The Angels *of* Healing Plants

Also known as

**The Angels
of
*Faluna***

Beloved,

***The heavenly host of Faluna give various
instructions how to make from plants
certain substances which are able to
preserve the body,
or even to make it younger,
and more resistant
against inharmonious influences diseases
and the like.***

***This intelligence is a very great
friend of human beings,
and helps a child of divine being,
should he or she want it, to wealth.***

Many healing substances with miraculous
healing powers are found
in herbs and plants that grow wild in forests
and other environments of Earth.

Quite a few of these are unknown to many
people.

Once a person lives in a place for about seven
years,

we make sure that every plant necessary for his
or her healing will be found growing in the
area.

In this new age of enlightenment and joy, all
plants are respected for the sheer miracle of
being,
and their energetic signatures
are understood and utilized.

Deep gratitude and wonder and awe of
everything in creation is felt.

What has been characterized as "weeds" is seen
in a new light,

which is also the ancient light, of the original
divine
blueprints of creation.
Now it

becomes understood that nothing was created
in vain,
and the purpose for everything in creation,
including all plants, is illumined.

As the children of light and love learn to live in
harmony with natural creation,
which out pictures omnipotent divine WILL for
the highest good of all concerned,
and learn to use volition to follow inner
guidance,
to encourage, protect, and bless nature,
these plants make themselves known.

The plant kingdom contains substances which
enhance the human body temples own ability
to revitalize and rejuvenate itself

For example, taking plants that stimulate
human growth hormone, hgh,
encourage chemical processes which seem to
turn back the clock and restore much of the
vitality of youth.

Natural antibiotics, such as grapefruit seed
extract, are naturally attuned to the human
body temple.

The legality and harmony of natures essence,

as being expressions of the original purity of all
ideas in Divine Mind,
and the importance of nurturing and blessing
everything in nature in gratitude,
because all is the perfect expression of
Original Divine Will,

comes from the divine virtue of the letter F of
our name.

The letter F is the divine virtue of the legality
of harmony in all visible worlds.

It is a virtue of the earth element with
sensations of weight.

Its color is light green, like the new spring
growth of the plant kingdom.

The left hand and arm of all human beings is
formed from this virtue.

As people bless and nurture the natural
heavenly creation in reverence and gratitude,
the plant kingdom blesses and uplifts humanity
in return.

By meditating on the divine virtue of the second
letter of our name, and becoming one with it

in being, will, thought, emotions,
and sensations,
it is possible to unite individual consciousness
with the original purity of all ideas
and attain wisdom and enlightenment and
mystical faculties.

With enlightenment the ability to perceive
plants with divine knowing arises.

This is the divine virtue of letter A,

shining with a light blue color with sensations
of ease, because it is of the air element.

The lungs of every person are formed from this
virtue.

The next virtue of our name, letter umlaut A,
ae, is the virtue of the transformation of
matter,
whether the most subtle mental,
or less subtle emotional, or dense physical
matter is concerned.

As people master negativity through loving safe
release of imperfections for changes

into other states that are the highest good of
all,
they also master the negative beings and attain
the power of transformation.

They free themselves from clinging to any
negative or harmful mental, emotional, or
material possessions
and they attain the ability to manifest any
wishes on the material plane.

The splendor and majesty of Divine Being are
expressed by all the divine virtues taken
together.

These qualities are expressed within and
throughout all creation.

Emotions of awe and wonder of
this splendor and majesty enlivens vitality and
youthening.

This is the divine virtue of the next letter of our
name, L.

It shines with an olive green color and
sensations of ease, because it is the air
element.

The spleen is created from this virtue.

The next virtue is the creative act and its
karma.

This awakens understanding of creative acts,
so that in deep trance states a person sees
effects

of each creative act that echo on and on
through time.

The karma of every creative act is understood
and perfected,

by changing the causes in deep meditation.

Meditating on this virtue gives the
understanding of the original source of
everything that exists
because it evokes the highest form of intuition
and inspiration,
and the ability to transfer divine flowing
emotions

to penetrate on the original act of creation of
everything.

On the material plane the ability to understand
all the mysteries of nature is gained.

People realize how PERFECT everything is in
creation,
and how the Will of God is expressed in every
detail in the natural world.

In deep states of meditation this perfection is
revealed and enhanced by using The Power of
the Word.

This virtue is letter U.

Flowing feelings of Supreme happiness, the
seventh heaven of delight are the result.

Emotions of happiness create cohesion in
creation, and attract solutions to any problem.
The divine virtue of supreme happiness is the
letter N.

The final virtues of our name, letter A and
umlaut A, ae, awaken wisdom and mystical
faculties
and the ability to manifest any wishes on the
material plane.

Remember, the angels of Faluna

***give various instructions how to make from
plants certain substances
which are able to preserve the body,
or even to make it younger***

***and more resistant against inharmonious
influences diseases and the like.***

MIRACLES

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from

THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

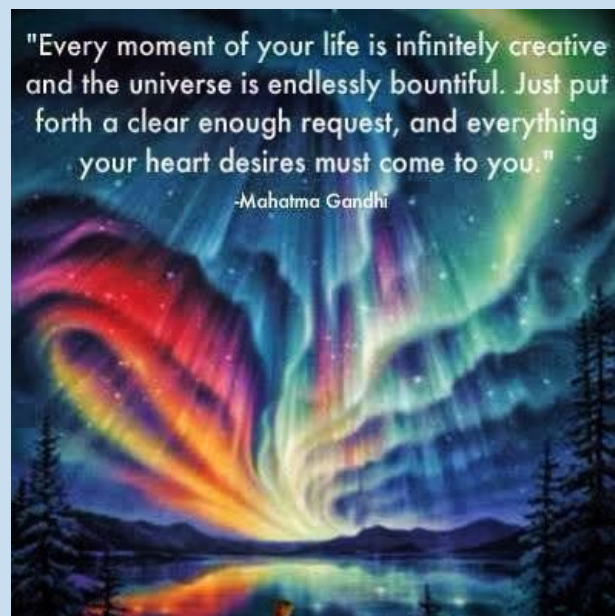

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.
