

Hermetic Angel Messages

PDF version

When a person experiences the bliss of Love Divine,

all are blessed!

The quantum field is activated by emotion,
so flowing with emotions of divine love activates realities of bliss for all.

Now is the time to take pen in hand and write divine stories flowing from your heart to
bless all.

The Angels of Intuitive Writing

*Also known as
The Angels*

of

Carubot

Beloved,

***We assist by intuition and inspiration
with proposals and projects for
literary use
and distinguished style***

***in the process of manifesting heaven
on earth.***

***People dealing with fairy tales,
legends, sagas, and the like,***

find in us an excellent initiator.

***Whenever a person on a spiritual path
feels intuitively,***

the inner guidance to write a story,

we come.

***We help writers reclaim whole brain
awareness.***

***In this way writers access Universal
Mind and the Akasha principle***

***for divine images and ideas
that spiritualize peoples imaginations
and emotions.***

**In society, often the Beta brainwave function
is valued
and encouraged**

in conventional education.

**In normal development, the Beta brainwave of
12 oscillations and up per second
do not become dominant until puberty.**

**Harmful practices of demanding skills of
Beta Brainwaves
earlier in life interferes with inner growth.**

**Beta brainwaves concern the five senses,
memory,
remembrance,

logic,
linear thinking,
and conscience.**

**This brainwave may become forced into
dominance

while the other brainwaves become more and
more recessive or, in some cases,
dormant to waking consciousness.**

**A person in this condition primarily accesses
the five senses,
memory, and rational linear thinking,

and more and more loses touch with
conscious pure being
and unity with Divine Being and all creation
[Delta],

deep inner thought [Theta], and vital flowing
emotions [Alpha].**

**By writing beautiful fairy tales and
sagas,**

**it is possible for a person to help
others reawaken**

**the deeper conscious levels of
awareness through the
imagination.**

**We must learn to RELAX,
as the deep inner thought brainwave pattern
of theta brainwaves,
which are dominant in childhood,
requires relaxation and ease
to access in meditation and focus.**

**The imagination is the Theta brainwave of 4
to 7 oscillations per second,
that is dominant in little children.**

**That is why it was written that
"Ye must be as little children to enter the
kingdom of heaven."**

**The imagination is a function of
the pineal gland,
which is the third eye.**

**By stimulating imagination and
the pineal gland,**

**amazing chemical substances are
injected into the bloodstream,
changing the chemical
constitution of the entire body.**

**Within one minute of having a
thought,
over a hundred thousand chemical
changes occur in the body.**

**The imagination is also the key to
the subconscious mind.**

**Numerous studies have been
written on how the subconscious
mind,
which processes 400 billion bits of
information a second,
does not distinguish between an
actual happening
and an imagined happening.**

**By imagining the powers and miracles
presented through mythic tales,
important states of emotion and
memories of spiritual lifetimes when divinity
was accessed come back.**

**Creating with enlightenment and wisdom
utilizes all four brainwaves together.**

**This ability to utilize all four brainwaves is
enhanced by learning how to meditate,
which requires knowing how to heal wounded**

emotions.

**Emotions are compressed information, like a
zip file.**

**Unlike desires and thoughts, which are
electric,
emotions are magnetic, as is the material
world.**

**That is why it was written:
"I have not given you the spirit of fear,
but of joy,
and life everlasting."**

**"Seek ye first the kingdom of heaven, and all
else shall be added unto you."**

The kingdom of heaven is found within."

**When a person 'goes within' to 'find the
kingdom of heaven',
often the first things encountered are
unresolved fears, disappointments, anger,
confusion and guilt.**

**These emotions must be acknowledged,
thanked, validated,
instead of resisted or acted out destructively,
to heal and allow the seeker to go deeper.**

**Otherwise, painful emotions, even
subconsciously,
activate the lower reptilian brain stem fight
or flight response.**

**Once painful emotions are healed through
empathy for the wounded inner self,
then beautiful emotions arise,
allowing consciousness to pass through the
limbic system in the mind into the neocortex,
and theta brainwave energy.**

The human body is over 80 percent water,

**which corresponds to the emotional realm
and the alpha brainwave state,**

which is the dominant state of adolescence.

