

1 degree Gemini

The Angels of Mind

and

Electricity

Also known as
The Angels

of

Proxones

Beloved,

**The constellation of Gemini emits initiations of
Wisdom
through mental processes.**

***The 30 degrees of Gemini open a step by
step journey
into mastery of wisdom in thought and
ideas.***

***By seeing both sides of every issue,
a person observes the power of love and
divine will merging,
thereby giving birth to infinite variations
of new realities.***

**In this first degree of Gemini,
we help the Children of Divine Being
master divine desire
to obtain wisdom through the mind.**

Will and thought are both electrical in nature.

Thoughts emit information codes that then turn

into magnetism,
expressing through emotion and form.

**Spirit is electric and masculine,
it is both will and thought,
so Gemini is a function of the will for spiritual
wisdom.**

**The soul is magnetic or feminine,
and is emotional and physical,
so as it receives information from spirit and mind,
*new realities come in to physical expression.***

**Just as only women can conceive and gestate new
life,
only emotions and sensations determine new
physical realities
out of the infinite possibilities of the quantum
field.**

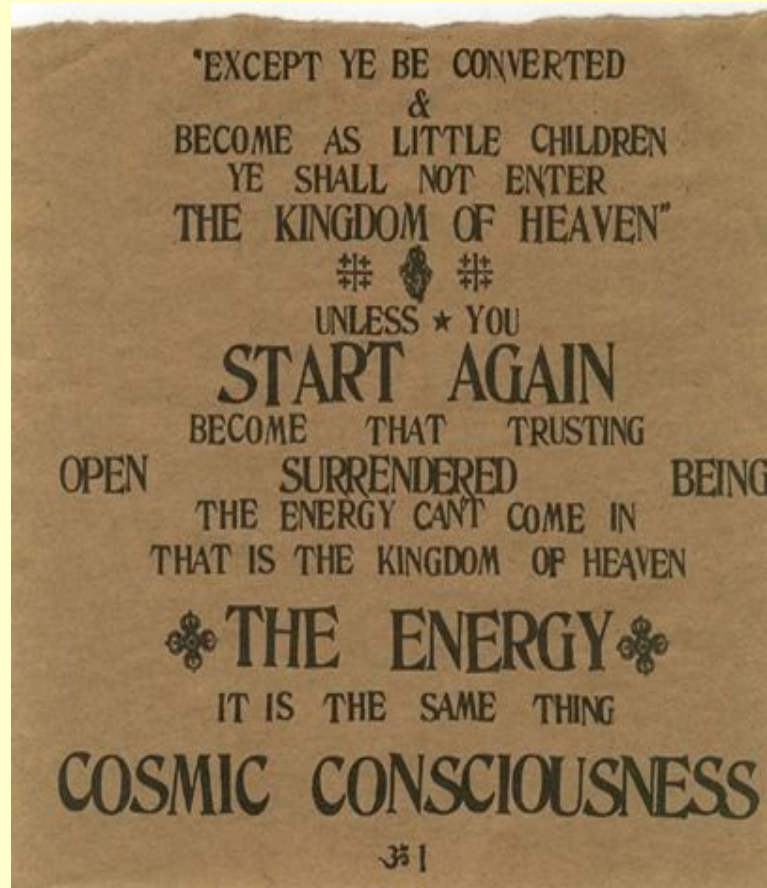

**As the souls of all people are influenced by
thoughts of wisdom
generated by the constellation of Gemini,
important lessons are realized,
both sides of issues are comprehended,
and wise corrections are made in the tangible
feelings of their emotional natures,
so that heaven continually manifests on earth.**

**Mental processes begin in the deep Theta
brainwave of deep inner thought.**

This brainwave is dominant in children.

**Therefore, the constellation of Gemini awakens
childlike wonder,**

curiosity, openness and imagination.

