5 degrees Taurus

The Angels of Earthly Happiness

Also known as

The Angels

of

Nasi

Beloved,

We teach mankind that supreme happiness is not only the outcome of spiritual enlightenment, it is also a purpose of it.

The divine virtue of supreme happiness, the letter N of our name, is an emotional frequency that attracts cohesion to creation, and is similar to gravity in that respect.

Emotions are compressed information, like zip files, that attract corresponding realities out of the quantum field of infinite possibilities.

Flowing divine emotions of supreme and sacred happiness are

THE MAGNETIC POWER BY WHICH HEAVEN IS ATTRACTED TO and **STAYS IN** PHYSICAL MANIFESTATION.

We are the heavenly hosts who are responsible for establishing an agreeable life, full of pleasure for the sons and daughters of Divine Being, who in turn create happiness for all living creatures and life forms upon the Earth.

We give good advice.

We inspire you with ways to increase your wealth and help improve your position in life in ways that benefit all.

Remember that each of the thirty degrees of Taurus concern practical and real manifestations of Divine Love on Earth.

The emotional body is magnetic.

Emotions are the language of the quantum field, and we inspire the children of divine being to understand

how they attract specific realities out of infinite potentiality into form in each moment.

These specific realities match EXACTLY the vibrations of the feelings and emotions that attracted them.

This is an example of the laws of cause and effect,
and the natural laws of nature by which omnipotent Will of Divine Being is expressed in Holy Creation.

This is the law of karma and reciprocal action, expressed by these words:
YE REAP WHAT YOU SOW.

By flowing with emotions of innocent and divine happiness,
the highest good of all concerned is attracted out of the quantum field.

By meditating on the divine virtue of N, which is the virtue of Supreme Happiness,
it is possible to become one in consciousness and emotion with the seventh heaven of delight.

A practice to do every morning immediately upon awakening but before arising i.e., in the twilight zone between sleeping and waking up is called the "Feel very good", or the *Nasi exercise*.

In practice, simply say,
I choose to feel very good; Feeling good is my highest good.

Then closely monitor your emotional responses, allowing your consciousness to dwell only on thoughts which evoke positive emotional responses.

If any other (unpleasant) emotional complex flashes into consciousness, send love to these feelings

and ask the body's cells to let you quickly experience these emotions back to their origin in this lifetime.

Flow patiently with empathy for your inner child self as these emotions flow and heal, using eye movement.

When you are finished, shift attention to repeating the two sentences,
I choose to feel very good; Feeling good is my highest good.

Say these words and shift focus every time
immediately after healing

any negative thought that comes into
consciousness,

flowing with unconditional patience, empathy
and love

to let any negative feelings heal as quickly as
possible.

Do this until you get a positive thought.

*A positive emotional response is defined
as one which carries with it a positive
charge,
meaning a noticeable bodily reaction
which feels good,
like love, gratitude, appreciation, joy, etc.*

Once a positive thought arises, enjoy it,
flow with it,
stay with it.

Now ask the cellular memory of your body to let
you flow with these positive emotions
back to their original origin in this lifetime,
back to the very first time you ever felt these
wonderful positive feelings.

Wonderful memories may flash by,
times when you felt before these good feelings.

Now repeat, I choose to feel very good, etc.

Repeat this exercise until you have completed
five or more positive thoughts.

Meditating on the letter N in combination with
this practice entrains
an uplifting and purifying tone for the entire
day.

For the whole day powerful magnetic influences
of this exercise,
of FEELING wonderful uplifting emotions,
result in the law of reciprocal action.

In time, depending on the strength and clarity
of the feelings,

and the accumulative return of other already
created reapings of previous feelings,

corresponding realities that out picture perfectly

these happy FEELINGS come into manifestation.

If this practice of feeling good is done often,
the overall vibration of the magnetic field
surrounding a person
deflects or greatly weakens return
of previously ill-created harvests of negative
feelings generated before.

This can be understood by meditating on the
divine virtue of Grace and Mercy.

Ordinarily the only times when you will be
unable to do the *Nasi* exercise

is if you are triggered into an overwhelmingly
negative memory from the past,
which can monopolize consciousness.

*In this event, do the eye movement exercise to
resolution, then try again the NASI exercise.*

*The eye movement exercise is the practice of
feeling through negative emotions
and feelings at the same time the eyes are
moving back and forth,
left to right and back again over and over, as the
eyes do naturally in dreaming.
This can be done with the eyes opened or closed.*

*By doing this, negative emotions and feelings
are processed efficiently
by being moved back and forth between the two
hemispheres of the brain,*

*thereby utilizing whole brain processing to
rapidly transform the feelings*

and reveal healing insights as they flow in awareness.

If powerful negative feelings have been held and not allowed to flow to resolution for a long time, quite a bit of eye movement may be necessary.

Pay attention to the emotions, feelings, thoughts, memories and insights in this process, and let the eye movement itself be absentminded.

A PERSON REAPS WHAT HE OR SHE SOWS!

All negativity must be lovingly allowed to flow and heal quickly and in a non-destructive way, for transformation to take place.

Feelings and emotions that are denied, bypassed, or suppressed still attract negative realities on an unconscious level.

Therefore, it is important to spend time in deep emotional healing at other times of the day if strong negative feelings keep arising of their own accord.

The use of the *Nasi* exercise each morning upon awakening is THE PLANTING OF THE GOOD SEED, the creating of powerful magnetic attractions to reap future harvests of happiness.

To meditate on the perfect origin and purity of all ideas is to attract them into form.

The divine virtue of enlightenment and wisdom, which IS this ability to comprehend and be one with the original purity of all ideas, is the divine virtue of the letter A of our name.

Releasing any imperfection on any level, in self or others, is the virtue of umlaut A, ae. By releasing negative situations safely and non-destructively, for changes into other states, control over the Earth is gained.

The understanding of omnipotent divine POWER OF WILL and intention, the power of volition, is secured by meditating on the letter S of our name, for this letter is the divine virtue of ALL-PENETRATING-POWER, WILLPOWER, it is unity with the Will of Divine Consciousness.

Happiness, the 7th heaven of delight, is part of the original plan for creation.

It is an out picturing of Omnipotent Will of Divine Consciousness for all beings.

The Children of Light and Love are links
between Divine Will and the rest of Creation in
Matter.

As the will of a child of light becomes One with
the Perfect Will of Divine Being,
the POWER to flow with divine emotions and
feelings
and attract the perfection of heaven in manifest
creation is gained.

As above, so below.

The combination of this divine courage with the
divine virtues of supreme happiness,

enlightenment, and transformation

allow Heaven to manifest on Earth according to
The Law of Cause and Effect.

This is the law of reaping what you sow, as we
have spoken before,
and is the last letter of our name, the letter I.

Meditate on these four divine virtues so that the
original Will of the Divine for Supreme
Happiness

manifests in and through you for all who
together live and move as the out picturing of
the ONE BEING.

Pleasure, happiness, bliss, and ecstasy on earth
mirror the qualities of Divine Being.

girdling the earth,**

and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

I ask that ONLY

**THE HIGHEST GOOD OF ALL CONCERNED
happen .
I give thanks that this is done.
SO BE IT!
So it is.**
