"The kingdom of heaven is within."

*As we find the kingdom of heaven within, we witness it
everywhere,
in everything.*

*We are, in deep meditation, taking advantage of this powerful time
to be masters of nature,
healing all past karma from the past,
both individual and collective,
thereby dancing awake our sacred dream,
our new cycle of heaven on earth.*

24 degrees Gemini

The Angels of Cause and Effect

Also known as

The Angels

of

Ygarimi

Beloved,

The Angels of the Constellation of Gemini guide each child of God through the thirty steps, or gateways, of mental wisdom.

Here in this 24th step, a son or daughter of God learns about the

**effects on the unified field,
or the principle of Akasha as it is known in ancient writings,
of every INTENT, thought, emotion, and action.**

**The principle of Akasha, is the principle of consciousness-penetrating-
all.**

**Many books and scientific papers are written on how consciousness,
especially the effect of visual imagination and emotions, effect matter.**

**At this time, Divine Providence has commissioned us to teach people
the way to undo the damage caused by previous, ill advised desires,
thoughts, emotions, and
actions of mankind.**

**In every city and country, sons and daughters of God are awakening to
the realization of hindrances and problems
that have been created in the Web of Life
by destructive and unwise desires, thoughts, emotions, and actions.**

**They are actively addressing these in corrective ways through our
inspiration and guidance.**

**In every case, we show ways of diminishing or even eliminating the
damage to the Akasha, or Unified Field.**

**In meditation, do this by experiencing yourself as one with all that is,
omnipresent,
omnipotent, and omniscient, in your deepest divine inner self.**

**Then intend, visualize, and flow with emotions of The Law of One
happening everywhere in everything.**

Messages of Love

Everything is Love. Love is the common denominator. Love is the answer to every question. Love is the unity, the presence, the way. When Love becomes your only identity, all separation is healed. If you deeply feel that you are Love, then you have moved into the continual answer -- the one answer to every question -- the answer that mends and blends it all. There is only Love.

**The Law of One is the original law of Creation, and is the supreme Law
over all laws in all dimensions.**

It overrides all social and civil laws in all planets and spheres.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.

I give thanks that this is done.

SO BE IT!

So it is.

Here is one of our stories:

Once upon a time there were two people who were very sensitive to the damage being done to the Web of Life.

They sensed the damaging effects of the limited thoughts, painful emotions, and actions of so many people living lives of quiet desperation.

They knew that if this damage was not corrected, the earth faced a very grim future.

Praying to be of service, John and May called in Universal Consciousness and the Living Flame of Divine Love.

The Angels of Ygarimi were summoned by Divine Providence to guide and instruct them.

The heavenly hosts of Ygarimi inspired them with great understanding of cycles and the rhythm of life, and helped them understand the highest truths of manifestation on earth.

John and May began to comprehend the power of grace and mercy to alleviate the dire effects of fate.

As the months passed, in deep meditation they embraced the original purity of all ideas in Divine Mind.

They experienced themselves gaining wisdom and enlightenment and the powers of clairvoyance and clairsentience.

They began to receive extraordinarily clear inner guidance and the understanding of the laws of cause and effect came easily.

They realized that they could create any situation and do it with great strength through the magnetic power of strong divine emotions that attract new realities out of the quantum field.

In joy, while sitting on her couch, May said to John, "I know that now we can heal the dark muck of generations of despair and helplessness that has surrounded the energy fields of the people of earth for so long.

I am so grateful that the heavenly hosts and the Angels work with us

**as we balance this energy with infusions of clear intent
aligned with original divine will for the highest good of all, with
divine enlightenment, with beautiful emotions of grace and mercy!"**

**Closing their eyes, again they aligned their wills, their minds, their
emotions, and their sensations, one by one,
with the divine virtues of the letters of the name Ygarimi.**

**They asked the head of the Ygrarimi angels, as well as the angels
themselves, to help them heal the earth so
that heaven could finally manifest to all the children and creatures
of God.**

**As they meditated, John felt such strong bolts of energy charge through
his body that he jerked violently.**

**"Yes", he said, "I can feel the effects of the energy being balanced in
the Web of Life and it shot right through me."**

He was excited now.

**" Let's also ask that people be given clear inner guidance and the
understanding of Cause and Effect."**

**They went again into the deep silence with this meditation, their
hearts radiating a huge field full of love and faith.**

**As the Angels of Creation responded to their request, John felt his
body jerk again and again with the surges of energy from divine power,
of the positive responses from
the Web of Life.**

**Immediately, reports of amazing miracles of love happening to people
all over the world began to flood news sites.**

**Increasingly, the news was full of reports of hope and beauty as the
affairs
on Earth began to take quantum leaps for the better.**

**John and May began to teach others how to do this, and bit by bit the
concept spread, and Law of One prayer and meditation circles formed in
other places
and dimensions.**

**More people attuned to the powerful effects of clear intent, thoughts,
emotions, and actions on the Web of Life and took corrective measures.**

**By leaps and bounds the world situation began to look ever brighter
and brighter.**

**Amazing numbers of people were constantly hearing over the media and
the
internet that many unforeseen amazing miracles were occurring all
around
the world,
turning the situation around with great speed.**

**During one of these welcome broadcasts, May looked at John in ecstasy
and said, "You know, I used to wonder why I incarnated into such a
troubled world,
I used to wonder what on earth I could do to help.**

I am so grateful that now I know."

