*The Angels of Volcanoes,
Caves,
and
Pyrotechnics*

Also known as

The Angels of

Nudatoni

Beloved,

We protect and inspire people who require caves for the purpose of
suitable homes to live in,
the finding of healing gemstones and minerals,
the control of fire,
and the guidance of those who require the knowledge of volcanoes
and their eruptions to remain safe from harm.

Deep trance states of attunement to omnipotent, omnipresent, and omniscient Divine Will for the highest good of all concerned, create strong flowing tangible feelings in the body of supreme happiness.

This happiness comes from unity of individual will with divine will, of individual mind with divine mind, and individual emotions with divine emotions in deep meditation.

It is well known that emotions are magnetic compressed information, that attract specific realities into form out of the sea of infinite potential realities in any moment.

Therefore, to change fate, appropriate emotions must flow.

The intelligence embedded in matter responds to emotions.

By combining beautiful emotional states with clear visualizations of a desired outcome, with powerful faith in the unity of all life, the intelligence in matter itself is directed.

Visceral feelings of supreme happiness result in chemical reactions within the physical body that open up recognition to solutions to any problem.

There are three areas of the brain that are referred to as the superconscious, the subconscious, and the conscious minds.

The super and sub conscious minds process 400 billion bits of information a second.

The conscious part of the mind processes 4 to 40 bits of information a second.

**Flowing currents of happiness in the conscious mind
floods information between all three parts of the mind.**

**Then by going deep into mediation, true genius and mastery of reality
is possible.**

**Omnipotence, enthusiasm, high inspiration, and faith, combined with
other divine emotions, quickly create new realities of Divine Love.**

The emotions of the children of divinity are important.

**Every effort must be made to keep emotions beautiful,
because of their magnetic power to attract happy specific
manifestations out
of the quantum field of infinite possibilities.**

"...life, liberty, and the pursuit of happiness."

**Elemental powers of material reality, referred to in antiquity as gnomes,
through the drive for self preservation,
are therefore attracted to beings who flow with feelings of happiness.**

**When a son or daughter of divine being radiates happiness,
control over the beings of the earth comes naturally.**

That is why it was written:

"For I have not given you the spirit of fear, but of joy, and life everlasting."

Omnipotent high inspiration, creativity, and happiness are the driving force behind quick miraculous transformations of physical matter to out picture the original purity of all ideas in Divine Mind.

**Because we inspire this understanding,
and inspire these states in the children of divine being,
we are known as teachers of mastery of phenomena of nature.**

We focus especially on such phenomena as volcanoes, caves, buried treasure, and pyrotechnics.

Creating miracles to out picture original Divine Will for the highest good of all concerned is the essence of the Cosmic language, the use of the Divine virtues, as explained in these messages.

**Once a person understands that amazing simplicity underlies complexity,
and experiences The Law of Correspondences
As above, so below and As within-so without,
then he or she can begin to create miracles as second nature.**

**It was because of this amazing simplicity that it was spoken,
*Except ye be as little children, ye shall in no wise enter the kingdom of Heaven.***

The theta brainwave state of deep inner meditation is dominant in childhood.

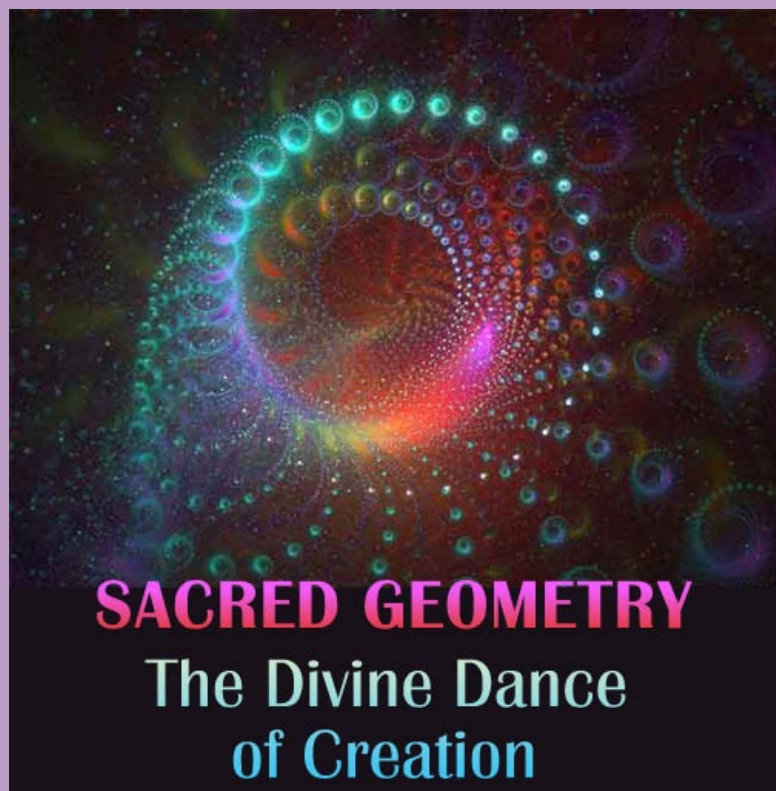

Deep meditation on the purity of all ideas in divine mind results in the simplicity and vivid imagination and strong spontaneous emotions of a little child.

