The Moon Angels of Sunlight on the Moon

Angels of 'E-M-P-E-B-Y-N'

26th Day of Lunar Cycle

Beloved,

***'We explain the influences that the sunlight has on the moon
and from there onto humans, the animal, vegetable and mineral
kingdoms;
in spiritual, mental, emotional and physical respect.'***

"As above, so below."

**Every divine virtue manifests on levels of
pure being, will, visualization, intellect, flowing emotions, and sensations
of form.**

**Every physical thing in creation has analogous correspondence
with divine virtues on these levels.**

**The Sun is analogous to, or is the physical manifestation of the
Divine Creative Electric Masculine Power of Omnipotent INTENT, or WILL**

for the highest good of all.

**The Moon is the manifestation of the Divine Feminine magnetic
receptive power
which comes from omnipresent FLOWING TANGIBLE FEELINGS**

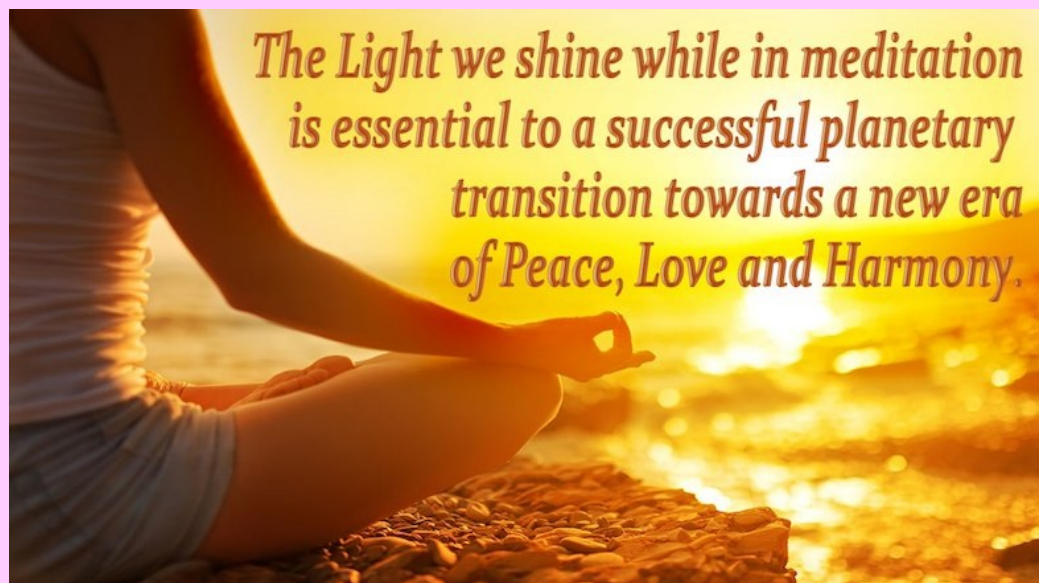

that are the highest good of all.

**Will is electric in nature and Emotion is magnetic. Together they form the
Electro-magnetic energy that flows and forms the hologram of Creation.
The ancients call this the Electro-magnetic fluid.**

**When the Sun's Light hits the Moon, will unites with flowing emotions.
Electrical energy transforms and becomes magnetic.**

**Magnetic energy of flowing emotions is the precursor of
change in the physical realm. Magnetic energy ATTRACTS.**

**All miracles in the physical realm are preceded by,
and depend upon, the generation of appropriate flowing emotions.**

**Each degree of the zodiac that the Sun focuses on the Moon determines
the specific WILL or INTENTION that the Moon changes into flowing
emotions .**

By knowing the INTENT, you know the FLOWING EMOTION that expresses it.

If a specific change is desired upon the physical realm, even though it can be manifested any time, it can be most easily and powerfully manifested through flowing feelings during the appropriate zodiacal degree of the sun.

The second factor is the day of the Moon Cycle. Each day of the 28 day Moon Cycle has a specific receptivity.

A person determines which day of the moon cycle corresponds with the specific flowing emotions that need to be generated for a specific manifestation.

For example, the 25th day of each 28-day Moon Cycle is attuned to plants. Anytime a person desires to create and manifest a miracle concerning plants, it is easiest and wise to do it on the 25th day of a moon cycle when the emotions that plants respond to the best are magnified.

For example, suppose a person wishes to grow medicinal plants that enhance EMOTIONAL attunement to Divine Will for the highest good and the divine virtues.

The specific time to meditate and generate the being, will, concepts, and flowing emotions to manifest the most powerful plants of this nature, would be anytime during the sign of Cancer, because the entire constellation of Cancer is the attunement to flowing emotions of Divine Will of the divine virtues and the highest good of all, with particular emphasis on the 25th day of the Moon Cycle, the moon day of plants.

By looking at the Angels who govern the sign of the zodiac for each day, and seeing which day of the 28 day Moon Cycle is in effect, a person aligns flowing emotions of meditations accordingly, in order to ride and influence magnetic waves of Universal Flowing Emotion.

'We explain the influences that the sunlight has on the moon and from there onto humans, the animal, vegetable and mineral kingdoms; in spiritual, mental, emotional and physical respect.'

**By meditating on the divine virtues associated with the letters in our name,
and calling on our assistance, the following is gained:**

'E-M-P-E-B-Y-N

E

Through the virtue of omnipresence, we are attuned to cosmic consciousness as it manifests in terms of materialization and dematerialization and the power to create new realities.

M

We are masters of fluidity and the emotional flow and receptivity of the moon.

P

We teach divine nostalgia and the longing for merging with perfection of spiritual realization, the outpouring of light from the Sun.

E

We confer special INTUITION and the faculty of universal transfer of consciousness.

B

We reveal cognition of Universal Life and polarity; yin and yang, sun and moon, male and female, will and flowing emotions, and how each compliments the other, leading to profound wisdom.

Y

We teach understanding of the rhythms of light and darkness of the sun and moon, the dance of male and female. We teach how the application of these principles explains many of the miracles spoken of in holy books.

N

We seek to bless humanity with supreme happiness and to awaken recognition of the state of spiritual evolution of every being.'

The melody formed by the letters and virtues of our name are the notes:

D ~ D ~ B ~ D ~ A ~ C# ~ A.

In the time of the Alpha and the Omega, the time of Heaven on Earth, which is now birthing, the Children of God flow with the natural rhythms and cycles of the Web of Life, the unified field of energy.

Every 26th day of each 28-Day Moon Cycle we flood the emotions of earth with understanding of flowing emotions of Divine Will as it expresses through the sun's rays on the moon. We do this so that individual will aligns with Universal Will in the cycles and rhythms of flowing emotion.
