## *The Angels of Religions*

Also known as

The Angels

of

*Jamaih*

Beloved,

\*

We are guardians who hold and teach the history and mysteries of  
all religions upon Earth,  
including those which no longer exist.

We reveal to what extent religions are in harmony with Divine Will,  
Enlightenment, and Love.

At this time, religions are seeking harmony within and with each other,  
and all aspects of life in creation.

Remember that flowing emotions, especially those of the divine virtues,  
with the most important being tangible feelings in the body of Divine  
Faith and Love,  
are the vitality and sensation of life itself.

**When Divine Consciousness, Faith, and Love,  
and corresponding divine emotions  
awaken within the human form,  
the pineal and other glands produce powerful substances  
that change the chemical make-up of the body,  
to maintain states of enlightened awareness, vitality and ecstasy.**

**The process of deep desire and longing  
for unconditional, omnipresent, omnipotent Divine Faith and Love,  
with the resulting uplifting effects of this desire,  
are therefore the basis of all true religious behaviors.**

**The flowing rapture of Love of Divine Being for creation,  
and the love of creation for Divine Being,  
enlivens the unified field,  
The Web of Life.**

**Therefore, the sons and daughters of light,  
in their longing for life and vitality,  
have sought to become one with Divine Life and Love throughout all  
time.**

**This longing for cosmic, unconditional, all-encompassing divine love is  
the magnetic,  
or attracting power,  
that draws higher spiritual influences to people and inspires them to  
participate in religions.**

**The magnetism of flowing unconditional all encompassing Divine Love  
attracts true divine abisheka, or the downpouring of grace from higher  
consciousness,  
that awakens inner remembrance of original Divine Wisdom and  
Enlightenment.**

**The nature of these desires, or intentions,  
for spiritual perfection, love, beauty, and enlightenment,  
determine the electric or creative powers of all religions.**

**It has been written that when the deepest longings and desires for  
enlightenment and Divine Faith and Love are stronger than any other  
longings and desires,  
the seeker is ready to receive true Power, Wisdom and unity with Divine  
Love.**

**This ultimate desire and longing creates the necessary electric and  
magnetic connection with Divine Providence,  
so that Wisdom and Enlightenment and flowing Cosmic Divine  
Unconditional All-encompassing Faith and Love descends into human  
form,  
penetrating all veils.**

**In enlightened states of consciousness brought about by descending  
Cosmic Consciousness and Love,  
the heavenly hosts become known.**

**Also the laws of Cause and Effect become understandable,**

**and the power of creating with divine virtues,  
which is The Power of the Word,  
becomes accessible.**

**This process informs, in some way, all divine religions.**

**We awaken remembrance of how different religions throughout time  
have  
more or less brought forth divine virtues in rituals and traditions.**

**When a Child of Light and Love desires and longs to know and  
understand  
any religious tradition,  
this intention and longing creates an electro-magnetic connection with  
us through The Web of Life,  
The Unified Field of Energy and Consciousness.**

**It is our great pleasure to reveal both the exoteric and esoteric,  
which is the outer and the inner, truth of any and all religions.**

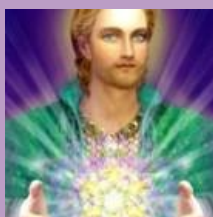

**This is often done in states of meditation, which use the four awareness  
levels  
of pure being, deep inner thought, emotions, and the five senses,  
memory, and logic.**

**This corresponds to Delta, Theta, Alpha, and Beta brainwave states used  
together.**

**In contemplating divine virtues in this way,  
The Power of the Word can be mastered.**

**MIRACLES**

**By meditating on the divine virtues of the letters of our name, the  
understanding and mastery of religions can be attained.**

## **J-A-M-A-I-H**

**J**We teach sacred ecstatic love and mysteries of loves magic.

**This** first letter of our name is **J**, the sound of the divine virtue of love.**This** is the keynote of our energy.

**The** sound of **J** in the ancient language is the virtue of the highest love imaginable.

**This** love is all-encompassing and unconditional.

**It** is true Cosmic Love and meditating on this virtue allows a child of God to comprehend and feel this love, which is one of the highest divine virtues, in all its aspects, in the microcosm and the macrocosm.

**It** is this love that inspires the heavenly hosts to help a child of Light through all aspects of its journey, and it is initiation into this love that they perform.

**By** meditating on this love, a child of Light attracts the attention of heavenly hosts who are glad to offer their assistance to higher consciousness.

**The** color of this virtue is dark opal, the sound is G-sharp, the sensation is coolness, and the diaphragm has been created by it.

**As** with meditating on all other letters and their virtues, go deeply into a state of pure being and unity with Divine Being and all Creation.

**Imagine** that you become a tiny dot in your own solar plexus and that your body is an immense universe all around you.

**Concentrate** on your own universe being impregnated by flowing divine cosmic unlimited all encompassing unconditional love.

**Visualize** the color of dark opal shining from a tiny sun in the abdomen area seen as a hollow space, and chant the letter **J** in the musical note of G-sharp, as you are flowing with divine love, and sense the element water and coolness.

