**Tantric fire, properly used, overcomes  
death  
and welcomes youth and immortality.  
This perfection is**

that produce substances**

**that result in**

**anti-aging.**

**Remember, that the constellation Taurus  
concerns the practical manifestation,  
the physical level,**

**of Love.**

**In the second degree of Taurus,  
we teach a Child of God how to direct Loves  
passion  
to outpicture the majesty and splendor of  
Divine Consciousness in everyday life.**

***For a person to love another as a divine  
being,***

***a person must first discover oneself as a  
divine being.***

*"Seek ye first the kingdom of heaven, and all else shall be added unto you."*

*"The kingdom of heaven is found within."*

*"Seek ye the still small voice."*

**This still small voice is the voice of the true self, the immortal divine self**

**that indwells the physical, emotional, mental, and spiritual bodies that form a human being, or son and daughter of God.**

**Two partners, each enlightened to the divine within, come together to celebrate the divine in each other.**

**By combining the personal self with the Divine Self, which is found within, it becomes possible to truly love oneself and another.**

**In the physical body, FIRE manifests as electricity, as nerve impulses and sexuality.**

**We inspire combining personal Will with Divine Will, and using it to guide the element of fire to bring about phenomenal miracles in nature and in the physical body temple.**

**Remember that WILL is FIRE.**

**The divine virtue of letter M of our name is FEELING, emotion, AND SENSATION.**

**Divine Emotion is the original feminine principle that manifests in form as water.**

**It is the principle of flowing of anything, this includes will or fire, thoughts or air, physical waters. and of flowing emotions.**

**Remember that both emotions and water contain compressed information of the will, or fire, that is expressing through it.**

**When this original water principle of flowing is expressed as flowing Will or fire, it is known as the principle of LIFE SPIRIT.**

**Life spirit is sexual energy that  
expresses on every plane and level of  
awareness,  
from the most dense physical level of  
existence,**

**through emotions, creativity, and union  
with divine being itself.**

**We teach how to direct the fire life spirit  
energy up the spine  
through seeing through the eyes of love and  
harmony and justice.**

**These virtues are the letters umlaut O, eu,  
and O in our name.**

**Seeing through the eyes of love reveals the  
indwelling divine being that enlivens all  
forms.**

**The divine virtue of harmony and justice  
brings success and satisfaction in every  
endeavor.**

**Seeing the indwelling divine truth of  
everything in creation  
and harmony and success in interactions  
with others,  
allows the fire of life spirit, through Feeling  
and Emotion,  
to ignite nerve and gland ganglia all along  
the spine.**

**Consciousness altering substances,  
hormones and neurotransmitters, are  
produced.**

**Psychoactive substances produced in the  
human body temple  
are a thousand times more pure and  
powerful  
than any other consciousness changing  
chemicals,  
regardless of source.**

**As higher centers of consciousness are  
enjoyed in interacting with others,  
whether they are embodied beings or beings  
of the elements or of the heavenly hosts,**

**or even Divine Providence, the glands of  
higher chackras are activated  
and secrete holy substances into the blood  
stream.**

**When all of the chackras and their glands  
are activated by the Fire of Life Spirit and  
Emotion and sensations,**

**then all of the divine virtues are activated in  
consciousness.**

**This cocktail of holy nectar is the chemical  
basis of immortality,**

**which is caused by embodying the splendor  
and majesty of all the divine virtues taken  
together.**

**The splendor and majesty of all the divine  
virtues together,  
the splendor and majesty of God, is the  
essence of the letter L of our name.**

**The way to direct the course of physical  
sexual fire upwards  
is done through enlightenment and wisdom.**

**This is why the inner journey of finding the  
kingdom of heaven within**

**is the first necessary step in any  
relationship.**

**"The kingdom of heaven is found within."**

**"Seek ye first the kingdom of heaven and all  
else shall be added unto you."**

**"I and the Father are one."**

**"All that I do ye shall do and more."**

**By going within and passing through the  
logic, memories, and conscience of beta  
brainwaves,  
then through the emotions of alpha  
brainwaves,  
then through the inner imaginings of theta  
brainwaves,  
into the pure being of delta brainwaves,  
a person remembers their original state of  
pure being that is one with Divine Being.**