Divine emotions that are beautiful and life

**giving must flow
and create the type of magnetism
necessary to attract beautiful spiritual
realities
out of the quantum field
that manifest on the physical plane.**

**For this reason we inspire mystical and
mythical tales that fire the imagination
and evoke divine flowing emotions, such as
courage,
faith, love, and beauty.**

***Because emotions are compressed
information that attract new realities into
form***

***out of the infinite potential of the quantum
field,***

***accessing divine emotions is necessary for
heaven to manifest on earth.***

**The restoration of the noble spirit of the
Divine Masculine**

**depends on conscious Delta and Theta
brainwave states.**

**Delta is the state of PURE BEING and unity
with Divine Being and all creation.**

**Delta brainwaves are roughly 0 to 4
oscillations per second.**

**Infants naturally experience this state as
dominant**

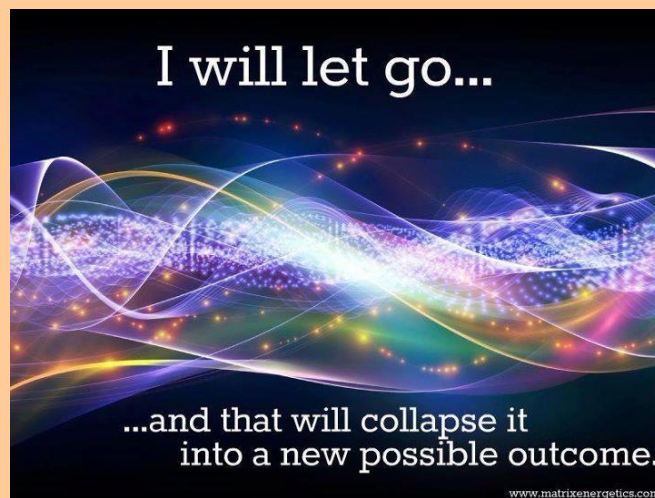

**from before birth until the average ages of 3
or 4.**

In this state, a person experiences self as

ONE WITH ALL,

**and it is here that omnipotent desire for the
highest good of all arises.**

**In this state omnipresence and omniscience
are experienced.**

**Theta brainwaves are roughly 4 to 7 ops
[oscillations per second]**

**and children normally experience this state
as dominant from the average ages of 4 to 7
years old,
or until the onset of adolescence.**

**In this state, deep inward thought,
imagination,
free from interference from the outside world,
occurs.**

**This is the inner kingdom where a person co-
creates reality**

**according to the experience of oneness with
all generated in the Delta state.**

**Marvelous eloquence and artistic talent are
accessed.**

Mystical faculties awaken.

**A writer spins divine adventures and tales of
spiritual realities.**

Remember:

**"Ye must be as little children, to enter the
kingdom of heaven."**

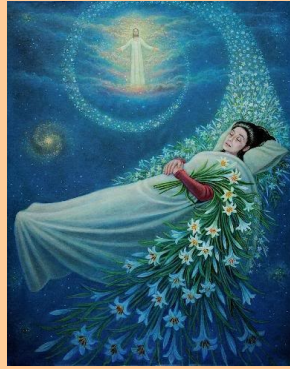

**The restoration of the most ecstatic and
fulfilled Divine Feminine upon the Earth
depends on the restoration of the spiritual
use of Alpha and Beta brainwaves.**

**Alpha brainwaves are emotions and feelings,
and Beta brainwaves are the five senses,
memory, and linear thinking or logic.**

Flowing emotions cause changes in form.

**As divine emotions and feelings flow, new
realities of great beauty are attracted into**

form.

**Remember, Alpha Brainwaves are
roughly 7 to 12 ops,**

**and children normally have this as
a dominant state
from the average ages of 7 to 12 or
during adolescence.**

**In this state, emotions are the
focus of awareness,**

**both flowing emotions of self and
others.**

**Flowing emotions cause change in
form, both on the inner through
chemical changes
and on the outer world through
quantum processes, or the Law of
Attraction.**

***Marvelous divine stores of myth
and legend***

***arouse divine flowing emotions
deep within,
and the resulting change process
blesses all.***

Beta brainwaves are roughly 12 oscillations per second and up.

People experience this state as dominant from puberty onward.

Consciousness in this state focuses on the five senses, memory, and logic.

Linear thinking anchors the change process brought about by flowing divine emotions and feelings.

It does this by anchoring these beautiful changes into cellular memories that continue to attract beautiful changes in physical reality.

A key to spiritual enlightenment is regaining the three younger awareness states

to combine with adult Betawave consciousness.

This may sometime seem difficult, because the natural development of children often has been interrupted by

conventional behavior modification practices and technology, like television and computers, that program imperfect imaginations into their deep theta state.

