The Angels of Secret Spiritual Families

Also known as

The Angels

of

Bilifo

Beloved,

**We teach and inspire those who have experienced the second birth,
which can be seen as a divine rebirth into original spiritual awareness.**

**This rebirth must happen,
because at a person's conception in the mother's womb,
the emotions of mother and father,
both positive and negative,
are imprinted on the fertilized egg that forms into the physical body
temple.**

**This emotional blueprint imprints on that first cell,
and then imprints on all the trillions of cells that form from divisions of
that first cell.**

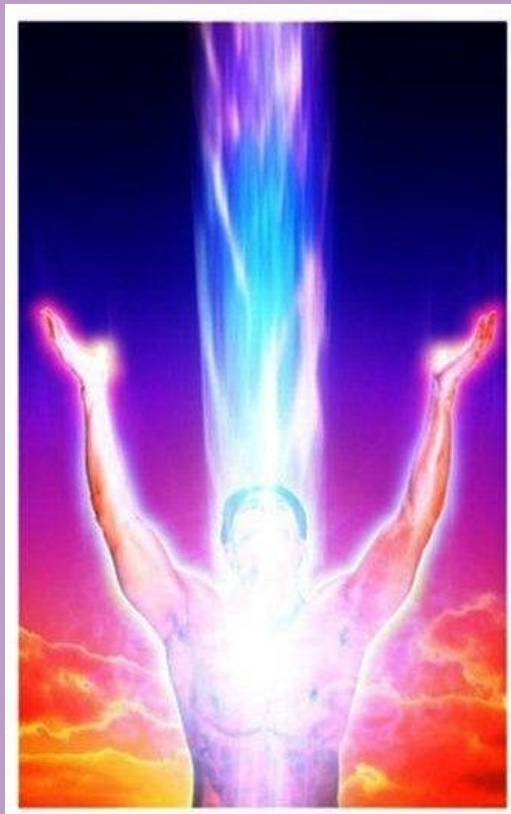

**So when we are born as an infant nine months later,
we work through this emotional imprint,
which is our emotional inheritance,
for many years.**

As it was written:

"The sins [and blessings] of the Fathers are repeated unto seven generations."

Finally the day arrives on our spiritual path when we re-experience the intentions and thoughts of our heavenly omnipresent, omnipotent, and omniscient Divine Father and the emotions, and sensations of our omnipresent, omnipotent, and omniscient heavenly Divine Mother, and we go deeply into the original Divine Light and Cosmic Love of Divine Creation, and remember.

**This is often described as experiencing our original conception as sons and daughters of God;
THE IMMACULATE CONCEPTION,
of our immortal Divine I AM PRESENCE.**

**At this point,
we are reborn,
and we continue to grow in this divine and perfect imprint.**

As it was written: *"Ye must be born again."*

**We are the heavenly hosts who guide those who experience this rebirth
into ever more splendid and mature Divine Consciousness and flowing
divine love.**

**We carefully guide these children of light and love into spiritual
families
that nurture Gods kingdom and guide into full awakening.**

Patterns of life can be seen as recursive, embedded fractals.

**This means that patterns are repeated over and over again in ever larger
sizes into infinity according to mathematical formulas.**

This is why an atom looks exactly like a solar system.

This is why it has been written that man is made in the image and

likeness of Divine Being.

People contain within them all of the patterns of creation.

**As a person re-experiences these divine patterns within,
this experience transmutes the patterns of human ancestors.**

**Now the divine emotions of the 'Godself' transforms and transmutes
all previous emotions imprinted on the primary cell of the body at
conception,
and transforms and transmutes all the cells.**

**Emotions are compressed information, like a zip file.
Emotions are magnetic, and attract new realities out of the quantum
fields of infinite possibilities.**

**This rebirth into the original divine blueprints of perfection
is when the Divine Self is actually birthed into physical incarnation.**

This is spoken of as the second birth.

"Ye must be born again."

Bible quote

As above, so below.

**The purpose of creation
is infinite manifestations of the supreme happiness of the splendor and
majesty of Divine
Consciousness and Being throughout time and space.**

Happiness causes cohesion, it is similar to gravity.

