The Angels of Agricultural and Forestry Technology

Also known as
**The Angels
of**

Charagi

Beloved,

**An ecosystem is a living system, with each part playing
an important and necessary role.**

**Divine Being expresses through even the least and
smallest,
and once the original divine blueprints of creation are
understood,
it is seen that nothing is expendable.**

Everything in creation has a purpose.
All that is exists to love and serve the whole.

**Enlightened and wise use of technology is important to
the survival of fragile ecosystems.**

***Because the human soul needs beauty on every
level,
on the physical, the emotional, the mental, and the
spiritual,
every form of beauty of the senses,
emotions, mind, and will
of every inch of earth, must be taken into
consideration.***

**Because almost infinite numbers of visible and
invisible forces work together in the living land,
and all must be taken into account whenever an action
is undertaken.**

***We inspire the understanding that the relationship
of growing things of the soil
to mankind is one of trust and innocence.***

**We inspire the children of Divine Love to remember
that the omniscience of Divine Being
expresses through everything, including plants.**

**For example, if a person plants a seed with a small
amount of his or her saliva touching the seed
and withholds water for three days so that the saliva
remains in touch for that amount of time,
the seed reads the DNA and produces what is needed
for perfect health and emotional and mental well being
for that person.**

***[see recommended reading footnote below.]**

Land management, whether in agriculture or forestry, requires clarity and perfect purity of flowing divine emotions, enlightenment, control over negativity and delicate guidance by Divine Providence.

Agricultural perfection requires true divine blessing and grace and mercy

for the indwelling divine life that is present in all creation.

All life is precious.

Every inch of earth is a home to living beings, large and small.

Land management requires understanding of cause

and effect.

The use of technology in agricultural and forest management is analogous to that of scalpels in surgery.

Right use enhances health , wrong use causes suffering.

We grant inspiration for technological inventions to those who are spiritually mature.

We inspire people to use powerful technological tools with clarity, enlightenment, control over negativity, inner guidance, grace and mercy, and the understanding of cause and effect.

All technological inventions, for any purpose, are to be used for the highest good of all concerned.

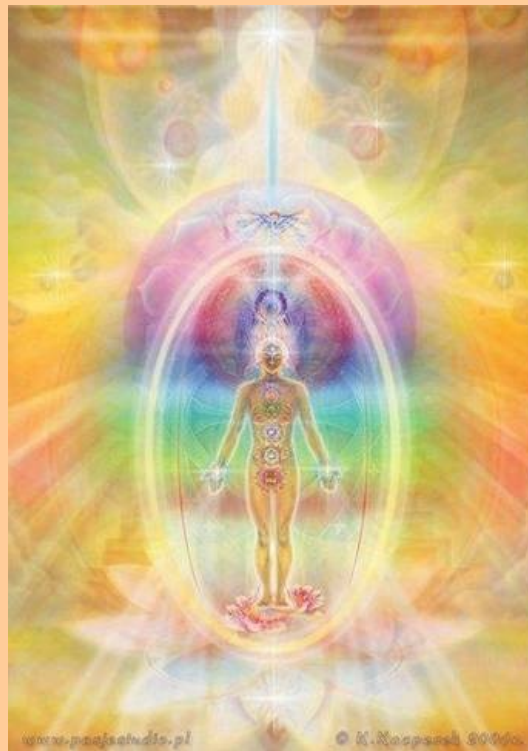

With the accelerating process of Heaven manifesting on

Earth, the Alpha and the Omega,
the karmic results of actions return ever more quickly.

People open up to increasing levels of clarity, wisdom,
transformation,
inner guidance, true divine blessing and awareness of
cause and effect.

*It is destined that all life dwell in peace and
harmony,
that even the least sparrow be given grace and
mercy.*

meditation notes for letter Ch

Ch

First relax and do deep into a state of pure being and unity with Divine Being and all creation.

Then locate yourself in time and space by imagining that you are a small dot inside your solar plexus.

Visualize the rest of your body as an almost infinite universe.

Imagine a tiny sun in the abdomen area seen as a hollow space, shining forth a beautiful medium violet light.

Fill whatever part of your body that inner guidance directs with this light violet color shining from the tiny sun.

Meditate on becoming one with the divine virtue of clarity and perfect purity of flowing divine feelings. Enliven these feelings by intoning the musical note of D sharp with sensations of coolness,

for this is a divine virtue of the water element of feelings.

Now expand your meditation with your outbreath, seeing this radiance passing through the pores of the skin of the left leg,

to fill whatever inner guidance directs with light violet, pure and clear divine flowing feelings, the musical note of D sharp, sensations of coolness.

The left leg of every person is made from this divine

virtue.

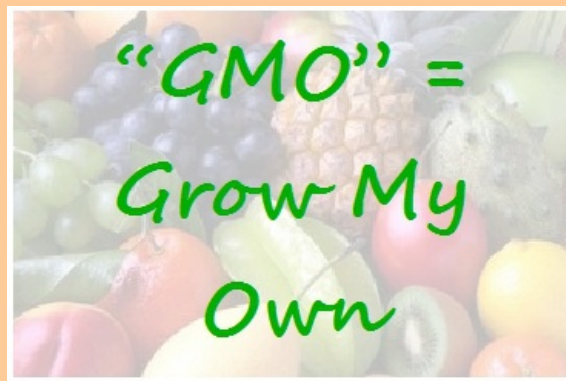

**Be sure to keep the rhythm of the breath natural, and
dissolve the medium violet light
in the body when you are finished with this meditation
to protect the natural balance of elements in the body.

***Six years ago, the New Moon Solar Eclipse occurred
at this degree of 20 Taurus at 8:28 PM EDT .
As you can see now, six years later, our planet is now
going through divine grace***

concerning our global awareness of food.

***This was a South Node eclipse, so the focus was on
releasing the old (patterns, beliefs, etc.)***

***around food so that an upgrade occurred
that lead to new beginnings.***

***Everything having to do with food, the preparation of food,
and the sustainability of a conscious ecosystem in Divine Love and Perfection***

***was targeted by this eclipse **five** years ago.
This includes food for humans and for all sentient life.***

***Much progress has been made in food awareness, and
the sacredness of growing food.***

Footnotes

**The names and meaning of angel groups come from Quaballah,
which is a very ancient set of teachings which together form a common
precursor, or root, of three of the world's religions:**

Judaism, Islam, and Christianity.

**Each degree of the zodiac is ruled by a high being of the heavenly host in
the zone girdling the earth,**

and the angels who work with him or her.

The being and the angels share the same name.

**This name is a key to their powers and influence.
Names, phrases, and sections, in the angel messages
are quoted or paraphrased from the books of Franz Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

**Therefore, in the name of who I AM,
and I am one with all there is;**

I ask that ONLY

**THE HIGHEST GOOD OF ALL CONCERNED happen .
I give thanks that this is done.
SO BE IT!
So it is.**