**So, in Gemini, the mind attunes to divine wisdom,
to see both sides of every issue,
to make whatever changes are necessary to
manifest Heaven on Earth.**

**In this first degree of Gemini, we are the
guardians of all electrical inventions,
therefore we**

also teach how electricity manifests through the subtle realms,

especially those realms of the astral plane, of emotions, and then into form.

We are regarded as masters of electricity, and special guardians of inventions that have to do with electricity, and we keep them in the right equilibrium.

To help understand this, let us look at how energy flows through the natural original circuit board known as the solar system.

Three divine rays manifest through the twelve constellations.

These rays are Rays of
Love,
Wisdom, and Will.

They correspond to the three outer planets of Pluto, Neptune and Uranus,

which are step down transformers.

Pluto is the step down transformer of Divine Love flowing from the electro-magnetic Atman or SPIRIT-SOUL IMPRINT BOARD, represented in the physical world by the flow between the Sun/Moon.

Neptune is the step down transformer of divine wisdom.

Uranus is the step down transformer of divine Will.

These rays can be described as vibrational frequencies of Divine Unfolding Light

governed from the Cosmic Heart of Mother/Father God that enables the spirit and soul within each person to act in harmony.

On the physical plane, the Sun/Moon soul circuit board is a step down transformer

from the central sun of our galaxy, which is in turn a step down transformer from the Great Central Sun of our Universe.

These three rays of Love, Wisdom and Will bring with them particular qualities, colors, and sonic vibrations that are integrated within our various energy bodies, and allow us to be conscious of ourselves as magical Beings of Light.

They further assist in the activation of dormant DNA, and the awakening to our multidimensional memories.

As such, the influence of the rays can take us into a deeper understanding of our Light work, as well as giving insight into particular behavioral patterns we may still be integrating.

Ray 1 - The Ray of Divine Will and Purpose ... the objective of this Ray to supply power, faith, enthusiasm and direction to evolutionary movement

Ray 2 - The Ray of Love ... the ray of inclusiveness that relates all things to each other in harmony.

It operates from the unity that is the ground of all outer events and manifestations .

Ray 3-The Ray of Wisdom...reveals the original divine blueprints of perfection in Divine Mind of everything in Creation

Because the constellation of Gemini is on the ray of Wisdom,

it therefore receives energy from Neptune.

Each ray informs four constellations;

**the constellation of fire,
air,
water, and
earth.**

Uranus flows through Leo, Aquarius, Cancer, and Capricorn.

Pluto flows through Aries, Libra, Scorpio and Taurus.

*Neptune flows through Sagittarius, Gemini, Pisces,
and Virgo.*

These four levels or constellations are also known as
will, mind, emotions, and sensations

that correlate to Delta, Theta, Alpha and Beta brainwave
patterns,
or fire, air, water, and earth

Therefore Gemini is the air, or mind, sign under The Ray
of Divine Wisdom.

*Now that we are in the sign of Gemini, we are in
the influence of the wisdom of mind,
or Theta brainwaves, which are deep inner
thoughts.*

Theta brainwaves are dominant in childhood, which is why it is written:

**Ye must be as little children to enter the kingdom of
Heaven.**

Will, as it manifests through the wisdom of the mind,

includes the understanding of ideas about electricity,
since Will is electricity.

Therefore:

*We are regarded as masters of electricity, and special
guardians of inventions
that have to do with electricity,
and we keep them in the right equilibrium.*

As stated above, we are guardians of all electrical
inventions, therefore we
*also teach how electricity manifests through the realm of
emotions and into form.*

To explain electricity further, as you know, there are two
basic polarities.

They are masculine-electric and feminine-magnetic.

Masculine energy is electricity, fire and will.

Feminine energy is magnetism, water, emotions, and the
change process.

In computers, polarity is expressed as 1 for masculine and 0 for feminine.

Electrons flow through computers according to combinations of 1 and 0.

As above, so below.

Whether in physical electrical inventions, or in the performance of miracles,

the understanding and mastery of the polarity of electricity and magnetism is essential.

