## **The Angels of Astrology**

Also known as
The Angels of

'Balachman'

Beloved,

We are excellent initiators into synthetic astrology and reveal the most remote secrets of astrology."

Natural Creation is the technology of divinity,

utilizing the ultimate source and meaning of physics, math and sciences of all sorts.

By understanding the heavens, a person can understand the self.

"As above, so below."

We teach the astrological influences on the mental and emotional worlds, furthermore the opposite oscillations and vibrations of the various spheres

with regard to the mental, emotional, and physical planes.

The knowledge of the cosmic effects, on the mineral, the plant, and the animal kingdoms is also taught by us either directly or by intuition and inspiration.

Our degree of Aries is trine, or 120 degrees, from 27 degrees Sagitarrius,

which is *Galactic Center*.

Our position is one of the three points of an equilateral triangle

that express exactly OMNIPOTENCE OF DIVINE BEING, in power, love, and wisdom.

The third point is 27 degrees Leo.
The constellation Aries expresses Omnipotent Will to LOVE,

which is the feminine expression of Divine Being.

Leo expresses omnipotent Will to WILL,

which is the masculine expression of Divine Being.

Sagittarius, the Galactic Center, expresses omnipotent Will to WISDOM, which is a combination of Love and Will.

The sign of Aries is omnipotent Will to Love,

for the purpose of giving birth to and manifesting new realities of love.

As you know, a warrior of Love receives training in many fields because loves victory requires many different skills and broad knowledge.

By understanding the birth chart, a child of light better understands the soul purpose of this incarnation.

By understanding the mathematical aspects between the planets and points in a birth chart, a person can understand what is easy and what takes additional skill

in victoriously bringing through Divine Love.

For example, planets that are 120 degrees from each other bring ease in accomplishment.

Planets that are 90 degrees from each other bring wonderful learning challenges.

Since accessing divine powers from other planets in the solar system and beyond are at times necessary, an understanding of astrology is the first of the final three steps in the warriors education under the sign of Aries.

"As above, so below."

First of all, the overall concept of astrology can be understood in a simple way.

Imagine astrology as an electro-magnetic flow chart, very similar in appearance to the branches of an upside down tree that are perfectly symmetrical with four levels of branching.

The ground that the tree grows from is the unified field, which is the element of the Akasha, or unity with Divine Being and all Creation.

This is the Delta brainwave level that is dominant in infancy.

It is a state of consciousness-penetrating-all.

From there energy flows into the trunk of the tree which is represented by the sun and the moon.

The sun is electric [will] and the moon is magnetic [feeling].

The trunk of the tree is also in the Delta brainwave state of pure being.

From the sun-moon trunk, energy flows to three branches which are represented by Pluto, Neptune, and Uranus.

Pluto receives Divine Love, Neptune receives Divine Wisdom, and Uranus receives Divine Will.

This is the Theta brainwave state of deep inner thought.

From each of these three branches grow two more branches.

Electro-magnetic energy goes into these two planetbranches.

of which one receives electric energy and one receives magnetic energy.

This is the Alpha brainwave state of flowing feelings.

From each of these two planet-branches grow two more astrological-sign-branches.

These astrological-sign-branches make up the final total of twelve branches, or twelve astrological signs.

This is the Beta brainwave state of logic, memory, and the five senses.

#### It looks like this:

[Print the following charts out for your astrology notebook.

Obtain a copy of your own birth chart.
[Remember to round up degrees
to the next higher degree.

For example, if a planet is 23 degrees and 5 minutes Scorpio, the planet has already traveled the entire 23 degrees and is already 5 minutes into the 24th degree. So round up to 24 degrees.]

Look up the planets and points of your natal birth chart in the degrees of the Angel Messages to understand their divine significance.

**Keep for future reference.**]

## From the Sun-Moon energy flows to Pluto, Neptune, and Uranus as follows:

### **DIVINE LOVE...PLUTO**

The energy flows from Pluto to:

## **DIVINE WISDOM...NEPTUNE**

The energy of Divine Wisdom flows from Neptune to Jupiter and Mercury.

Jupiter			Mercury

#### **DIVINE WILL-POWER...URANUS**

Will power flows from Uranus into Earth and Saturn.

Will power from cramas into Lartin and Saturn				
Ea	rth	Saturn		
receives electric power		receives magnetic power		
Leo	Leo Cancer		Capricorn	
is will-fire is feeling-water				

Version Three
Divine energy flows from the ALL THAT IS into an individual incarnated Atman which is sun/moon and corresponds to Delta brainwaves of Pure Being.

Then energy flows down through the secondary suns of Uranus, Neptune, and Pluto; which corresponds to Theta brainwaves of deep inner thought.

Then energy flows further down through the inner planets, which are Alpha brainwaves of emotions,

and finally through the signs which are Beta brainwaves of memory, logic, and the five senses.

It looks like the following flow chart:

+=masculine, fire, electric - =feminine, water, magnetic

	T-mascume, me, electriclemmine, water, magnetic							
1	[All that is]							
ı			Sun[+]	-Moon[-]				
			equals 9	Spirit-Soul

ı	[++] [+,-	[-,-]	[++][+,-]	[++][+,-][-,+] [-,-		[-,-]		
	111	.+11				.+1		

In this scenario the middle path is wisdom which is will and love together, the left is willpower, and the right is love.

All fire signs are +,+; creative and electric in the inner air signs are -,+; receptive on the inner and creative on the outer.

water signs are +,-; creative on the inner and receptive on the outer and earth signs are -,- receptive in the inner and outer world.

