2 degrees Gemini

**The Angels
of
Technical Inventions**

Also known as

**The Angels
of
Yparcha**

Beloved,

Our gift from Divine Providence is the alignment of willpower, desire, and INTENT with the longing for spiritual perfection, unity with divine light, and beauty, so that in the cycles and rhythms of life, beautiful inventions bless all.

For this reason, after basic electricity is mastered through 1 degree Gemini, we inspire many technical inventions across a broad spectrum for the highest good of all.

As the children of divine being become harmless to self and others, technical inventions of such wonder and marvel as can hardly be imagined will be revealed.

Life must be lived in ease, security, plenty and love for all four brainwaves to work in harmony.

These four brainwaves can be seen as the four living creatures

**before the throne of God
mentioned in holy writings.**

**For these powers, or elements [fire, air, water, and earth] which are
controlled
by the four different brainwave patterns of Delta, Theta, Alpha and Beta,
to function according to divine law, which is the highest good of all,
relaxation and ease must be maintained,
because Theta brainwaves require going inward,
in deep meditation, and attuning to original divine mind.**

Gemini is an air, or theta constellation.

There are three air constellations, Aquarius, Gemini, and Libra.

**Libra is mind through love, under the transformative energy of Pluto.
Aquarius is mind through will, under the transmutative energy of
Uranus.**

**Gemini is mind through the marriage of love and will,
under the integrative energy of Neptune.
which includes both transformation and transmutation,
maintaining individuality and unity with omnipresent, omnipotent, and
omniscient Divine Being at the same time.**

**Therefore, mind in Gemini sees both sides of every issue or situation,
and incorporates intent for the highest good for both sides.**

**Technical inventions, therefore, would bless everyone involved,
including nature.**

All four elements would be considered and blessed equally.

**The physical plane, the realm of emotions, the worlds of thought, and
the nature of desires or intentions.**

Intent, will, and desire is the electrical fluid of alchemy.

**When the mind is focused on desires, intentions, and will for the
highest good of all,
amazing guidance is received
in perfect clarity and purity.**

**We help seekers of divine beauty purify the desire nature,
so that only the highest good of all is desired and visualized.**

In this way, brilliant ideas spring forth to bless all.

**Electro-magnetic energy manifests anything from the quantum field,
including art to new technical inventions to actual miracles.
Our special province is inspiration of the creation of technical
inventions,
that manifest loving realities on Earth to out picture the
highest good of all concerned.**

**We help spiritually mature seekers understand the subtle energies that
are precursors of manifestation.**

**These are the three aspects or frequencies of Divine Being, which are
love, wisdom, and power,
wisdom is the combination
of Loving emotions and realities, which is Female and magnetic, with
WillPower and mind, which is male and electric.**

Therefore, Wisdom is the middle path, it is the perfection of the

electromagnetic fluid.

In other words, there are two kinds of energy.

There is electrical energy and there is magnetic energy.

Electrical is flowing creative will or desire that creates thoughts and is male.

Magnetic is receptive flowing emotions and sensations and is female.

The two nervous systems called sympathetic and parasympathetic correspond to the magnetic and the electric flows.

The central nervous system, or shushuma nadi, is the central column of the scalar wave caused by these two energies flowing both counterclockwise- emotional-magnetic, clockwise-intent-electric.

Based on their flowing nature, the ancients refer to Will as the electrical fluid and Emotion as the magnetic fluid.

These are the plus and the minus, the 1 and 0 of computer language.

These two energies together, the electric and the magnetic, are known as the electromagnetic fluid.

Remember that omniscience, or all knowing, is also omnipresent, which is everywhere present.

Humans create physical children when male and female energies come together, they also create with beings of fire, air, water, and earth when will and love come together.

LOVE IS A FREQUENCY OF HARMONY THAT BRINGS divine HAPPINESS AND PLEASURE.

When creating electrical fluid or intent that is in harmony with Omnipresent Divine Will, an actual being is created that is intelligent, a being of the fire element.

To create "beings" of fire that are the highest good of all concerned, remember that the most basic principle to understand is that electricity is another name for INTENT OR WILL THAT CONSTANTLY FLOWS.

Therefore, the electrical fluid is focused on an intent that brings harmony and happiness.

This flow of willpower is a child of Divine Wisdom, of Divine Love conjoined with Divine Will.

Love, like everything else, expresses two polarities on one continuum, these polarities are love of the self and love of the other.

Divine Love is the perfect harmony or balance of these two polarities, the middle path.

Since magnetism is another name for EMOTIONS THAT CONSTANTLY FLOW,

DIVINE WISDOM requires purity of INTENT to create beautiful emotional flowing.

**This means that we help seekers of divine beauty purify the desire nature,
so that only the highest good of all is desired and visualized.**

Remember that visual images in the imagination are the language of the mind.

**Theta brainwaves create inner worlds of the imagination,
and determine which chemicals are secreted by the pineal gland.**

**The pineal gland is the 'third eye' and has over 20,000 psychoactive chemicals
that are over a thousand times stronger than any other drugs in the outer world,
natural or synthetic.**

**Therefore, it is in the theta brainwave, which is dominant in children and in deep meditation,
that new realities are created.**

"Ye must be as little children to enter the kingdom of heaven."

Relaxation is required for deep Theta visualization.

