The Angels of Spiritual Assistance

Also known as

The Angels

of

Mafalach

Beloved,

We assist with difficult problems.

No matter what problems exist, solutions also exist.

**The truth of what everything actually is, and what can actually be done,
has only been given to modern people in bits and pieces.**

**Miracles are actually results of activating already existing
potentialities that are always available for assistance.**

The key to miracles lies in mastery of one's visualization and emotion, which are the electric-magnetic information carriers in the quantum field.

We encourage the Children of Light to heal emotions of self and others, and obtain clarity in visualizing inwardly the highest good of all for self and others.

Similar to standing in a circle of mirrors, what is visualized and felt within reflects back from the outer worlds.

By visualizing a desired outcome, as if it is already happening, and flowing with powerful emotions of success, miracles occur.

This type of meditation attracts changes in physical reality.

The type of interventions we make, therefore, are based on the levels of spiritual maturity of the people we are helping.

For this reason, whenever a child of Light and Love is well advanced on the path to spiritual maturity and has a difficult problem that can be solved in no other way, we often arrange for a spiritual teacher from one of the secret spiritual families to become involved.

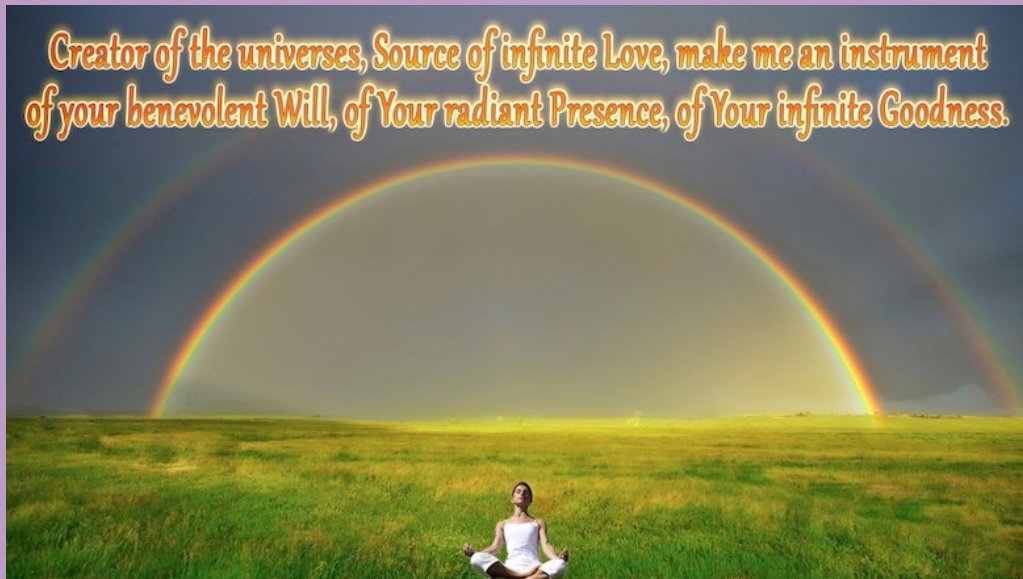

Help is passed down from one level to the other, and the pattern of spiritual evolution and awakening continues.

**We help the children of light recognize the original purity of all ideas in Divine Mind,
and then help them release-in self and others- whatever imperfect states of being,
imperfect desires, imperfect thoughts, wounded emotions, and unpleasant sensations,
that need to be released for change into other states that are the highest good of all.**

We teach people how to co-create reality through control of brainwave states, or states of consciousness.

We inspire people to experience and identify with Divine Being and splendor within and to also see Divine Perfection by looking at the world through eyes of love.

In this way healing occurs in the desires, the mind, the emotions and the physical body.

We inspire the understanding that by healing the self, it is possible to heal others.

We sometimes help people by supplying suitable information from books and other media.

Solutions to difficult problems in self and others often fall into one of three basic approaches.

These solutions are:

- 1) By prizing spiritual seeking more highly than anything else, visualizations of perfection and enlightenment are created,**
- 2) By looking within, rather than outside oneself, for answers or solutions, imperfect conditioning and programming are discovered and released so that higher intuition and divine emotions are awakened, and/or**
- 3) By expanding ones perspective to the level of Oneness and taking into consideration the highest good of all concerned, contemplating the problem reveals the most efficient answers.**

In this way the superconscious and subconscious minds work together

with the conscious mind.

The superconscious mind processes 400 billion bits of information a second.

So does the subconscious mind.

The conscious mind processes 4 to 40 bits of information a second.

The conscious mind directs the other two.

That is why the conscious mind must visualize and flow with emotions of what is the highest good of all.

**The first category of solution is found in the saying:
Seek ye first the kingdom of God and all else is added.
The kingdom of heaven is found within.**

The first commandment of the Ten Commandments also expresses this value.

Thou shalt have no other God but me.