This state is the original pure trust and innocence and faith required for miracles to manifest.

Trust and faith are powerful, and these enliven visualizations in deep inner thought.

This stimulates amazing outcomes from the pineal gland, which has over 20,000 psychoactive chemicals that are a thousand times stronger than psychoactive chemicals found in nature and manmade chemicals.

As this childlike state produces strong theta brainwaves, of deep inner thought and imagination, whatever miracles are supposed to happen are visualized and fired into reality carried on sine waves of strong emotions of faith, happiness and love.

The simplicity of ever young immortal Divine Consciousness and Being is the natural state of people, who are in truth *made in the image and likeness of God.*

"and the last enemy to be overcome is death..."

Original purity and innocence are sources of flowing emotions of unity with Divine Providence and all creation.

"Ye must be born again."

Pure natural emotions of omnipotence and faith and love, can be used to control all natural phenomena.

Simple understanding of unity with Divine Being and all creation in the use of flowing emotions of Omnipotence and faith is the key to both changes within the human physical body temple and changes within the planetary physical body temple.

Performing meditations with Divine virtues, wherein first you relax and experience yourself as one with Omnipotent, Omnipresent, Omniscient Divine Being and all creation, and then becoming, through imagination, a tiny dot located within your solar plexus area with the rest of the body a vast swirling universe around you, and filling the body from this perspective with desired divine virtues in being, will, thought, emotions, and sensations sets up sine waves that demolish previous blueprints of reality and reestablish new divine blueprints on all levels within the body.

That is why scientist have found that within one minute of having a thought, over a hundred thousand chemical reactions occur in the body.

With intent and the out breath, these new patterns of reality are then projected into the outer world.

These four levels, will, thought, emotion, and sensation, are referred to by mystics as thequadripolar magnet and are Delta, Theta, Alpha, and Beta brainwave states.

Delta is naturally dominant in infancy.

Theta is dominant in childhood.

Alpha is dominant in adolescence.

Beta is dominant in adulthood.

So, with the out breath, this internally visualized and felt change is breathed or sent into an object, a person, a situation, or even the entire outer Creation, depending on inner guidance.

The breath is sent both through the nose and through the pores of the skin over the organ or organs corresponding to a Divine virtue or virtues being activated, if so guided to do so by high inspiration.

Therefore, these new blueprints manifest within the microcosm of the person's physical, emotional, mental, and spiritual bodies first and then in the macrocosm through The Law of Cause and Effect {as above, so below} and The Power of the Word.

These changes manifest first in the human body temple and then the universal body temple.

With the in breath, this change comes back in to amplify the change in the body temple again.

During all of this, be sure to keep the rhythm of the breath natural.

Dissolve the meditation in the body when you are finished to protect the natural balance of elements in the body.

Remember that the key to using POWER AND WILL to manifest change in physical matter is found in combining them with appropriate flowing emotions.

WILL and EMOTIONS are the elements of fire and water.

Fire and water, or electro-magnetic energy, is HOW miracles are created and formed.

Of the four elements, fire and water are the primary halves of the quadrapolar magnet.

Electricity is composed of two elements, they are fire and air, which correspond to being-will and mind.

Magnetism is composed of two elements as well, they are water and earth, which are emotion and sensation.

Mind is used to translate will and visual images into water, or emotion.

Water, or emotion, then translates into material form.

Controlling intent, thought, emotions and sensations inwardly is HOW to create and materialize MIRACLES.

This is the source of changes in the material world.

In other words, one pointed WILL combined with clear visualization that becomes STRONG FLOWING EMOTIONS is the HOW, it is the electro-magnetic POWER.

REMEMBER THAT THE MIND CONCEIVES OF THE IDEA OR CONCEPT THAT EMBODIES THE WILL, AND THIS TURNS INTO FLOWING EMOTIONS and the physical FORM AUTOMATICALLY manifests from these.

Take for instance the WILL to stop a dangerous fire.

A fire, AS EVERYTHING ELSE IN CREATION, has awareness.

Fire is a conscious being, referred to as a salamander in ancient teachings.

