

The Angels of Advanced Prophecy

Also known as

**The Angels
of**

Ugolog

Beloved,

***With awareness of oneness,
comes gratitude
for the art of bestowing grace
and mercy.***

***Mercy,
for self and others,
are transformational divine
blessings.***

***Grace and mercy, combined with deep inner meditation
on the causes of any fate,
enables a child of light to change the causes and
thereby change the fate,
so that only the highest good of all happens.***

**Each individual is a part of a unified whole,
the web of life and information
and a part of and one with Divine Consciousness Itself**

**Just as the part informs the whole, the whole informs
the part.**

Understanding the causes behind whoever or whatever is meditated
upon,
and
looking at, contemplating, feeling, and sensing other peoples and
things state of awareness,
makes it possible to accurately figure, or see who they are, in their
past, present and future.

Then grace and mercy,
combined with all the divine virtues taken together,
enable changes to any fate to bless to self and others.

*The divine virtues represented by the letters of our
name
inspire ability to read any persons fate in the mental,
emotional, and physical world
s directly and clearly
out of the principle of consciousness-penetrating-all.*

*With our guidance and with these virtues it is easy to
read*

*the past, present and future thoughts of any human
being.*

*It is also easy to see their emotional development from
its origin to its perfect maturity
as well as the physical fate of past or future
incarnations.*

Using the divine virtues of Ugolog,
this knowledge comes through focusing on people and seeing,
contemplating, feeling and sensing
their present states of development in deep meditation.

From this, the past and the future are known,
and grace and mercy can then activate transmutation
through the power of seeing through the eyes of love

Due to previous development under the Angels of *Bileka*,
who are the heavenly hosts of advanced meditation,
desired information comes spontaneously and vividly into the
imagination

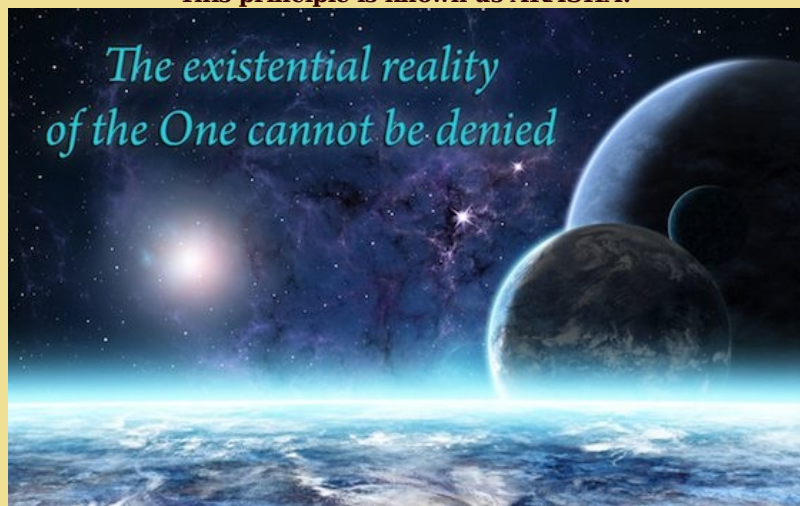

Remember that all mystical faculties depend on reclaiming a fully
aware four brainwave cognition.

Even though full cognition is sometimes deadened through improper
educational, social, and cultural traditions,
and improper nutrition and toxicity,
it is possible to reclaim full brain functioning,
using the skills of meditation in activating divine virtues,
asking for help from the heavenly hosts,
and healing the inward emotional, mental, and spiritual self.

The detoxification of the physical, emotional, mental and spiritual
bodies
are then combined with enlightened nutrition and physical,
emotional, mental, and spiritual health-keeping.

There is no need to mystify the most simple of truths,
namely, that all information,
like all power,
all-being and all love,
exist everywhere all of the time.

This principle is known as AKASHA.

Information is accessed through desire and intent.

People who are aware in all four brainwave states receive inner
knowingness through divine inspiration.

This divine inspiration concerns whatever it is that they desire to
focus on.

This inspiration comes through desiring to know and then asking a question in meditation, and staying focused on it in a still [Delta] state of pure being.

