*By opening my heart and my consciousness to the Reality of
my eternal Oneness with the Presence of the Omniversal Creator in me,
I free myself from everything that could hinder Its full expression.*

Beloved,

THE DAWN IS HAPPENING.

"All that I do, ye shall do and more."

**The new dawn is composed of divine lights of enlightened people,
joined by greater and greater numbers of enlightened people,
until light becomes the Blazing Sun of the awakening of all mankind.**

"For it is not my will that any be lost."

**When one is harmed, all are harmed.
When one is helped, all are helped.**

"What ye do unto the least of these you do unto me."

"As above, so below."

"The second coming will be as a sun rising from the east to the west ..."

Thy kingdom come, thy will be done,

Paradise!

*'We teach all the mysteries of the microcosm and the macrocosm
and we show a person how to acquire perfect divine cognition,
without having to choose the ancient 'path of holiness',
which would require absorption into the Consciousness of the Divine,
and the subsequent loss
of mystical individuality.'*

*World Servers following our instructions
are given missions and tasks by Divine Providence
to carry out for the earth.*

*These tasks make them teachers or assistants of
mankind
by the force of miracles and the cosmic language.*

*We protect each person under our guidance
so that they can live peacefully
without the true force of their powers being known.*

The Children of Light are responding to flowing emotions of wisdom
and claiming their Divine Inheritance.

*Many are taking matters into their own hands
to follow in the footsteps of great teachers throughout time
and bring about Heaven on Earth,
using abilities gathered through many many lifetimes
for the highest good of all concerned.*

Through mystical faculties of spirit/will, thought, soul/feelings, and sensation
growth into complete empowerment occurs.

By meditating on the divine virtues of the letters of our name,
it becomes more and more possible to embody the saying;
"I and the Father are One."

It becomes possible to fulfill the saying,
"All that I do ye shall do and more."

Historically, the path of highest mystical service to mankind has been taken by
only a few,
usually in greatest secrecy.

At the beginning of the Piscean Age,
however, a great way shower, the example of perfect man,
divinely incarnated in public to again show the way.

*Those who have reached enlightenment
and used the divine virtues of the cosmic language to perform miracles
are wondrous lamps shining in the darkest night.*

The evolutionary rate of change is speeding up greatly.

Many are destined to reach this high state of enlightenment and service.

"All that I do, ye shall do and more."

THE DAWN IS HAPPENING.

**The new dawn is composed of the divine lights of enlightened people,
joined by greater and greater numbers of enlightened people,
until the light becomes the Blazing Sun of the awakening of all mankind.**

"As above, so below."

"The second coming will be as a sun rising from the east to the west ..."

On Earth as it is in Heaven.

Paradise!

***Z...'Akasha: To evoke the "Z" oscillation
in the principal of consciousness-penetrating-all is to influence the higher
intellectual faculties, especially with regard to cognition. This faculty, aroused to a high grade,
is in harmony with all universal laws of the micro- and the macrocosm. It finds expression in all
forms of
consciousness and takes full effect in will, intellect, feeling, and sensation.'***

***'Mental: In the mental world, the spirit, high intellectual cognition
brings about a general increase of intellectual talents and abilities of whatever kind.
It is especially suitable for
recollecting previous incarnations in the memory. A person is also endowed with
the faculty of renewing all intellectual gifts and talents that he/she may have acquired in former***

*lives in the present.
He/she will suddenly become aware that
actually no time has elapsed between each former embodiment and this present
incarnation: that means that he/she has no sense of time and space. He/she has the impression
that he/she
has lived through the thousands of incarnations in a very short time. The
languages once mastered are now again made use of at will without having to learn them again.'*

