The Angels of Universal Physics

Also known as

**The Angels
of**

Carahami

**Beloved,
"Ask and ye shall receive."**

*We help those who are mature understand cosmic powers
and how they cause natural phenomena.*

**Dominion over Earth and the powers of nature
are birthrights of the sons and daughters of Divine
Being.**

*These abilities become accessible only when each person
becomes spiritually mature, harmless and wise, with clear
inner guidance.*

**A true mystic will never dare to cause any chaos by
magical operations of this sort,
for he/she would only heavily burden his/her Karma by
doing so.**

We are the teachers of cosmic universal physics.

**We make a child of God understand the cosmic powers,
their analogies and their legality in nature,
and we teach how to control them.**

**We reveal many metaphysical and metapsychic secrets in
regard to nature.**

**Phenomena that have become clear to the sons and
daughters of God,
in their causes and effects,
due to their growing knowledge of cosmic powers,
do not leave them in any doubt,
and they not only find the correct explanation for any
natural phenomenon,
looking at it from the quaballistic angle,
but, depending on their personal maturity,
they are able to bring about such phenomena by
themselves.**

The first letter of our name,
letter C, is the spiritualization of matter with divine
qualities.

Understanding of cosmic physics awakens with this virtue.

The second letter, letter A, is unification of individual mind
with Divine Mind,
so that the original purity of all ideas is known.

Within this virtue of divine ideas are mental BLUEPRINTS
that externalize in form through different levels,
creating phenomena.

Imperfections can then be recognized,
and released for changes into other states
that are the highest good of all

This is

umlaut A, ae.

The next letter, R, is the virtue of following inner guidance
from Divine Providence.

This virtue awakens genius that enables a person to
LISTEN
to inner intuition
and receive clear pictures, emotions, and inner knowing.

**A and umlaut A, ae are repeated, enlivening eloquence,
clairvoyance, clairsentience, clairaudience,
and other mystical powers along with control over negative
beings**

**Mastering this frees a person from attachment
to any negative desire, value, idea, situation, emotion, or
possession,
so that they can move on to greater enlightenment
and manifest beauty for all .**

The letter H is The Power of the Word.

**A DIVINE VIRTUE IS ATTUNED TO IN BEING, VISUALIZATION-
WILL,**

**THOUGHT, EMOTIONS, AND SENSATIONS
and enlivened with sound and breath.**

**To the extent that each virtue is meditated on in this
fourfold manner,
to that extent does the virtue manifest on each of these
four levels.**

***Here lies the key to precipitation of particular
qualities***

***into form from the most subtle at the level of being
and desire to the most dense level of gross physical
matter.***

**A and umlaut A, ae, give control over the spirits of the air
and the transmutation of matter.**

**The next letter, M, is the virtue of fluidity, of flow, of
emotions, and therefore the change process.**

Flowing emotions create MAGNETISM.

**Magnetism ATTRACTS like vibrations unto itself,
and is the precursor of all material manifestation.**

This is a great key in the understanding of physics.

The last letter I, is the virtue of Cause and Effect,
the understanding of the circular path of all energy

of sowing and reaping.

By mastering this virtue perfect memory and conscience
are gained.

Also the ability to control both the breath and the
connection between emotions and the physical body,
and to understand the analogy between the microcosm and
the macrocosm are attained.

With this virtue a person can perform miracles on
everything that has weight, number, shape, and measure.

This virtue shines with a light opal color, the musical note
of G,

radiates from the left kidney, and has the sensation of
earth and weight,

because it is a virtue of the earth element.

Because all life is connected as a unified field of
energy,

whatever is willed, thought, felt, or done
has repercussions throughout the entire web of life,
both inside the microcosm which is the human body
and the macrocosm, which is the outer universe

.

As above, so below.

C... We spiritualize ideas with divine qualities, teaching

**A and umlaut A, aethe most profound truths, wisdom,
and illumination of the enlightened mind and the
transformation of matter on all levels..**

**RThis is expressed as creative ingenuity in the form of
insights and abilities.**

**A and umlaut A, aeThis illumination and highest wisdom
comes through creative application of release of anything
that is imperfect, and**

**Hthe power of the word, the cosmic and ancient language,
to master the material world,**

**A and umlaut A, ae and conform to the original purity of all
ideas in Divine Mind,**

**healing the mind, and developing mystical abilities,
eloquence,
and the language of symbols.**

Control is gained over negative beings.

**Mastery of the flow of divine emotions and involvement in
philosophizing**

**Revivifies the soul; reconnecting the soul and body to
reawakening and remembrance of the divine state.**

**RECOMMENDED for an outstanding example of Universal Physics in
written form,
The out of print book called Through the Barrier, by Edgar Ostrander.
See if you can find a used copy somewhere.**

Here are a few guidelines for meditation on the letter I :

Relax.

Be still.

Go within.

Go deeply within. Experience your original state of pure being and unity with Divine Being and all creation.

Now locate yourself in time and space by visualizing that you are a tiny dot in your solar plexus and that your body is an almost infinite universe surrounding you.

Imagine that a beautiful white light, sparkling with opal rainbow colors, is shining from a tiny sun in the leg region. Visualize this light filling whatever inner guidance directs, such as the leg region, the left kidney, or even the entire body.

Imagine how cause and effect is the law of evolution of everything, how Divine Providence is manifested this way in the most subtle form.

Consider how cause and effect is analogous to and creates memory, remembrance and conscience.

Letter I is the tenth letter, so the Law of Cause and Effect oscillates in the rhythm of ten.

Meditate on how cause and effect controls emotion with all its functions.

Tangible visceral feelings in the body of flowing emotions are the connecting link between the body and soul, therefore they are the principle of life itself.

See how the principle of cause and effect controls the

very act of breathing.

Meditate on how everything in the material world that has shape, measure, number, and weight is created by the virtue of cause and effect.

Flow with feelings of mastery over cause and effect, over memory, remembrance and conscience.

Enliven these feelings by toning the sound of the letter I in the note of G.

Sense weight and gravity, the earth element, as you meditate on the the law of cause and effect.

With the outbreath this radiance shines through the pores of the skin over the left kidney and fills whatever inner guidance directs in the outer universe.

With the inbreath this radiance comes back in and fills the body.

Careful meditation on cause and effect gives the ability to evoke the greatest miracles in the material world by using the respective analogies to shape, measure, number, and weight.

This meditation is a good one for times of long, deep, thought.

As you come into greater enlightenment with the virtue of the law of cause and effect,

know that through the law of correspondences, the unified field, the web of life, is simultaneously enlightened.

All that I do ye shall do and more.

I am the way.

With each meditation, the way is made stronger for others.

The energy of each meditation goes out and out, like ripples in a pond,

coming back ever stronger and blessing the sender.

Remember to dissolve the opalescent light in the body when you are finished

to protect the natural balance of elements in the body.

Keep the rhythm of the breath natural.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, and sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth

is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

I ask that ONLY

**THE HIGHEST GOOD OF ALL CONCERNED happen .
I give thanks that this is done.
SO BE IT!**
