## ***The Angels of Immortality***

Also known as

The Angels of

***Helali***

Beloved,

***"The last enemy to be overcome is death."***

bible quote

We teach how to understand and use the power of the word,  
which is the ancient language of empowering divine virtues in Delta,  
Theta, Alpha and Beta  
brainwaves, that is, in a whole brain way.

Because the language of the brain is visual images,  
we teach visualizations of divine virtues symbolically in the form of  
images.

We initiate seekers in the universal transference of consciousness,  
evoking high intuition and understanding of all languages of man and

**animals.**

**We gift permanent youth, health, and vitality, and beauty,  
while empowering the child of God to master their own youth.**

**We heal the body, especially breath related illnesses,  
and reveal mystical-mantras to heal emotions.**

**We inspire recognition and release of imperfections on every level for  
change into healthy states.**

**We teach spiritualization of emotions:  
insight into how to lighten emotions and merge them with divine  
qualities  
and no longer be subject to the elements of aging, and how to achieve  
moral impeccability.**

**We re-awaken any memory, remembrance, and conscientiousness to  
empower seekers  
to influence their own fate and the fate of others.**

***And the last enemy to be overcome is death.***

***"As above, so below."***

**As Earth becomes as Heaven, and beauty on all levels reveals the  
splendor and majesty of Divine Being,  
happiness becomes so individually and collectively amazing  
that each person never wants life to end,  
and death is finally overcome.**

**No longer is death a necessary and welcome relief from a life of aging,  
sickness, limitation and suffering.**

**Reincarnation becomes unnecessary.**

**Immortality of the physical body now reflects immortality of the ever  
young indwelling Spirit and Soul Divine.**

**To manifest life and vitality and youth, the power of the word, or whole  
brain functioning,  
especially with strong flowing feelings of Omnipotent Divine will for the  
highest good,  
enliven the Divine virtues both within the self and in the outer world.**

**Such a life reveals the splendor and majesty of God.**

**Flowing feelings and emotions of splendor and awe  
attract youthening and immortality to the spiritual, emotional, mental,  
and physical bodies.**

**True spiritual morality awakens as cause and effect are mastered for  
the highest good of all.**

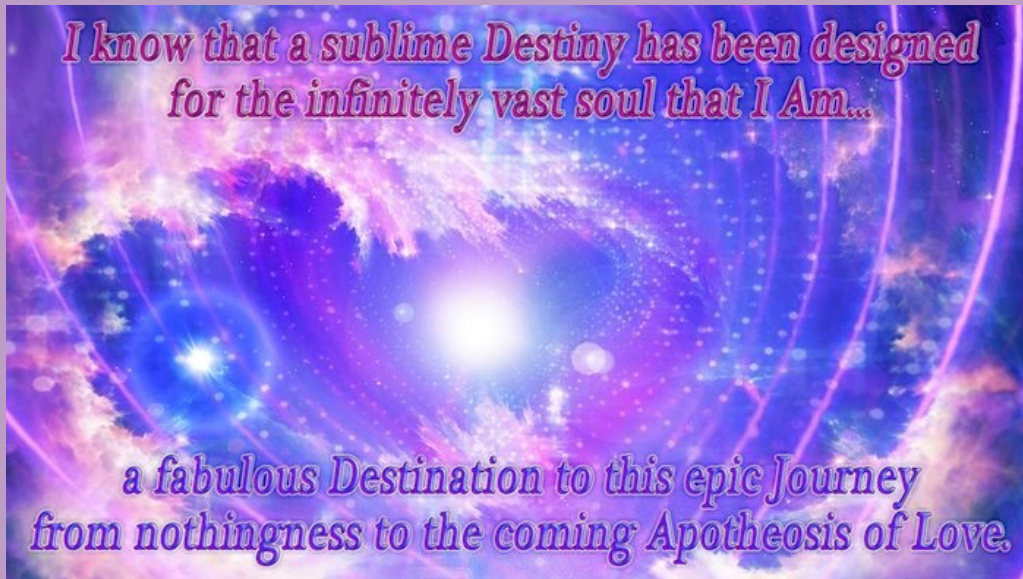

**Out of infinite possibilities,  
flowing emotions determine which realities manifest in form.**

**Feelings and emotions reflect and depend on will and thought.**

**Will, thought, emotions and feelings and sensations of the highest  
divine virtues,  
taken together, attract vitality and youthening.**

