**Beloved,**

**Feelings of happiness**

***flow as powerful rivers of joy,  
attracting even more blessings to the world***

**We open up powerful blessings of good fortune  
to all beings who long for beauty, union with divine light, and  
spiritual perfection.**

**Wonderful emotions of happiness  
accompany success and good fortune**

Happiness creates cohesion in the unified field,  
it is similar to gravity.

**not only in the physical worlds,  
*but in emotional, mental, and spiritual worlds  
as well***

***We help people procure good fortune, happiness, and success  
in whatever endeavors inner guidance moves them to achieve  
as they travel inward and outward paths to spiritual perfection.***

**It is also our pleasure to bestow great treasures of spiritual  
knowledge on seekers.**

**Ask for what you want.**

**Call on us.**

**Meditate on the divine virtues of our name.**

**Unite individual awareness with ours.**

**Procure true spiritual success  
on the four levels,  
which are beingness-will, intellect, emotions, and physical**

**There are three primary virtues, or letters, from which all other virtues, or letters, are derived.**

**These three letters are Sch, A, and M.**

**Sch represents the divine virtue of omnipotent will power for the highest good of all,  
A represents the enlightened and wise mind with the ability to transform all imperfection, and  
M represents flowing divine emotions and life.**

**The S 's, which are all-penetrating-willpower, in *Nephasser* come from the Sch.**

**The A is already present, and the N,  
which is flowing emotions of divine supreme happiness,**

derives from the M.

These three divine qualities, all-penetrating-willpower, enlightenment, and supreme happiness, work together to manifest absolute success and good fortune in everything as long as inner guidance is followed.

Learn to go deeply within, find unity with the divine.

Intend, visualize, flow with emotions and sensations of that which you feel inner guidance to manifest.

This is the Power of the Word in the pursuit of spiritual perfection

The divine quality of omnipresence,  
which is the essence of the word everything  
is represented by E.

The Power of the Word is represented by H.

The urge to spiritual perfection is represented by P  
and the ability to follow inner guidance is represented by R

When a person looks closely in meditation at anything in its  
natural form,  
from the tiniest flower to the vast reaches of space  
in which celestial bodies dance,  
spiritual perfection becomes evident.

This perfection is already inherent in each person.

Find this perfection within you.

This must happen before you create and attract perfection in  
the outer worlds.

Divine Perfection within is the warp and the woof of the divine  
blueprints upon which  
each person manifests in time and space.

We delight in revealing this perfection to everyone on a  
conscious spiritual journey,

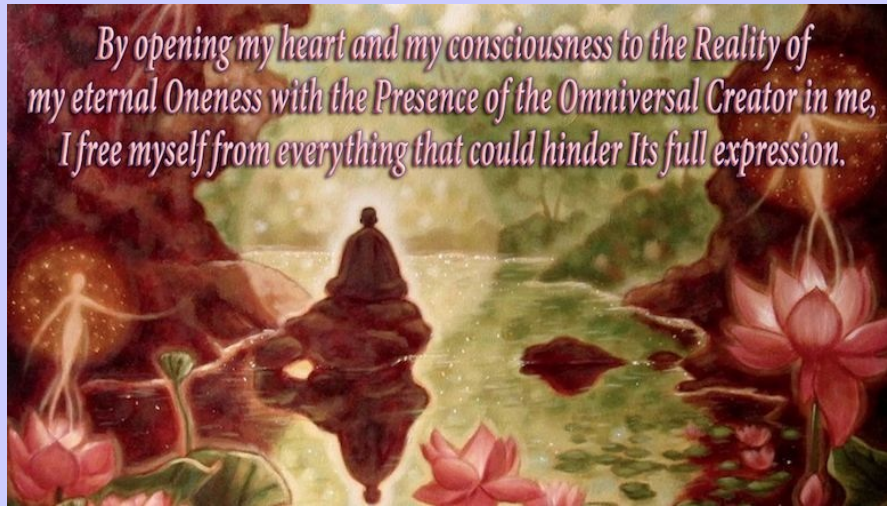

especially

to those who ask for help.

*Ask and it shall be given to thee;  
seek and ye shall find.*

Because of The Law of Free Will,

**the heavenly hosts interface their awareness with yours when  
a request for this is made  
from the deepest inner will**

No matter how many times a person fails,  
or gets lost,  
or wanders from the path,  
the waiting arms of the heavenly hosts,  
Universal Consciousness,  
and their own higher self await.

No matter how often a person breaks his or her vow,  
the unconditional love of Divine Consciousness waits patiently  
for the inevitable,  
for the return of each beloved child

**Eventual success and happiness are certain.**

**Each soul longing for the ecstasy of home will return.**

We see to it.  
Ask.

Come, come, oh wanderer, wayfayer, lover of leaving, come!

Come even if you have broken your vow a thousand times.

