The Angels of Creative Intelligence

Also known as

The Angels of

Dagio

Beloved,

***A sharp intellect that is enlightened,
easily grasps the idea of the oneness of all life,
and comprehends the unified field.***

It sees the analogy between the above and the below;

between the human body and the body of the universe.

A keen understanding of the effects of good actions,

*that benefit self and the whole,
is attained.*

Grace and mercy flow upon the Earth.

At the proper time on the path of enlightenment,
Divine Providence helps each person

develop a sharp enlightened intellect
to master creativity.

In this way, enlightenment, mercy, justice, harmony, success, and satisfaction
is created in all situations.

A sharp and creative intellect
helps a Child of light manifest new realities for everyone,
with grace and mercy, enlightenment, and success.

The seed idea of the unity and mutual interdependence of everything,
regardless of whether it is in the past, present, or future,
exists permanently in the akasha.

The akasha is the omnipresence of Divine Consciousness,
everywhere present penetrating all.

It is from this storehouse of awareness
that the electric will to create
"pulls" forth an idea,
and enlivens it with magnetic emotions,
which then attracts it into form.

This storehouse of Divine Consciousness,
which is everywhere present,
is accessed in the state of pure being and deep inner thought,
or Delta and Theta brainwaves,

which is why it was spoken,
Ye must be as little children to enter the Kingdom of God.

*Following our guidance,
a person is able to develop a fantastic memory
and masters all situations in verbal debates.*

We give people a surprising wittiness that enlivens every aspect of life.

*Being in harmony with
Who I really Am,
opens my eyes
to the magic all around me.*

A sharp creative intellect comes from the desire to create new loving realities on earth

**We help each person awaken forgiveness
and understanding
so that they wish grace and mercy for those who have made mistakes.**

**We awaken the ability to remember and experience the deep pure being of deep dreamless
the brainwave state of an infant,
and connect with divine
and all creation with omnipotent pure will.**

"Ye must be as little children to enter the kingdom of God."

**We inspire the ability to vividly daydream and visualize like a small child,
and intuitively attune to the original purity of all divine ideas.**

**We help with the ability to flow with emotions deeply like an adolescent,
to see through the eyes of love
and thereby create situations that bring about harmony and justice.**

**We help focus all of this into the ability to remember what has gone before,
to use logic, and master the five senses like an adult.**

**The divine virtue of the mysteries of creation,
letter D,
manifests new creations that express divine love
and the original purity of all ideas in Divine Mind,
which is the expression of letter A.**

**Imperfections are then released for transformation into other states
that are the highest good of all,
umlaut A, ae.**

**In this way flowing emotions of grace and mercy bless all beings,
letter G.**

**An enlightened intellect then masters the divine virtue of cause and effect
and reaps a good harvest,
a good karma of everything created by it,
letter I.**

**Perhaps one of the greatest virtues of an enlightened creative mind
is cognition brought about by Love Divine.**

**With this virtue,
whatever is seen is transmuted within the quantum field.**

The language of the quantum field is emotions.

Transmutation comes from the emotions that arise

from recognition of indwelling divinity in everything.

By visioning through divine love,
all things are possible that result in perfection,
umlaut O, eu.

The original principle of Divine Justice and harmony,
letter O,

the divine laws in their ultimate perfection,
that bring true emotional equilibrium,
is the final virtue of an enlightened creative mind.

It represents bringing harmony, justice, success and satisfaction to all.

Dagio

D The intellect, through love, creates

A and umlaut A, aewith wisdom and enlightenment and transformation,

G giving forth divine grace and mercy and true blessing in all situations.

I The enlightened intellect understands and utilizes laws of cause and effect

Umlaut O, eu and O to manifest transmutation into perfection
through cognition brought about by love divine,

and manifest justice and harmony,
success and satisfaction to all.

Miracles

[The melody of our name is C, G,C, E G, D sharp and C.]

Dagio

D This letter is the sound of the virtue of the mastery of the mysteries of creation.
Mastering this virtue gives the understanding that the same laws apply to the microcosm and the macrocosm.

As above, so below.

By meditating on this virtue the highest wisdom is gained in regard to creation in both the inner and outer worlds,

in the personal inner universe and the outer universes.

In the intellect a person attains the profoundest cognition with regard to the ego-consciousness. I and the Father are One.

In the emotions, the understanding of love in all of its aspects is perfected.

Love is the greatest power, and with love all will be healed and transmuted.

On the material plane the mastery of fertility and everything that has to do with procreation is attained.

The color of this virtue is dark blue. The musical note is C. The element is Fire so it has the sensation of warmth and heat.

The right ear is created from this virtue.

ADivine Providence has created the original principle of the elements by the three virtues

represented by A, Sch, and M. A is the air principle of intellect and wisdom.
M is the original water element of love, the original feminine force.

For reasons of balance the A has a mediating role between the original fire and the original water.
This is to say that intellect mediates between will and feeling.

