5 degrees Gemini

## *The Angels of New Life*

Also known as

The Angels

of

*Peralit*

Beloved,

**Here, in the fifth degree of Gemini, the use of divinely inspired INTENT, that is in alignment with the highest good of all, is used to combine with other divine virtues, to govern the wise creation of life itself.**

**On the path of divine wisdom, which is the combination of will and love, people learn the profound effect that consciousness has on the act of procreation.**

**Because the physical, emotional, mental, and spiritual energies of the mother and father at conception program the fertilized egg, we help the sons and daughters of divine being prepare themselves for the procreation of new life in ways that insure births of very high souls.**

**We guide the knowledge of when to procreate  
and how to infuse the growing child with divine virtues.**

***Keep your eye single,  
and the body shall be full of light.***

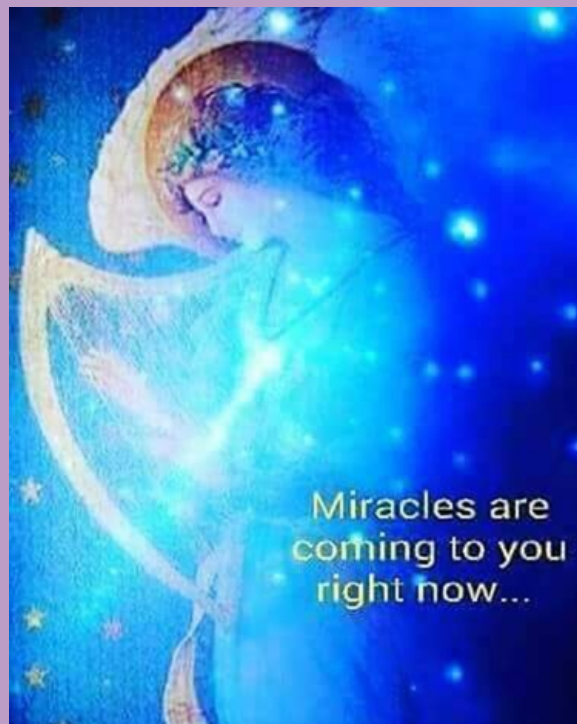

**The pineal gland in the center of the brain is known as the third eye.**

**It is constructed in a similar way to the other two eyes,  
but contains over 20,000 consciousness changing  
psychoactive chemicals that program all the glands of the body  
to perceive reality according to whatever is imagined visually in  
meditation.**

**This is why it was written:**

**"As a man believeth in his heart, so is he."**

**We inspire the mother and father with visual images of a radiant child,  
of a happy home, of sacredness and beauty on all levels of being,  
the physical, emotional, mental, and spiritual.**

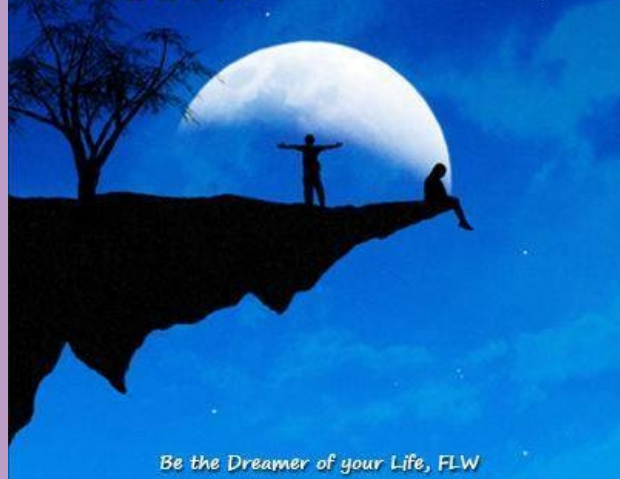

**Remember that the third eye is activated in meditation, through visual  
images  
created in the imagination.**

**When an image is created in meditation,  
it forms a hologram  
that the pineal gland "sees"  
so that it secretes appropriate psychoactive chemicals  
into the blood to activate  
alchemical awareness  
that causes manifestation of this image into embodiment.**