Come!  
Come again home

**MIRACLES**

***Nephasser***

**N This is the sound of the virtue of Supreme Happiness,  
which is a primary reason why good fortune and success on all  
levels is so important.**

**This virtue catapults one into the virtual seventh heaven of  
delight,**

**and gives a feeling of complete freedom and independence.**

**It also is the driving force behind the instinct of self-  
preservation.**

**The highest state of happiness and the ability of knowing  
exactly your own state of mental maturity as well as that of  
others.**

**With this comes a mastery of the mental matrix and the mental  
aura.**

**The mental matrix is the spiritual bonding material,  
which connects the astral [emotional] body to the mental body,  
[the spirit].**

**The mastery of this will reveal the mysteries relating to the  
mental matrix  
and bestow upon you the ability to comprehend, see, sense,**

**and control,  
the mental matrix with its sphere of action,  
in regard to yourself or to others**

**You will also be able to see the mental aura and to define it with regard to its scope of action.**

**You will be able to recognize your own mental maturity and that of other people.**

**This will give you the ability to enlighten anyone who you deem worthy,  
on account of his or her maturity,  
so that the person is able to solve any problem**

**corresponding to his grade of development without difficulty.**

**This mastery will give you great skill in the use of magnetism for the purpose of miracles.**

**The color is dark red, the musical note is A,  
the element is water so it has the sensation of chill,  
and the liver is formed from it.**

**All water element virtues are seen as suns shining in the abdomen.**

**See a dark red sun shining in the abdomen,  
and since the liver is formed from this virtue,  
see this color radiating from the liver as well.**

\*

**E**

**By meditating on this virtue, a person attains a state of cosmic consciousness.**

**In the intellect it arouses the highest form of intuition.**

**In the emotions, this virtue gives control over the emotions of oneself and others,**

**and the ability to understand the language of all beings,  
including animals.**

**In the physical world, mastering this virtue reveals the  
profoundest mysteries**

**of materialization-condensation-and dematerialization-  
refinement.**

**A person learns how to intensify any idea, concept, mental or  
astral form**

**in such a way that they become physically visible.**

**The condensing capacity of this virtue gave existence to  
everything material  
to physical matter- and to the mysteries of the opposite  
procedure,  
by which everything material may be transferred back into its  
refined and most subtle form.**

**The letter E has the musical note of D, is of the dark violet  
color,**

**and is meditated on with the feeling of consciousness-  
penetrating-all.**

**Imagine yourself as a small dot in your solar plexus  
and visualize your body as a giant universe all around you.**

**See the dark violet light shining from your spin  
e and imagine that you hear the musical note of D.**

**Sense consciousness-penetrating all, and meditate on this  
Consciousness**

**filling all life, and all space, and all time.  
Then realize, through the law of correspondences,  
that as you meditate in your physical body  
you are simultaneously energizing the same divine quality in  
the larger universe.**

**Do this by the use of breath.**

**Breathe these qualities in through the pores of the skin along  
the spine, filling the whole body.**

**Then breathe them out in the same way,  
filling all of space and time.**

**As above, so below.**

**As always, dissolve the light when you are finished**

to protect the natural balance of elements in the body.

Keep the rhythm of the breath natural.

**P** This virtue awakens divine nostalgia,  
the longing for purification and transformation of ones being,  
and the longing to perceive beauty universally,  
to see the perfection of Divine Consciousness manifesting in  
form.

On earth as it is in heaven.

This desire propels all sentient beings to create situations  
that reflect spiritual perfection.

The first level of this virtue is that of the longing for spiritual  
progress,

spiritual perfection and highest spiritualization, in general.

Here you will feel the desire to strive upwards to the Divine  
Light,

you will sense an ever increasing profound longing  
for unification with the four basic divine qualities  
and will realize how divine love,  
which is incarnated into every human being,  
will constantly urge you to be connected to divine  
omnipotence,

love and wisdom and to have these incarnated within yourself.

This longing for unification with the four basic divine  
qualities,

God incarnate in will, thought, feeling, and form,  
is a specific sensation which is only comprehensible to the  
practical expert

and which one may live through but never be able to explain.

This virtue has a dark gray color, has the musical note of B,  
is the earth element so it has a sensation of gravity and  
weight,  
and the right side of the nose is formed from it

Use the typical meditation of seeing yourself as a tiny dot in  
your solar plexus  
with your body as a universe around you.

See this color radiating from a tiny dark gray sun in the leg region

and also from the right side of the nose filling the whole universe,  
hear the musical note of B,  
feel the sensation of weight,  
and meditate on the intellectual meaning of the urge for spiritual perfection.

Remember that due to the law of correspondences that as you do this in the microcosm of your own body, you are also awakening this virtue in the macrocosm of the outer universe.

H The sound of this letter is the sound of the divine virtue of the Power of the Word.

This virtue gives the knowledge on HOW to create whatever is willed.

