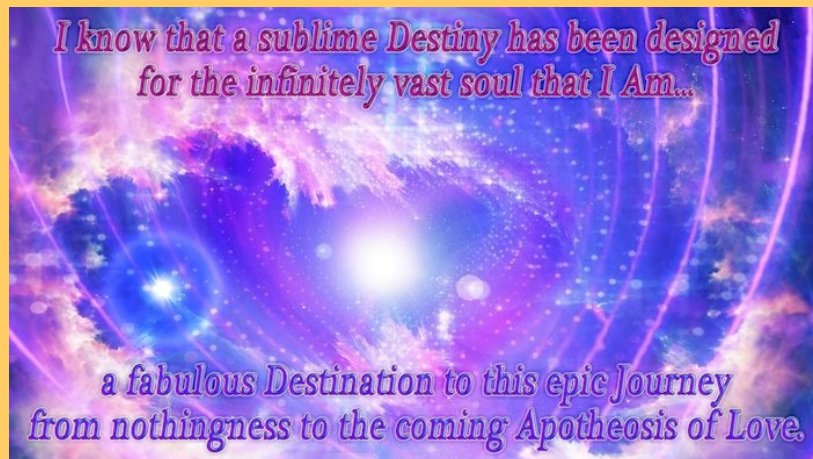

**Because the energy field of the heart is 5000 times stronger than the
energy field of the brain,
wisdom promotes making logic and intuition of the brain secondary
to unconditional all penetrating divine love,
that intuitively works in harmony with all creation
and conquers all obstacles.**

When consciousness is heart centered,
instead of intellectualized in the brain,
or sensationalized in the sexual organs,
love overcomes any adversity through true spiritual morality and
vitality,
high inspiration and grace and mercy.

The heart produces plasma, or life energy.

It does so when it is open and flowing.

It operates intuitively in a way that is the highest good of all
concerned.

Because we live in a unified field of energy,
what affects even the smallest part affects the whole.

The heart automatically,
when it is open and flowing,
energizes the life force of everything in the most beneficial way
for the individual
as well as for the collective.

"Love conquers all."

"Love, Wisdom, Power, the greatest of these is love."

The divine virtues of the letters of our name, *Lotogi*,

nourish loving relationships to deepen and grow.

**The combination of all of the divine virtues
focused through seeing and feeling the divine in self and others,
harmony and justice,
high inspiration,
cognition brought about by Love Divine,
grace and mercy,
and mastery of cause and effect,**

**are the glues which hold mates and friends in loving relationships
that grow in perfection over time**

**Divine Providence, through these virtues,
teaches people to nurture relationships
and keep them healthy and beautiful.**

**State of the art knowledge about relationships has been in its infancy
on earth.**

**Ineffective and self-defeating relationship guidelines and child rearing
practices have been passed down for generations.**

"The sins of the fathers are passed along even unto seven generations."

We inspire new skills that teach couples how to interact respectfully.

**We help these skills to be written in books, taught in workshops, and
realized in deep meditation.**

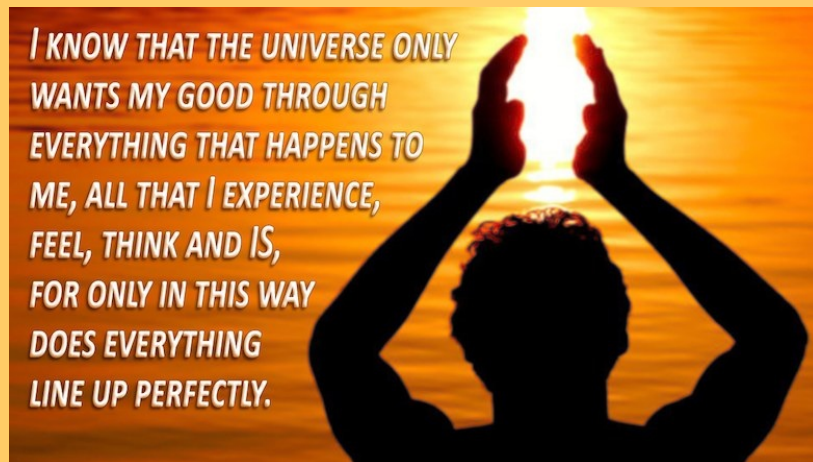

**Techniques are given to heal relationships
and finally resolve the pain from long term emotional traumas,**

that have rendered partners dangerous to one another.