Then, in the stillness and oneness of everything, inwardly watching [Theta] emotions [Alpha] and sensing states, information awakens in the mind.

It is possible to think about anything and anyone, ask any question about them, and receive information mentally, emotionally, and with sensation.

It is also possible to eventually do two things at once, to meditate and be active in the world simultaneously

This ability awakens only after advanced meditation has become effortless.

At this point, a deep trance state divinely manifests grace and mercy to all, not only when alone and within, but also when interacting with the world.

It is natural then to walk in the world and be in a state of pure divine meditation at the same time.

Just ask.

As above, so below.

The Earth is finishing the part of the cosmic rhythm and cycle that is known as the darkness before the dawn.

During this transition, the unconditional giveaway and receiving of beauty is necessary.

Similar to when a severe illness or injury in a person causes a reevaluation of lifestyle, and adaptive behavior that promotes and maintains healing is sought, so it is with the Earth.

Now that communication is established through technology, the extent of earths injury is known to greater and greater numbers of people.

Now the innate divine global will to heal awakens realizations, realizations that the means to heal are here.

This then results in deep self-examinations of values and lifestyles.

**The past, present and future are contemplated,
and changes are made,
for the highest good of all,
to create Heaven on Earth.**

**Flames of Divine Will and flowing Divine ,
especially of Divine Love,
are creating and attracting divine changes throughout the entire
field of Universal Consciousness,
resulting in spontaneous remissions of every sort**

**As people regain full consciousness, the pursuit of material wealth
naturally becomes**

balanced with the pursuit of emotional, mental, and spiritual wealth.

Wealth in these inner areas are obtained in conscious Delta, Theta, and
Alpha brainwave states.

Balance can be obtained by spending equal amounts of time and
energy in these states.

**Abilities to manifest miracles are regained this way and these,
combined with dedication,
facilitate transitions into divine planetary beauty, plenty, and
perfection.**

This has been the divine plan all along.

**We inspire people to overcome any reluctance to ask for help from the
heavenly hosts.**

We inspire them with lifestyles of asking.

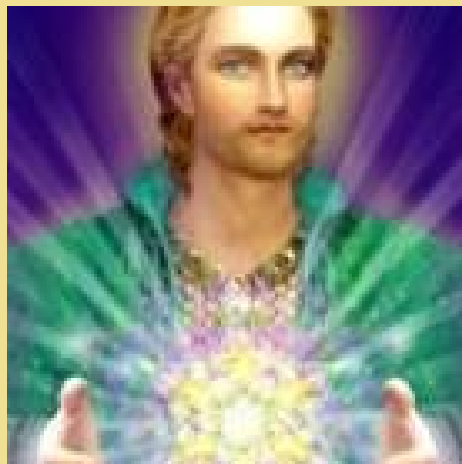

"Ask and ye shall receive, knock, and it shall be opened to you.

**We help people realize that they are not approaching outsiders,
but rather extended parts of self.**

This is a unified field.

Just ask.

MIRACLES

Ugolog

UThe ability to go into deep trance states and see the causes behind anything or anyone in creation.

This awakens gifts of prophecy and the ability to change any fate by changing the causes, and see the ongoing effects of this change.
G.This is the outpouring of flowing emotions of true divine blessing, the virtue of grace and mercy.

O umlaut O,eu Profound cognition brought about by Love Divine creates perfection and is just and harmonious.

LPerfection is endowed with all of the divine virtues, bringing about true spiritual morality, vitality and awe.

O and umlaut **O**, euLove reveals greater and greater truth of the divinity in all creation, and brings about understanding of how justice and harmony manifests

in the past, present, and future as a result of the actions of the act of creation.

GIt is possible to see how ultimately flowing emotions of grace and mercy attracts redemption for all and results in joy..

For I have given you joy, and life everlasting.

Ugolog

U The ability to see the causes behind everything in creation is accessed via the first letter of our name, the letter U.

Meditating on the causes behind manifestation of the physical, emotional, mental and spiritual state

brings about the most profound cosmic intuition and the ability to change causes and thereby change fate.

The virtue of the change of fate shines with a deep black light.

***G** In the principle of consciousness-penetrating-all,*

this is the virtue of Divine Grace and Mercy with all of its profundity.