**This deep delta state is dominant in infancy  
and in deep dreamless sleep each night.  
In this state the body renews itself.**

**"Ye must be as little children to enter the  
kingdom of heaven."**

**From this state of pure being within, the  
original divine blueprints of creation,  
for supreme happiness and love,  
is recognized, is remembered.**

**Enlightenment and wisdom is the**

**comprehension and unity**

**with the purity of all original ideas in Divine Mind.**

**With the pure thoughts of Divine Mind; eloquence, clairvoyance, clairsentience, and all artistic faculties come into play**

**and create beautiful emotions and beautiful tangible feelings in the body,**

**along with the understanding of the necessity for polarity to exist for creation to exist.**

**Enlightenment and wisdom is the divine virtue of letter A of our name.**

**It is the understanding of polarity that allows control of both will and feeling and gives the power to control any fate.**

**The mastery of polarity is the divine virtue of letter B.**

**This virtue gives control over mind and emotions and guides the body's physical fire**

**so that healing on all levels occurs.**

**At this stage, the fire of life force rises, and connection with the omnipresence, omnipotence, and omniscience of Divine Being**

**is supercharged with the fire of life spirit and expands consciousness.**

**The omnipresence of God is experienced as ONENESS with all,**

**especially with whomever one is interacting with.**

**This divine virtue of omnipresence is the letter E of our name.**

**At this point consciousness is made new, and the form that it takes is governed by the mysteries of the art of creation.**

**This divine virtue is the letter D.**

**The virtue of letter D of our name is the virtue of the mysteries of love to create new realities.**

**The divine virtue of the art of creation  
births a new experience self on every level,**

**and even the birthing of a new soul,  
through physical impregnation,  
may occur.**

**The final outcome of the raising of Tantric  
Fire is transformation of the physical realm,**

**both in the microcosm of the physical body  
and the macrocosm of the universe.**

**"I have not given you the spirit of fear,  
but of joy, and life everlasting."**

**"The last enemy to be overcome is  
death."**

**Tantric fire, properly used, overcomes  
death**

**and welcomes youth and immortality,**

**a perfection  
made possible by love divine activating  
glands  
that produce substances that result in  
anti-aging.**

**"The last enemy to be overcome is  
death."**

**"For I have not given you the spirit of  
fear,  
but joy and life everlasting."**

**Transformation of the physical plane is the  
divine virtue of umlaut A [AE],  
the last letter of our name.**

**Umlaut A, ae, is the virtue of the mysteries  
of life, and death and transformation.**

**With this virtue, imperfections are  
recognized on every level and are let go,  
released, for the purpose of transformation  
into  
whatever is the highest good and truth of  
all involved.**

**With this divine virtue, all wishes for  
transformation in manifest reality are  
accomplished.**

**Again, remember that the gateways of  
Taurus  
open practical manifestations of Divine**

**Love on Earth.**

**In this second degree of Taurus, we teach  
how to direct flowing emotions of Divine  
Love,  
especially sexual emotions, between two  
people,**

**so that  
they transform into emotions of  
the majesty and splendor of Divine  
Consciousness.**

**Emotions are magnetic, and attract new  
manifestations into form.**

**Emotions are the language of the quantum  
field,  
and determine what manifests as reality on  
the physical level.**

**By transforming sexual emotion into divine  
emotion on every level,  
at each chakra and gland plexus,  
heaven is attracted into physical  
expression in form in the physical body,  
the emotional body,  
the mental body  
and the spiritual causal body,**

**as well as for the world.**

**This is true for every cell in the body,  
and through conscious intent,  
can be directed through the out breath for  
anything or everything in the outward world.**

**Sexual energy directed in this  
transforms the process of day to  
day living  
with  
flowing emotions of mystical joy and  
love,  
attracting ultimate enlightenment and  
harmony for self and other**

.