**Especially important to heal
are emotional traumatizations during conception, prenatal
development and birth,
that remain in cellular memory attracting havoc for the rest of life on
an unconscious level.**

These memories can be accessed and loved with deep empathy and allowed to flow to resolution.

**As the old wounded images, thoughts and emotions are healed and replaced with new positive insights, visions, thoughts and emotions,
the desire to live returns,
immortality can once again manifest in the cells of the physical body**

The truth is that establishing a safe and supportive environment for love to flourish requires skills that many people have never seen modeled and did not grow up with.

For example,

**set aside time for at least one session every week,
in which you and your partner look closely at all your emotions in a safe context.**

Spend an hour letting your mate tell you honestly, without interruption or judgement, what is really going on with them inside their hearts

**Then,
take your turn,
and express your own emotions,
with the same safety and respect.**

Emotions have different laws than thoughts.

Emotions often have deep roots in the past, and seem irrational to present time analysis.

**If deep tears, or anger, or fear comes up,
this is the healing process in its most intense and fruitful phase**

Do not interrupt or try to "fix it" when your partner breaks down and allows strong emotions to flow.

**Let these intense emotions flow.
Rejoice in their flowing.**

It is their flowing that is the healing process that "fixes" them.

Emotions that create tangible feelings in the body change when they flow.

Emotions are the water element, and like water, when they flow freely they stay clean and pure.

When emotions flow, high inspiration and healing insights occur in the final stages.

That is why healing must come from within a person.

**When you are sharing with another,
respect the sacredness and delicacy of this inward meditation.**

**Resist the urge to interrupt their altered state to give advice,
or point out sage analysis of their situation.**

**Advice from the outside,
no matter how well intentioned,
can never replace the profound insights that come from within.**

**Advice from the outside usually interrupts the flowing of emotions
and the natural process of healing inspiration from within.**

Advice from a well meaning therapist or friend often 'mentalizes'

**the consciousness of the person who is flowing with emotions,
putting their focus on thoughts about the emotions
instead of the emotions themselves.
Interruptions cause a shift from predominantly Alpha brainwaves of
flowing emotions**

to Beta brainwaves of logic and linear thinking.

This effectively stops the emotional flowing healing process.

**Flowing with emotions is an altered state,
a dreamlike meditative state.**

Its best not to interrupt it.

**By 'letting' yourself or another 'flow' with emotions uninterruptedly,
you are allowing the natural healing response and processing of the
emotional or astral body.**

**Emotions are the water element.
Both water and emotions cleanse themselves by flowing.**

Being bottled up causes stagnation.

**Insights about emotions arise spontaneously from within
as a result of witnessing the emotions themselves as they flow freely.**

**Invoke grace and mercy and allow negative emotions to run their
course**

through honest expression safely, lovingly, and non-destructively.

**When positive emotions are expressing, they become even more
beautiful.**

**It takes personal mastery to stay in a calm place,
visioning the final healing outcome
and facilitate ones own or a loved ones emotional healing process.**

**This mastery reveals how beautifully the healing process works
and how it comes about naturally when allowed to flow in a safe way.**

Learning new methods for overcoming emotional wounding and reawakening the pure inner child requires a belief that this is possible.

It also requires a commitment to uncover traumas which seemed safely buried and forgotten.

The main change in consciousness required is a paradigm shift from resisting "negative" emotions and reacting against them as the enemy to be overcome, to approaching all emotions with unconditional love, faith and mercy.

**Like a blazing fire,
love illumines and reveals why the higher self chose certain lessons learned from previous hurtful relationships, and changes victimization into wisdom as it purifies the past through grace and mercy.**

**In the past,
fear of negative emotions has seemed so overpowering**

**like fear of the unknown
that emotions have seemed unfrontable.**

Every attempt has been made to dampen down uncomfortable emotions and "make them go away".

People were afraid of what they might do if they allowed themselves to feel their deepest pain.