**When a person has a problem, often there is some earthly value,
person or situation that is given priority
(ahead of Divine Enlightenment) in terms of desire, thought, emotion,
and action.**

**Many problems can be solved by removing as a top priority whatever is
standing in the way of seeking the kingdom of heaven,
which is found in meditation and prayer.**

**Therefore, other priorities should be downgraded to positions of lesser
importance.**

**When a person uses the power of their quadrapolar magnet, which is
the
fourfold power of being-desire, thought, emotions , and sensations,
to seek the Kingdom of God above all else, these powers penetrate
through veils of obscurity and distraction.**

**The quadrapolar magnet is the Delta, Theta, Alpha, and Beta brainwave
states of awareness.**

**These, used in meditation with Divine qualities, expose the individual
Consciousness to Divine Consciousness and Being.**

Where the attention goes, the energy flows.

Attention is the power of navigation and attraction.

Let nothing else guide your attention if it does not feel right.

**If a person focuses on the problem itself and continues to give it
powerful negative emotional energy, like worrying about it, for example,
the problem can be magnified.**

The problem itself becomes the god, albeit a negative false god.

**The best approach is to acknowledge the omnipresence of Divine
Being,**

**THE ONE GOD, in everything, including within the problem itself.
[Omnipresence is the fifth element, the element of ether.]**

**Acknowledge that somehow, in some way, since all things work for good,
that this problem in some way is teaching you greater wisdom.**

GIVE THANKS.

Give thanks FOR WHATEVER BLESSINGS OR WISDOM the problem itself is awakening.

Flowing feelings of gratitude attract Divine Perfection.

"GIVE THANKS FOR ALL THINGS."

Giving thanks sets up a field of non-resistance.

Love then carries information codes that include everything in a way that is the highest good of all.

**By focusing on the Kingdom of Heaven in a whole brain manner, and surrendering the problem to Divine Providence that is the highest good of all,
a person connects with all of the divine virtues
and Omnipresent All powerful and All knowing Divine Mind and Divine Heart Love
and to the heavenly hosts.**

In this way help and instruction manifest to all situations.

**In doing this, the Delta brainwave state of pure being and unity with Divine Being and all creation,
along with the Theta brainwave state of deep inner thought, opens the book of life and reveals the original purity of all ideas.**

**The pineal gland is activated to secrete powerful consciousness changing chemicals
into the bloodstream
that are a thousand times more powerful than any plant or pharmaceutical.**

Gifts of eloquence, artistic talent, clairvoyance and other mystical powers are regained.

**Then beautiful flowing divine emotions attract the splendor and majesty
of Divine Life into physical manifestation.**

All that I do ye shall do and more.

**Once the Kingdom of Heaven is found within through one pointed focus of
the powers of consciousness,
all other gifts and delights are added in ways that are the highest good.**

The second category of solution can be explained by the fact that the Kingdom of Heaven is found within first, and then automatically is found outside.

At times when people have problems, their first reactions may be to look for solutions outside of themselves.

**Therefore, when people have problems, often they are stymied by looking in the outer world for answers,
instead of going within
and finding guidance there to create solutions within,
solutions that attract new realities in the outer world.**

These solutions are created with the quadrapolar magnet of being-will, thought, emotions, and sensations [which are the subtle essences of fire, air, water and earth] .

Meditation and times of contemplation are necessary, therefore, so that inner truth is experienced.

Meditation is necessary to consciously access the Delta brainwave state of Pure Divine Being and Pure Divine Will.

In addition to this, the Alpha brainwave state of flowing emotions is accessed.

The change process happens at this level.

As emotions change they magnetically attract different realities on the physical level.

When old emotional wounds are allowed to come up and be healed, through feeling with Unconditional Love and gratitude for the lessons learned,

everything connected to them, including all of the old emotions and people involved, are transformed.

Remember that negative emotions change only when they are felt, not by being denied, by-passed, acted out destructively toward self or others, or disassociated from.

As repressed and denied emotions from the past are finally connected with and

allowed to flow to resolution safely and non-destructively, new insights into the why and the how of original traumas arise spontaneously from the psyche.

These spontaneously arising insights reveal a completely new perspective on what happened, especially in traumatic experiences of the past.

The new perspective transforms old negative beliefs about reality, it changes negative beliefs that were the result of the original painful emotional traumas, to positive ones.

Emotions become blissful once again.

Unconditional forgiveness and gratitude flow.

Once old wounded emotions are healed, the Alpha brainwave state of security, peace, bliss and love results in restored original childlike trust and innocence.

Ye must be as little children to enter the kingdom of heaven.

The third category of solutions are often found in the understanding of The Law of One, which is based on The Oneness of All Life, The Unified Field.

This is the understanding that everything in The Web of Life, both in the inner worlds and the outer worlds, are connected.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is,

I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.

I give thanks that this is done.

