30 degrees Taurus

The Angels of Heart Mastery

and
Water

**Also known as
The Angels**

of

Sapasani

Beloved,

Of the three primary divine aspects that are Love, Wisdom, and Power,

**remember that Taurus is the constellation of Divine Love
that manifests in Form in practical day to day physical life.**

**Therefore the last degree of Taurus reveals perfect mastery of flowing
emotions and the water element,**

**because emotions are the language of the quantum field,
that determine what manifests in the physical realm.**

By doing this, physical realities are attracted into being

*through the magnetism of flowing emotions
that are perfect manifestations of Divine Love.*

**We help people become masters of the heart,
along with becoming masters of water,
through the divine virtues of the letters of
*Sapasani.***

**In becoming incarnate loving divinity on Earth,
each Son and Daughter of Light and Love must heal the heart,
the ability to tangibly feel love,**

**and understand the process and magnetic power of flowing emotions,
so that emotions are kept pure and attract the highest good of all
concerned.**

**To begin with, the gift of mastering omnipresent, omnipotent, all
penetrating will**

**for the highest good of all concerned
can be enlivened by meditating on the virtue of S of *Sapasani.*
With this virtue, a person unites individual will with omnipresent
Divine Will for the highest good of all,
and experiences
unity with this Omnipotent Divine Will INDWELLING everything
in creation.**

**This virtue shines with the color purple red, and gives the gift of
prophecy,**

**clairvoyance, excitement and enthusiasm.
It also confers loving control over the consciousness of self and others,
for the highest good of all.**

Then, by meditating on the light blue virtue of letter A,

**understanding of the original purity of all ideas in Divine Mind and
mystical faculties are gained.**

**In this way a person communicates clairvoyantly and clairaudiently,
especially with other people on the level of emotional intelligence, and
the Undines, the beings of water,
to bring about the highest good of all.**

**This triggers release of imperfections for transformation into a higher
state,**

**the virtue of umlaut A, ae, shining with a loamy brown light.
The divine virtue of letter P is the longing for spiritual perfection and
unity with Divine Light,**

shining with a dark gray light.

**By meditating on this virtue, a person unites
with the longing for spiritual purification that
indwells all creation,
in all beings,**

**and gains the ability to strengthen this longing
within self and others,
and see divine beauty everywhere.**

**Meditating on the next letters in *Sapasani*, A and umlaut A, ae, results
in further unity with Divine Mind,
and with the original concepts and ideas of perfection on all levels,
and the willingness to RELEASE anything that no longer serves the
highest good of all concerned.**

**Release into transformation gives control over negative beings, and
over negative passions, in self and others.
In controlling flowing emotions and waters,**

**the purple red divine virtue of all penetrating omnipresent and
omnipotent will for the highest good of all concerned, S,
is again brought into play at this point.**

**This most subtle essence of divine spirit empowers and energizes the
perfect divine blueprints of everything in Creation,**

**so that the highest wisdom and illumination,
insights of the enlightened mind to heal thoughts and thought forms,
and powers of release and transformation of negativity are brought
further into play,**

**the third light blue virtue of letter soft A, shines forth in everything, in
Sapasani,**

**and then the loamy brown virtue of transformation of umlaut A.
To attract physical realities to fill the thought
forms
of divine perfection above,
flowing emotions of supreme happiness,
the divine virtue of N, are enlivened.**

This ATTRACTS solutions to problems and gives control of flowing emotions,

**movement and rhythms of all humans, animals,
and life upon the earth and in the waters.**

**The divine virtue of supreme happiness shines with a deep red light.
Happiness is similar to M, which is the source of gravity, in that it
causes cohesion.**

**The outcome is power to evoke miracles of divine perfection in the
material world
through the mastery of the Laws of Cause and Effect,
the virtue of letter I, which shines with a light opal radiance.
*All beings living in the water and all elemental beings obey
the heavenly hosts of Sapasani,***

***who also teach the mystical uses of sea salt.
A Child of Light is informed by us how to get into touch with
water beings in a sympathetic manner
by using a small pinch of sea salt and how he or she can make
useful,***

***for various purposes, the powers of the elemental beings of
the sea.***

He or she is initiated into many other practices.