Speak to this being with innocence and faith, with visualizations of the highest good of all concerned happening, with emotions of supreme happiness of a wonderful outcome on the physical plane, to change the fate of the fire and all concerned.

The best Divine virtues needed to do this are the letters of our name, Nudatoni.

These are the virtues of supreme happiness, the act of creation and its ongoing effects, the mystery of love to create, the original purity of all ideas which is enlightenment and wisdom, transformation through release of imperfection so that any imperfect potential outcome can change into another state, high inspiration, transmutation through seeing through the eyes of love, Divine harmony and justice supreme happiness and finally the divine virtue of cause and effect.

Remember that the Divine virtue of flowing emotions of supreme happiness, letter N, reveals solutions to any problems, and is the principle of cohesion.

Supreme happiness can be conferred to others, or to any situation.

The virtue of letter U, the act of creation, awakens deep trance states in which a creative act occurs and the ongoing effects of the creative act can be seen and calibrated to the highest good of all concerned.

In this way fate in self and others can be changed.

**The virtue of D is the mysteries of love to create.
It is LOVE DIVINE that will create the desire to change any
situation for the highest good of all.**

**The virtue of letter A reveals the original purity of all ideas in
Divine Mind and awakens mystical faculties.**

**Then imperfections on any and all levels are released for changes into
other states through the virtue of umlaut A, ae.**

**The virtue of umlaut A, ae, is most instrumental in changing physical
matter.**

**Old forms, on every level, that are no longer perfect, must be
released back to Divine Being for changes into other states.**

**The virtue of letter T is high inspiration concerning whatever is being
dealt with.**

It aligns the four brainwave states to accomplish a desired goal.

**LOVE DIVINE then awakens cognition of indwelling Omnipresent
Divinity in whatever is being changed, and causes transmutation to
occur. This is umlaut O, er.**

This results in harmony and supreme happiness for all, letter N.

**The breath is used to change anything in the outer world through The
Law of Cause and Effect, which is the last letter of our name, the virtue
of I.**

**The mind performs meditation with each of these virtues in which THE
one pointed WILL and FLOWING DIVINE EMOTIONS of each of these
virtues
to bring the fire into harmony with the highest good of all.**

**It is necessary that Divine qualities are FELT INTENSELY with pure
faith.**

**This step, the step of FEELING INTENSELY with faith what is WILLED
through Divine Being is the entire meaning of the 30 degrees of the
sign of Cancer.**

When the mind receives inner guidance to call in the help of the heavenly hosts who embody these virtues, they also will, conceive, and feel the fire coming into alignment.

These heavenly hosts join in activating these Divine virtues.

In mediation, ask to know the beings of the elements of fire and water, the salamanders and undines, and ask them to join in with the meditations.

Also ask to know the beings of air and earth, so that they also may be communicated with to join in.

As the gnomes are also invoked, remember that they can control anything to do with matter.

The necessary changes or miracles on the material level of manifestation happen.

We recommend practice so that you may convince yourself of the truth and effectiveness of this ancient science.

We protect and inspire people who require caves for the purpose of suitable homes to live in, the finding of healing gemstones and minerals, the control of fire and the guidance of those who require the knowledge of volcanoes and their eruptions to remain safe from harm.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from **THE PRACTICE OF MAGICAL EVOCATION**, ISBN 3-921338-02-6, and information of the divine virtues and the letters are referenced from **THE KEY TO THE TRUE QUABALLAH**, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

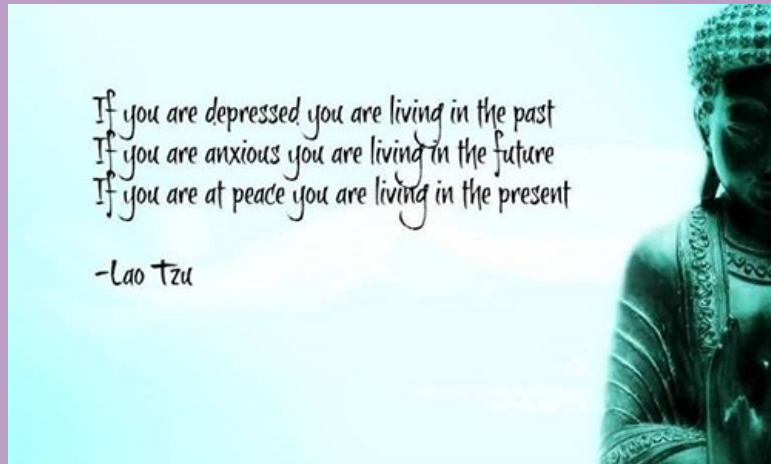

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

*When one is helped, all are helped.
Therefore, in the name of who I AM,
and I am one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.
I give thanks that this is done.
SO BE IT!
So it is.*