**With** the out breath this radiance passes through the pores of the skin over the diaphragm and fills whatever inner guidance directs in the outer universe.

**With** the inbreath this divine cosmic love radiance comes in through the pores of the skin over the diaphragm and fills whatever inner guidance directs in the inner universe.

**Keep** the rhythm of the breath natural and dissolve the dark opalescent light in the body when you are finished to protect the natural balance of elements in the body.

*imagine you know when someone wants to see you... or is thinking about you  
imagine that information can be exchanged through dreams and meditation*

**To those of you studying these angel messages,  
know that this group of messages, taken together, explain the  
technology of the cosmic language, the use of THE WORD.**

**Each letter of the alphabet has a sound that corresponds to a divine  
virtue, with a corresponding meaning and expression on the four levels  
of being- will, thought, feelings, and sensation.**

**Words, whose letters are uttered with the following atunements, while  
using the meditation technique explained below, have great power to  
manifest miracles.**

**The proper utterance of each letter, has to do with being-will-intent,  
imagination-visualization-thought, feelings, and sensations.**

**To meditate on a virtue, go deeply into a state of pure being and unity  
with Divine Being and all creation.**

**Now see yourself as a tiny dot in your solar plexus with the rest of  
the body an infinite swirling universe all around you.**

**Then see vividly, in your imagination, the color shining forth from a  
tiny sun in the area of the body that corresponds to its element.**

**The fire element is in the head region, air is in the lung region, water  
is in the abdomen region, and earth is in the leg region.**

**Fire corresponds to will, and to the delta brainwave state of pure being and  
unity with Divine Being.**

**Air corresponds to mind, to the theta state of deep inner thought.  
Water corresponds to flowing emotions, to the alpha state of tangible feelings

flowing with the divine feelings of the virtue.**

**Feel yourself flowing with tangible feelings of the virtue and having mastery  
over the virtue, with your dreamy Alpha wave brainwave state.**

**Then with your betawave state of the five senses, logic, and memory,  
imagine the sensations of the element.**

**Fire is warmth and expansion, air is relaxation and ease, water is  
coolness and chill, earth is weight.**

**When you breathe out; will, see, feel, and sense this virtue radiating  
out through the pores of your skin over the area of the body formed by  
the virtue and filling whatever inner guidance directs in the outer universe.**

**When you breathe in; will, see, feel, and sense this coming in through  
the pores of your skin over this same area and filling whatever inner  
guidance directs in your body from the outer universe.**

**Learn how to breathe this virtue in and out effortlessly in this way, keeping the rhythm of the breath natural, so that anytime you wish to manifest it, this meditation comes easily to you.**

**By meditating on the divine virtue from the viewpoint of your body as a vast universe, with your own consciousness a tiny point in the solar plexus, you automatically activate the As above, so below law of correspondances.**

**Your body universe is the microcosm, and the outer universe is the macrocosm.**

**Dissolve the light in the body when you are finished with each meditation to protect the natural balance of elements in the body.**

#### Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:  
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.  
The being and the angels share the same name.  
This name is a key to their powers and influence.

\*\*\* Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

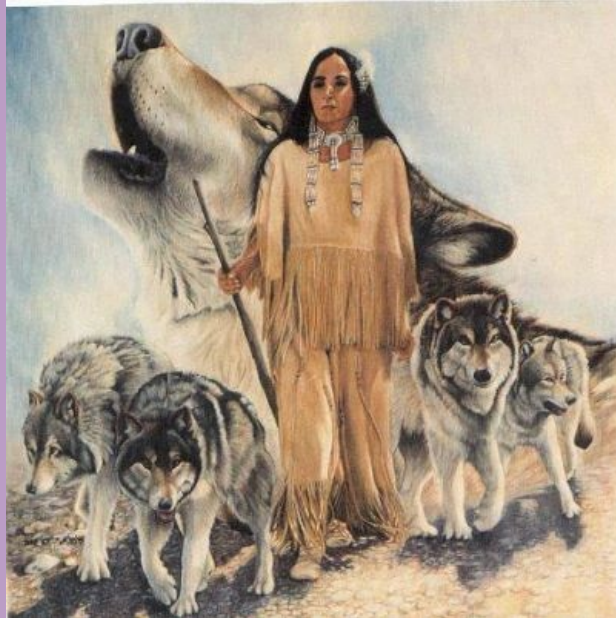

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced

from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].  
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have  
very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a  
preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",  
gives historical background and was compiled by his German publisher  
from notes written by Franz Bardon.

*The Law of One is the original law of creation.  
All other laws come from it.  
The Law of One overrides all other laws.*

## **The Law of One**

**We are all one.  
When one is harmed, all are harmed.  
When one is helped, all are helped.  
Therefore, in the name of who I AM,  
and I am one with all there is,  
I ask that only the highest good of all concerned happen.  
I give thanks that this is done.  
So be it.  
So it is.**
