A new moon is always a new beginning.

This new beginning ushers us all to divine diplomacy

as the sun and moon are at 11 Cancer, the heavenly hosts of mystical initiation.

These hosts were sent yesterday.

The north node, the direction of the chart, is 18 Cancer, the heavenly hosts of divine evolution.

The Angels of Evolution

Also known as

The Angels

of

Sikesti

Beloved,

We inspire divine faith in the children of light,
faith in the goodness and beauty of creation,
faith in the intelligent processes at work that guide the evolution of
everything.

We inspire a child of God to know about the act of creation,
of everything as Divine Providence purposes it.

Divine Purpose can be understood through analogy,
wherein a person is inspired to read the deeper meaning behind the
most
subtle clues.

Meditate on the perfect shapes of snowflakes, of which no two are
alike,
or the delicate flushes of morning lights that turn into brightness of
days,
and then into twilights,
and then from evenings into the darkness of nights.

We inspire understanding evolution from the smallest particle to the
largest universe.

Through the understanding of analogy [even the most subtle analogy]
a person sees all-penetrating Divine Purpose and high inspiration
behind
all of creation.

It is our joy to help each seeker understand evolution in this way.

Divine Purpose guides the growth of all creation.

We reveal that evolution manifests from omnipresent,
omnipotent flowing emotions of Loving Divine Will for the
highest good of all.

We inspire divine faith in the children of light,
faith in the goodness and beauty of creation,
faith in the intelligent processes at work that guide the evolution of
everything.

*Over the next 28 days, we discover that to create beauty in our lives,
we must ask.*

*Ask for faith, ask for enlightenment, ask for miracles of love to heal any
situation.*

***"Ye must be as little children to enter the kingdom of
God."***

*This month finds us recognizing and asking for divine assistance,
both individually and collectively,
so that we, together, manifest the kingdom of heaven on earth.*

Uranus is in 5 Taurus, the heavenly hosts of earthly happiness.

Uranus will be in Taurus until 2025.

***As Uranus is in Taurus, which rules divine highest good love
manifesting in physical reality,
such as honorable money, pleasures, values, possessions and ideals, we
will have a much more
refined sense of what is deeply desirable and what is not.***

***Uranus rules almighty divine will that brings sudden unexpected
changes for the better.
Over the next seven years, the pleasures and possessions we cherish
evolve to levels of divine harmony and love for all.***

***Environmental beauty and harmony, the splendor and majesty of the
human body,
the happiness and joy of all creation, will all be treasured.***

***At this stage of the journey,
this new moon opens gateways to flow our real divine purpose,***

***with divine faith, optimism, and willpower,
and deep emotional healing of the past.***

Because this new moon beginning has a north node in the sign of Cancer,

***we realize that we have the ability,
as divine beings,***

***to materialize or dematerialize current realities whenever necessary,
to nurture the precious creation of Earth.***

We are entering the ancient future, the time of flowering,

"on earth as it is in heaven".

**The 28 Angels of the Moon Sphere
Divine Emotional Magnetic Rhythm**

*'The Moon in its planetary function
influences everything liquid on our earth.*

The Moon sphere is analogous to flowing emotions and feelings.

*The emotional awareness of each child of God,
is known in ancient terms as the astral body.*

**Emotions of happiness are necessary for all timelines to manifest divine harmony in
the quantum field.**

**Healing of the Divine Feminine, the awesome realm of flowing emotions and magnetism,
the water element, is necessary for Heaven to manifest on Earth.**

The healing of emotional flowing of each child of God on Earth is therefore of major importance.

**The Angels of the Moon Sphere
are commissioned with great responsibility in this regard.**

Angels of the Moon work with mankind in the realm of flowing emotions,
in contrast to the Angels of the 360 degrees of the zodiac
surrounding the Earth who work with the children of God in the realm of vitality.

There are 28 angel groups, one for each day of the moon cycle.

Beloved,

We inspire perfect use of OMNIPOTENT SACRED WILL
FOR THE HIGHEST GOOD OF ALL
and SACRED FLOWING EMOTIONS
in the meditation of the divine virtues so that all things are
possible.

We have been given the responsibility by Divine Providence to control not only the tides of earth,
but also the tides of water in the bodies of all living things.
These tides correspond to flowing emotions of omnipresent,
omnipotent, and omniscient Divine Love and Life.

*When the children of God call on us for our help,
we teach them how to use omnipotent
will and intent for the highest good of all in combination
with strong flowing emotions of unconditional Divine Love
to heal the emotional reality of Earth.*

In this way we teach how to control the physical reality of Earth,
because the physical reality of each person,
and of the Earth as a whole,
is determined by flowing emotions.

Just as we control the tides of earth,
we teach the children of God to attune themselves emotionally to the rhythms of Divine Life,
so that they may flow with the sea of unconditional all encompassing Love,
that ebbs and flows with the expression of polarity in Universal Consciousness.

*We particularly attune the child of God to the use of the Sacred Dream,
the blueprint for perfection on the Earth
This blueprint is the Prime Will for the highest good of all for Earth.*

This is the Prime Will for bringing about a perfect kingdom,
a home of pristine beauty and harmony for all living creatures.

Miracles are created by combining OMNIPOTENT WILL FOR THE HIGHEST GOOD of the Earth,
the electric-masculine power,
with the FLOWING EMOTIONS of unconditional love and flowing feelings of the Sacred Dream of the Moon,
the magnetic-feminine power.

Just like the miracles of the tides, FLOWING EMOTIONS of the Sacred Dream and Divine Love of the Moon,
manifest perfect power,
rhythm, harmony, and cycles of flow in the emotional life
for all the children of God and for all sentient creatures.

*By studying the tides, and flowing with emotions of their healing effects,
perfect understanding of this is attained.*

By studying the scientific effects of the tides,
the influence of a rhythmic emotional life on the well being of the physical bodies
of the children of God and on the creatures of the world is understood.

Attune to the divine virtues represented by the letters of our name,

and call on our help to receive the following:

'E-B-V-A-P

We inspire perfect use of OMNIPOTENT SACRED WILL

*FOR THE HIGHEST GOOD OF ALL and SACRED FLOWING EMOTIONS
in the meditation of the divine virtues so that all things are possible.*

On the first day of every 28-Day Moon Cycle we flood the Earth with deep rhythmic flowing emotions that control the tides,
so that all life may attune to the rhythms of the Heart Divine that pulsates throughout the Web of Life.

"All that I do ye shall do and more."