In the mind this virtue gives divine peace in the spirit, the experience of peacefulness and the blessing by Divine Providence.

Mastering this virtue gives the absolute faculty of bestowing true Divine Blessings.

In the emotions there is great happiness and complete satisfaction.

Likewise, when mastering this virtue, situations may be created by means of the elements and the masculine-feminine energies causing happiness, success and wealth in the material world for oneself or others.

[Color: deep grass green, musical note: F, element water-chill, heals: left eye]

O Umlaut O, eu

Akasha: In the principle of consciousness penetrating all, the umlaut **O** oscillation evokes the most profound cognition which can only be brought about by love divine.

By the help of this a person gets to know all the possibilities of transformation of the spirit.

all the systems and ways serving this end,
and all knowledge concerning transformation in all other fields.

He/she is informed about everything that, deriving from the act of creation,

had to pass through all the mode of transformation to be reunited.

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine,
in the principle of consciousness-penetrating-all,
and must make use of all possibilities, in order to get convinced that they cannot be described by words,
by must be experienced, lived through.

I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises,

because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.

Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine

gives the understanding of the transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.

Astral/ emotional level: In the emotions, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body

without being recognized by other beings
and with only Divine Providence seeing through him/her.

Apart from this, a person is able to transform any emotional oscillation

into the oscillation he wants and to do the same with any element.

Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.

A person is taught the true preparation and charging of the philosophers stone in the physical sense.

He/she can influence, at will, any oscillation atomic, oscillation, electronic oscillation- by quabbalah,

and he/she is able to transform it into the oscillation desired by him/her.

Therefore he/she perfectly masters the laws of transmutation

and is able to transform any metal into gold,
any stone into a precious stone, etc.
if desired.

By the help of this virtue a person is furnished with many other
faculties
of which he/she cannot even dream now
and which non-initiates would regard as absolutely impossible.

Umlaut O is dark orange, has the musical note of D-sharp,
is the element of akashic-earth which has the sensation of weight
penetrating everything.

The ovaries and testicles are formed from this virtue of the profound
cognition brought about by Love Divine.

In healing, heal the left ovary first and then the right one.

O see below

*

In the akasha principle of consciousness-penetrating-all this letter
represents the highest divine virtues.

By meditating on this virtue you perceive how divine virtues work in
the various spheres and levels.

On a mental level you understand and identify with divine morality.

On the feeling level you have equilibrium, and have the ability to
spiritualize your feelings
so that you become one with the divine virtues.

On the material level you have perfect health, beauty, and harmony.
You are master of your own vitality.

If you so chose, your body can retain the appearance of youth.

With permission from Divine Providence, you can also confer these
qualities to another person.

The color is dark olive green, the musical note is E, the element is air
and has a sensation of ease.

The spleen is formed from this virtue.

umlaut O, e see above

O The sound of this letter is the sound of Divine Justice and Harmony.

In the principle of consciousness-penetrating-all, this virtue is
adherence to legality,

and appreciation and recognition of the divine laws.

Anyone mastering this virtue by evoking it and identifying with it
eventually attains divine justice.

Such a person will never do anything unjust and will never slip,
for they are completely filled with the legality of Divine Providence,
with an absolute sense of justice.

In the mind this virtue gives expression to the absolute legality of
harmony
in all levels of spirit, mind, emotion, and form.
It also gives control over fate.

By the mastery of Divine Justice, one attains a high power of
judgement

and the ability to comprehend spiritually any legality, any
interference
by Divine
Providence for the sake of Justice.

At this point a person will never condemn anyone unjustly.

In the emotions, this virtue evokes absolute emotional contentment and poise and bestows the power to evoke whatever emotional energy is desired. This will have its effect on the principle of consciousness-penetrating-all,

and in the will, the mind, the emotions, and form.

Since at this point a person has become incarnated Justice himself, he will never want to bring about unfavorable situations in any level without a strict order by Divine Providence.

Fate has no influence on the person who has developed this impeccability and accountability to Divine Providence.

This virtue gives a sense of satisfaction, absolute security, infallibility and unimpeachability. In the material world the virtue of Divine Justice will evoke situations which bring about absolute success and happiness in every respect.