**When disharmony causes stress, the children of light may move into fear, which inhibits relaxation and access to Theta brainwaves.
In this case, attention is often focused on the already created outer worlds, and emotions of victimhood and neediness arise and flow.**

**The Electro-magnetic flowing frequencies of fear and neediness combined
with desires for survival may in this case attract chaos in the quantum**

field.
In this case, often unwanted realities of what is feared are attracted
into manifestation.

"Lo, what I fear has come upon me."

Remember that the relaxed and inner imagination of Theta brainwaves
is
where beautiful realities are desired and created,
which in turn cause beautiful emotions to flow.

"As a man believeth in his heart, so is he."

These in turn attract beautiful realities on the physical earth plane.

In states of disharmony, the reptilian brain stem of survival is
activated, the body goes on full alert,
and the limbic and emotional part of the brain system, vibrating at a low
frequency,
attract more of the unwanted unhappy realities on the physical plane.

Therefore we initiate the sons and daughters of Divine being with
the ability to relax,
to imagine what is deeply wanted from the divine heart within,
and direct focus on what is desired in the heart of love.

Love accesses each situation and instinctively visualizes harmony and
satisfaction,
which are antidotes of fear,
love imagines what will attract heaven on earth,
for self and others, creating situations of relaxation and ease in all
areas of awareness with infinite faith.

Research shows that the subconscious mind does not
distinguish between an imagined happening
and an actual happening.

It will experience both as 'equally real, equally fact'.

It is the subconscious mind that 'runs' the universe.

By meditating in a relaxed state, and focusing on desires for beauty and
"heaven on earth",
visualizations are created in the superconsciousness and received in the
conscious mind
that the subconscious mind accepts as 'real'.

The superconscious mind creates through divine consciousness.

"I and the Father are ONE."

Gemini focuses the mind on both the outer realities and the inner
reality of being one with all.

It sees the temporal and the eternal,
the one and the many,
the self and other,
at the same time.

"What you do to the least of these you do unto me."

**The superconscious mind and the subconscious mind both process
about 400
billion bits of information a second.
The conscious mind processes about 4 to 40 bits of information a
second.**

**By using the conscious mind to direct both the super and subconscious
minds in deep meditations of
beauty and harmony, great power is unleashed for the highest good of
all.**

**Once beautiful visualizations are made with strong desire,
which is the electrical fluid, flowing emotions of love, harmony, and
pleasure are created.**

This is the true divine magnetic fluid.

**Once loving emotions of a desired visualization flow,
the new reality is magnetically attracted into physical reality out of
infinite potential in the quantum field.
This is true of anything, including technical inventions.**

Remember, an electrical flow needs to be grounded.

**This is true in technical inventions and in alchemy,
it is common to physics and astrophysics and metaphysics.
When flowing Emotional Energy is full spectrum, which unconditional,
all-encompassing Divine Love is,
then flowing DIVINE INTENT FOR THE HIGHEST GOOD OF ALL or
electricity flows all the way into the ground,
or into physical manifestation, with least resistance.**

**In other words, unconditional, all-encompassing love is the best
conductor of divine will into form.**

**It is wise to combine any other emotions of any other divine virtues
with flowing divine love for this reason.**

**As the greatest technology of all is understood, the quantum field
itself, and the truth of the human being is utilized, then miracles
happen.**

"Ye are made in the image and likeness of God."

**Flowing pure, holy intent or will of a divine virtue [inspired by the
intelligence of the quantum field
of omniscience, omnipresence, and omnipotence known as Divine
Being]
become imagined visual images which then become flowing Divine
Emotions.**

**These emotions are magnetic and are compressed information
containing
everything needed to attract whatever is needed
from the quantum field to miraculously out picture previously
visualized divine desires.**

**Combine this with unconditional, all encompassing love and generate a
lightning bolt of energy activated out of Omnipresence,
the Unified Field, to manifest new physical, emotional, mental or
spiritual realities within self and others.**

These new forms correspond exactly to the vibrations of the original intent, visual images and emotions.

The highest power of resonance of the Unified Field is accessed from the slowest state of Pure Being in the Delta brainwave state.

It flashes down like lightning through relaxed mind [Theta brainwaves] and then becomes emotions [Alpha brainwaves] which attract changes to physical form [Betabrainwaves].

In the human body a divine electrical flowing pulse of will generated in the cranium activates pineal, pituitary, and other glands.

Then the heart is activated with divine emotions , especially divine love, creating a field 5000 times stronger than the field produced by cranium alone.

The human body temple then becomes the greatest divine and original natural technical invention, and manifests genius and miracle working.

Electro-magnetic energy manifests anything from the quantum field, from poems to new technical inventions to actual miracles.

YUsing our profound cosmic intuition and inspiration, we impart an excellent aptitude for prophecy,

***P**as a response to the longing for spiritual perfection .In devoted service, this longing for spiritual perfection helps birth new inventions.**

A and umlaut A, aeWe control mental programming, as well as beings of the air and mental realm, and transform negativity through release for change into other states that are the highest good of all concerned. This creates change in physical matter.

RWe foster mind expansion to easily grasp and articulate any knowledge.

We give the wherewithal to apply this knowledge into practical expression.

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name.

This name is a key to their powers and influence.

Names, phrases, or sections, in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all;

**I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.
I give thanks that this is done.
SO BE IT.**

“Even the
smallest act of
generosity is a
difference
being made.”