For the sons and daughters of Divine Being to manifest miracles,

both will and it's corresponding effects on the realm of emotions are understood and mastered. Remember, each polarity has its own laws and brainwave patterns.

Will, or electrical energy, is accessed in the Delta brainwave pattern,

which corresponds to Pure Being and unity with Divine Being and all creation, a state of consciousness which is pre-thought.

In deep, dreamless sleep, or in deep meditation, Delta brainwaves are emitted.

This is a very slow electrical oscillation, usually from 0 to approximately 4 oscillations per second.

Even though this brainwave is the most slow, it is also the most powerful

. It is the brainwave of desire.

When Masculine Will expresses itself in mind the Theta brainwave pattern is entered.

This brainwave pattern corresponds to deep inward thought. Pictures of what is desired are created.

The universe communicates through pictures.

Pictures guide the flow of electro-magnetic energy to materialize a specific desire in emotion and then in form.

Theta brainwaves vibrate faster, usually about 4 to 6 or 7 oscillations per second.

Both of these brainwave patterns, Delta and Theta,

are deep within the inner awareness and are precursors to connection with the outward world.

When energy switches polarity and becomes magnetic, or Feminine,

it becomes involved with the change process of the outward world

because pure magnetic Feminine energy expresses itself

as flowing emotions
of whatever has been contemplated in Theta and Delta.

Emotions are compressed information. Emotions concerning a desire and its visualized picture carry the vibrational frequency for its manifestation in the physical world of the five senses, memory and logic.

Feelings ATTRACT whatever is necessary for physical manifestation to occur.

in Alpha brainwave patterns, flowing emotions go out and gather to themselves

more of like vibrations, attracting new realities that manifest in the physical world.

Alpha brainwaves vibrate even faster, usually about 6 or 7 to 12 or 14 oscillations per second.

When Feminine emotional energy attracts changes in the physical world, the Beta brainwave pattern is entered.

This brainwave pattern expresses the five senses, memory, language, and logic.

This brainwave pattern oscillates from about 12 or 14 oscillations on up.

Remember always that the Laws of Electricity follow INTENT AND WILL,
whereas

the Laws of Magnetism follow FLOWING EMOTIONS and sensations.

The mastery of aligning pure being/visualization/will and Flowing Emotions with divine virtues are necessary on the path of Mental Wisdom to master life and bring Heaven to Earth.

We help the seeker generate strong electrical currents through deep spiritual desire and faith for Divine Wisdom and Perfection that is aligned with the will of the unified field of One Being.

MIRACLES

P-R-O-X-O-N-E-S

POur longing for spiritual perfection makes us devoted and humble servants.

RWe are mentally clear, unimpeachable, impeccable, and steadfast in devotion to higher truth.

umlaut O, eu, and OWe open the eyes with Love Divine to perceive indwelling divine perfection. Our acute discernment and absolute sense of justice is balanced by

Xrefined intuition and awesome empowerment to be able to manifest any idea by wishing it so.

umlaut O, eu, and OWe transmute any thing or condition or situation and control electromagnetic fluids on the material level with infallibility, and the peace of absolute security.

NWe have the uncanny ability to solve problems, particularly to understand gait, movement, flow and physical laws of coherence.

EOur knowledge helps to materialize ideas into practical applications,

Sforesee the future, and perfectly control human consciousness ultimately to realize Heaven on Earth.

Note: IF YOU ARE FEELING FINE, ENJOY THE GOOD FEELINGS AND LET THEM FLOW and become even more beautiful.

Emotional healing work only needs to be done when painful feelings spontaneously come up.

*imagine you know when someone wants to see you... or is thinking about you

Telepathy

can become your new cellular phone

*It is important to remember that most material technology today
is just a sad attempt to copy the spiritual technology
we all have within us as divine human beings of the universe*

Footnotes:

The names and meaning of angel groups come from Quaballah,

which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

and the angels who work with him or her.