**We also inspire uniting personal Will with  
Omnipotent Divine Will  
to guide the element of fire  
to create specific emotions and feelings  
that bring about phenomenal miracles in  
nature.**

**Remember that WILL is FIRE  
*We teach how to direct these fires of  
divine life spirit up the spine through  
transmutation.***

**Transmutation is the virtue of umlaut O,  
eu,  
and is the process of seeing through the  
eyes of divine love.**

**Seeing with divine love reveals the  
divine in everything.**

**Cognition brought about by love divine  
reveals and manifests**

**omnipresent, omnipotent, and  
omniscient divine being in creation.**

**All imperfect states of being, desires,  
thoughts, feelings and sensations are  
released or let go  
and the original indwelling divine  
perfection is revealed and enlivened  
through tantric fire.**

**Imperfections change into other states  
that are the highest good and this  
results in harmony and justice.**

**The divine virtue of harmony and justice  
brings success and satisfaction in every**

endeavor.  
This virtue is the letter O in our name.

Harmony and success in interactions  
with another allows life spirit to ignite  
nerve

and gland ganglia all along the spine.

. The birthing of a new soul, through  
physical impregnation, may occur.  
*The final outcome of the raising of  
divine life spirit or Tantric Fire*

This is the purity of the original divine

This is the ultimate and ancient path of  
transformation of consciousness

and physical reality using divinely  
inspired libido.

Sexual Transmutation**

Beloved,

At this time when sexual energy is at the forefront of attention,  
and so many are praying for Heaven on Earth,  
it is important that ancient skills for directing sexual energy become understood.

Spiritual enlightenment reveals that sexual energy properly directed  
manifests youthening and supreme happiness.

We inspire the mastery of sexual energy,  
so that the body and consciousness are spiritualized, enlivened and uplifted.

Sexual energy catalyzes emotions into powerful magnetic impulses  
that attract realities into physical manifestation  
out of the infinite potential of the quantum field.

One of the most important reasons that painful emotions should be  
healed between partners before sexual orgasm,  
is so that the explosion of sexual energy attracts positive results for the entire  
web of life.

Enlightened sexuality is revealed in original purity of all ideas in divine mind  
to mystically transform reality.

Divine positive emotions experienced in sexual meditations attract heaven  
into physical manifestation within the body and also in the outer world.

It is important that sexual energy within each and every Child of Light  
be brought into the highest and most perfect expressions.

*There are many techniques to heighten, direct, and spiritualize sexual energies  
that are our delight to open up to those who call for our help.*

We have helped the Children of Light transmute sexual energy  
INTO HIGHER STATES OF CONSCIOUSNESS since the beginning of time.

*We inspire through intuition and we also guide people to books and teachers  
who explain how to master sexual energy through focus  
and intent, breathing and dialogue, meditation, emotional release and spiritual  
attunements.*

When sexual energies are directed through intent, visualization, breath,  
emotions and attention etc. upward along the spine, different ganglia and glands are  
stimulated in its path.

As these glands are stimulated, they produce natural ecstatic consciousness-altering  
and healing substances that are a thousand times  
more powerful and safe than psychoactive substances obtained from other sources.

Travelers on the spiritual path to spiritual perfection have made use of this knowledge  
since ancient times to attain enlightenment, youthening and bliss.

Whether you are alone or in a sexual relationship, we inspire you to direct sexual  
energies for physical vitality, emotional healing and ecstasy,  
creative inspiration, intellectual enhancement and strong spiritual connection to  
Divine Consciousness.

In sexual contact, we inspire using hands to touch different chakras of the partner to  
open them and make complete circuits of energy.

Breathing exercises combined with visualizations of pure colors and flowing emotions  
of divine virtues are useful as well.

One of the ways to transmute sexual energy is by coming close to orgasm several times  
in a row, but not climaxing.

Do this as many times as there are ganglia, or chakras, that you wish to stimulate  
along the spine.

Each time you "come close" to orgasm without going past the "point of no return" by  
briefly pulling  
back and letting the energy subside and then continuing,  
sexual energy is pushed up the spine and rises to the next higher chakra and ganglia  
of glands.

For example, sexual energy in the solar plexus energy will move next to the heart  
chakra.

