Beloved,

Creative Visual Art is the fourth step of mental wisdom.

**Once the importance of purity and perfection of Divine Intent
is acquired from the first three degrees of Gemini,
for science and metaphysics,
we inspire pursuits of spiritual perfection through painting.**

**Energy is received through food, touch, sound and smell as well as
through light entering the optic nerve of the eye.**

**The optic nerve is the only exposed nerve in the body; it is a master
nerve directly connecting the two eyes with the pineal, the pituitary, and
the hypothalamus.**

**The pineal gland is called the third eye, because it is governed by visual
images from both
the outer world as well as from visually imagined images in meditation.**

**This gland secretes over 20,000 psychoactive consciousness changing
chemicals
that are a thousand times stronger than psychoactive chemicals from
natural or synthetic sources.**

**Therefore, it is important, on the path of mental wisdom and the
pursuit of spiritual perfection,
to stimulate this master nerve and glands,
according to the original purity of ideas in divine mind,
and through the beauty of nature, art, symbols, sacred geometry and
colors.**

**The brain itself, the mind, communicates through visual images, not
words.**

**For example, the word for horse in Spanish is different from the word
for horse in English or French etc.
However, a visualized image of a horse in the imagination, or a picture
in the outer world,
is understood by all beings alike.**

**In addition to this, the subconscious mind, which processes 400 billion
bits of information a second,
in contrast to the conscious mind which processes 4 to 40 bits of
information a second,
does not distinguish the difference between an actual picture of a horse
seen on the outer,
or an imagined image of a horse on the inner imagination.**

**The subconscious mind treats both images, real and imagined, as
equally real and true.**

**That is why it is so important to IMAGINE WHAT YOU REALLY WANT in
meditation,
and to surround yourself with outer images of what you really want,
in order to stimulate the chemicals in your body that correspond
to states of reality that you wish to experience,
to attract the realities of the beauty and enlightenment you seek.**

**The visual interplay between a painting surface and emotional
and thought processing in the cranium stimulates and nourishes the
governing glands of the body.**

This is the way to program the third eye to create psychoactive chemicals that are in the frequency of enlightenment, and is why the creation of visual art is a path to express spiritual perfection.

In this way, divine gifts of clairvoyance, eloquence, artistic talent, and mental perception, that are natural at birth, grow and develop in an atmosphere of visual creativity in the pursuit for spiritual perfection.

The mystic gift of clairvoyance is discovered naturally as a person meditates on the original purity of all ideas in Divine Mind in the act of creation on a visual field.

This is the basis of Yantra Yoga, bliss of union through optical stimulation.

"All that I do, ye shall do and more."

"As above, so below."

The longing for spiritual perfection is the longing for life itself, for life in physical form depends on accurately reflecting the perfection of Heaven on Earth.

Divine Providence creates paths to enlightenment and unity with Divine Light through languages of color and form.

Creating visual images in a state of meditation on spiritual perfection leads to creativity of mind, to growth in illumination, and to the creation of great beauty in form.

Creative Visual Art is the fourth step of mental wisdom.

In the pursuit spiritual perfection through visual art, enlightenment and laws of creativity and cause and effect become understood and embraced.

The mysteries of love to create new beautiful realities are embraced.

This opens up great knowledge about creation itself.

With this the most heavenly and beautiful paintings and visual art forms are brought forth into the world.

By meditating on the original purity of all ideas in divine mind, creativity with beautiful symbolism and color greatly enhances mental wisdom on nonverbal levels.

The pursuit of spiritual perfection through painting is actually a process of learning an original cosmic language of symbol and image that unite left and right hemispheres of the brain.

The ancient language of symbols and images transcends limitations of spoken or written words. A painting or visual form of light and beauty speaks to people of all languages.

Our specialty is illuminating the psyche through visual beauty and harmony, especially through mandalic art.

A mandala is sacred geometry that is often found in nature, such as in flowers and snowflakes.

It is a circle with equal points or parts or petals.

Mandalic art uses ancient symbols to express original divine ideas.

