The Angels of Natural Law

Also known as

The Angels
of

Kaerlesa

Beloved,

**We inspire the children of divine being to learn to be
natural, to see the divine in nature,
both in that which is natural within self and also all
others.**

**They are learning that all wisdom is right before their
eyes in nature
if they will just look, and listen, and feel, and taste, and
touch in meditation.**

**As people live in sacredness,
approaching each person,
creature,
plant
and mineral**

**in meditations of flowing love,
the Divine Feminine magnetic power of emotion attracts
super novas of flowing ecstasies.**

**These emotional states reveal all physical
manifestations to be spiritualized divine parts of
Paradise.**

**Everything in creation,
in its natural form,
reveals the beauty,
happiness
and cohesion
of divine being.**

***We help people understand in depth the laws of nature,
especially the higher laws in all three kingdoms:
the animal,
the vegetable
and the mineral kingdom.***

**We inspire aboriginal understanding of the "medicine"
of animals,
plants,
and minerals.**

***We help people penetrate deeply into the laws of nature
and teach them their mystical applications.***

***As it was written, there is an herb to cure every ailment
known to man.***

***The healing qualities of minerals, plants and the
spiritual teachings of animals***

***are sure guides
to those who seek***

***to manifest original will
for spiritual perfection***

in creation.

**It is said that God sleeps in the mineral kingdom
dreams in the plant kingdom,**

**awakens in the animal kingdom
and is awake in the human kingdom.**

***In these times of divine will manifesting the
initiation of wisdom in nature,
even the bodies of the children of light will be
recognized for what they are,***

exact microcosms of the macrocosm.

***"Ye are made in the image and likeness of
God."***

***We inspire people to become masters of divine natural
science.***

All is one.

All is a unified field.
Sacredness is omnipresent.

**Through the mysteries of consciousness itself,
long known in the ancient sciences,
and recently being discovered in the science of quantum
physics,
a person discovers that nature and natural laws witness
the perfection
of omnipresent, omnipotent, omniscient being.**

Emotion is the language of the quantum field.

**That is why love is necessary for the perfection of nature
to manifest
out of infinite possibilities.**

The Children of Light in physical incarnation,
through loving all creation,
see the divine in everything,
and discover that they contain within themselves the three
lower kingdoms.

Flowing **emotions** of wisdom awaken inner guidance to
meditate in nature
and thereby remember and attune to qualities of Divine
Consciousness expressing there.

These three lower kingdoms express a mystical aspect of The
Being of the Divine and of every human being.

As above, so below.

The Divine Being expressing through nature reveals an
awesome cosmic attunement so vast and wonderful,
that it totally transforms the consciousness and **emotions** of
the Children of Light.

The splendor and majesty of Divine Being manifesting
through the three lower kingdoms
reveal that Paradise lies within the very temple of the human
body itself.

**Every hair, cell, and part of the body of man, animal,
plant and mineral
will be understood for what it is,
a holographic manifestation of divine law.**

**In heaven on earth, natural food, natural biorhythms,
and natural appearance of bodies and all nature are
understood and honored.**

**No longer will it seem acceptable to cut off the hair
of the head of the children of light,
and together with the natural beards that grow on
men,
these will be understood as important exterior
antennae
that unite the mouth, head and heart and other
energy centers
to the three lower kingdoms of mineral, plant, and
animal so that**

nature will be understood.

"I have given you dominion over all that I have made."

These natural antennae that naturally grow on the children of light

provide important information to the subconscious and superconscious mind so that deep inner communion with nature is possible in meditation.

We help people understand in depth the laws of nature, especially the higher laws in all three kingdoms: the animal, the vegetable and the mineral kingdom.

Every being, within all kingdoms of minerals, plants, and animals, is a unique manifestation of divine qualities. Every aspect of nature; each animal, plant, and mineral, is a doorway to omnipresent Divine Consciousness that pervades all of space.

By mastering the divine virtues of the letters of our name, a person experiences the divine virtues as mystical dimensions of the animal, plant and mineral kingdoms.

The letter K of our name is the Virtue of Omnipotence.

This virtue manifests in survival instincts in the kingdoms of nature.
Survival manifests in the expression of magical powers, such as telepathy, in the lives of animals, and as uncanny methods of adaptation in plants and minerals.

The original divine blueprints of creation are revealed in nature,
expressing the original purity of all ideas in Divine Mind.

Wisdom and enlightenment are written in the manifestations
of the three lower kingdoms for The Children of Light to read.

This awakens mystical faculties such as clairvoyance and clairaudience, and beautiful artistic talents.

This is the virtue of letter A.

The letter umlaut A, ae, is the virtue of understanding the mysteries of life and death regarding their transformation.