Allowing the energy to orgasm at the heart chakra opens up mystical revelations of  
the heart.

We help with the combination of holding energetic focus, clear intent, appropriate visualization, and attunement to divine emotions so that sexual energy is uplifted, transmuted and progressively refined.

This kundalini energy will heal and stimulate each chakra of the body, one at a time as it moves up the spine.

In other words, if you desire to stimulate the fourth ganglion, the heart chakra, corresponding to the thymus gland, orgasm is withheld four times, until the fourth peak of sexual energy.

At this level (the heart chakra) the concentration is on flowing with loving emotions with visual imagery that enhances loving feelings.

Loving feelings are the appropriate concentration at the level of heart.

Likewise, any negative emotions should have first been cleared which would have interfered with the flow of loving "heart" feelings.

For this reason, at each level, or chackra, mutual understanding and healing should occur with important agreements shared between partners *before* engaging sexual practice.

If there are blocks in any chackra, or major lack of agreement, the sexual energy will not be able to flow upwards past this point.

It is wise for men to learn to orgasm without ejaculation, unless they desire impregnation to birth a child, as this recycles important nutrients into a type of cerebro-spinal fluid.

This is the ability to let the sexual energy build almost to the point of orgasm, then backing off.

*This ancient technique of ejaculatory self control is a special type of mastery that can be perfected through practice.*

The key is for the man to learn to stop pleasurable movements just prior to the "point of no return" and pause long enough for the near climactic peak to subside, before resuming love making.

With practice, at the appropriate time, an orgasm or climax will occur without ejaculation.

This specialized restraint and mastery of emotions are important in harnessing powerful sexual urges for the purpose of spiritual sexual transmutation.

Remember that thoughts are rational, but emotions are not.

Emotions work according to different principles than thought.

Emotions are compressed information, like zip files, and are experienced to reveal the wisdom of the heart, a wisdom that has more dimensions and is different than the concepts of the mind.

In mastering emotions with a partner, remember that emotions are not rational and should not be subjected to the rules of thought and logic, instead they should be felt, experienced through unconditional love.

Trying to rationalize emotions inhibits their flowing, and moves the energy from the heart to the head.

Intellectualizing emotions cuts them off and the wisdom that can be gained from even the most painful ones goes unnoticed.

Giving thanks for difficult or confusing emotions instead of fearing them or acting them out destructively heals them.

Healing painful emotions restores the ability to magnetize high states into physical expression.

We inspire the remembrance that sexual energy energizes emotions, which is why it is so important to experience positive emotions in a sexual relationship.

Remember that thoughts work through theta brainwave states in the imagination, and beta brainwave states in linear logic.

Emotions work through the dreamy Alpha Brainwave State of flowing and change.

Each state has its own laws of process.

Denying, suppressing, or bypassing negative emotions buries them in the subconscious where they continue to unconsciously attract negative results.

Like impure water, negative emotions are designed to heal through flowing safely in an atmosphere of empathy and love.

In flowing with emotions, the ancients used back and forth eye movements like the body generates nightly during REM sleep.

Healing emotions using eye movement mimics REM sleep that occurs naturally in the dreaming process and spontaneously produces insights as feelings flow.

These insights heal negative beliefs that have been associated with negative emotions.

Allowing oneself thus to "flow" with negative emotions in an atmosphere of unconditional love ultimately transforms negative into positive feelings, images, and thoughts.

When negative emotions arise in self or others, thank these powerful emotions and also appreciate and validate the wounded inner self that generated them.

Thank these emotions and the inner wounded self that is causing them for the lessons learned and wisdom gained,  
and thank them for trusting you enough to reveal themselves

Then, with empathy and a mantra of gratitude and love, let these emotions flow until they naturally heal.

Using techniques that quickly heal wounded emotions to make them go away may bring about good results in the short term, but there is a danger of not integrating deep lessons and wisdom that these negative emotions and traumas offer.

These lessons and wisdom are often why the higher self allowed the emotional wounding to occur in the first place.