**By keeping the "eye" single on a desired outcome,  
the alchemical process is allowed time to mature.**

*The world needs individuals, capable of dreaming the impossible, attracting great ideas, and having the responsibility for believing and committing their lives to them.*

**By visualizing in meditation images of a perfect child, in addition to visual images of a perfect conception, pregnancy and life path, chemicals are secreted into the bloodstream from the pineal gland that cause changes in consciousness and physical functioning that attract these visual images into manifestation.**

**Remember that wisdom is an inner knowing that flows with DIVINE INTENT and love for perfection and unity with divine light.**

**The greatest gift that a person can give to self on the path of wisdom, or to their progeny, is single minded, pure, and devoted intention to imagination and love of The Highest Good of All Concerned.**

**All things go through rhythms and cycles, and by intending that all changes caused in these cycles adhere to the highest good of all, situations manifest out of the quantum field of infinite possibilities that outpicture the splendor and majesty of Divine Being.**

**These visual images of the highest good of all express spiritual perfection to manifest for all in the highest sense.**

***This WILL, intention, or burning desire, for the highest good of all, is an arrow of energy with a line attached to everything that will be affected, so that all are blessed.***

### **LOVE CONQUERS ALL.**

*The LOVE for the highest good makes a clear path through the air for the arrow to fly.*

*The arrow of will flies to its intended goal, and the attached line is a caduceus coil of energies that send and receive information.*

*This forms a pipeline of divine inspiration that leads to successful fulfillment of a desired goal on every level of reality.*

*It programs the quantum field to manifest the visualized and desired specific outcome.*

**In creating a child, the Mother and the Father focus on The Desire and LOVE for Spiritual Perfection and beauty on all levels for the child, which is virtue of the letter P of our name.**

**Spiritual Perfection and spiritual beauty is The Ground Frequency of the Universe.**

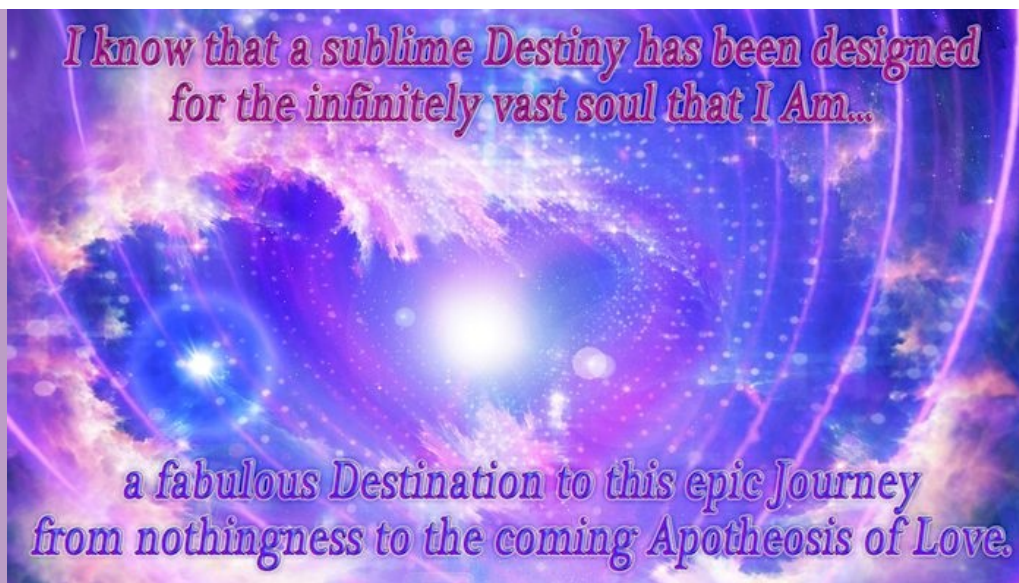

**Progeny coming out of this ground frequency manifest Spiritual Perfection in their physical incarnations in unique ways.**

**Therefore, we inspire through inner guidance in the Mother and the Father,\* an attunement to particular combinations of divine virtues that the incoming child is bringing to embody.**