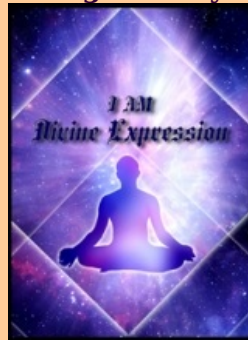

With this virtue, a person understands that in reality, death does not exist, for the so-called death is really a transformation from one state to another.

A person learns to release any state of being that is imperfect,

or any imperfect desire, thought, **emotion** or sensation in self or other.

This release causes change to occur as imperfection transforms according to the highest good of all

as seen through the eyes of love.

Letter E represents the omnipresence of Divine Consciousness and Being.

It reveals the unity and interconnectedness of the web of life.

This unifying consciousness ties together individual parts so that they all function as a whole,

forming interdependent ecosystems.

This virtue allows individual consciousness to become one with any other being,

and also with Divine Consciousness, to communicate fully and completely with everything.

The letter R represents the element of inner guidance and choice that is present in all life.

It leads to growth of intelligence and selective evolution.
This divine virtue is critical to the development of Soul and Form.

Ancient teachings speak of the evolution of consciousness in Soul, or feelings, and within form, as an upward spiral.

When the **emotions** and form of beings of the mineral kingdom reach their highest levels of consciousness, this excellence becomes obvious by beautiful emanations of emotion, and **beauty of form, such as** seen in precious metals or gems with healing properties.

After reaching this level, the Soul and Form intelligence of the mineral transforms
and incarnates as a primitive one celled plant.

Then, through a long line of incarnations in the plant kingdom, ever reaching higher and higher complexity of **emotion** and form consciousness, this being finally reaches the highest levels.

When a plant being reaches enlightenment, it may manifest as a fruit, a mighty tree, or as a flower.

In its next incarnation it is a primitive one celled animal.

Again the upward spiral of incarnations in this kingdom result finally at the point of highest expression.

The animal is said to have reached enlightenment when it feels such great love and devotion for **another** that this love overcomes its own instinct for survival. The tales of animals risking or sacrificing their lives for their masters are examples of this.

In the next lifetime, this life energy is ready to express as Soul and Form for a new human spirit.

This human evolves higher and higher, on the spiral of evolution in **emotions** and form,

until it eventually manifests Oneness with Divine Consciousness as a living immortal Master.

The letter L represents the splendor and majesty of Divine Virtues that express themselves in nature, in the human, animal, vegetable, and mineral kingdoms.

These infinitely complex kingdoms are the out picturing of every divine virtue in **emotion** and form.

Shamanic teachers have sought and found Divine Virtues expressed in animals, plants, and minerals of Earth.

In this way these kingdoms are teachers and healers of the children of Earth.

The second letter E represents benefits that each individual brings to the whole and of the benefits that the whole brings to each individual. When a **m**ountain lion survives and brings its cubs safely to maturity, the joy of this event fills the whole being of God.

The freedom and power of an eagle echoes to the far reaches of the universe.

That is why it was written that Divine Being is aware of the least sparrow,

and that when a blade of grass is broken the universe trembles.

The letter S represents omnipotent Divine Willpower for the highest good of all penetrating everything.

This is the power that exists within each being to attract whatever it needs to survive and flourish.

This is **a** source of natural law.

The lower kingdoms of nature send out the call to manifest Paradise for all.

They join with humans in attracting the response of heavenly hosts and Universal Consciousness to heal the Earth and bring about states of unconditional love and beauty.

The final letter A again represents the all pervading wisdom and enlightenment that expresses itself through the kingdoms of nature.

The mathematics of sacred geometry, such as the Fibonacci Spiral,

are found in nature all the way from the tiniest to the largest organisms.

The mathematical formula of the Mandelbrot Set splashes itself all over the natural landscape in everything.

Each tiny snowflake is unique, and each flower is a testament to the glory of the Divine.

The letter A is an instinctive attunement to mystical faculties of clairvoyance, clairsentience, clairaudience etc.,

and this gives people attunement to nature and also gives

attunement to wisdom
that guides animals to store food, migrate,
and perform all other similar survival functions.

In the vegetable kingdom, this virtue guides the plant
intelligence
to produce chlorophyll, follow the sun, store seeds etc.
In the mineral kingdom exact mathematical chemical
changes occur because of this virtue.

Continually nature reveals how to release imperfection for
changes into other states

that are the highest good of all concerned, umlaut A, ae.