**As each person confronts, explores, and masters the four levels of
consciousness in his or her own being,**

which are being-will, thoughts, flowing emotions, and sensations,

**the ability to control the physical manifestations of these levels; fire,
air, water, and earth, grows and grows.**

**This control blooms through spiritual maturity, harmlessness and
awareness of unity and oneness with all.**

**The appearance of separation is a creation that supports
infinite variety and free will,
but its existence is only possible because of underlying unity and
oneness of the Unified Field.**

**Therefore, an activity of change in the worlds of separation begins in
the underlying world of The ONE,
the Unified Field, and returns to the Unified Field of Energy, The ONE.
A divine law issues from this fact, The Law of Cause and Effect.**

**This law reveals that whatever action is taken will come back to the
one who takes it,
because under the illusion of separation is The Eternal Truth of Unity.**

**Whatever is done to anything is therefore done to self.
Just as fire is the physical manifestation of will, and air is the physical
manifestation of mind and thought,
water is the physical manifestation of flowing emotional energies.
Anyone who works with water and the water beings called Undines,
MUST heal and master the realm of flowing emotions within the
individual self,**

**to master flowing emotions and waters in the outer world.
Everything in the physical world is attracted into manifestation
through flowing emotions, which are magnetic energy.**

**Flowing emotions are the gateway to the physical world.
*If you remember that flowing emotions and waters follow the
same laws,***

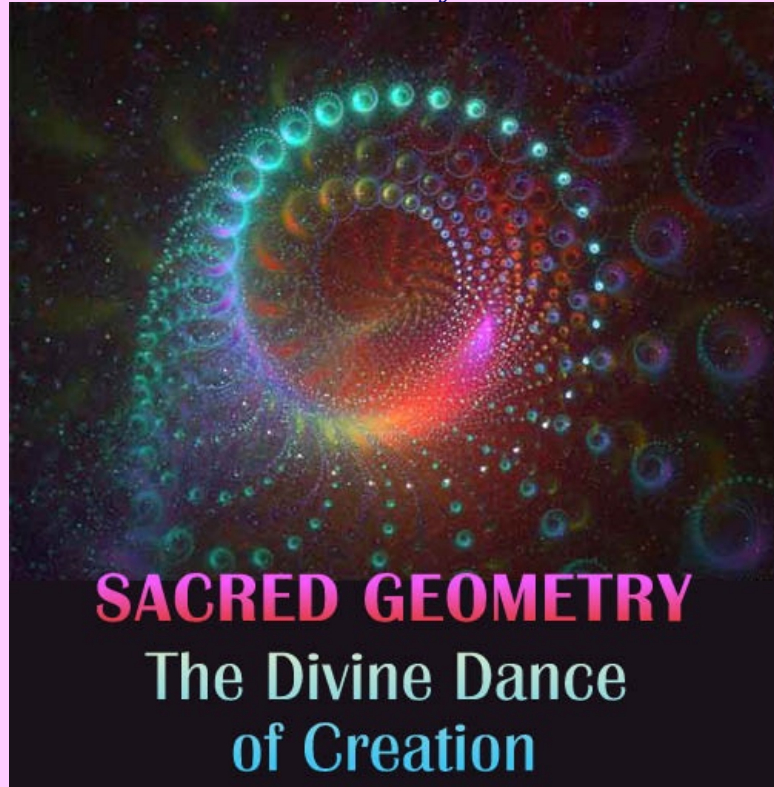

***then it is easy to understand that emotions and water respond
identically to flowing.***

Emotions and water stay clean, pure, and invigorated by flowing freely.

Denial of free flow in either one leads to stagnation and poisoning that brings death.

Also, dangerous and destructive flowing of either one can also lead to suffering and death.

Death is the last enemy to be overcome.

**In beginning any journey on any level of awareness,
people must start from wherever they actually are in beingness.**

**The sine qua non of rapid growth and change is always to love and
accept exactly**

**where you are emotionally,
with compassion and validation.**

**This love is the magnetism that attracts the process of unity with
divine light and perfection.**

**By praising, respecting, thanking and loving whatever already
exists,**

**on any level-but especially on the emotional one,
both within the self and in the outer world,
transmutation and transformation are activated automatically.
Negative emotions that are accepted and loved instead of denied,
acted out dangerously, or judged,
will change and heal from within their own beingness,
as the divine light of unconditional love heals the darkness.
Therefore, in a persons journey to manifest heavenly emotions,
whatever flowing emotions are present at the time is the starting
point.**

If ones emotional status quo is stuck in the past, the starting point is to embrace intense old emotions , love them and validate the inner wounded child within, letting the old emotions flow to transformation, transmutation, and completion.