*'In a word: a person, by the help of this virtue, has attained the faculty of adapting
him/herself to any situation so that he/she will not cause chaos within
him/herself even if he/she becomes aware of all the incarnations that have been lived through.
Those people
who want to learn about their former incarnations without having prepared
themselves appropriately, usually have to struggle hard to adapt themselves to the resulting
situation. The
feeling of being responsible for evil deeds will arise and find expression in heavy pricks of
conscience. Apart
from this, the retrospection into former incarnations without appropriate
preparation will evoke a feeling of dependence on fate, and a limited freedom of
will in thought and deed will make itself felt.
It may also happen with an unprepared person that the old age which will befall him/her as a
result of the
retrospection will be a severe hindrance to his/her actions because of his/her
incapability to transform him/herself into the freshness of youth. Such disadvantages, however will
only
show up with persons who have not adequately trained themselves. A person who has worked
through with all
the previous divine virtues and skills actually masters this virtue and has to fear nothing of the
sort.'*

*'Astral: In the feeling body, high cognition in the intellect evokes all kinds of artistic
faculties. The faculty of clothing all abstract ideas into words that are easy
to grasp will develop. The ability to send and receive messages through the air develops.
This is not normal telepathy, in which only thoughts are tied to
thoughts, i.e., one spirit speaks to the other. The ability to send messages
through the air uses the air principle as a medium for the sound oscillation.'*

*'Material: The virtue of high cognition in the intellect makes the body tough in a material
sense and furnishes it with immense endurance. Long trips may be undertaken on
foot without tiredness. A person who thinks it desirable to direct concentration
on the material world by the help of high cognition in the intellect is able to
prepare his/her body so that control of storms, their evocation and calming down, change of
direction of winds etc. is achieved.'*

*'This virtue is analogous to cheerfulness, and all relevant qualities such as gaiety,
amusement and good humor can be brought into any situation.'*

The color is light yellow.
The musical note is G.
The element is air so it has a sensation of ease.
The heart is formed from this virtue.

*

A... The sound of A is a soft a like a sigh—ahhhhh.
This virtue, of highest wisdom and enlightenment,
gives the intellect clear perception of the purity of all original ideas.

*'This has as a fundamental feature the
enlightened mind. Reasoning, perception, the cognition of the most profound truths,
highest knowledge, high intelligence, and the arousing of all
intellectual faculties are expressed. Musical gifts, eloquence, poetic
talent, and clairvoyance, clairaudience, the art of levitation, and the control
of the air element and its beings are all aroused by this initiation. On the physical plane the
command of the
beings of the air, control over storms, are all made possible by initiation into the highest wisdom.'*

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it
has the sensation of ease, and the lungs are formed from it.

*

Umlaut A,
ae....transformation through release of imperfection for changes
into other states that are the highest good of all.

L... 'In the akasha principle of consciousness-penetrating-all this letter represents the highest
divine virtues.
By meditating on this virtue you perceive how divine virtues work in the various spheres and levels.

On a mental level you understand and identify with divine morality.

On the feeling level you have equilibrium, and have the ability to spiritualize your feelings so that you become one with the divine virtues.

On the material level you have perfect health, beauty, and harmony. You are master of your own vitality. If you so chose, your body can retain the appearance of youth. With permission from Divine Providence, you can also confer these qualities to another person'.

The color is dark olive green, the musical note is F, the element is air and has a sensation of ease. The spleen is formed from this virtue

Umlaut O. eu... 'Akasha: In the principle of consciousness penetrating all, the umlaut O oscillation evokes the most profound cognition which can only be brought about by love divine.

'By the help of this a person gets to know all the possibilities of transformation of the spirit, all the systems and ways serving this end, and all knowledge concerning transformation in all other fields. He/she is informed about everything that, deriving from the act of creation, had to pass through all the mode of transformation to be reunited.'

A person must attain all the faculties that are offered by this profound cognition made possible by Love Divine, in the principle of consciousness-penetrating-all, and must make use of all possibilities, in order to get convinced that they cannot be described by words, by must be experienced, lived through.'

'I have mentioned the letters umlaut A and umlaut O as the last ones in this series of exercises, because by the help of their virtues one is able to comprehend, from the principle of consciousness-penetrating-all, the crown of all wisdom in the micro- and macrocosms, from the act of creation to the present state of evolution, and even to the final development.'

*

'Mental: Evoked in the intellect, the virtue of profound cognition brought about by love divine gives the understanding of the

transformation of ideas, virtues, etc. by the quabbalistically pronounced word, which is a very great and comprehensive field.'