**We guide them to choose a time for conception when these particular divine virtues are heightened in consciousness, and we help them hold these divine virtues in awareness all throughout conception, the pregnancy and beyond.**

**We inspire them to meditate, and KEEP THEIR EYE of inner imagination SINGLE, on visions of the original intent for The Highest Good of All Concerned.**

**In this process, much inspiration, information and instruction becomes available to them through enlightened mind, through the caduceus flow of energy back and forth between intent, love and the incoming child, who is attracted to them through their intent and love.**

**This is one of our stories.**

### **MIRACLE CHILD**

**Once upon a time a young married couple named Mabel and Fred  
wanted to  
have a very spiritual child.**

**In preparation they sold their very expensive town house and bought a  
lovely small home in a woods.**

**They invested their savings carefully to become financially stable, so  
that Fred and Mabel could both stay home to raise the child.**

**They were very attuned to World Service.**

**Free of the demands of the workplace,  
Fred could finally let his hair and beard grow,  
and soon he and Mabel understood why God had designed  
man in his image and likeness to grow hair.**

**Finally, the story in the bible about Samson and Delilah made sense!**

**His psychic sensitivity grew with his hair and beard,  
and soon as he began to feel Godlike, he looked Godlike!**

**All during this time, they thought about the child that they would have,  
they imagined her playing under the trees and continued to listen to  
their hearts.**

**They prayed for guidance and help.**

**They felt the presence of divine beings all around them, and blessings  
poured onto them.**

**They knew that their child would also be blessed, and also bring  
blessings to the world.**

**They were guided to spiritual teachings of great power.**

**They learned to attune ever more to the divine virtues.**

**Mabel furnished the home with beautiful paintings and sacred objects.**

**One night Fred had a dream.**

**He saw himself walking in a blighted area of the world amongst emotionally scared and suppressed people.**

**Tearful eyes of unhappy children looked up at him beseechingly.**

**In the dream his heart broke in anguish because he could find no way to help them.**

**He woke up trembling in a cold sweat.**

**In deep prayer and meditation Fred reaffirmed his ardent desires for the world to be a place of beauty and spiritual perfection.**

**Divine blessing poured forth upon him.**

**The next day he spoke to Mabel, Mabel, do you think our child will be a missionary, someone who will help others find inner peace and love, someone who can help to feed and house the poor?**

**Mabel had also had a vivid dream.**

**She replied, Fred, I think our child will be a master mind, someone who rises into a position of prominence and uses power and knowledge to accomplish exactly what you have just said.**

**It clicked.**

**They both felt deeply in their hearts that this is what their child would do.**

**Months passed as they listened carefully to inner guidance.**

**Mabel did not feel it was right to conceive the child yet.**

**They learned how to make love according to the ancient wisdom, seeing now that emotions are so important, because they attract specific realities out of the quantum field of infinite possibilities.**

**They learned that just as men embody divine will and thought which are electric, women embody divine emotion and form which are magnetic.**

**Deep emotional introspection and healing was high on their list of daily meditations, deep sharing with each other, combined with inner prayer, took up more and more of their time.**

**As Mabel attuned to the omnipresent qualities of the divine feminine that enlivens creation, Fred attuned to the omnipresent qualities of the divine masculine.**

**Their harmony on all levels grew and grew, so that Fred and Mabel's passion grew and grew, into deeper and deeper rapture and ecstasy and union together and with Divine Being.**

**They learned how to share sexual energy so that their shared ecstatic and clear states of meditation during lovemaking prevented any unintended conception by accident.**

**They were waiting for clear inner guidance within for the right time, place, and state of awareness**

for conception to occur.

On a cold clear morning in September, she woke up and looked at Fred.

It was time.