Because of the virtue of justice, one learns to understand, and eventually control completely, the working and functioning of the masculine-will-thought and feminine-feeling-form energies in the human body and in the material world in their relation to higher consciousness and higher spheres.

Endowed with this ability, a person can become perfect master of astrophysics and metaphysics.

[color: ultramarine blue, element:earth-heaviness, musical note: C, heals: throat and windpipe.]

GDivine grace and mercy.

Miracles

Note:

A number of you have written about intense feelings of sadness, disconnection, pain, and anger coming up at this time.

This energy is the flowing tangible feelings in the body of emotional and magnetic feminine energy

of alpha brainwave cognition that is coming up for healing.

This level of awareness is going through awakening, healing and balancing within the Children of Light all over the world.

Uncomfortable emotions should not be bottled up any longer, denied, or suppressed by chemicals or addictive behavior.

They should not be acted out destructively toward self, others, or property.

Instead, they should be understood as compressed information

and seen as important life experiences that the higher self allowed to be experienced.

This was so important lessons could be learned just prior to the coming massive enlightenment and empowerment, so that only the highest good is desired for one and all.

Attempts to "make painful emotions go away", or bypass them with "positive thinking", are sometimes unwisely used as ways of denying and avoiding feelings that need to heal through gratitude.

Emotions are the water element, and like water, they cleanse, reveal their teachings, and purify themselves through flowing freely in an atmosphere of unconditional all encompassing love

Present time painful emotions usually go back to a previous emotionally traumatic experience.

The most powerful and unconscious traumatic experiences usually occur in conception, gestation and birth.

Emotions the father and mother had flowing at the time of conception strongly imprint the impregnated egg which then divides billions and billions of times during gestation.

Each cell carries and is affected by this emotional imprint and memory.

In meditation ask the cells to let you experience their emotional memories, their imprints.

By going back in meditation and re-experiencing these feeling memories, and calling on the heavenly hosts to heal all involved, cellular memories can be permanently healed.

New divine imprints are now held by the cells, and these positive feelings attract a divine life of great beauty.

It is wise
to ask that this healing go back at least ten generations and forward
into time for ten generations.

An original wounding event from earlier in life can also be
remembered
by looking at the present time emotions themselves.
Make a list of these painful emotions and ask yourself, When have I
felt this way before?

Usually there are a number of experiences, a pattern of them, in
which these emotions occurred.

The important memory to remember and feel through to healing is the
original one, the one that is the most painful.

This memory, once brought back into consciousness, should be lived
and relived in the imagination, over and over,
while feeling each emotion that comes up with empathy and
healing unconditional love.
Whatever happened caused these emotions and they deserve to be
healed and validated,
not judged or resisted or acted out dangerously.

Natural insights and breakthroughs occur during this process.

These insights shed a whole new light upon the memory, the people
and events, and reveal underlying facts and truths
about the experience that were not noticed at the time. These healing
insights often awaken feelings of forgiveness,

so that understanding and healing occur spontaneously return.

Once emotions and memories are healed, positive feelings and
thinking return.

Remember that once you have found and relived a painful memory
once,

repeat this again, and remember the memory from the beginning to
end,

like a movie, all the way through again to the end.

Each time you relive the memory like this, more of the memory comes
back, and more of the emotions are remembered.

Even if all you have is a split second flash of a memory, live and relive
this split second and more of the memory returns.

Quiet your mind and stay aware of the emotions and where they are
in your body.

Quiet the mind so that your attention is on the emotions and the
body.

Otherwise you could dissociate from the emotions and interrupt the
healing process.

Use the mind to ask for help from the heavenly hosts, to have an
insight,

or to interact with the people in the memory,
but otherwise quiet the mind and pay attention to the emotions.
They must flow to heal.

By feeling the emotions, crying the tears, feeling the anger, reliving
the pain,
the emotions are released from the body tissues,
where they have been stored subconsciously and transmute.

By loving the emotions as you feel them, they transmute very very
quickly,
for that is the power of love.

In doing this, you are actually loving and validating yourself at an earlier time in your life a time when you were going through emotional traumas and needed loving and validation more than ever.