Happiness reveals solutions to any problem.

**People who have been reborn are conscious co-creators with Divine
Being
of the splendor and majesty of all the divine qualities,
with conscious dominion over all creation.**

"All that I do, ye shall do and more."

Bible quote.

**Co-creations occurs through the quadrapolar magnet,
which is the four levels of consciousness known as being-will, mind,
emotion, and sensation.**

**These levels correspond to Delta, Theta, Alpha, and Beta brainwaves
and are referred to as the four elements of fire, air, water and earth.**

Recursive patterns of life are found on these four levels of awareness.

**Through these four levels of awareness
infinite divine beingness, power, love and sensations flow outward like
light and water,
and bless all.**

**As sons and daughters of Divine Being reach states of maturity of
divine consciousness on these four levels,
we guide them to form secret societies or families,
for purposes of creating and maintaining Sacred Patterns
with true spiritual morality together.**

**Secrecy is required so that they may go about their work in an
uninterrupted and free manner.**

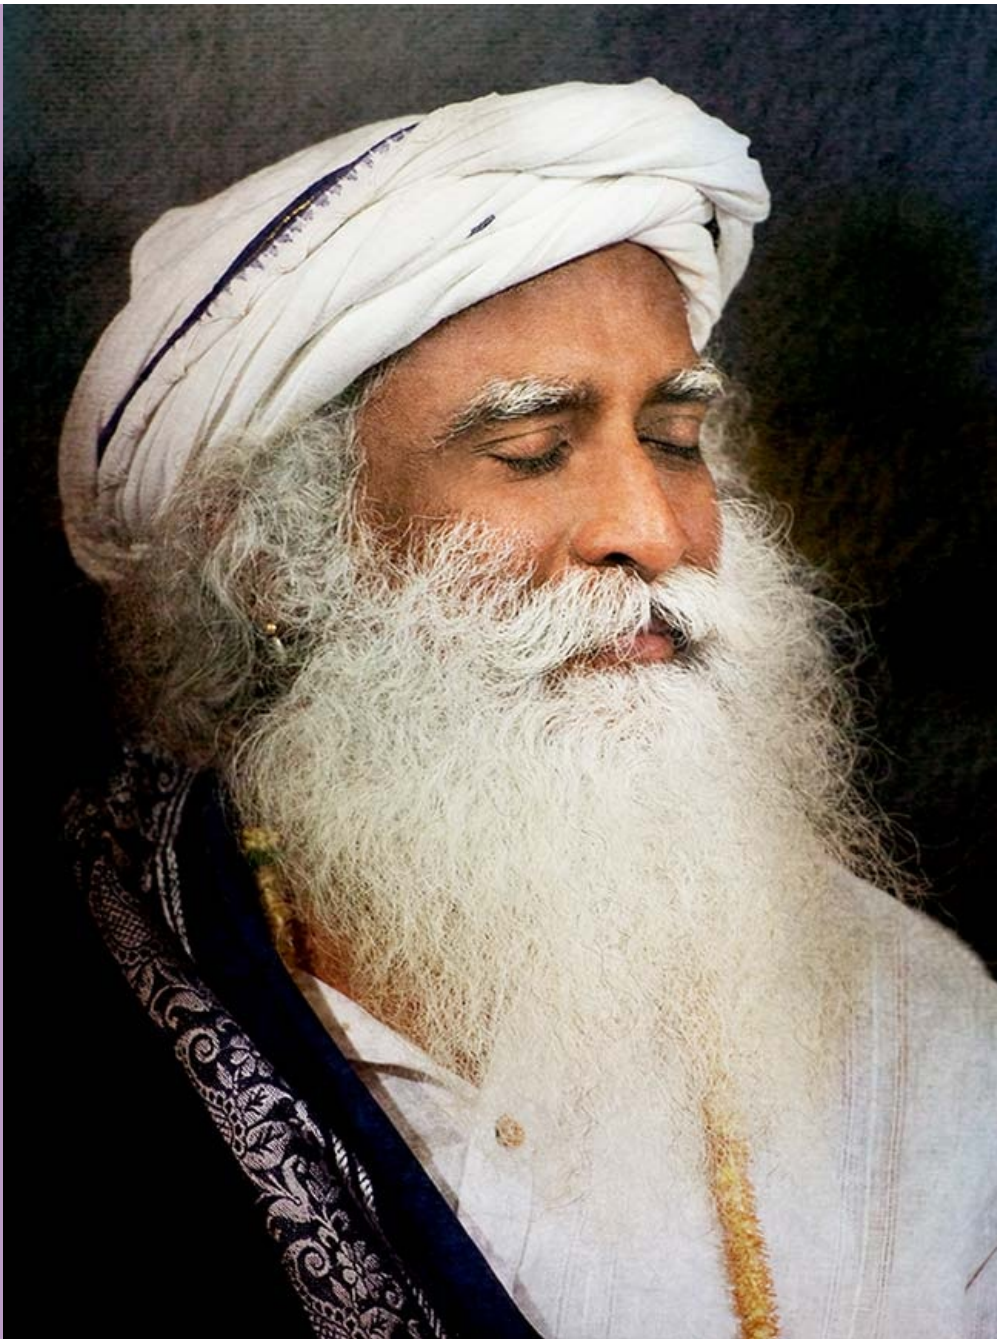

**We protect spiritual families so that the proper members are drawn to
them and no interferences disturb them.**

**We make sure that spiritual families receive whatever they need to grow
in wisdom and sacredness.**

**We nurture them so that their activities to manifest Heaven on Earth are
fruitful.**

**We guide secret families in their activities as teachers and guardians
of the sacred processes of manifestation.**

**We help other children of Divine Being,
those who are less mature,
receive benefits, teachings, and services of these spiritual families.**

**Through their teachings, other evolving sons and daughters of Divine
Being can be helped to safely mature enough to become parts of secret
spiritual families themselves.**

***Spiritual evolution has operated in this way from the
beginning.***

As above, so below.

MIRACLES

B-I-L-I-F-O

B We are guardians of the most profound mysteries of polarity and miracles, particularly within secret spiritual societies.

Consider the first letter of our name, which symbolizes all polarity in all created universes on all levels and in all planes of existence.

As long as there is time and space there must be polarity.