In fourfold whole brain thinking, the WILL to manifest a divine virtue is held in the pure being of Delta brainwaves, the intellectual CONCEPT AND MEANING of a divine virtue is held in the deep inward thought of Theta brainwaves, the EMOTION of a divine virtue is held in Alpha brainwaves, and the SENSATION, COLOR, MUSICAL NOTE, SOUND, AND RELEVANT BODY is held in the five senses, memory, and logic of Beta brainwaves.

By using this technique to utter words of power, each one of which is made up of letters representing divine virtues, creativity of the highest order occurs

.

The letter H has a silvery violet color, is the fire element of will and has the sensation of warmth and fire, it has the musical note of A, and is the virtue by which the right arm of every child of God is created.

A The sound of A is a soft a like a sighahhhhh.

This virtue, of highest wisdom and enlightenment, gives the intellect clear perception of the purity of all original ideas.

This has as a fundamental feature the enlightened mind.  
Reasoning, perception, the cognition of the most profound  
truths,

highest knowledge, high intelligence,  
and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance,  
clairaudience,  
the art of levitation,  
and the control of the air element and its beings  
are all aroused by this initiation.

On the physical plane the command of the beings of the air,  
control over storms,  
are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the  
musical note is G,  
the element is  
air so it has the sensation of ease, and the lungs are formed  
from it.

\*

Umlaut A, a transformation through release of imperfections  
for changes into other states.

s This is the sound of initiation into all-penetrating power, all-  
power.

This all-power is quantitative in form in comparison to  
omnipotence which is qualitative in form.  
This all-power is to be understood substantially,

whereas omnipotence is to be regarded as the highest divine  
virtue.

With all-power you get into contact with the most subtle  
substance of the divine spirit,  
i.e., with the original divine fire  
which works as a substantial power in everything  
that has been created by Divine Providence.

Omnipotence, on the other hand, is manifested in the original  
idea

as the original virtue of the first divine principle  
in all the kingdoms and in everything that has been created.

Oneness with all-power gives mastery over the fire principle of  
desire and will

and brings about a state of clairvoyance in its purest form.

**Complete control over consciousness results from this.**

**The color of this virtue is purple red, its musical note is G-sharp,**

**it is the fire element of will and so it has the sensation of warmth,**

**and the gall bladder is the part of the body that is formed by it.**

**S This is the sound of all-penetrating power, ALL-POWER.  
This virtue gives the WILLPOWER to claim and manifest the  
inherent divine gifts**

**that are waiting to bless everything in the web of life, through  
time and space.**

**This all-power is to be understood substantially.**

**With all-power you get into contact with the subtlest  
substance of the divine spirit, i.e.,**

**with the original divine fire, or will, which works as a  
substantial power  
in everything that has been created by Divine Providence.**

**Oneness with all-power gives mastery over the fire principle of  
desire and will**

**and brings about a state of clairvoyance in its purest form.**

**Complete control over consciousness results from this.  
The color of this virtue is purple red, its musical note is G-sharp**

**it is the fire element of will and so it has the sensation of warmth,**

**and the gall bladder is the part of the body that is formed by it.**

**E This is the divine virtue of omnipresence, the Divine  
Consciousness which permeates everything.**

**In the emotional body, the oscillation of letter "E"  
represents the control of the feeling consciousness of oneself  
and of other people.**

**Especially easy is it to achieve special clairaudience by  
meditating on this virtue.**

**By "special clairaudience" not only the hearing of beings, etc.,  
is meant,**

**but also the understanding of the language of all animals  
and the perception of the remotest past, the present, and even  
the future,**

**indiscriminately of distance or kingdom, i.e., human kingdom  
or animal kingdom.**

**The color of this virtue is deep violet, the musical note is D,**

the element is akasha,  
which has the sensation of God-penetrating-all,  
and the spine is formed from it.

\*

R The sound of the letter R is the divine virtue of becoming the  
master and guardian  
of freedom and independence.

It is this virtue that is used by each child of God  
who listens to and follows their own inner voice of guidance.

This inner guidance is a person's unmistakable link

with the Universal Mind of Divine Providence that  
lives and moves in all space and time and beyond

In this state of freedom and independence there is the feeling  
of freedom.

of any pressing burden of the laws, for by the mastery of all  
the preceding virtues  
you have achieved a state of maturity  
by which this feeling of independence has been transformed  
into an absolute state of security and unimpeachability.

This comes from the realization of the harmony and perfection  
of all divine laws  
and the identification and love of them so intensely  
that they have actually become merged with oneself

In this case  
you are the personification and representation of the divine  
laws  
and they will serve you,  
and your sense of freedom will derive from them  
rather than in spite of them.

This is a very high state of consciousness,  
but it is the state that every human being is destined to  
accomplish.

It is for this reason that your teachers have told you that  
"the truth is written within your heart".

**The color of inner guidance is golden;  
the musical note  
is C.  
The  
left side of  
the nose  
is formed from it.**
