Also known as

The Angels of

Ramara

Beloved,

***We help warriors of divine love become experts in the
cosmic language,
often called Quaballah in history,***

***which is the fourfold meditation on divine virtues and
qualities,
and the use of ceremony.***

***We teach
Children of Light
how to access
Divine Birthrights
of Divine Powers
and Victories
through Omnipresent Love.***

***"Love conquers all."
"...and the greatest of these is LOVE!"***

***We inspire creating new realities of Divine Love on
Earth.***

***We inspire comprehension and access to inner
guidance,***

***from Divine Providence,
in prayer, imagination and meditation.***

***In this way miraculous collaborative power is unleashed to
serve with Divine Being
in Freedom and Independence, Wisdom, and Love.***

We teach how to "co-create with Divine Providence",

*through imagination and meditating
on various letter combinations of the cosmic language.*

*Each letter in the alphabet represents a unique divine
quality, power, or virtue,
which has a color, musical note, sensation, and role in the
human body.*

"Ye are made in the image and likeness of God."

*A Child of Light learns to access states of attunement and
meditation that give birth
to wisdom, freedom, and control over magnetic powers
through emotional mastery,
through emotional
attunement of pure divine virtues.*

*Meditation, using all four brainwave states in imagination
in conjunction
with divine virtues, are the mythical "forge of Vulcan".*

*Meditations and letter combinations of the Divine Virtues
are magical tools.*

This is how it is done:

By going into deep Delta Brainwave states

**and experiencing pure being,
like a little infant,
and experiencing one's individual identity and will
one with Divine Being
and Omnipotent Divine Will,**

**for the highest good,
it is possible to forge powerful interventions.**

**These interventions are contemplated in Theta
Brainwave states of deep inward thought.**

**Then, by mastering flowing emotions in Alpha
brainwave states, and visualized sensations
in Beta brainwave states, these interventions are
charged with enough magnetism
and definition to attract new realities into form on
Earth.**

*Listening to inner guidance from Divine Providence is the
virtue of letter R.*

*This virtue shines with a golden light, and is the most
dense of the virtues of the earth element.
It has the sensation of weight.*

**This virtue exemplifies the activity of Divine
Providence, the ONE BEING,
working through the MANY CHILDREN OF
LIGHT,
in unique and individual ways for each one
in each moment and in each situation.**

*Wisdom and enlightenment is the virtue of letter A, which
shines with a sky blue light.*

*When a Child of Light follows inner guidance to manifest
Love in Creation,
the virtue of wisdom and enlightenment is revealed.
This virtue is the attunement of individual mind with Divine
Mind,*

*so that the original purity of all ideas are understood.
The mind is the air element of relaxation and ease.*

*As the original purity of all ideas are embraced,
imperfections are now recognized*

*and gladly released for transformations into other states
that must, through The Law of One,
be the highest good of all.*

*This is the virtue of umlaut A, ae, shining with a loamy
brown light and the sensation of weight.*

*Emotions are magnetic power that attract realities into
form.*

*By feeling divine emotions of that which has been revealed
through inner guidance and enlightenment,
a Child of Light creates magnetism that ATTRACTS into
form new realities of love.*

*Divine emotions are the virtue of letter M, which shines
with a blue green light.*

*Emotions are the water element that has the sensation of
coolness changing to chill.*

*The purpose of including sensations in meditations of the
divine virtues, is that sensation
activates the Beta brainwaves of the five senses, so that all
four elements are included
and the virtues are attracted into physical reality.*

*The virtue of wisdom and enlightenment awakens the
faculties of clairvoyance,
clairaudience, the power of levitation, and other mystic
gifts, such as eloquence and artistic talent.*

**With these gifts, a Child of Light connects
with minds of other beings
for the purpose of helping manifest new
levels of wisdom
and
enlightenment for all.**

*Imperfections are understood and pointed out and
everyone involved releases them,
let's them go,*

*for transformation into other states that are the highest
good of all.*

Following inner guidance, a Child of Light continues to

follow directions of guidance coming from within.

**Whatever is needed in any situation becomes clear,
and by using The Power of the Word
in being, will, thought, emotion, and sensation, in
meditation with the divine virtues,
new creations of Divine Love are created into being.**

**With these new realities, the original purity of all ideas
in Divine Mind,
the original Divine Blueprints of everything in
existence, come into manifestation
and negative situations and beings are brought under
control.**

*The heavenly hosts of Ramara inspire the appropriate
letters of the Cosmic Language
to create the appropriate changes to manifest Divine Love
on earth.*

Here is one of our stories:

THE TRIUMPH

Once upon a time, an employee at a large corporation
watched in alarm
as his company routinely committed serious violations of
The Law of ONE,
The Law of The Highest Good of All and Harmlessness.

Over months and years he had worked there he had
seen projects undertaken by the corporation
that

damaged and destroyed lives, precious lives,
of both humans and animals.

He noticed that the environment had been severely and
routinely compromised

for the sake of "the bottom line."

Due to his familys needs, he did not consider it wise, or
even effective,

to quit or blow the whistle to uncaring government
agencies,
so he turned to studies of deep spiritual wisdom teachings,
looking for another way.