John smiled with incredible happiness and said, " Me too."

The Angels of Ygarimi praised the glory of Divine Being, ever changing,

ever the same.

The heavenly hosts sang with joy in the music of the spheres.

MIRACLES

Y-G-A-R-I-M-I

Y..We teach the children of God how principles of the highest truth manifest on earth and reveal the basis of Biblical miracles like materialization and dematerialization.

The sound of this letter is the divine virtue that concerns everything that brings about the enhancement of general intellectual faculties and has special influence on memory.

This letter represents the true origin of the rhythm of life and its relations. This virtue has influenced the law of evolution from the beginning of creation towards its perfection. Since this virtue is difficult to grasp only the experienced student who has reached this point in scientific work will succeed in fully comprehending and mastering the original rhythms of life and the laws of harmony-legality.

In the mind this virtue brings about the faculty of profoundest cosmic intuition and inspiration which, at the same time, may be regarded as the gift for absolute devotion to, and deepest love for, Divine Providence.

In the emotions, this virtue imparts an excellent aptitude for prophecy that will exclude any possibility of mistake.

In the material level, this virtue leads to the ability to explore, comprehend and apply the absolute influence of the akasha principle, which is Consciousness-penetrating-all, on the material world with regard to all forms and bodies in the mineral, vegetable, animal and human kingdoms.

At the same time, the faculty of making emotional and material objects invisible is also achieved by the help of this virtue, for whoever recognizes and masters the akasha principle in the material world in all forms of existence is able to change the grade of condensation in our material world at will.

Thus dematerialization and materialization of a body is possible at any distance and within a few moments. The ability to bridge over time

and space not only mentally and emotionally but also materially is gained.

Many of the miracles cited in the Bible give evidence of this.

The color of this virtue is pink, and the musical note is C-sharp. It is the element of etheric- earth-penetrating-everything.

Along with the divine virtue of letter Z, the heart is formed from this virtue.

G... We teach the way to bestow blessings of grace, happiness, success, and abundance.

In the principle of consciousness-penetrating-all, this is the virtue of Divine Grace and Mercy with all of its profundity.

In the mind this virtue gives divine peace in the spirit, the experience of peacefulness and the blessing by Divine Providence.

Mastering this virtue gives the absolute faculty of bestowing true Divine Blessings.

In the feelings there is great happiness and complete satisfaction.

Likewise, when mastering this virtue, situations may be created by means of the elements and the masculine-feminine energies causing happiness, success and wealth in the material world for oneself or others.

Color: deep grass green, musical note: F, element water-chill, heals the left eye.

A... We teach how to develop magical abilities such as clairvoyance and artistic talents and eloquence.

This is the virtue of the highest wisdom and enlightenment that can be conceived of.

This sound, a soft a like a sigh—ahhhhh, is the virtue of the highest wisdom and the purity of all ideas in existence. This has as a fundamental feature the enlightened mind. Reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, and the arousing of all intellectual faculties are expressed.

Musical gifts, eloquence, poetic talent, and clairvoyance, clairaudience, the art of levitation, and the control of the air element and its beings are all aroused by this initiation.

On the physical plane the command of the beings of the air, control over storms, are all made possible by initiation into the highest wisdom.

The color of wisdom and enlightenment is light blue, the musical note is G, the element is air so it has the sensation of ease, and the lungs are formed from it.

If pronounced umlaut A... the long "A", AE, in the cosmic language, this is the virtue of the origin and mystery of life and death regarding their transformation.

By meditating on this virtue, a child of God becomes convinced that in reality death does not exist, for the so-called death is only a transformation from one state into another.

Also will come enlightenment on the cause of this transformation. With this comes the ability to master all negative spiritual beings in all spheres and planes with regard to their scope of action.

The purpose for which negative beings have been created becomes clear. Since, in the original principle all beings are alike, each having been created by Divine Providence to fulfill a certain task, there is no dissimulation of negative beings, for from the enlightened person's point of view everything is pure.

Here the saying: "to the pure one everything is pure" becomes plain.

If there were no negative beings, it would be impossible to

distinguish between good and evil; and if there were no passions, there would also be no virtues'.

This virtue confirms the words contained in the Bible: "through night to light", the deep symbolic meaning of which now becomes clear.

In the intellect the ability is gained to see through all thoughts, actions and wishes concerning matter, and of becoming their absolute master.

In the feelings, this virtue represents desires, passions, and the inclination to self-satisfaction etc.

A person who masters this virtue in their feelings becomes absolute master and ruler of all desires and passions.

Also, a person is able to not cling to mental, emotional, and material virtues and objects.

This means complete independence and freedom and fulfills the saying "bind yourself and you will be free".