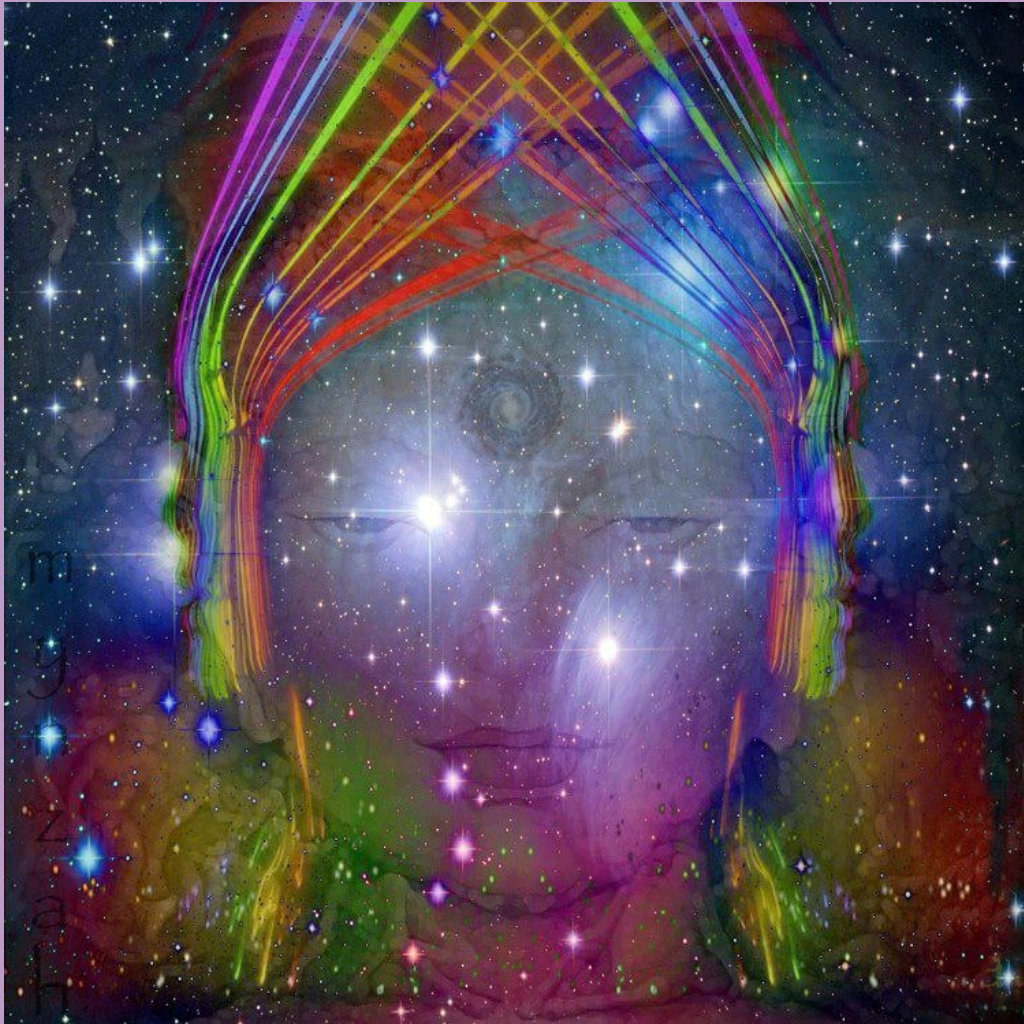

So be it.

So it is.

**Once a being realizes that when anything is harmed, the whole web is harmed,
then equally taking care of self and others becomes the obvious way to proceed.**

When anything is helped the whole web is blessed.

**Once a being realizes that when anything is helped, all are helped,
then help is gladly received and given equally.**

This realization helps with the use and mastery of The Law of Cause and Effect.

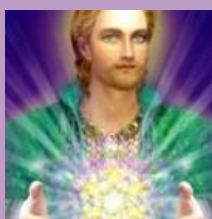

Therefore, if a person has a problem, the solution often is found by expanding ones perspective.

**In upgrading intentions, thoughts, emotions, and actions to the highest good of all concerned,
then win/win instead of win/lose solutions are found.**

Therefore, a seeker expands limited perspectives of the familiar issues of self interest/victimization and considers what might encompass the highest good of ALL.

Enlarging perspective per se is healing, breaking out of the narrow focus on what only benefits the ego of one persons self, to what is best for everyone concerned.

Whatever actions that are taken in desire, thought, emotion, and sensation must be done in the way that is for the highest good of all concerned, including the highest good of ones own self, for assistance to be most effective.

Whatever action is taken must be the highest good of both self and others.

Because the logical mind only knows the past, and is linear, new creative solutions must be sought on a deeper level of creativity.

There are no two people alike, no two fingerprints alike, no two DNA alike etc., therefore there are no two situations and no two solutions alike.

It is only by listening to inner guidance from Divine Providence that the wisdom of the highest good in any situation is known in present time.

All three categories are connected to each other and form a solution triangle.

Generally, the spiritual guidance concerning any specific problem in the path of a child of Light is found in applying one or the other side of this triangle to the problem.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or

root, of three of the world's religions:
Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host
in the zone girdling the earth, and the angels who work with him or her.
The being and the angels share the same name.
This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or
paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is

and Information of the divine virtues and the letters are referenced
from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].
Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books
have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a
preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician",
gives historical background and was compiled by his German publisher
from notes written by Franz Bardon.