Even people on the spiritual path used meditational techniques to bypass or disassociate from their wounded emotional nature.

This has resulted in people with multiple selves, some parts of the self being very high and beautiful

and others perhaps scared, insecure, or angry.

**When a part of the emotional nature is denied to the point of being out
of awareness,
it cannot be healed.**

**All unconscious wounded emotions attract wounded realities, over and
over.**

**Therefore, when negative emotions are triggered,
made conscious,
a goldmine of healing awaits.**

**Negative emotions should be mercifully loved as one would love a
small upset child,
and encouraged to flow in grace until they are healed.**

**Efficient methods to transmute pain,
re-establish childlike openness and vulnerability,
and to resolve relationship issues,
are the key to
balancing male and female energies on earth.**

**Emotions are the flowing magnetic feminine energies.
These energies are magnetic and attract new realities into physical
manifestation.**

**Therefore they must be healed,
not suppressed,
for the earth to see the light of perfection.**

**Emotions must not be buried;
they must not be judged.**

**They must be healed safely instead of acting out destructively to self,
others, or property.
They must be allowed out into the light of day with love without shame
or condemnation.**

**People who love emotions and learn how they heal,
no longer fear the Divine Feminine.**

**At this point,
the sacred alchemical marriage between fire and water,
will and emotion,
electricity and magnetism,
Masculine and Feminine,
results in heaven on earth.**

**For many years, it has become increasingly clear to quantum physicists
all over the world**

that emotions are the causative force behind manifestation.

**It is through using divine love in response to everything in creation,
as the transmutating power to manifest indwelling omnipresent divine
perfection,
that reality 'changes'.**

**Just as you comfort an upset child with love and empathy,
so can you heal and comfort your own inner child self,
or the inner child self of another,
by NOT reacting in fear and destruction,
but with love and empathy.**

***As a person learns to love his or her own tangible feelings flowing in
the body,
it is natural to also have mercy and grace toward other peoples
emotions***

Loving will manifest heaven on earth.

Love conquers all.

'The greatest of these is love.'

With love, even fear is conquered and turns into Love.

***It is in the realm of loving relationships that divine
virtues bloom.***

Lotogi

L...

In the akasha principle of consciousness-penetrating-all this letter represents the highest divine virtues.

By meditating on this virtue you perceive how divine virtues work in the various spheres and levels.

On a mental level you understand and identify with divine morality.

On the feeling level you have equilibrium, and have the ability to spiritualize your feelings

so that you become one with the divine virtues.

On the material level you have perfect health, beauty, and harmony.

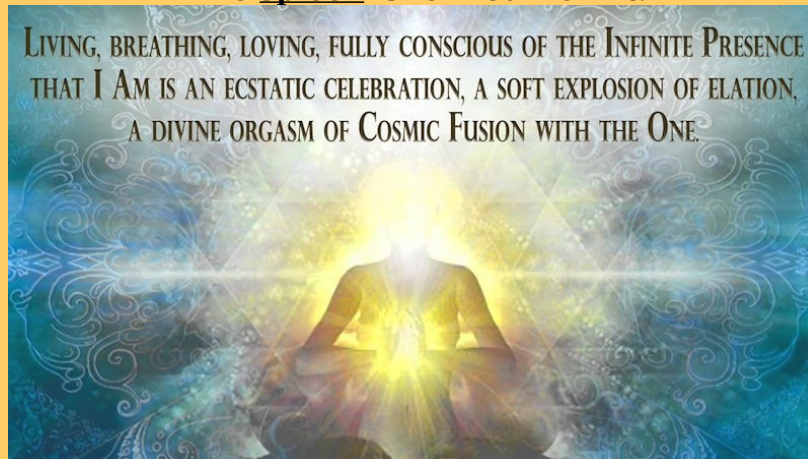

You are master of your own vitality.

If you so chose, your body can retain the appearance of youth.

With permission from Divine Providence, you can also confer these qualities to another person.

The color is dark olive green and the musical note is F. It is the element of air so it has the sensation of ease.

The spleen is formed from it.

Umlaut O, eu
see below.