**Remember that emotions are the magnetic power that attracts new realities,  
out of infinite possibilities in the quantum field, into physical form.**

**FLOWING EMOTIONS ARE THE CHANGE PROCESS.**

**By learning to feel the emotions of divine splendor and majesty,  
heavenly realities become tangible and are experienced on all levels  
equally.**

***"On earth as it is in heaven."***

**Feelings and emotions of awe of the splendor and majesty of Divine  
Being enliven the will to live.**

**This signals the glands of the human body to secrete chemicals that  
prevent aging, sickness, and death.**

**We teach how to use the ancient language of divine virtues and  
qualities, with particular emphasis on  
attunement to Omnipotent flowing Feelings of Divine Will,  
for the highest good, omnipresence, and perfection of the original  
purity of all ideas in Divine Mind.**

**This language, the power of the word, is the divine virtue of the first  
letter of our name, the letter H.**

**The original purity of all ideas in Divine Mind is the virtue of soft A.**

**This enlightenment allows the second meaning of A, pronounced as a  
hard A, umlaut A, ae, to activate.**

**It is the process of releasing imperfect desires, thoughts,  
emotions and feelings, and sensations  
for changes into other states that are the highest good.**

**This ancient language is a language of meditation on Divine virtues  
using all four brainwave patterns and states of awareness,  
which are pure being, deep inner imagination, flowing emotions, and  
the five senses, memory, and logic.**

**This language uses different letters, colors, and musical notes  
that belong to different Divine qualities, or virtues, of Divine  
Consciousness.**

**Divine Consciousness in being, will, thought, emotions, and  
sensation is the natural birthright of all children of God.**

**Letters are assigned according to the sound signature of their  
utterance,**

which correspond to the frequency signatures of different virtues.

Always the meditations on the Divine virtues utilize the four brainwave patterns of the human brain ,  
which is effective whole brain and body functioning.

The Delta brainwave pattern of Pure Being and UNITY with Divine Being  
and all creation is the natural experience of ONENESS.

From this experience, unity with omnipotent divine will reveals INTENT  
for each virtue.

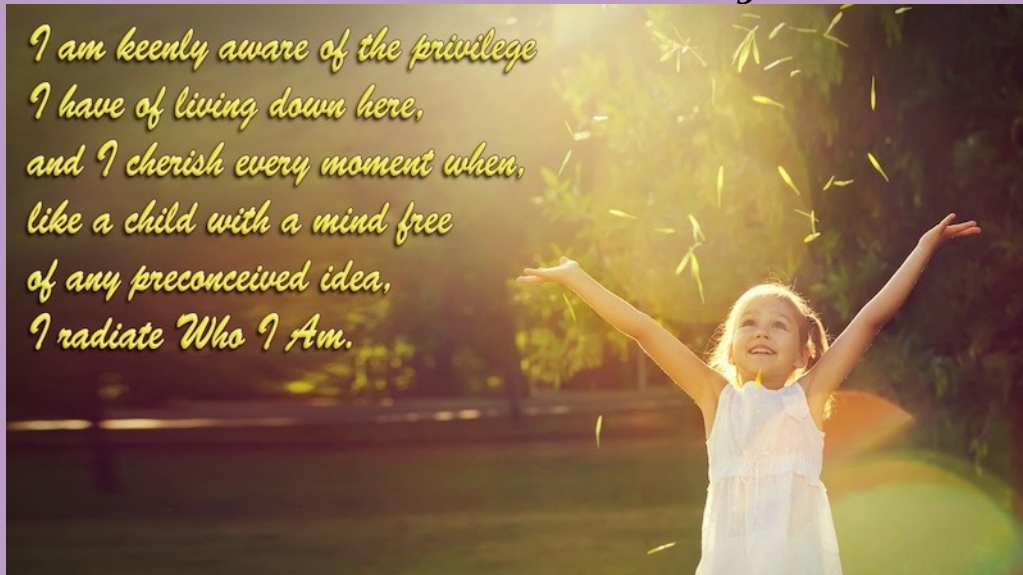

This state of awareness is dominant in infancy and deep dreamless  
sleep each night.

Ask your cellular memory to let you re-experience this Delta state in  
meditation.

The Theta brainwave pattern of Deep Inward Imagination reveals inward  
pictures, ideas and concepts of each virtue in flowing states of inward  
attunement and meditation.

Theta is dominant in childhood and in the visual part of dreaming.