So, for instance, if your sun is in Capricorn, then your Masculine Nature or Spirit is receptive on the inner[emotions]

and the outer[five senses, logic] to Divine Will.

Or, if your Mars is in Pisces, then creative Divine Love expresses through creative wisdom in emotions on the inner and in the outer world through receptivity.

### As a warrior of Love,

if a situation requires the divine virtue of Love, Wisdom, or Will,

on the levels of pure being, deep inward thought, emotions,

or the five senses and logic; with this understanding of astrology you know which beings

of which planet

and sign to ask for help and for guidance.

These charts demonstrate the fields of manifestation of each of the angel groups of the twelve signs.

For example, in questions <u>about will</u>, go to Aries, Leo, and Sagittarius.

> Aries is the Will to Love, Leo is the Will to Will, and

## In questions about mind,

go to Libra, Aquarius, and Gemini.
Libra is intellect of Love,
Aquarius is Intellect of Will, and
Gemini is intellect of Wisdom.

if a situation requires a <u>change in emotions</u>, go to the angel groups of either Scorpio, Pisces, or Cancer.

If the emotions need to change to <u>those of Love</u>, ask for help from the angels of Scorpio.

If the emotions need to change to <u>those of Wisdom</u>, choose help from the angels of Pisces.

If the emotions need to change to <u>those of Will</u>, as for help from the angels of Cancer.

In questions <u>of earth,</u> go to the angel groups of either Taurus, Capricorn, or Virgo.

> Taurus is earth of love, Capricorn is earth of Will, and Virgo is earth of Wisdom.

Remember that the Angels of *Oromonas*, 21 degrees Aries, automatically guide you to the appropriate angels whenever you ask them.

Will is the Element of Fire

Elements of Fire  $\sim$  Masculine-Masculine { <u>creative and electric</u>} on the <u>outer</u> branch

and  $\underline{\text{turns into}}$  the element of water (<u>Alpha-Emotion</u>) on the inner branch of the flow chart.

"According to White Eagle":
The influence of the three fire signs in our lives
slowly helps us to attune ourselves to the SPIRITUAL SUN.

Healers who have the **Sun in one of the fire signs** 

can bring to their <u>healing work a quality of faith, a quality of inner knowing</u>.

With the Sun activating the fire element, no matter what life

does to you, deep down you will hold fast to your faith in God, to your knowledge of the <u>Divine Fire, the Divine Light, The Divine Love that resides deep within.</u>

White Eagle has told us that the <u>lesson</u> which all the Fire signs have to teach is that of Love.

DIVINE LOVE. Love is life, plasma, emotion that comes from the heart.

Love is the emotional expression of positive God-thought.

Love is an awareness of God - God in the heart from God in the mind.

[From Cynthia Rose Young] God in the whole of life. Healers with the Sun in one or other of the fire signs can bring this quality of love and faith to their patients. One must learn to gently listen to your patient, encourage him/her to tell you their troubles, and quietly, continually, turn their mind to God, sharing with him/her that faith, that light, that strength and hope that you have found.

**Give strong comforting love.** 

Help them to build their faith, not by what you say but by your own strong assurance.

It is your faith that will comfort and sustain them until their own light is stronger.

If you have the Sun in a Fire sign you may find it difficult to be wise in your giving, until you have learnt to conserve energy,

you may well find that you go on giving until suddenly you become completely exhausted.

Learn, therefore, to withdraw in good time: to draw upon Gods Divine Energy.

In laying on hands I have found when my strength was getting low -

I would receive Gods Divine Energy through my Crown Chakra.

Take time to rest and relax and draw upon Gods Circle of Love and His Healing Light.

<u>Receive</u> strength from nature, from the trees, from the hills, from the sea, even from your own garden.

If your patient is under a Fire sign you will often find that one of the reasons

why he has come to you is because he too has spent his energies unwisely.

When patients feel depressed and hopeless; give them the

strength of your spirit,

your own inner fire and warmth, to renew their vitality and hope,

and most importantly your belief in Gods Infinite Love and Light beaming down upon us.

#### **EMOTIONAL ELEMENT OF WATER**

**Emotions of WILL Emotons of WISDOM Emotions of LOVE** Cancer Scorpio **Pisces** 

**Element of Water ~ (Masculine-Feminine** [Receptive and magnetic on inner branch of emotion and creative and electric on outer branch of physical manifestation.]

\*\*\* According to White Eagle ...

THE WATER SIGNS ~ (CANCER, SCORPIO, PISCES) Spiritually, the water element is associated with Divine Mother.

It is closely connected with the emotions and with the soullife of humanity, and all the water signs give much sensitivity, that is,

receptivity to the subtler conditions in the environment.

In healing work those with the Sun in a Water sign must learn how to draw a ring of light and protection round their aura so that they do not absorb the psychic conditions of their patients;

especially must they keep the solar plexus well controlled and sealed.

People in whose horoscope charts the Water element is emphasized,

or who have the planet Neptune prominently placed, are often more aware of the etheric and astral worlds than they realize.

We must always remember that we are all "Children of God" and being such , we live in the circle of Gods Healing Love and Light.

> "The Light of God surrounds us, The Love of God enfolds us, The Power of God protects us, The Presence of God watches over us, Where ever we are, God is.

I am grateful!

#### **Footnotes:**

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her. The being and the angels share the same name.

This name is a key to their powers and influence.