***By playing in nature,
and being around enlightened
adults that model loving realities,
children are naturally enlightened.***

**Educational practices of many old
paradigms, that thankfully are
passing away,
often molded children into
dominant Beta, logic, memory, and
the five senses,**

**before they are old or developed
enough to naturally do so.**

**With divine help and the use of
meditation, recovery occurs.**

***Beautiful stories of myth and
legend awaken meditative states
for this purpose.***

**The combination of brainwave
states**

**is called the *fourfold key* or the
quadrapolar magnet .**

**These four brainwave states correspond to
the four elements.**

**Delta is akasha and fire, Theta is air, Alpha is
water, and Beta is earth.**

**These elements and brainwave states
correspond
to BEING-WILL, MIND, EMOTION, , AND
SENSATION.
ALL of the heavenly hosts inspire greater skill
using the quadrapolar magnet
to create changes in consciousness and
manifestation.**

***Remember that beautiful flowing tales of
myth and legend are messages from higher
realms.***

**Spiritual writers who work for the highest
good of all are surrounded by divine beings.**

***Angels are called THE MESSENGERS OF GOD
because they act as intelligent self-aware
connectors
to various qualities of divine being and
wisdom of the unified field of being.***

**Remember that when waking Delta brainwave
consciousness is restored,
a state of PURE BEING and oneness
with Divine Being and all creation is restored.**

**When Theta brainwave thinking is restored,
clear inner understanding of the original
purity of all ideas is restored,
and mystical faculties awaken.**

**When Alpha brainwave awareness is
restored,**

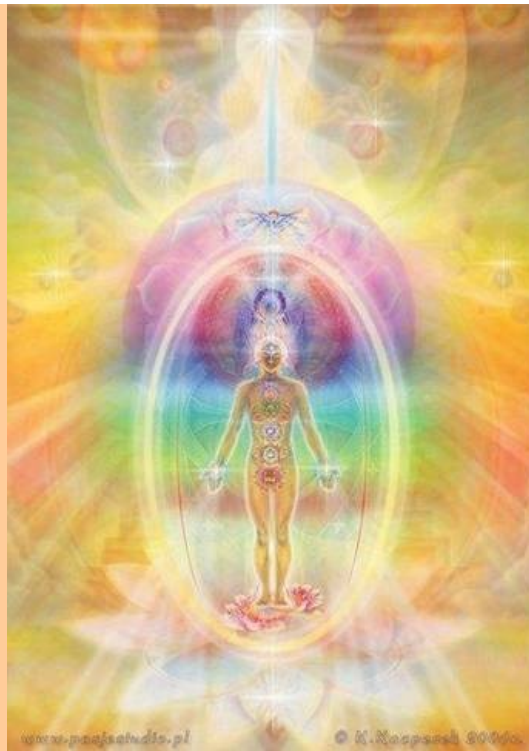

**flowing divine emotional awareness and
control of the change process is restored.**

**When these are combined with memory,
linear thinking, and the five senses, or Beta,**

**the result is a fully functional divine person,
who creates heaven on earth**

for self and others.

**In this state, angelic assistance is easy and
natural to access and use.**

"As above, so below".

**By regaining WHOLEBRAIN
AWARENESS,**

**a writer restores his or her natural
abilities and divinely creates
electrical impulses in Delta and
Theta,**

**and magnetism in Alpha as well as
Beta.**

**This is called the electro-magnetic
fluid.**

**Those who read books that are
written in these states are blessed
and spiritualized.**

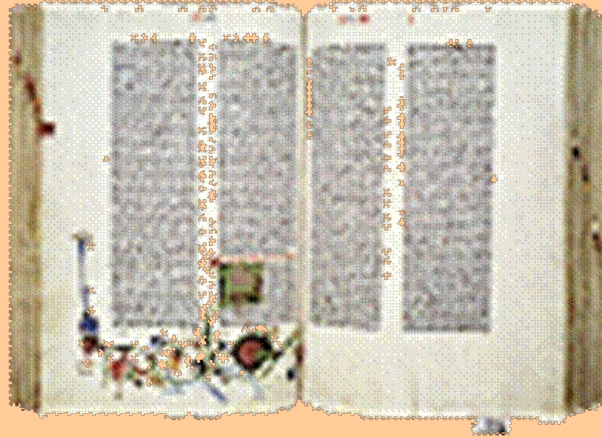

**Conscious use of the electro-magnetic fluid to
seek and attune to divine virtues
IS A ROYAL ROAD to fulfilling the perfect
plan in creation,**

**in which people are connecting links between
the heavenly and material realms.**

**Writers of divine myth and legend create
these links for their readers**

**so that divine magnetism restores original
purity of all ideas in Divine Mind on Earth.**

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root,

of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence. Names, phrases, and sections, in the angel
