## ***The Angels of Omnipotence and Omniscience***

Also known as

The Angels

of

## ***Boria***

Beloved,

**On Earth as it is in Heaven.**

**The Alpha and the Omega.**

***Boria,***

**our name in the cosmic alphabet,  
could be translated thus,**

**A person attains complete enlightenment  
and sovereignty over manifestation,**

**having mastered perfect control of karmic  
law and of will and emotion in all spheres.**

**By seeing all with cognition brought about  
by Love Divine,  
unimpeachable ethics gives absolute security  
and autonomy,**

**even to change karma,  
if need be.**

**This is always done according to inner guidance attuned to  
the highest good,  
to bring about wisdom and enlightenment and  
transformation of imperfections,**

**into states determined by the highest and most joyful  
divine love,**

**that are the highest good of all concerned.**

**We teach the correlative effects of the four planes of  
consciousness**

**which represent the elements of fire, air, water, and earth.**

**We do this work in the whole microcosm and the whole  
macrocosm,**

**which means all the dimensions of a persons inner reality  
and the outer reality of the whole universe.**

***We especially do this as regards other spheres and planets  
of the solar system***

***and the rest of the universe,  
and show their effects on the earth.***

***We make known to you technologies,***

***original substances,***

***chemical elements and compounds from  
other spheres,***

***unknown on earth,***

***and we help you manifest these on earth.***

***We give you exact information on the miraculous application of their effects and  
their influence,  
and their practical use in the existing technologies and chemistries of earth.***

***Guided by Boria, a person becomes an omniscient and omnipotent person  
in respect of the microcosm as well as the macrocosm***

***and he/she cannot be governed by any other being but the One,  
Unpersonified Divine Providence.***

**The divine virtues of our name are the consciousness of the last degree of the last sign of the zodiac.**

**These virtues awaken a Child of Light to omnipotence and omniscience.**

**The final and last step of awareness is the uniting of heaven and earth, especially through mastery of infinite cosmic willpower and flowing divine love.**

**We inspire mastery of polarity in the universe, the ability to see through the eyes of love and bring about harmony,**

**clear inner guidance in each moment to use the laws of cause and effect to manifest the original purity of all ideas in divine mind and control negative beings.**

**With complete divine wisdom, inner guidance, and full mastery of cause and effect, we give thorough information on the akasha principle, which is the principle of oneness with all, of pure divine being and consciousness-penetrating-all.**

***From this last heavenly host and group of angels of the zone girdling the earth,***

***a person can get thorough information on the correlative effects of elements and fluids in whole micro-and macrocosm, i.e. in all spheres and on all planets of the zone girdling the earth in all three planes the mental, emotional, and physical and also get exact information on the magical application of these effects.***

**The elements flow in order to change, and are aether, fire, air, water, and earth.**

**These correspond to akasha which is pure being and consciousness-penetrating-all, will, thoughts, emotions, and sensations.**

**These are the Delta, Theta, Alpha, and Beta brainwave states that develop naturally through gestation, infancy, childhood, adolescence and adulthood. Remember that the electric fluid is will, and the magnetic fluid is flowing emotions.**

**We teach how to manifest the divine qualities and knowledge from other spheres on the physical plane.**

***Mystical powers, which may seem extremely difficult or seemingly impossible to achieve from the perspective of the adult beta brainwave state of memory, logic, and five senses (or earth element), become natural and automatic from the other perspectives.***

**These are the perspectives of higher consciousness, namely,  
of delta brainwave states of pure being-will-fire,  
and theta brainwave states of deep inner thought-air,  
alpha brain-wave states of emotion- water.**

**Divine consciousness, and enlightenment, are available  
instantaneously  
in the Delta brainwave level of pure being,**

**but takes increasing amounts of time and difficulty to  
access in the Theta and Alpha levels of awareness.**

**For many it may only be possible to access Divine Consciousness  
in conjunction  
with an attunement to Delta, and may not be possible to access  
it within  
an attunement exclusively to Beta, or adult rational processing.**

**That is why it is spoken that The alpha and the omega become  
one.**

**One interpretation of this saying is that the master of higher  
consciousness recovers all these original,  
perfected brain states to evolve into enlightenment, at which  
point all become one in awareness.**

**When this happens, it is natural to transmute will, thought,  
feelings, and sensations  
into a perfected state of Paradise on Earth.**