*Ye must be as little children to enter the kingdom of heaven.*

Ask your cellular memory to let you re-experience this Theta state in  
meditation as you focus on a Divine virtue.

*"Ask and ye shall receive."*

The Alpha brainwave pattern of flowing emotions creates tangible  
feelings in the body of the magnetic  
emotional frequencies of each virtue.

This flowing emotional and feeling state is the actual change process.

Emotions are compressed information that activate new realities out of  
the quantum field of infinite possibilities.

By changing emotions through flowing, realities are changed.

Alpha is dominant in adolescence and in the emotions of dreaming.

Ask your cellular memory to let you re-experience this Alpha state to  
flow with emotions and feelings of a Divine virtue.

The Beta brainwave pattern of the five senses, logic, and memory  
activates SENSATIONS of each virtue as a step down transformer of  
Alpha brainwaves.

**The sensations of each virtue are composed of tactile qualities of its element;**

**which will be penetrating-all, warmth, ease, chill, or weight.**

**The four elements are fire, air, water and earth,  
which correspond to delta, theta, alpha, and beta brainwaves.**

**The fifth element is omnipresence and oneness with pure being,  
and is the slowest delta brainwave state.**

**This fifth element is experienced in deep dreamless sleep each night.**

**This is the time that the body heals and rejuvenates itself.**

**Ask your cellular memory to let you experience the fifth element of pure being and oneness with all.**

**The Omnipresence of Divine Consciousness and Life,  
which is the Divine virtue of the second letter of our name, the letter E,  
is experienced in this state of pure being and unity with Divine Being  
and all creation.**

**With practice this state is experienced permanently in the waking state.**

***"I and the Father are One."***

***"All that I do, ye shall do and more."***

***What you do to the least of these you do to me.***

**The letter L represents the Divine virtue of Splendor and  
Majesty of all Divine virtues taken together,  
and it is this virtue that awakens true spiritual morality  
and is the source of vitality that gives eternal youth.**

**This is the meaning of the two Ls in our name.**

**This is a virtue of the Theta brainwave level of deep inner thought and contemplation.**

**With practice, this state of awe and vitality and true spiritual morality  
is experienced permanently in the waking state.**

**Original Divine Will operates to manifest the supreme and highest form  
of all of  
the divine virtues taken together in all creation.**

**We help a person become transfixed in Omnipotent FLOWING  
EMOTIONS AND**

**FEELINGS of any virtue,  
and with the splendor and majesty of Divine Being through all of them  
together.**

**Through The Power of the Word,  
a person manifests whichever Divine virtues Divine Providence inspires  
in meditation.**

**Therefore, at a certain point in the path to perfection  
a person is guided to manifest ecstatic loving immortality.**

**We teach the original purity of all ideas, which is the Divine virtue of the  
letter A of our name.**

**These original ideas, when understood, give the Gift of Wisdom and  
Enlightenment, and mystical faculties,  
so that a person conceives that ultimately all must be on Earth as it is  
in Heaven.**

**The physical body is designed to manifest all of the Divine attributes of  
the Creator.**

***Mankind is made in the image and likeness of God.***

**That is why we inspire the children of light to honor all parts of the  
body as divine.**

**In this way, the body is seen as sacred, and all parts of it  
incorporate various divine attributes.**

**For example, we reveal that even body hair is divine, and functions as  
antennae,  
sending and receiving power that blesses all.**

**The longer the hair and beard, the longer the wavelengths of power  
that  
are sent and received,  
so that it is no longer cut short or stripped of sacred oils.**

**Remember that immersion in Omnipotent flowing emotions and  
feelings of Divine virtues,  
especially the splendor and majesty of all the Divine virtues taken  
together,  
triggers chemical responses within the glands that promote health,  
youth and well-being in all parts of the body.**

**Over time, through constant use of meditations of Divine virtues that  
are inspired by Divine Providence,  
with particular emphasis on tangible FEELINGS in the body,  
chemical secretions of the glands permanently preserve youth and  
vitality, resulting in immortality.**

**Many people, who have experienced negative or traumatic emotional  
experiences in life,  
must allow HEALING of these wounded emotions,  
so that they no longer attract unhappy realities out of the quantum field  
of infinite possibilities,  
and no longer wish secretly to die.**