*The more negative emotions are healed before engaging in sexual expression, the more spiritually and emotionally successful sexual expression will be.*

When emotions are positive, flowing with them enhances and strengthens them.

It is important to take as much time as necessary to share feelings, to help each other heal emotional wounds, and to explore and cherish the wondrous ecstasy of falling in love.

#### H-A-I-A-M-O-N

H. This letter represents the Power of the Word.

This virtue of The Power of The Word is the out picturing of divine virtues into being, will, visualization, intellect, feeling, and sensation, then into form.

The sound of each letter represents a divine virtue.

The ancient language is the use of each letter so that the entire brain is utilized.

*In learning how to transmute sexual energy, this virtue is of paramount importance, because the mind and feelings must be focused on specific divine qualities, states or creations that one wishes to stimulate in self and other.*

Different chackras, or glands, respond to different divine virtues.

By using The Power of the Word, the specific desired neurotransmitters and other powerful psychoactive chemicals are produced in the body.

In using the Power of the Word, a child of Light and flowing love learns to understand how Divine Providence created everything.

\*

A... The sound of this letter, a soft A like a sigh, is the sound of the highest wisdom and illumination that can be lavished upon a human being.

*The purpose of sexual transformation is to achieve complete mastery of consciousness, enlightenment, and divine rapture.*

*When the body is flooded with these states of awareness, mystical healing on every level is experienced.*

The color is light blue, the musical note is G, the sensation is ease since it is the element of air, and the lungs are formed by it.

Mastering this virtue in meditation gives clairvoyance, clairaudience, eloquence, artistic and musical gifts, and the control over the element of air.

We awaken mental acuity in the seeker, ingenuity, the ability to grasp high abstract and enlightened new information very quickly and easily, and flawless mental functioning.

Then all imperfections are released [umlaut A, ae] to Divine Being for transformation into another state that is the highest good of all concerned.

\*

I The sound of the letter I is the Divine Virtue of Cause and Effect, which represents the law of evolution of everything.

This law gives the understanding and mastery of the akasha, or subtle pre-matter principle.

The sensation of akasha is 'God-penetrating-all.'

The understanding of cause and effect also enables the perfection of memory and conscience.

Because all life is connected as a unified field of energy, whatever is willed, thought, felt, or done have repercussions throughout the entire web of life, both inside the microcosm which is the human body or the macrocosm, which is the outer universe.

*This also has profound repercussions on any child that is brought into manifestation.*

"As above, so below."

Whenever a person focuses on and creates a divine virtue, the entire body and the kingdom of heaven, and indeed all of life, responds accordingly.

What is sown is reaped.

The letter I with its light opalescent color, representing the law of cause and effect, is the spiritual essence of the left kidney. This virtue is of the earth element, so it has the sensation of weight. The musical note is G.

When this second A is pronounced umlaut A, ae, Long A.

The realization of wishes regarding physical matter is subjected to this virtue.

The sound of this letter, the long A, ae, in the cosmic language is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation.

With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear.

Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened person's point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain. If there were no negative beings, it would be

impossible to distinguish between good and evil; and if there were no passions, there would also be no virtues.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to 'see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master'.

In the feelings, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to imperfect mental, emotional, and material values and objects.

This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized.

No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

**M** The letter M represents the divine virtue of FEELING.

This virtue is the magnetic Feminine force of the Universe that attracts energy into form on the material plane.

Everything in nature was formed through the magnetic power of divine emotions.

*To master sexual energy one must have the ability to emotionalize strongly the previously visualized desired divine states and qualities.*

The color of this virtue is the most beautiful blue-green imaginable. The musical note is D. The element is water so it has the sensation of coolness. The abdomen is formed from this virtue.

\*

Umlaut O, eu By seeing through the eyes of the most profound cosmic divine love, indwelling perfection is revealed and enlivened in whatever is seen.

**O** The sound of letter O is the sound of the initiation into the original principle of divine justice.

Mentally you will be able to give expression to the absolute legality of harmony in all four basic qualities of the elements.

Intent controls thought and thought controls emotion. Emotion controls earth.