On the material level this virtue is one of the most materialized. No matter whether you evoke it in the mind, the feelings, the akasha, or the material world, the earth is influenced by it to a larger extent.

The ability to infuse matter with divine virtues is heightened.

The color of this virtue is loamy brown. The musical note is C. The element is earth so it has the sensation of weight. The anus is formed from this virtue.

R... facilitate mind expansion, awakening ingenuity and the faculty of "learning to learn".

This is the divine virtue of freedom and independence, of following inner guidance. Golden color, earth element, musical note C, the left side of the nose is formed from it.

L.. We hold and teach the secrets of breath and restoring life according to the laws of cause and effect which determine fate and karma.

This letter is the virtue of cause and effect, which is the karma law. 'On the mental level, this is analogous to memory, remembrance and conscience.

In the emotions, this corresponds to the astral matrix with all of its functions. The astral matrix is the connecting link between the physical body and the feelings.

Therefore, the mastery of the virtue of cause and effect controls the connection between the body and the soul.

It is a known fact that the astral matrix, and with it the whole body, is kept alive by breathing.

With the initiation into karma law, which is the knowledge of cause and effect, you are in the position to get under your perfect control the breath with all of its aspects and ways of application.

Mystical abilities are subject to the mastery of breath. On the material world, everything that has shape, measure, number and weight can be understood and mastered with this virtue.

**The color of this virtue is light opal, the musical note is G, the element is earth so it has the sensation of weight, and the left kidney is created by this oscillation.*

To meditate on this virtue see yourself as a tiny dot in your solar plexus with the rest of the body as an infinite swirling universe all around you.

Meditate on the meaning of the virtue with your intellect, in a Theta brainwave state of deep inward thought.

Meditate on the virtue of cause and effect.

See the color of light opal shining forth from a tiny sun in the leg region. Do this with a sensation of weight, filling the body. Inwardly chant the letter I in the musical note of G, and feel yourself having mastery over the law of cause and effect.

See this light opal radiance shining through the pores of the skin over the left kidney and filling the outer universes with each out breath.

With each in breath see this radiance and virtue coming back in through these pores and filling the body.

"As above, so below."

M...We teach how to work with the original water principle of flow and feeling from the viewpoint of creation, which is fluidity in change and includes perfect control of feelings and vitality.

The divine virtue of flowing, water, emotion, passion and magnetism. Bluegreen color, musical note D, water element, abdomen.

L...Karmic law controlling activities on earth is under our purview and we teach the spiritual faculty to trigger memories

and awaken conscientiousness in order to uphold the Law of One, the highest good of all concerned.

MIRACLES

Note:

Research into the effects of consciousness, especially visualization and emotion, shows that hate and love both energize whatever you send it to....so by hating or loving,

we actually give our energy to whatever it is we are hating or loving.

These emotions, or any emotions for that matter, are compressed information in the form of frequencies.

They are magnetic, and affect the quantum field, attracting whatever is in resonance with whatever the frequency is that they are.

Hate contains compressed information of fight or flight.

Love contains information of transformation, transmutation, power, and healing.

That is why we are told to paradoxically love what we hate, love what we fear, love ourselves unconditionally, no matter what we think of ourselves, or whatever anyone else thinks of us.... and to love everything else too.

In this way destructive win/lose war ends, within ourselves with ourselves and in the outer world.

No longer are we responding to the inner worlds and outer worlds with hate.

We have become miracle workers, like the great masters.

Love conquers all.

This is because love itself has more intelligence compressed within it and harmonizes the best.

It's simply the most efficient way to customize matter, emotion, thought and desires....to make these smooth and self sustaining and pleasant.

**Happiness is the effect of this.
Happiness is similar to gravity, gravity is caused by the attractive
power of flowing emotion, magnetism.
Happiness is the frequency that causes cohesion.
That's why "the pursuit of happiness" is our duty.
We have to use every means available to be happy.
Even if it means to love that which to our logical minds and experience
is unlovable.**

**What has been unlovable has taught us many things, such as to highly
value the intangible things like friendship, peace, plenty, freedom of
time, etc.,
those things that are missing when unlovable things and events happen
to us.**

**We can love the unlovable for what it has taught us.
"Give thanks for all things, for that is my will concerning you."
'All things work for good to those who believe.'**

**But for whatever reasons we can find to love the unlovable, even if we
can love it because its making us go within to reawaken our divine
natures to heal it,
it is scientifically the best and most logical course of action to
take in the pursuit of happiness.**

To me, this is the deepest essence of true martial arts and alchemy.

Love conquers all.

**The names and meaning of angel groups come from Quaballah, which is a
very ancient set of teachings which together form a common precursor, or
root, of three of the world's religions:
Judaism, Islam, and Christianity.**

**Each degree of the zodiac is ruled by a high being of the heavenly host
in the zone girdling the earth, and the angels who work with him or her.
The being and the angels share the same name.**

**This name is a key to their powers and influence.
Names, phrases, or sections in the angel messages are quoted or
paraphrased from the books of Franz Bardon.**