**When anyone is harmed, whether self or other, all beings are affected by it.**

**Healing one's own emotional wounding blesses all others at the same time.**

**Feelings and emotions such as fear, anger, resentment, and despair etc. must be allowed to surface and be validated, and flow to heal, in an atmosphere of unconditional all encompassing love and empathy.**

**If negative emotions and feelings are suppressed or acted out destructively, more wounding results.**

**Flowing emotions and feelings are the change process.**

**Like the physical body which eliminates waste everyday, negative emotions and feelings of the astral body will come up spontaneously in day to day life FOR THE PURPOSE OF release and HEALING.**

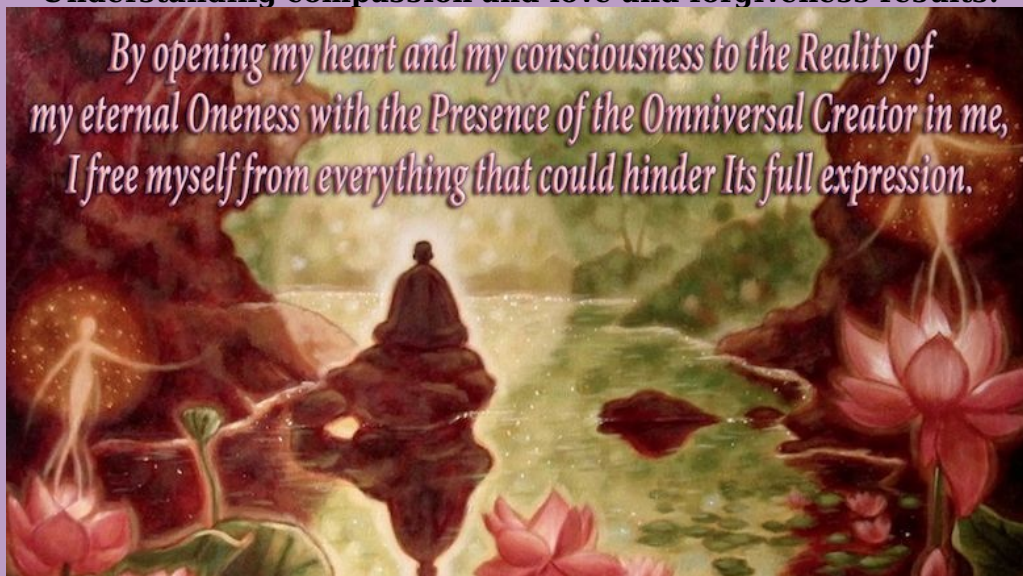

**This is necessary on an ongoing basis for youth and immortality to be the normal way of living.**

**When painful emotions come up, focus on them with empathy for the feelings themselves, and for the part of the self that has been wounded.**

***"Give thanks for all things, for that is my will concerning you."***

**Thanking the self and the feelings for all the wisdom gained from original wounding experiences, reveals many things.**

**Understanding compassion and love and forgiveness results.**

**Such healing takes place for immortality to be possible.**

**Unresolved negative feeling states that are held in the subconsciousness and in the body result in weakening of the immune system and the will to live.**

**Remember that negative emotions that are acted out destructively further traumatize the individual and others.**

***"When one is harmed, all are harmed."***

**Negative emotions that are suppressed, denied, or bypassed go underground into the subconscious.**

**These negative emotions are held as tension in the musculature of the body.**

**This stress, combined with any subconscious will to die that was caused by these emotional traumas, causes aging, sickness, and death.**

**When negative emotions come up in day to day life, and are embraced with unconditional all-encompassing love, and allowed to flow in a safe, non-destructive way, they go through a catharsis, a natural process of cleansing, purification, and transmutation.**

**Feelings and emotions are the water element.**

**When they flow naturally and stay pure, they cleanse and heal the astral plane of existence.**

**The physical realm is analogous to ice, the astral realm is like liquid water, the mental or causal plane is like water vapor, and the spiritual plane is like steam.**

**The change process of healthy emotional flowing in an atmosphere of unconditional love and gratitude, heals negative belief systems that were caused by emotional wounding.**

**Allowing feelings to flow and change in an atmosphere of empathy is similar to the cleansing of water through flowing freely.**

**The desire to live and the return to wonder and Immortality results from healing old emotional traumas through loving patient empathy and flow.**

**Spontaneous joy of experiencing life in physicality returns.**

**When life is joyful and happy, then youth and immortality are the natural state of all the levels of the body, the physical, the astral-emotional, the causal-mental, and the spiritual-intent.**