You will have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This brings about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It forms the throat and windpipe.

\*

**N** This sound is the sound of supreme happiness and fulfillment.

The transmutation of sexual energy into powerful ecstatic states of consciousness and being is a key to attaining this state.

This virtue gives control over the mental matrix, which is the spiritual bonding material that connects the emotional body to the mental body, i.e., to the spirit.

The mastery of this virtue reveals to the child of God all the mysteries relating to the mental matrix and bestows the ability to comprehend, see, sense and control, the mental matrix with its sphere of action, either in regard of self or others.

The color is dark red, the musical note is A, it is of the water element of feeling so it has a cool sensation.

The liver is formed from this virtue.

**SPECIAL MEDITATION ON THE DIVINE  
VIRTUES AND THE ELEMENTS  
IN THE BODY**

**In this particular exercise for energizing and enlivening the physical body using the divine virtues one after another,**

**some of the elements that are assigned to the divine virtues are different than what is normally stated.**

**Wherever a difference occurs, a notation has been made in the following list. Background :**

**Studied singularly one at a time, all of the divine virtues are practiced in being,**

**will-visualization, thought, feeling, and sensation.**

**This means that all of the divine virtues are practiced in all four elements,**

**because being and will are the akasha- fire element, thought is the air element,**

**feelings are the water element and sensation is the earth element.**

The four elements also correspond to the four brainwave patterns of the human brain;

Delta-pure being and will, Theta-deep inward thought, Alpha-feeling-emotions and psychic sensitivity,  
and Beta-logic, memory, and the five senses.

Different brainwave patterns correspond to different parts of the body.

This fourfold concentration of the elements for each divine virtue

forms the basis of the power of the word and the harmony of all visible worlds.

#### BODY EXERCISE FOR THE VIRTUES AND THE ELEMENTS

*'In previous exercises, a person has learned to apply the colors of the divine virtues inductively*

*into the whole universe from his own body and deductively from the whole universe into his entire body*

*through the pores of the skin with each out and in breath.'*

*'In this exercise a person conducts the colors in the same way,*

*but into the different regions of the body, taking into consideration an analogous relationship to one of the four elements.'*

*'Starting with wisdom and enlightenment, the letter A,*

*a person pronounces the letter intellectually into the chest region*

*and imagines it to be there in a light blue color.*

*Having imagined it to be in the chest for a longer period, he or she then resolves it again by imagination.*

*He or she must have the impression that the light oscillation of the blue color has completely disappeared from the chest.'*

*'In a further exercise, when a person starts to speak the A in the mind*

*and to invoke the light blue oscillation in the chest, whenever pronouncing the A in the mind,*

*the light oscillation of the blue color will be INTENSIFIED in the region of the chest. '*

*'The power of expansion will increase from exercise to exercise.*

*All of these exercises should not affect the breath,*

*they must not make a person try to hold up the breath at the moment of accumulation.*

*A person will be overcome by this temptation only at the beginning.*

*Later, when he or she is used to evoking dynamics of whatever type inside or outside of the body,*

*obstructions like irregular breathing or undesirable muscle tension will not occur anymore.'*

*'After having condensed the A in its light blue color to a point where it resembles a pneumatic tire pumped full,*

*he or she makes it resolve again in the universe by pronouncing and imagining it.'*

**Failure to resolve or dissolve the colors at the end of each exercise may result in disharmony of the body.**

*'As this exercise is mastered, a person passes beyond bringing the light blue color of letter A into the chest*

*by breathing it in through the mouth or nose, but through the circumference of the chest region,*

*similar to breathing through the pores by using the imaginative faculty.*

*The person must be capable of drawing any letter into the respective region of the body and emitting it again,*

*inductively and deductively, in a simple or condensed state.*

*These exercises have to be repeated until such a proficiency is achieved*

#### Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.  
Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

**THE LAW OF ONE**

**We are all one.**

**When one is harmed, all are harmed.**

**When one is helped, all are helped.**

**Therefore, in the name of who I AM, and I am one with all there is;  
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen .**

**I give thanks that this is done.**

**SO BE IT!**

**So it is.**