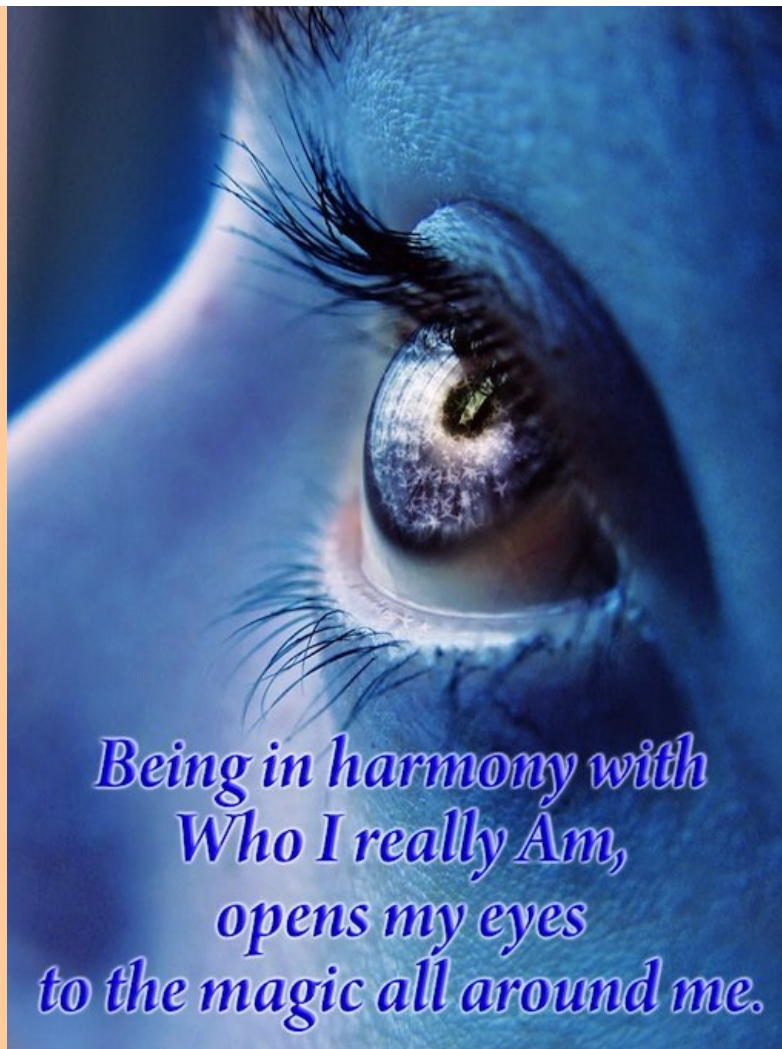

The study of nature reveals the economy of energy created
by letting go of whatever is no longer working,

whatever is not the highest good and allowing it to change
and evolve.

In nature, the splendor and majesty of Divine Being
revitalizes all creation.

MIRACLES

*Being in harmony with
Who I really Am,
opens my eyes
to the magic all around me.*

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from

THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

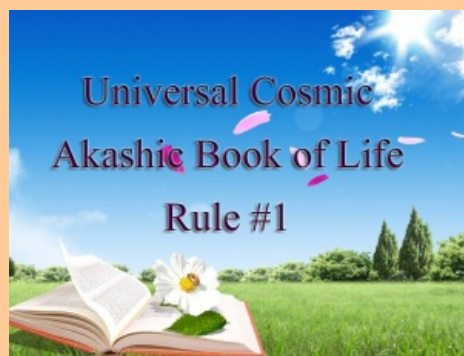

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

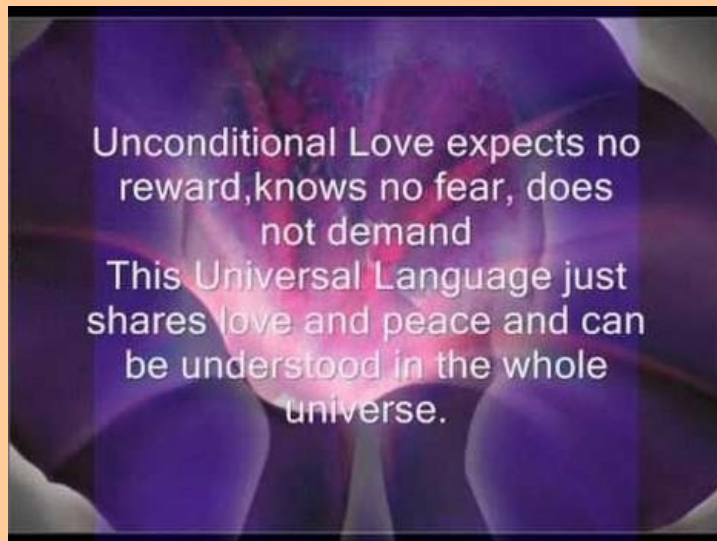

I ask that ONLY

THE HIGHEST GOOD OF ALL CONCERNED happen .

I give thanks that this is done.

SO BE IT!

So it is.

*Everything lights up as soon as I align myself
with my Inner Guide...
my immortal soul.*