The center of a mandala represents Divine Being, and the radiating symbols that surround the center represent various divine attributes and levels of manifestation.

Flowers are natural mandalas, as are snowflakes and many other natural forms, that are created by elementals expressing divine attributes through form.

For those in embodiment, nourishment is taken on many levels.

Each of the five senses takes in energy.

Remember, as we said above, that the master gland of the human body is stimulated by light and images entering the optic nerve of the eye.

The optic nerve is the only exposed nerve in the body; it is a master nerve directly connecting the pineal, the pituitary, and the hypothalamus.

Therefore, it is important, on the path of mental wisdom and the pursuit of spiritual perfection, to stimulate this nerve and these glands according to the original purity of ideas in divine mind through the beauty of nature, divine symbols, sacred geometry and colors.

In this way chemicals that are in the frequency of enlightenment are produced as visual art is used in the journey to express spiritual perfection.

MIRACLES

P-A-D-I-D-I

PLonging for spiritual realization, we manifest as love of making new creations

A and unlaut A, aethrough the use of artistic talents to heal the mind, and the transformation of imperfection.

DWe birth new creations, like fertilizing the seed, and reveal the mysteries of creativity.

IWe control all activities of physical expression according to the Laws of Karma in order to bring beautiful new creations to life,

Dand uplift the love of creativity into divine nostalgia. Divine nostalgia is the longing for the beloved state of divine union with wholeness.

IOur goal is to unite body and soul through artistic works, and to evoke in the artist remembrance of the pristine pure state of the soul.

[Remember that impulses flow both ways, creating a caduceus wave.

**Not only does the cranial sphere feed itself through the pupil of the
eye,
it also gives forth energy to nourish others through the whites of the
eyes.**

The eyes, as exposed nerve endings, both take in energy and emit it.

This is the basis of darshan, which is the gaze of the master.

**It is said that one receives the seed of enlightenment in the
subconscious from one look from an enlightened person.**

A most awe-inspiring time of celestial and earthly change is upon us.

As amazing events occur, one of the most important keys is to relax.

"Ye must be born again."

**Remember that giving birth is best done in a relaxed and safe
psychological space to minimize discomfort and complications.**

**So it is most important to dig deep and unearth spiritual and emotional
processes we have mastered in our many lifetimes and use them so that
we
can relax, feel safe,
and actually enjoy the birthing of new realities both within
ourselves and in the outer worlds.**

Remember to BREATHE.

**Stay in gratitude for the wisdom gained through all of our experiences,
both difficult and pleasurable.**

**Gratitude is a magical elixer, transforming even the most fearful
appearances, and creating a field of non-resistance so that visualized
images of
divine beauty, love and perfection can transmute anything.**

**Be sure to give thanks for all things, for all things work for good to
those who trust and visualize
love conquering all, bringing about beautiful situations.**

**"....for I have not given you the spirit of fear, but of joy....and life
everlasting."**

**Remember that water transforms through high frequencies of love.
It is a living intelligent medium.
Our bodies are made of over 70% water. The earth is 80%.**

Footnotes:

**The names and meaning of angel groups come from Quaballah, which is
a
very ancient set of teachings which together form a common precursor,
or
root, of three of the world's religions:
Judaism, Islam, and Christianity.**

**Each degree of the zodiac is ruled by a high being of the heavenly host
in the zone girdling the earth, and the angels who work with him or her.
The being and the angels share the same name. This name is a key to
their powers and influence.**

*** Names, phrases, or sections, in the angel messages are quoted or
paraphrased from the books of Franz Bardon.**

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Unconditional Love is a dynamic and powerful energy that lifts us through the most difficult times. It is available at any moment by turning our attention to it and using its wonderful potential to free us from our limitations. It requires practice and intent to allow this energy to fully permeate our daily experience. It begins with ourselves, for without self-love, we cannot know what true love can be. In loving ourselves, we allow the feeling to generate within us and then we can share it to everyone and everything around us! That which we send out, returns to us in greater measure.

Feel free to share these messages.

**The Law of One is the original law of Creation, and is the supreme Law
over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.

I give thanks that this is done.

SO BE IT