*

'Astral/ emotional level: In the feelings, the virtue of profound cognition brought about by love divine develops the faculty of perfect astral projection and the mastery of all occult and magical phenomena that have reference to transformation, so that a person may, for instance, assume any desired vibration in the emotional body without being recognized by other beings and with only Divine Providence seeing through him/her. Apart from this, a person is able to transform any emotional oscillation into the oscillation he wants and to do the same with any element.'

*

'Material: When mastered in the physical body, the profound cognition brought about by love divine leads to perfect knowledge of quabbalistic alchemy in the material world.'

'A person is taught the true preparation and charging of the philosopher's stone in the physical sense.

He/she can influence, at will, any oscillation—atomic, oscillation, electronic oscillation- by quabbalah, and he/she is able to transform it into the oscillation desired by him/her.

'Therefore he/she perfectly masters the laws of transmutation and is able to transform any metal into gold, any stone into a precious stone, etc. if desired. By the help of this virtue a person is furnished with many other faculties of which he/she cannot even dream now and which non-initiates would regard as absolutely impossible.'

Umlaut O is dark orange, has the musical note of D-sharp, is the element of akashic-earth which has the sensation of weight penetrating everything. The ovaries and testicles are formed from this virtue of the profound cognition brought about by Love Divine. In healing, heal the left ovary first and then the right one.

*

O...The sound of this letter is the sound of Divine Justice and Harmony.

In the principle of consciousness-penetrating-all, this virtue is adherence to legality, and appreciation and recognition of the divine laws.

'Anyone mastering this virtue by evoking it and identifying with it eventually attains divine justice.

Such a person will never do anything unjust and will never slip, for they are completely filled with the legality of Divine Providence, with an absolute sense of justice.'

'In the mind this virtue gives expression to the absolute legality of harmony in all levels of spirit, mind, feeling, and form.

It also gives control over fate. By the mastery of Divine Justice, one attains a high power of judgment and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of Justice.'

'At this point a person will never condemn anyone unjustly.'

'In the feelings, this virtue evokes absolute emotional contentment and poise and bestows the power to evoke whatever emotional energy is desired. This will have its effect on the principle of consciousness-penetrating-all, and in the will, the mind, the feelings, and form.'

'Since at this point a person has become incarnated Justice himself, he will never want to bring about unfavorable situations in any level without a strict order by Divine Providence.'

'Fate has no influence on the person who has developed this impeccability and accountability to Divine Providence.'

'This virtue gives a sense of satisfaction, absolute security, infallibility and unimpeachability.

In the material world the virtue of Divine Justice will evoke situations which bring about absolute success and happiness in every respect'.

'Because of the virtue of justice, one learns to understand, and eventually control completely, the working and functioning of the masculine-will-thought and feminine-feeling-form energies in the human body and in the material world in their relation to higher consciousness and higher spheres.

Endowed with this ability, a person can become perfect master of astrophysics and metaphysics'.

[color: ultramarine blue, element: earth-heaviness, musical note: C, heals: throat and windpipe.]

*

N... This sound is the sound of supreme happiness and fulfillment.

This virtue gives control over the mental matrix, which is *'the spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.*
The mastery of this virtue reveals to the child of God all the mysteries relating to the mind and the emotions and bestows the ability to comprehend, see, sense and control, the mental matrix with its sphere of action, either in regard of self or others.'

On a physical plane, this virtue gives mastery over *'the principle of cohesion or coherence, gravity and the attractive power of everything material.'*

The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation.
The liver is formed from this virtue.

*

E...

The sound of this letter concerns everything related to the transfer of consciousness and intuition.

... 'This letter is the sound of universal consciousness, which represents, as a divine idea and virtue, its omnipresence in everything that has ever been created.'

'Meditating on this virtue unites your normal consciousness with the universal consciousness, with the cosmic consciousness, so that you can attain, in the akasha principal, omnipresence yourself. This is known in oriental wisdom as Nirvi-Kalpa-Samadhi.'