One begets the other.

There is an in and an out, an up and a down, cold and hot, night and day, giving and receiving, the one and the many, the in breath and the out breath, etc.

There is electricity and magnetism.

The positive cannot exist without the negative in time and space.

Divine Omnipotence, Omnipresence, and Omniscience enables these polarities to WORK TOGETHER FOR THE HIGHEST GOOD OF ALL CONCERNED.

Understanding the harmony of polarity is THE KEY to understanding the nature of universal consciousness.

In the mental plane, mastery of this virtue gives a child of God perfect control of the electric/will and magnetic/feeling fluids in all the spheres and planes.

A person becomes master of life and death and is given the power to change any fate.

But he/she will never cause a change in the planned karma of a human being without good reason and approval by Divine Providence, he/she will not cause any harm.

This virtue has a light violet color, the musical note of A, is of the earth element so it has the sensation of weight, and the right eyeball is formed from it.

I We decide the fate of those in our custody according to karmic laws and the highest good of all.

The letter I of our name is the divine virtue of Cause and Effect, reaping and sowing, memory, conscience, and remembrance.

Light opal color, musical note of G, earth element, left kidney.

*L*We teach how divine glory and majesty works in various spheres, the mystery of magic equilibrium, true spiritual morality, becoming invisible, and immortality.

The letter L of our name represents the sum total of all the divine virtues.

These virtues taken together are the splendor and majesty of Divine Consciousness and Being.

By mastering the virtue of unity with all of the divine virtues, it is possible to create in the Akasha the splendor and majesty of heaven so that it manifests in the being, in the will, in the intellect, in the feelings, and in the reality of the physical world.

This awakens true spiritual morality, mastery of emotions, great courage and endurance, and the drive for self-preservation in self and others. This is the virtue of vitality and eternal youth.

The color of this virtue is the most beautiful translucent olive green, the musical note is F, the sensation is the air element of ease, and the organ formed by it is the spleen.