**The memory will go through changes, and some of the changes are healing insights and healing desires.
Follow through with these intuitive changes.
When you have a desire to correct something, or if there is something you wish you could have said or done or asked, imagine that you are doing it as you relive the memory.**

Interact with the memory.

**Be free to call in the angels for help, or ask the higher self of one of the people involved, including your own Higher Divine Self, to come back in time and heal the event.
The changes in the memory that arise from these interventions are the process**

that the Kahunas of Hawaii call 'O Pono Pono', and the native Americans refer to it as 'Recapitulation'.

This is an ancient knowledge of healing the heart and emotional reality..

**Sometimes with painful emotions, the most difficult thing to do, and paradoxically the easiest, is to allow spontaneous painful emotions to come up and feel them in a safe, loving and non-destructive way.
Flowing, especially flowing in a loving and healing atmosphere, is the way they heal.
Emotions stay the same and are stuck only when they are not felt and they are bottled up.**

When they are expressed appropriately, they change quickly.

**When emotions change, so does physical reality.
Many times spontaneous physical healings result.**

[resource: THE NEW PRIMAL SCREAM by Dr. Arthur Janov.]

Allow any painful emotions that come up to be felt with accepting, unconditionally love, and have a patient attitude.

Become a perfect therapist for yourself.

**The creative aspect of expressing emotions is to tune in to exactly how the emotions "want" to come through.
Attune to your body consciousness.
Then experiment with whatever sounds and movements feel natural.**

The most important precaution is to find ways to express these emotions

**in a non-destructive way to self, property and to others.
Screaming into a pillow, or beating up a pillow releases anger and pain in a safe way, for example.**

Use eye movement like your body does in REM sleep. While feeling,

move the eyes back and forth, left to right and back again,
slow or fast, whatever is most natural.
This shifts the energy from one brain hemisphere to the other to
process the emotions

on all levels in all brainwave patterns.

Stay with this process, reliving the memory over and over from the
beginning to end,
until you have felt all the emotions through to healing.
You have "rewrote" the memory completely through the healing
images that come up naturally.

When you have a final divine healing image, imagine merging or
pushing this image

into the original wounded picture of the memory that you started
with.

Watch carefully what happens when these two images are merged.

This is the divine healing energy of alpha brainwave production.
It is very dreamlike, and involves the same brainwave patterns that
are used in dreaming.

By learning how to do this, you are taking the automatic process of
the natural healing
that happens every night in dreaming into conscious control.
In this way you heal wounded or neutral emotions as they come up
naturally day to day.

When the psyche is ready for a certain memory to heal, it will flood
your consciousness

with uncomfortable emotions from that memory.
This is the time to embrace these painful emotions and process them,
and the memory they are associated with,
instead of trying to run from them and make them go away.

There are a finite number of emotional wounds, so this process
eventually heals all of the past traumas of your life.

This frees up tremendous energy in your body so that instead of
holding in the tensions
of all the emotional pain of every traumatic event of your entire life,
your body dances with Divine Perfection in each present moment.

This totally alters the chemical makeup of your glandular secretions,
which in turn alters your aging process and stimulates your immune
system.

"And the last enemy to be overcome is death."

It is becoming common knowledge in the scientific community that emotions are the causative factor in creating reality on a quantum level.
As each one of us heals emotionally from our past, we free ourselves to feel Divine Joy and unconditional Love in the present.

Radiating the magnetic emotions of Joy and unconditional Love attracts Heaven to Earth.

MIRACLES

Note:

IF YOU ARE FEELING FINE, ENJOY THE FEELINGS AND LET THEM FLOW and become even more beautiful.

Emotional healing work only needs to be done when painful feelings spontaneously come up.

MIRACLES

“A single ray of light from a distant star falling upon the eye of a tyrant in bygone times, may have altered the course of his life, may have changed the destiny of nations, may have transformed the surface of the globe, so intricate, so inconceivably complex are the processes of nature.”

~ Nikola Tesla

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from

**The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

I ask that ONLY

THE HIGHEST GOOD OF ALL CONCERNED happen .

I give thanks that this is done.

SO BE IT!

So it is!