Sch is the original fire principle of will.

This sound, the soft ahhhh of a sigh, is the virtue of wisdom and enlightenment in its highest form.
This virtue gives clairvoyance, clairaudience, eloquence and musical and artistic gifts and control over the beings of the earth.

Mastering this virtue gives the mind access to the purity of all ideas in their original form.
The beauty and perfection of all original ideas arouses the desire, or will, to manifest these on earth.

On earth as it is in heaven.

This virtue gives mystical powers such as clairvoyance, clairaudience, clairsentience, and the ability to levitate,
so that survival even in the most difficult circumstances is possible.

All that I do ye shall do and more.

The color is light blue, the sensation is ease, the musical note is G,

and the part of the body that is formed by this virtue is the lungs.

umlaut A, aettransformation, through release of imperfection for changes into other states

that are the highest good of all concerned.

G The letter G symbolizes the virtue of divine grace and mercy.

In the physical world this virtue represents all phases of riches and wealth, of happiness and satisfaction.

By this virtue Divine Providence has created abundance and, like the Creator,

a child of God may also bring about, for him or her self or other people,
abundance in everything, should that be desired.

On an emotional level this virtue gives the feeling of happiness, of complete satisfaction.

Situations may be created by means of the elements and the will and emotions causing success and wealth

in the world that is for the highest good of all concerned.

In the mind, this virtue gives the experience of peacefulness, and the faculty of giving true divine blessing.

The color is deep grass green. The element is water and has the sensation of chill.
The musical note is F. The left eye is formed from this divine quality.

I The sound of the letter I is the virtue of Cause and Effect.

In the akasha principle, which is the principle of consciousness-penetrating-all, this letter refers to fate,

that is to the karma law, which is the law of cause and effect.
All doings and all actions, all life, come under this law.
The law of evolution is expressed by it.

On the mental level this is analogous to memory, remembrance and conscience.

On the feeling level, the astral matrix, which is the connecting link between the material body and the soul, or feeling,

is controlled by the principle and laws of cause and effect.

On the material level the laws of analogy between the microcosm and the macrocosm is understood.

The meditation on the virtue of Cause and Effect enables mastery of the chief components of the material world,

which are shape, measure, number and weight.

This virtue has a light opal color, the musical note of G, and is the element of earth, so it has the sensation of weight.

The left kidney is formed from it.

Oumlaut O, eu,

Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition

which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving
and all knowledge concerning transformation in all other fields.
He/she is informed about everything that, deriving from the act of creation

, had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine,

in the principle of consciousness-penetrating-all,
and must make use of all possibilities, in order to get convinced that they cannot be described by words,
by must be experienced, lived through.

I have mentioned the letters unlaut A and unlaut O as the last ones in this series of exercises,
because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all,
the crown of all wisdom in the micro- and macrocosms,
from the act of creation to the present state of evolution, and even to the final development.

*

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine
gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word,
which is a very great and comprehensive field.

*

Astral/ emotional level: In the emotions, the virtue of profound cognition brought about by love divine

develops the faculty of perfect astral projection
and the mastery of all occult and magical phenomena that have reference to transformation,
so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other I

and with only Divine Providence seeing through him/her.
Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants
and to do the same with any element.

*

Material: When mastered in the physical body, the profound cognition brought about by love divine

leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.
He/she can influence, at will, any oscillationatomic, oscillation, electronic oscillation- by quabbalah,

and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold,

any stone into a precious stone, etc. if desired.
By the help of this virtue a person is furnished with many other faculties
of which he/she cannot even dream now and

which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth

which has the sensation of weight penetrating everything.
The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine.
In healing, heal the left ovary first and then the right one.

O The sound of letter O is the sound of the initiation into the original principle of divine justice.
Justice is Harmony and Harmony is Justice.

Maintaining harmony with all life brings success and happiness.

You will have a high power of judgement and the ability to comprehend spiritually any legality,
any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.
This will bring about the abilities to create any change in the emotional situations that you find yourself in

and to have absolute success and happiness on all levels.'

The ability to control emotions is the ability to control the element of magnetism.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so
it has the sensation of weight. It formed the throat and windpipe.

Footnotes

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,
and the angels who work with him or her.

The being and the angels share the same name.
This name is a key to their powers and influence.

Names, phrases, and sections,
in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth

, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-03-3

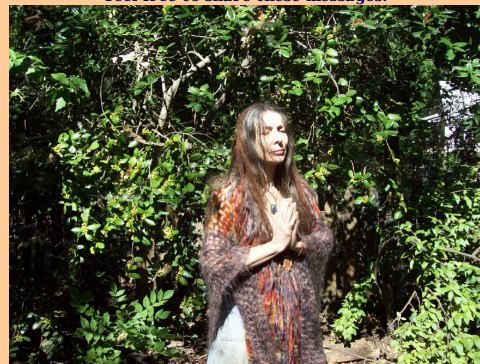

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician",
gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