**These brainwave faculties develop naturally from conception on,  
and an enlightened person functions cosmically  
by simultaneously accessing all four ages at once:  
the pre-nate and infant [pure divine being and will], the young  
child  
[deep inner thought], the pubescent adolescent [emotions],**

**and the adult [memory, logic, five senses].**

**That is why it was spoken that  
Ye must be as little children to enter the kingdom of heaven.**

**That is also why it is true to say that everyone has already  
reached enlightenment because developmentally,  
in growing up, each person already has attained omnipotence  
and omniscience in order to manifest a spiritual body of being,  
will,**

**a mental body of thought, an emotional body of flowing feelings,  
and a physical body of sensation and quantum particles.  
Man is made in the image and likeness of God.**

**The challenge as an adult is to recover these expanded states of  
consciousness from conception on  
and merge them into one, integrated self.**

**This is one of the reasons why allowing intense feelings from  
earlier times to be accepted, experienced, loved and**

**flow to resolution can be considered a path to enlightenment.**

**Emotional trauma during any of these phases must be healed**

**for remembrance of one's true and original divine nature.**

**Emotions are magnetic, and attract realities into physical  
manifestations.**

**To transmute emotional realities requires the ability to attune to  
feelings as they come up and allow them to flow freely**

**with an attitude of unconditional love.**

**Because they are the water element, they change and purify by  
flowing in a safe and non-destructive way,**

**according to Divine Laws of the Highest Good of All Concerned.**

**Remember, emotions are magnetic and attract like energies into  
physical manifestation.**

**To transmute the physical, it is necessary to transmute the  
emotional.**

**Negative emotions, if allowed to flow, will in a short time  
completely run their course,**

**clear, and transmute into positive ones.**

**If they are denied, suppressed, bypassed, dissociated from, or**

**acted out destructively  
they will continue to attract more negativity on a conscious or  
unconscious levels.**

**This is why they must be allowed to surface, flow, and heal and  
become positive  
once again to attract Heaven on Earth.**

**Positive feelings attract more positive feelings and situations.**

**Positive feelings attract successful and satisfactory  
manifestations on the physical plane.  
Meditating on the divine virtues lift up feelings to the most  
refined heights of beauty and perfection.**

**Developmentally speaking, at the first level,  
go into a state of pure being and unity with Divine Being and all  
creation.**

**Then move into divine will, align individual will with omnipotent  
Divine Will  
for the awareness and manifestation of Universal  
Consciousness, letter B.**

**From this comes the understanding of polarity, and why  
everything  
both positive and negative that has been created is necessary  
for Creation to exist.**

**Hot and cold, will and emotion , big and small, life and death,  
and all the infinite polarities are necessary for the rhythms of  
life to move all into perfection.**

**Allow enough time to relax into an infantile state where your  
consciousness is attuned to a state of pure being.**

**By attuning individual will with Divine Will, a person is  
harmless at the same time that he/she achieves all-power,  
for such a person will never intend hurt to any part of the  
unified field since all are a necessary part of their own being.**

**Now, meditate ever deeper on Universal Life, the letter B, and  
on the necessity for polarity in Creation,  
and realize that every person is actually one with all of them,  
with all polarities.**

**Align individual emotions to Divine Emotions concerning this  
phenomena of Universal Life and polarity.**

**This gives control over all polarities.**

**By following inner guidance, a person can choose which polarity  
to visualize and will and feel into manifestation  
for the highest good of all concerned in any situation.**

***It becomes clear that will and emotions  
together  
are the electro-magnetic fluid of miracles.***

**Mastering miracles and transmuting the realities of the physical plane,  
requires a mastery of the brainwave states, especially will and feelings as just described.**

**In manifesting divine virtues, will and feelings are combined with the sensation of each virtue that is being manifested.**

**For example, earth letters and virtues such as O with its ultramarine blue light, R with its golden light, I, with its light opalescent light, and umlaut A, with its loamy brown light**

**[the divine virtues of divine harmony and justice, following inner guidance, Cause and Effect, and transformation] have the sensations of weight.**

**The element of will or fire has the sensation of warmth, the element of mind or air has the sensation of ease, the element of feelings or water has the sensation of chill.**

**Listening to and following inner guidance is necessary for aligning individual consciousness to Divine Consciousness in each moment and in each situation.**

**This virtue awakens genius, and is the most dense of all the earth element virtues, for it is by this virtue that divine complete alignment takes place in all brainwave states.**