The being and the angels share the same name.

This name is a key to their powers and influence.

*** Names, phrases, or sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.**

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

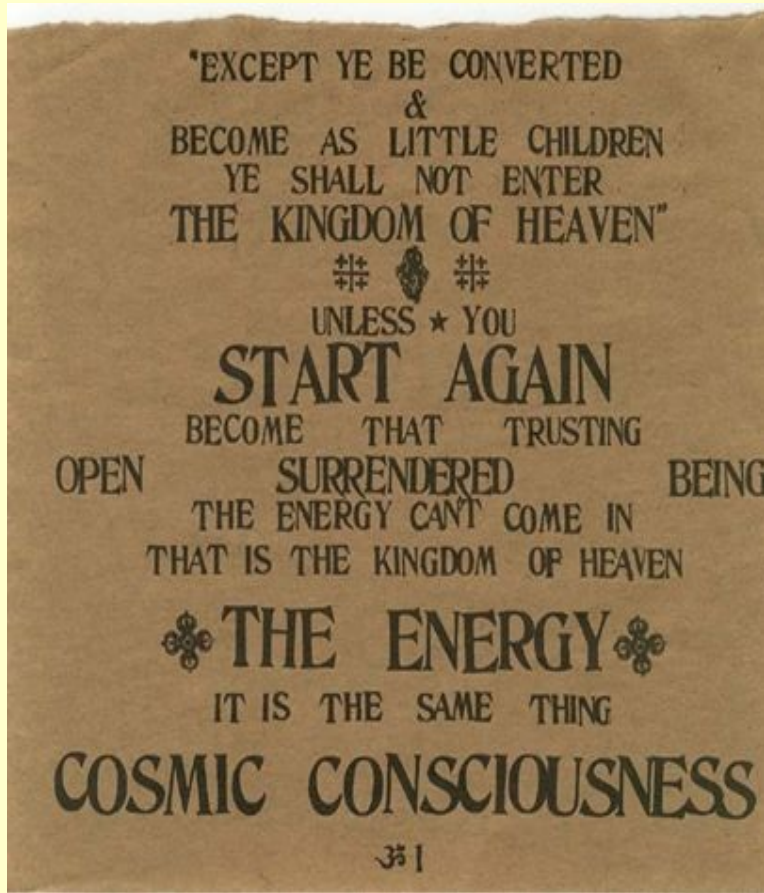

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany

. These books have very important information for these studies.

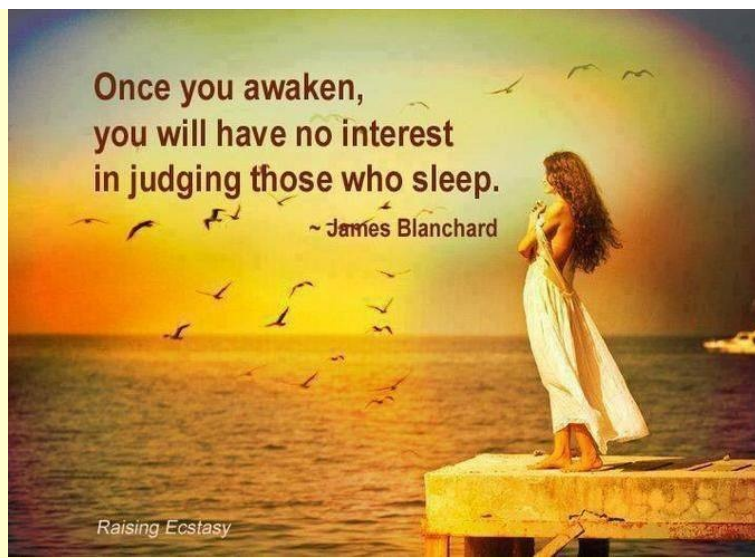

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

**The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED
happen.

I give thanks that this is done.
SO BE IT

So it is.