*I*Our purview includes teachings like revitalizing the dead, reawakening memories and conscience, and the laws of cause and effect which control earthly activities and ultimately fate itself.

*F*We control the spiritual unfolding of those in our charge according to universal laws of harmony.

The letter F In the Akasha principle [the principal of consciousness-penetrating-all] represents the legality and harmony of all visible worlds, i.e., the micro-and the macrocosm.

By meditating on and using this letter, a child of God will come to know legality as the most perfect harmony, and furthermore, to see the operation and the laws of analogy of the macro- and microcosms in their truest form. A person will be able to find at once the analogous legality of any idea.

Mental: In the mental kingdom, this letter oscillation represents the unification and the interdependence of the four basic qualities of the spirit: namely: will-power, intellect, feeling [life] and consciousness in their entirety.

A person is able to control, at will, these basic qualities of the spirit within him/her self and with other people.

Astral [Emotional]: The mastery of this virtue makes a person perceive and control the mysteries of the quadrapolar magnet [will, thought, emotion, sensation] and the sphere of influence of the four elements in the astral kingdom, which is the kingdom of emotions.

The comprehension of all universal laws, and all abstract ideas in their purest state is gained.

The mystery of magic equilibrium becomes entirely clear.

Material: In the material world, the mystery of the magic quadrature of the circle, i.e., the quadripolar magnet, is revealed.

A person learns how to apply this to the human body, in relation with intellectual knowledge, with physics, or with metaphysics.

The color is light green. The musical note is F-sharp. The element is earth so it has the sensation of weight. The left hand is formed from it.

*Family of light

Cynthia Rose Young

umlaut O, eu and O

***O Umlaut O, eu ...The sound of this letter in our name is the virtue of the most
Profound Divine Cognition, which can only be brought about by love divine.***

***By the help of this virtue, a person gets to know all the
possibilities of transformation of the spirit, all the systems and ways
serving this end, and all knowledge concerning transformation in all other
fields.***

***A person is informed about everything that, deriving from the act of
creation, had to pass through all the mode of transformation to be reunited.***

***A person must attain all the faculties that are offered by this virtue
in the akasha principle,
which is the principle of God-penetrating-all, and make use of all
possibilities, in order to be convinced that they cannot be described by
words, but must be experienced, and lived through.***

***In the intellect one secures perfect mastery of the transformation of
ideas, virtues, etc. by the use of the POWER OF THE WORD.***

***Perfect mastery of emotions are attained, so that it is possible to
attract any reality in the astral world.***

***In the physical world complete mastery of transformation, including the
true preparation and charging of the philosophers stone is gained.
It is this virtue that allows a child of God to transform anything into anything
else.***

***This virtue has a dark orange light with a feeling of weight penetrating
everything, musical note D sharp, the testicles and ovaries are formed from
it.***

If healing the ovaries, heal the left ovary first then the right.

***O We evoke happy and successful situations where perfect mastery of
magical laws of metaphysics and astrophysics can be taught and passed down.***

***The sound of letter O is the sound of the initiation into the original principle
of divine justice.***

***Mentally you will be able to give expression to the absolute legality
of harmony in all will, intellect, emotion, and form.***

You will have a high power of judgement and the ability to comprehend spiritually any legality, any interference by Divine Providence for the sake of justice.

You will never be able to condemn anyone unjustly.

This will bring about the abilities to create any change in the emotional situations that you find yourself in and to have absolute success and happiness on all levels.

Note: The ability to control emotions is the ability to control the element of water.

Water is magnetic and can be energized with specific emotions so that it becomes charged to attract successful outcomes on the physical level.

On a molecular level, the human body is 99% water.

This virtue has an ultramarine blue color, the musical note of C, and is the earth element so it has the sensation of weight. It formed the throat and windpipe.

The melody formed by the letters of our name are the notes of A, G, F, G, F sharp, D-sharp, and C.

Footnotes

**This is a way of harmlessness and blessing to all.
The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.**

**Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.
The being and the angels share the same name. This name is a key to their powers and influence.**

*** Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.**

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all;

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.

**I give thanks that this is done.
SO BE IT!
So it is.**