**Meditating on Cause and Effect, the letter I, awakens memory, remembrance,**

**and conscience and the understanding of using breath to manifest in the macrocosm what is in the microcosm and vice versa.**

**With this virtue, a Child of Light easily sees how to create any effect through will, thought, emotions, and sensations.**

**The key to divine wisdom, letter A, is pure being and INTENTION COMBINED WITH ATTENTION.**

**INTEND TO ATTUNE TO DIVINE WISDOM AND BE RECEPTIVE AS IT DOWNLOADS FROM THE STATE OF PURE BEING AND UNITY**

**WITH DIVINE BEING AND ALL CREATION.**

**It comes INTO AWARENESS during meditation as the original purity of all ideas in Divine Mind.**

**See the COLOR LIGHT BLUE, as a tiny light blue sun shining in the lungs in the microcosm of your own body temple.**

**Imagine FLOWING WITH EMOTIONS of these beautiful original divine ideas, and experience the awakening of clairvoyance, artistic gifts, and other mystical faculties that come from THE ORIGINAL PURITY OF ALL IDEAS.**

**Feel these emotions and empower them in the physical plane by TONING THE MUSICAL NOTE OF G at the same time.**

**Sound enlivens emotions.**

**FILL whatever inner guidance directs, including ALL OF YOUR  
PHYSICAL BODY  
AND ALL OF THE OUTER UNIVERSES with the original purity of  
all ideas  
and THE SENSATION OF EASE and relaxation.**

**This is done with the breath.**

**Keep the rhythm of the breath natural, and when you are  
finished,**

**dissolve the light in the body to protect the natural balance of  
elements in the body.**

**Whenever the original purity of all ideas is attained, imperfections are recognized  
and released for changes into other states that are the highest good of all. This is  
umlaut A, ae.**

**By using a state of original purity of divine being and oneness with all with will,  
visualization, intellect, emotions and sensations,  
according to these instructions with the divine virtues, and with the virtues of the  
names of beings of this and other spheres and planets,  
such powerful information and faculties are accessed that words cannot describe.**

**They must be experienced to be believed.**

**As above So below.**

**The melody of our name is A, G,C, C, G, G and C.**

**The colors of our name are light violet, deep orange, ultramarine  
blue, golden light, light opal, light blue and loamy brown.**

**The sensations combined with the meanings colors,  
and musical notes of our name are:  
(letter B) the understanding of polarity, intoned inwardly with  
musical note, musical note A,  
with a sensation of gravity and weight and a light violet color  
filling all of space;**

**[umlaut O, eu] the ability to see through the eyes of love and  
awaken indwelling divine perfection  
which exists in all creation, musical note D sharp;**

**(letter O) the understanding of Divine Laws and harmony  
which carries the sensation of weight with an ultramarine blue  
color in the note of C;**

**(letter R) realization of complete freedom and independence  
which comes from following inner guidance,  
which has the feeling of weight with a golden light in the musical  
note of C;**

**(letter D) understanding of cause and effect that awakens  
memory, remembrance and conscience  
and fills the universe with weight, the color of sparkling light  
opal in the musical note of G;**

**(letter A) attunement to complete wisdom and enlightenment of  
the mind that fills all of space with a sense of ease,  
a light blue color, and the musical tone of G;**

**[letter umlaut a, ae] releasing all imperfection for  
transformation into other states that are the highest good of all,  
musical note C, the sensation of weight, and a loamy brown  
color.**

***This cosmic completion gives birth to a new  
cycle,  
just as day turns into night and night turns  
into day.***

***In the coming new cycle,***

***fiery omnipotent will to express divine love  
awakens anew in the first degree of Aries.***

the umlaut O oscillation evokes the most profound  
cognition*

in order to get convinced that they cannot be described by  
words,  
by must be experienced, lived through.*

*I have mentioned the letters umlaut A and umlaut O as the

In the feelings, this virtue evokes absolute emotional

penetrating-all,***

***and in the will, the mind, the feelings, and form.

***Because of the virtue of justice,  
one learns to understand, and eventually control completely,  
the working and functioning of the masculine-will-thought and  
feminine-feeling-form energies  
in the human body and in the material world in their relation***

***to higher consciousness and higher spheres.***

***Endowed with this ability,***

**R The sound of this letter is the divine virtue  
that concerns everything about freedom of will, freedom of

**This is the sound of the divine virtue of INDEPENDENCE  
AND FREEDOM.**

**It is the virtue of following inner guidance and being in tune with Divine Providence.**

**Those who study the divine virtues in the order of the alphabet reach a state of complete oneness with Divine Providence so that by the time they reach the letter R, they have achieved a state of maturity by which your feeling of independence**