'You attain the highest form of intuition in your mental world; you transfer your consciousness so that there exists no sense of time and space. Divinity in His highest form is able to speak through you.

The most profound mysteries of materialization and dematerialization become obvious to you as you master this, everything that is material may be transferred back into its refined and most subtle form and any idea can be intensified in such a way that it becomes physically visible.'

'In the emotional body, the oscillation of letter "E" represents the control of the feeling consciousness of oneself and of other people. Especially easy is it to achieve special clairaudience by meditating on this virtue. By "special clairaudience" not only the hearing of beings, etc., is meant, but also the understanding of the language of all animals and the perception of the remotest past, the present, and even the future, indiscriminately of distance or kingdom, i.e., human kingdom or animal kingdom.'

The color of this virtue is deep violet, the musical note is D, the element is akasha, which has the sensation of God-penetrating-all, and the spine is formed from it.

*

S... This is the sound of all-penetrating power, ALL-POWER. This virtue gives the WILLPOWER to claim and manifest the inherent divine gifts that are waiting to bless everything in the web of life, through time and space.

*'This all-power is to be understood substantially.
With all-power you get into contact with the subtlest substance of the divine spirit, i.e., with the original divine fire, or will, which works as a substantial power in everything that has been created by Divine Providence.*

Oneness with all-power gives mastery over the fire principle of desire and will and brings about a state of clairvoyance in its purest form. Complete control over consciousness results from this.'

The color of this virtue is purple red, its musical note is G-sharp, it is the fire element of will and so it has the sensation of warmth, and the gall bladder is the part of the body that is formed by it.

The melody of our name is G, G, C, F, D sharp, C, A, D, and G sharp.

Footnotes

Special note on letter Y...

:This is the divine virtue of the true origin of the rhythm of life and its relations.

This virtue has been influencing the law of evolution from the beginning of creation towards its perfection.

Since this rhythm is difficult to grasp, only an experienced person who has reached this point in meditating on the divine virtues in terms of scientific work will succeed in FULLY comprehending and mastering the original rhythms of life and the laws of harmony-legality.

Mental:In the mental plane, i.e.,in the spirit, the virtue of the original true rhythm of life brings about the faculty of profoundest cosmic intuition and inspiration, which, at the same time, may be regarded as the gift for absolute devotion to and deepest love for Divine Providence.

Another advantage is the fact that from this faculty many other abilities may develop which cannot at all be described by words alone because of their being of exceptional macrocosmic value.

Astral:Mastered in the feeling body, the virtue of the rhythm of life imparts an excellent aptitude for prophecy that will exclude any possibility of mistake. Who has become familiar with the rhythm of life will have spiritualized his/her emotional body in such a way that he/she will be able to see and know prophetically, beyond all doubt, the fate of everything, of every creature, be it man or animal, from the microcosmic point of view. His/her prophecies will be so certain and infallible as if they would come directly from Divine Providence.

Such a high faculty of prophecy cannot be acquired by any other virtue.

Material: When the rhythm of life is evoked in the material body, this virtue leads to the ability to explore, comprehend and apply the absolute influence of the akasha principle [the principle of consciousness-penetrating-all] on the material world with regard to all forms and bodies in the mineral, vegetable, animal and human kingdoms.

At the same time, the faculty of making emotional and material objects invisible is also achieved, for whoever recognizes and masters the akasha principle in the material world in all its forms of existence is able to change the grade of condensation in our material world at will.

Thus a person is in a position to dematerialize his/her body and to materialize it again

**at a great distance within a few
moments.**

**Consequently, he/ she is able to bridge over time and space,
not only mentally and emotionally, but also materially.**

**Many of the miracles
of the holy scriptures are evidence of what is said here.**

**The color is pink, the musical note of this virtue is C-sharp.
The element is etheric-earth penetrating everything.
The heart is formed from this virtue.**

**From this we can see that a Child of God can bridge over time and
space,
not only mentally and emotionally, but also materially.**

Footnotes:

**The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together
form a common precursor, or root, of three of the world's religions:

and the angels who work with him or her.
The being and the angels share the same name.
This name is a key to their powers and influence.**