**Omnipotent flowing emotions and feelings of divine virtues enliven awe in the splendor and majesty of Divine Being.**

**By healing emotions and meditating on the Divine virtues of the letters of our name,  
and calling on the help of the heavenly hosts,  
a person can step into his or her birthright of immortality, true spiritual morality, awe and youth.**

## **MIRACLES**

### **Note:**

**In the changes that are coming, negative forces are understood, and appreciated for their important service of helping us learn through our experiences and mistakes.**

**They are loved and guided through divine virtues and the original law of creation, The Law of One, instead of judged, feared, used for selfish purposes, resisted, or destructively hated.  
*Love conquers all.***

**Control negative beings through Love and release.**

**Because of free will, we ask you, as many have asked you in these messages, to invoke The Law of One, and call on us in your meditations, to call us in your hearts, to help bring about the highest good harmony for all.**

**This gives us permission to focus our attention within your individual sphere of influence and reality.**

**It is our assignment from Divine Providence to respond to you when you ask for The Highest Good of All concerned.**

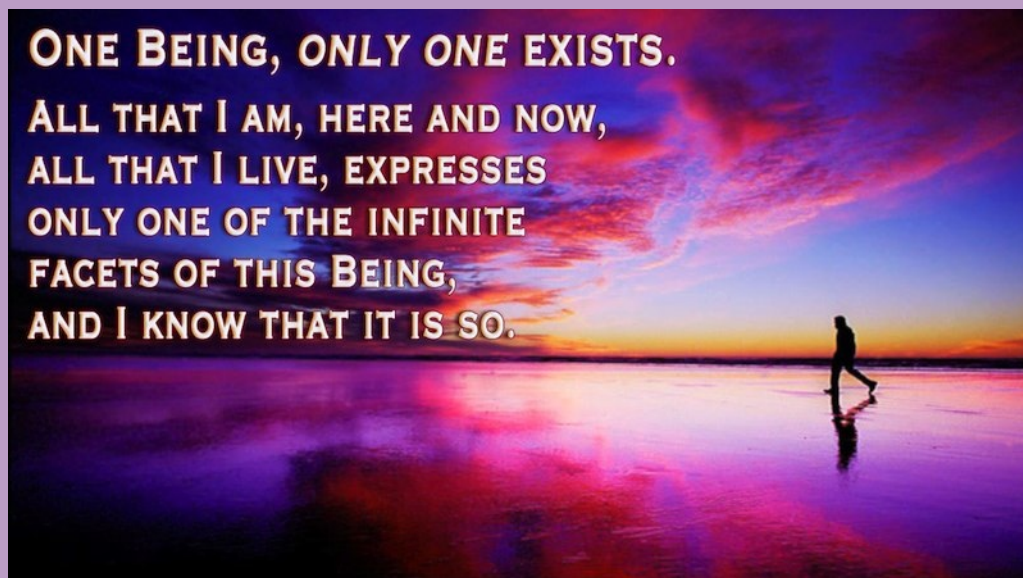

***All things work for good for those who believe.***

**It is with great joy in the heavens that we introduce ourselves to you.**

**We help you remember that'  
*Man is made in the image and likeness of Divine Being.  
As above, so below.  
Love conquers all.***

***"God's love is like the sun, it shines equally on the good and bad alike."***

**The children of Divine Being, who have been given dominion over all that has been created,  
then understand that the interconnectedness of all life makes it wise  
to decree The Law of One, The Law of Laws,  
asking for the highest good of all concerned.**

**In this way, negative forces are released for transformation to ensure that the highest good of all concerned, including their own, manifests.**

**In the past, before the Alpha and the Omega, or Heaven on Earth manifests,  
a dream, or an exercise in free will, concerning delayed time and 'parallel space' was allowed to take place,  
so that the people would test the infinite potential of The Law of One.**

**Veils of ignorance darkened the knowledge of The Law of One.**

**Gaps in time, and sometimes space, were inserted between destructive causes and events and their inevitable results, their karmic return, [ the karmic return which brought about enlightenment and learning that when one harms another, the harm returns many fold over to self].**

**This resulted in a type of auto-immune disease, a terrible suffering and bloodshed,  
and appeared to be mostly destructive.**

**Now the ongoing series of sudden unexpected quantum leaps in higher consciousness happening now on Earth are bringing about spontaneous**

remission.