In this process the psyche creates spontaneous healing images and insights, that allow forgiveness, understanding, and gratitude to grow.

Whether emotions are negative or positive, they must flow; the negative ones to heal, and the positive ones to grow more positive. As with all emotions, when negative emotions flow, the key is to accept them with unconditional all-encompassing love, non-judgmentally and non-destructively, i.e., refusing to allow any destructive acting out.

One way to release and purify emotions quickly and efficiently is by physically abreacting or expressing safely, such as by crying and/or screaming in a nondestructive way.

As deep cathartic screaming [in a pillow or a private place, without hurting anyone or destroying any valuable property] or crying commences, emotions become unstuck.

Finally the wounded inner child can express itself, it can finally 'be heard' and validated.

Continuing the process long enough to reach emotional resolution ensures that crippling emotional tensions from the past completely run their course and transform, which attracts new life giving emotions to fill the heart.

This is analogous to the powerful flowing action of waterfalls or rapids, which invigorate and purify water.

Most people who stop themselves from expressing their negative emotions do so

because they are afraid of them, or they feel guilty about them.

This feeling of fear or guilt attracts into manifestation exactly what they do not want.

Lo, what I fear has come upon me.

Whenever a Child of Light faces fear or guilt of negative strong emotions and allows tears to fall, we are there to help and protect.

Emotional flowing is an alchemical transmutation process at work.

There are many angels and higher beings who facilitate this process.

**There is nothing to fear but fear itself.
During the latter stages of the flowing of wounded emotions, typically,
powerful insights arise.**

**These insights heal the negative thoughts, beliefs and ideas about life,
that accompanied the original creation of the negative emotions
in an earlier emotionally traumatic event or situation.**

**When emotions are positive, the insights reveal ever more beautiful
and profound thoughts, beliefs, and ideas.
We help each Son and Daughter of Light to face fears, guilt and
other negative ,
and allow fearful and shameful emotions to safely flow and heal,
with unconditional all-encompassing love.**

**Remember that by going back into the memory of earlier emotional
wounding,
seeing that anger, fear, hopelessness, etc. were natural and normal
emotions for yourself**

**as a young child faced with overwhelming situations,
the adult self validates, comforts, and heals the wounded inner child
self.**

By loving the wounded inner child within unconditionally,

***and validating his or her negative emotions,
the inner child self heals and transforms.***

**Then, as emotions change and heal,
they transform**

**and become flowing emotions of power,
enlightenment,
spiritual growth,
happiness,
and mastery of cause and effect.**

In this way Heaven manifests fully upon Earth.
Positive emotions flow and greater joy and enthusiasm are attracted.

A cycle of positive emotional creation ensues.

Now the skills are in place to allow emotions to flow as a way of life,
and they become like the natural pure healing waters of the earth and
sea,

in sync with rhythmic cycles that nourish life.

As emotions flow naturally like the flow of natural waters and of the
sea,

it is easy to establish sympathetic resonance with the waters and with
the sea,

and the beings of the waters and the sea, the Undines.

Ancient people on the spiritual path,
by using sea salt,

discovered that clairvoyant contacts with the Undines and their
healing powers are easily made.