**He discovered the heavenly hosts,
and learned the cosmic language.**

Then he asked the Angels of Ramara for help.

The Angels of Ramara inspired him in his studies of The
Cosmic Language
and helped him master meditations at an almost
supernatural speed.

Deep in prayer one night, before falling off to sleep,

he stayed lucid as he drifted into a deep state of pure
being,
a deep delta brainwave state of pure unity with Divine
Being and Omnipotent Divine Will.
The Angels of Ramara inspired him to think of the letter
M.

*Immediately he saw himself as a tiny dot in his solar
plexus.*

His imagination visualized the

*lovely blue green color that radiated from a tiny sun in his
abdomen area,
which he saw as a hollow space.
He willed to f*

*low with emotions of courage and faith, and to enliven
these emotions*

*with emotional help from other divine beings so that they
would create enough magnetic energy
to
attract wonderful changes in physical reality.*

*He intoned the letter M with the blue green light and
musical note D,
flowing with divine emotions attracting life into every cell
of his body.*

He was filled with sensation

*s of coolness.
With his out breath, he imagined this blue green magnetic
magnetism radiating out*

*through the pores of his skin over the abdomen
and attracting
divine beauty into every being on Earth and in the outer
universes.*

*After continuing this for a while, keeping the rhythm of his
breath natural
,*

he dissolved the blue green light in his body.

*He visualized the letter A and its soft, beautiful, pale blue
light.*

*The light blue light shone from a tiny sun in his lungs.
With omnipotent faith he visualized wisdom and
enlightenment awakening in his thoughts
and in the belief systems of all humanity.*

*He intoned the letter A in the light blue light and musical
note of G
and relaxed into complete flowing emotions of wisdom and
enlightenment,*

*the original purity of all ideas in Divine Mind,
expanding into the mind of All of creation.*

He

*then dissolved the light blue light in his body and
visualized the loamy brown light of umlaut A, ae.*

*He experienced, visualized, felt and sensed imperfections
being recognized and gladly
released for transformation through*

out the Earth.

*Then he visualized the letter R.
He imagined a golden light shining from a tiny sun in the
leg region.
His heart filled with excitement as emotions of the Divine
Virtue of Freedom and Independence,
of following inner guidance flooded his deep will and inner
world.
As he breathed out, this radiance shone through the pores
of the skin of his left nostril.*

He saw the whole Earth shining with the golden light of
Freedom;

wonderful, virtuous, impeccable Freedom that comes from
following clear inner guidance

from omnipresent Divine Providence.

He saw each and every being in perfect harmony
with Divine Providence.

He saw all beings creating Heaven on Earth in complete
sovereignty

through inner guidance from Divine Providence,
the unified field of being, will and emotions, of sensation,
of light and sound.

He moved into the virtue of letter L, and imagined the olive
green light

of the splendor and majesty of The Divine.

He was flooded with flowing emotions of awe at the
majesty of Divine Being,

and true spiritual morality and infinite vitality.

He had the sensation of ease filling all of inner and outer space.

He felt all of the divine virtues taken together bringing vitality and true morality

to himself and to all the outer universes.

Flowing with emotions of completeness, satisfaction, and peace,
he awakened refreshed the next morning.

*At work he felt
the major shift that he had experienced in meditation the
night before,
it was
a big difference.*

*He sensed that the divine virtues he had imagined the
night before had penetrated everything,
and he knew with certainty, on an intuitive level, that
change had begun.*

*Each night he found himself repeating the meditation
effortlessly,
sometimes
using other letters and their virtues that came through
inspiration, before drifting off to sleep.*

*So it came as no surprise to him each day to learn of
beneficial changes*

occurring both within his company and in the world.

One change followed another according to the
mysterious plans of Divine Providence.

*Exactly one year after his first meditation,
he was sitting in wonder looking out of a big window at an
expansive view
from the top story of the company office building.*

He had moved into a spacious corner office.

*How amazing that a lowly legal assistant could rise to such
heights*

in such a short period of time!

*With a sigh of relief and satisfaction, he picked up a pen
and signed orders*

*to restore millions of acres of sensitive forest habitat
to the care of indigenous people, protecting them forever.*

*As a welcome effect of this, his company was receiving
much free beneficial publicity,*

and great loyalty from an ever growing consumer base.

*Other important papers concerning earth stewardship
were stacked on his desk.*

The angels watched in joy as he signed order after order

*directing production of beneficial new
technologies to restore the environment.*

*When the press received information concerning some of
these,
there would be exultation across the globe.*

*If the projected figures were right, the earnings of the
company would be very good*

*at the same time that millions of customers were given heat
and power for free.*

*All they would have to do is install his companys modestly
priced durable power generators*

that ran off of water and emitted pure oxygen.

It amazed him how quickly all this had transpired
once he invoked the heavenly hosts
and learned how to use his being, will, thought,
emotions and sensations

in meditation and imagination with divine virtues.

He had reclaimed the power to create Paradise.

The Angels of Ramara rejoiced in this victory for Love.

Footnotes

The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common precursor, or root,
of three of the world's religions:
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone
girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and
influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from
the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from

THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,
and Information of the divine virtues and the letters are referenced from THE KEY TO
THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.
These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