**It is now the other end of the cycle, the end of the old and the beginning of the new.**

**Now suddenly, like an arrow being released after being slowly pulled back as far as it could go in a backwards direction, consciousness on Earth is hitting the mark in the opposite direction of understanding fate and harmlessness quickly and suddenly.**

**These quantum leaps of consciousness are natural reactions of an all-pervading omnipresent, omnipotent, omniscient, all loving healthy immune system in the body of Creation.**

*As above, so below.*

**It is important to remember that energy runs in rhythmic cycles along continuums of negative and positive poles.**

**Opposite poles are necessary for time and space to exist.**

**Day and night, hot and cold, big and small, empty and full, all polarities such as these enable their opposites to exist.**

**By loving polarity instead of fearing or resisting it, a third strand of DNA manifests activation, manifesting a consciousness that rejoices and maintains harmony between polarities.**

**Positive energy gives life, negative energy releases life. When life, through imperfect suffering, is no longer worth living, death enables transformation in to other states.**

**It is important to clarify that negative forces perform a necessary destructive function.**

**They perform the invaluable function of decomposition for recycling, for example, so that a fallen tree in the forest decays and becomes fertile life giving earth.**

**Another example of necessary decay functions is evident whenever a person uses free will to make a choice, such as to play instead of work, or write a symphony instead of eating a dinner.**

**All other possible realities, unchosen options, that energetically co-existed equally at the moment of decision decay at the moment a choice is made, so that the chosen activity can manifest clearly in time and space.**

**Decaying unchosen options is done in loving service by negative forces.**

**This is one reason why negative forces are equally loved by the Creator,  
because they serve the creation in this way.**

***"Gods love shines equally on the good and the bad alike."***

**By loving all equally, and using our dominion as sons and daughters of  
God over creation  
to ask for the highest good of all,  
harmony and satisfaction and justice prevails for all creation, for all  
polarities.**

**Negative beings exist for a reason,  
to carefully decay unused potentialities in a way that benefits the web of  
life,  
like the rotting tree in the forest.**

**They perform the same function in the microcosm of the human body  
during  
the breaking down of food  
and the elimination of wastes in the gastro-intestinal tract.**

**This is similarly evidenced in the daily process of cell death and rebirth  
in the human body.**

**The new quantum state will allow, as we have said before, Omnipotent  
Love and the highest Good of All concerned for all.**

**Since all time and all space are interconnected, like everything else  
in the web of life, the highest good of all concerned ripples out in  
infinite circles blessing all.**

***For I have not given you the spirit of fear, but of joy and life everlasting.***

**As awareness is changing to whole brain functioning, a wrong decision  
that would result in harm to anything,  
including self, can be intuitively and INSTANTLY felt and corrected.**

**Love Divine awakens in the human heart, allowing the eyes to see  
Divinity in all Creation.**

**This brings about the greatest divine  
virtues,  
including harmony and justice,  
which is our specific assignment from  
Divine Providence.**

**Each man and woman discovers that they are one with Divine Being and  
all  
creation, and that all other men are brothers and all women are sisters,  
that all creatures and beings are ONE.**

**Love and gratitude blooms.**

**In Heaven on Earth, all children, in the original purity of all ideas in  
Divine Mind, discover that all adults are loving parents.**

**Everyone remembers that the world, and all beings who live in it, are  
actual extensions of their own bodies.**

**Life becomes sweet.**

**Life becomes good.**

**Life becomes safe.**

**Life becomes worth living.**

**As heaven manifests on earth, the desire to be young and immortal is  
embraced with feelings of faith,  
and with the understanding that this is the highest good of all  
concerned, because with age comes wisdom.**

**There are human beings living today on earth that are over 30,000 years  
old.**

**Read the first three volumes of The Life and Teachings of the Masters of  
The Far East by Baird Spalding to learn of their ways.**

#### **Footnotes:**

**The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:**

**Judaism, Islam, and Christianity.**

**Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.**

**Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.**

**Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].**

**Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.  
These books have very important information for these studies.**

**The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.**

**Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.**

**Feel free to share these messages.**

**The Law of One is the original law of Creation,  
and is the supreme Law over all laws in all dimensions.**

### **THE LAW OF ONE**

**We are all one.**

**When one is harmed, all are harmed.**

**When one is helped, all are helped.**

**Therefore, in the name of who I AM,**

**and I AM one with all there is;**

**I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen.**

**I give thanks that this is done.**

**SO BE IT!**