O

The letter O represents divine justice. Divine justice on a mental level gives a high level of justice,

so that a person is completely filled with the legality of Divine Providence. By becoming one with the virtue of justice,

the power of creativity of the word is always used according to the absolute legality of harmony.

Divine justice in the physical level evokes situations which bring about absolute success and happiness in every respect.

The child of God mastering this virtue learns to understand, and eventually control completely,

the working and functioning of the electromagnetic fluid, which is the will and the emotions, in the human body and material world, and in their relation to the higher spheres.

Endowed with this ability, a child of God becomes perfect master of astrophysics and metaphysics.

The color is ultramarine blue. The musical note is C.

The element is earth and has a sensation of weight.

The throat and windpipe is formed from this virtue.

T

The sound of the letter T in the ancient language is the divine virtue of high inspiration with all the legal matters of this principle.

In the intellect, this virtue awakens remarkable inventive faculties and memory.

When a person chooses the path of consciously mastering relationships, the heavenly hosts awaken high levels of inspiration, so that ingeniousness removes all obstacles

In meditating on this virtue, see yourself as a tiny dot in your solar plexus

with the rest of the body as an infinite swirling universe all around.

Meditate in a deep Theta brainwave state [deep inner thought] on high inspiration from Divine Mind shining with a sensation of warmth and fire filling the body from a brown black sun in the cranial sphere

. I

All fire element letters are to be seen as suns shining in the head.]

Since the right kidney is created from this virtue, also see this virtue shining forth from the right kidney.

Hear the musical note of F and feel yourself having mastery over all the elements.

Breathe out these radiations through the pores of the skin over the right kidney and fill the outer universe.

When you breathe in, see these radiations from the outer universe

enter through the same pores of the skin and fill your entire body.

Be sure to dissolve the light when you are finished to protect the natural balance of elements in the body.

Keep the rhythm of the breath natural.

Oumlaut O, eu,

Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields. He/she is informed about everything that, deriving from the act of creation,

had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through. I have mentioned the letters unlaut A and unlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all,

the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her.

Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants

and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine

leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold,

any stone into a precious stone, etc. if desired.

By the help of this virtue a person is furnished with many other faculties

of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth

which has the sensation of weight penetrating everything.

The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine.

In healing, heal the left ovary first and then the right one.

see above.

G

The letter G symbolizes the virtue of divine grace and mercy.

In the physical world this virtue represents *all phases of riches and wealth, of happiness and satisfaction*.

By this virtue Divine Providence has created abundance and, like the Creator,

a child of God may also bring about, for him or her self or other people, abundance in everything, should that be desired. On an emotional level this virtue gives the feeling of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and feelings causing success and wealth in the world that is for the highest good of all concerned.

In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

The color is deep grass green. The element is water and has the sensation of chill. The musical note is F. The left eye is formed from this divine quality.

I

The sound of the letter I is the virtue of Cause and Effect.

In the akasha principle, which is the principle of consciousness-penetrating-all,

this letter refers to fate, that is to the karma law, which is the law of cause and effect. All doings and all actions, all life, come under this law.

The law of evolution is expressed by it.

On the mental level this is analogous to memory, remembrance and conscience.

On the feeling level, the astral matrix, which is the connecting link between the material body and the soul, or feelings,

is controlled by the principle and laws of cause and effect.

On the material level the laws of analogy between the microcosm and the macrocosm is understood.

The meditation on the virtue of Cause and Effect enables mastery of the chief components of the material world, which are shape, measure, number and weight.

This virtue has a light opal color, the musical note of G, and is the element of earth, so it has the sensation of weight.

The left kidney is formed from it.

The letter I [as in I AM] with its light opalescent color, representing the law of cause and effect, is the spiritual essence of the left kidney.

This virtue is of the earth element, so it has the sensation of weight. The musical note is G.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

**This name is a key to their powers and influence.
Names, phrases, and sections, in the angel messages are quoted or
paraphrased from the books of Franz Bardon.**

It was formulated as an amalgam from many successful therapeutic models at the PTSD clinic at the VA Medical Center in Tuskegee Alabama in the '90's by Dr. Paul Michael Schlosser, PhD.

The two free one hour and approx. 20 minute DVDs, done in 3D, that explain how to use the trauma healing form are important.