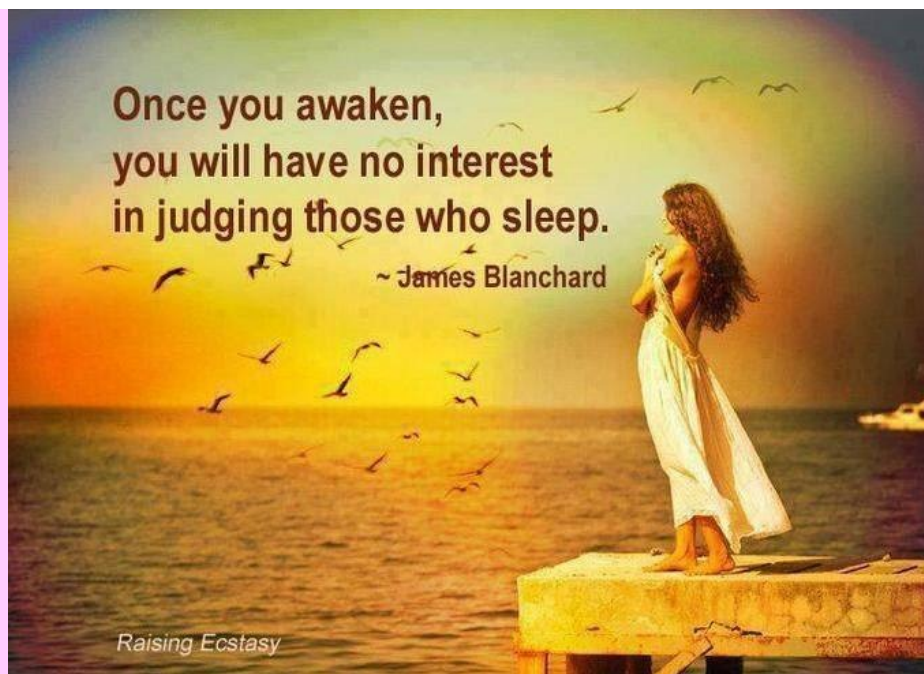

By charging all living waters and emotions with Love and other divine
virtues,

we are prepared to communicate with others in the next constellation,
the Constellation of Gemini, which is *Divine Wisdom flowing
through Thought and Mind.*

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

**The being and the angels share the same name.
This name is a key to their powers and influence.**

*** Names, phrases, or sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.**

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

**and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany**

These books have very important information for these studies.

**The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician",**

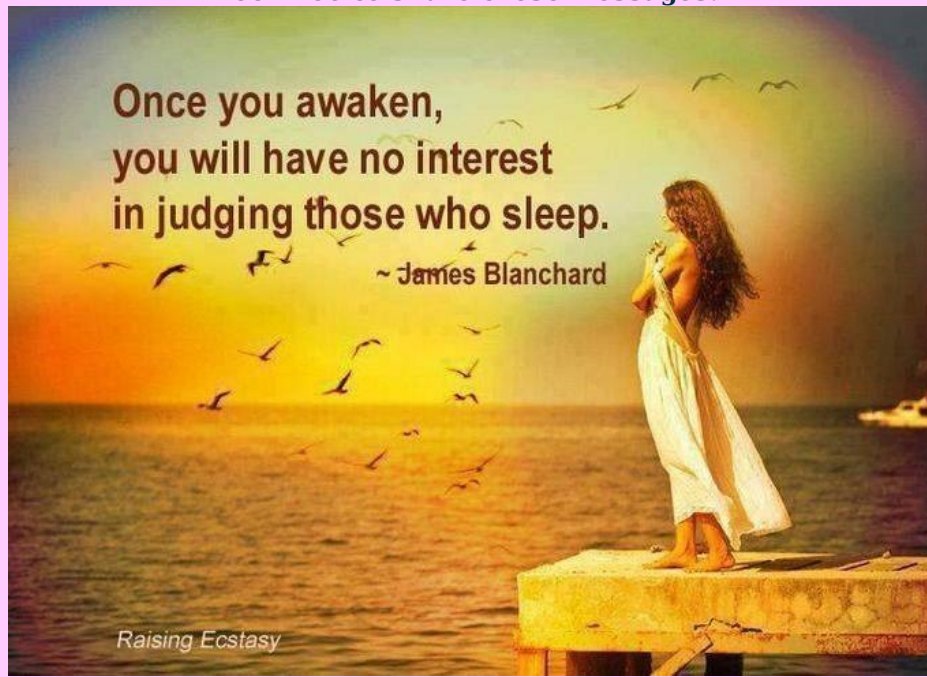

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

To understand Universal Consciousness, and immortality,
it is very helpful to read the first three volumes of *The Life and Teachings of the Masters of The Far East*
by Baird Spalding
The first three volumes are field notes taken on a scientific expedition to Nepal in the late 1800's.

**The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen,

I give thanks that this is done.
SO BE IT

So it is.