**has been transformed into an absolute state of security and unimpeachability.**

**Mentally, you will have an eminent mind and the feeling of freedom of will and action.**

**Not only this, but also the state of maturity in which you will never violate a law,**

**having yourself become a master of all laws.**

**In spite of your freedom of will, you will find yourself willing to subject yourself freely to Divine Providence, and accept missions to serve Divine Providence with deep humility, immense gratitude and the highest devotion without losing your feeling of absolute freedom of will in any way. Such great ingenuity will proceed from this that you will be able to comprehend**

**any knowledge quickly and without difficulty.**

The color of this virtue is gold, the musical note is C, the primary element is earth and has the sensation of weight,

and the left side of the nose is formed from it.

\*

**I The sound of this letter is the virtue of cause and effect, which is the karma law.**

**On the mental level, this is analogous to memory, remembrance and conscience.**

**In the feeling body, this corresponds to the astral/physical matrix, which is the connection between feeling and physical form, with all of its functions.**

**It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.**

**With the knowledge of cause and effect, you are in the position to get under your perfect control the breath**

**with all of its aspects and ways of application.**

**All mystical abilities are subject to the mastery of breath. By meditating on the law of cause and effect,**

***all laws of analogies between the micro- and the  
macrocosm are understood and mastered.***

***Everything that has shape, measure, number and weight  
has been created by the help of this letter oscillation.***

***If a child of God can master this meditation,  
he/she will be able to evoke the greatest miracles in the  
material world***

***by using the respective analogies to shape, measure,  
number and weight.***

***As one can see, shape, measure, number and weight are the  
chief components of the material world,***

***and by getting this letter oscillation under control,  
a person becomes their absolute master.***

***It stands to reason that he/she will also be able to become  
a perfect metaphysician, too and, furthermore,  
to comprehend all laws presently still unknown to our  
physical world and to apply them in all fields***

***The knowledge of cause and effect enables a person  
TO WILL, IMAGINE, AND FEEL THE DESIRED OUTCOME.***

***Because all life is connected as a unified  
field of energy,***

***whatever is willed, thought, felt,

control over storms, are all made possible by initiation into  
the highest wisdom***

The color of wisdom and enlightenment is light blue, the musical note is G  
, the element is air so it has the sensation of ease, and the lungs are formed from  
it.

\*

umlaut A, ae ***The realization of wishes regarding physical  
matter is subjected to this virtue.***

***The sound of this letter, the long A, ae, in the cosmic  
language  
is the virtue of the origin and mystery of life and death  
regarding their transformation.***

***By meditating on this virtue, a child of God becomes  
convinced that in reality death does not exist,***

***for the so-called death is only a transformation from one  
state into another.***

***Also will come enlightenment on the cause of this  
transformation.***

***With this comes the ability to master all negative spiritual  
beings  
in all spheres and planes with regard to their scope of  
action.***

***The purpose for which negative beings have been created  
becomes clear.***

***Since, in the original principle all beings are alike,  
each having been created by Divine Providence to fulfill a  
certain task,  
there is no dissimulation of negative beings,  
for from the enlightened persons point of view everything  
is pure***

.

***Here the saying: "to the pure one everything  
is pure" becomes plain.***

***If there were no negative beings, it would be  
impossible to distinguish between good and  
evil;  
and if there were no passions,***

***there would also be no virtues***

***This virtue confirms the words contained in the Bible:  
"through night to light", the deep symbolic meaning of  
which now becomes clear.***

***In the intellect the ability is gained to see through all  
thoughts,  
actions and wishes concerning matter, and of becoming  
their absolute master.  
In the emotions, this virtue represents desires, passions,  
and the inclination to self-satisfaction etc.***

***A person who masters this virtue in their emotions  
becomes absolute master and ruler of all desires and  
passions.***

***Also, a person is able to not cling to mental, emotional, and  
material virtues and objects when they are imperfect***

***This means complete independence and freedom and  
fulfills the saying "bind yourself and you will be free".***

***On the material level this virtue is one of the most  
materialized.  
No matter whether you evoke it in the mind, the emotions,  
the akasha, or the material world,  
the earth is influenced by it to a larger extent***

**The ability to infuse matter with divine virtues is heightened.  
The color of this virtue is loamy brown. The musical note is C.**