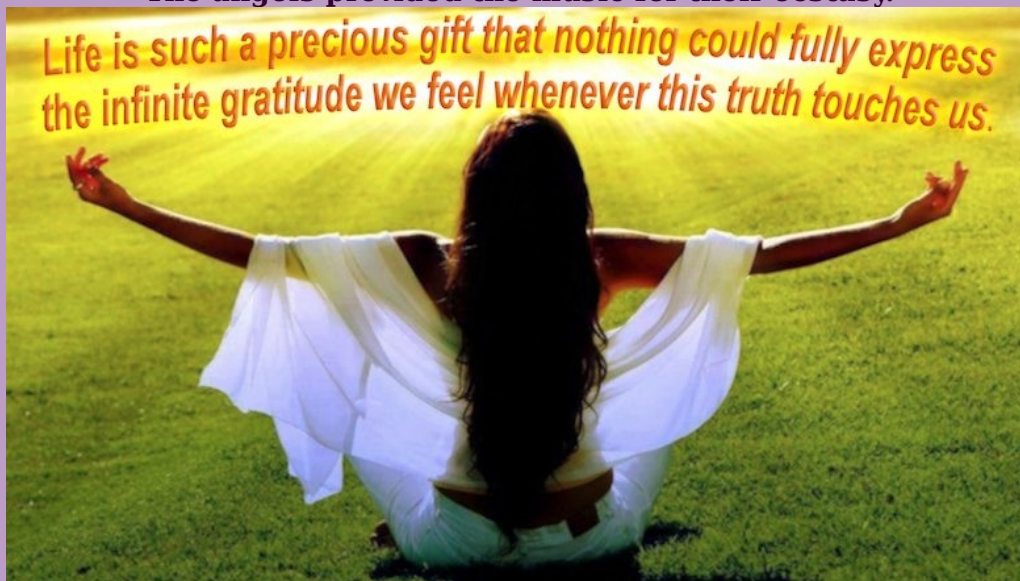

Divine Providence inspired this exact time for conception to take place.

The heavenly energies were perfect.

They made love.

In deep communion with Divine Being and all creation they generated  
intense omnipotent will for spiritual perfection  
and love for themselves  
and the incoming soul.

The angels provided the music for their ecstasy.

When Stephanie was born nine months later, her birth was natural and easy, she was calm and joyful.

She was surrounded by divine light and love.

Her parents focused desire for spiritual perfection in meditations on the divine virtues had created flowing divine emotions that had attracted a most perfect environment for her in every sense.

Pure food, high music, and other influences had been carefully selected through inner guidance as she developed in utero.\*

With the help of the heavenly hosts, Mabel and Fred kept their intents pure and strong.

They loved and nurtured Stephanie through a magical childhood,  
always  
following inner guidance.

>From the youngest age she lived in nature and showed compassion and sensitivity to all living things.

She nurtured and found delight in the creatures, plants, and people that surrounded her.

Her purity and love blossomed in adolescence and grew even stronger

**in adulthood.**

**She more than fulfilled their expectations.**

**Divine Providence provided her with opportunities that led her into a powerful position.**

**She was beautiful, both physically and emotionally, and eventually a wonderful man learned of her.**

**Anthony shared her deep love and concern for the earth and so, surrounded by angels of divine love, they surrendered to love.**

**Together they rose into authority over a network of rich philanthropic organizations.**

**Their deep love for each other and the beautiful peacefulness of their home became a living example of sacredness and happiness that inspired many of their peers to deepen their pursuits of spiritual perfection.**

**Their efforts and example resulted in greater happiness and well being of many many people.**

**With her uncanny sense of judgment and unfailing all encompassing love, Stephanie helped her husband guide small struggling communities all around the world into political and financial stability, instituting environmentally sound policies that rescued their rich indigenous lifestyles and cultures from extinction.**

**One night her father Fred had another dream that returned him to the blighted area of his dream of long ago.**

**He joyfully saw that the previous blight had been replaced by lush forests and girgling waters and chattering birds of great beauty.**

**He looked up and saw that Stephanie and Anthony were by his side, and they were laughing, as happy little children stopped playing to look up at them and smile.**

**Eyes twinkling, Fred waved at them and smiled back in joy.**

**He woke up weeping tears of this joy, praising God for the beauty and the wonder of life.**

**The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.**

**Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.**

**The being and the angels share the same name.**

**This name is a key to their powers and influence.**
