**This time of Great *Healing and Enlightenment*,
a time when all is revealed,
was prophesied by ancestors of many cultures and times.**

16 degrees Cancer

The Angels of **Cosmic Law**

Also known as

**The Angels
of**

Kalote

Beloved,

The constellation of Cancer is of the water element of flowing feelings.

Cancer is specifically flowing emotions of divine will for the highest good of all.

Flow intelligence, especially of magnetic emotions, determines which realities manifest out of the quantum field of infinite possibility.

The original law of creation, The Law of One, reigns supreme over all other laws, both civil and social.

**This law oversees activities of universal intelligence to bring true
spiritual morality,
so that wonder and awe at the splendor and majesty of divine being
awakens vitality, youthening, and even immortality.**

**Each time you feel yourself desiring specific understandings of
Cosmic Law,
we are the heavenly host that are here to inspire you.**

**Your desire could be for divine justice, or harmony, or peace, or
joy, or faith, or love, or grace, or abundance, or education, commerce,
entertainment, or earth ray location, among others.**

**Whatever divine understanding it is, on whatever level of your being,
we ask that you feel free to ask for our assistance.**

**In all circumstances, personal or collective, we inspire the
children of divine being
to understand and use The Law of One, which is the original law of
Creation, and is the supreme Law over all laws in all dimensions.**

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

I ask that THE HIGHEST GOOD OF ALL happen.

I give thanks that this is done.

SO BE IT!

**When the sun is at 16 degrees Cancer,
the great being,
whose physical body is our solar sun,
sends out messages and rays of Cosmic Law.**

**As the day progresses, these virtues continually broadcast through
rays of light.**

Remember that rays of sunlight are streaming information.

**EnLIGHTenment is embedded in the original spirits and souls
of all children of divine being.**

"Ye are made in the image and likeness of God."

"Know ye not that ye are Gods?"

Therefore, light streams out of each being, just as light streams in.

**Looking at the sun safely, such as at sunset,
allows waves of light to enter into the optic nerve and stimulate
the pineal gland.**

**Streaming light information, or waves, become particles of light in the
pineal gland.**

The act of going within in meditation activates Theta brainwave functions of deep inner thought.

Since the brain communicates in visual images, the visual impact of looking at the sun activates corresponding enlightenment codes in the pineal gland, which has over 20,000 psychoactive chemicals that are a thousand times stronger than any other source, plant or chemical.

Therefore, attention to light coming through the optic nerves transforms light waves into light particles.

These particles of light are packets of information that unfold in the pineal gland, among others, and are decoded in Delta, Theta, Alpha, and Beta states of meditation.

Remember that the pineal gland has over 20,000 psychoactive chemicals that are natural and are a thousand times stronger than psychoactive substances in the plant or pharmaceutical world.

The longing for spiritual bliss, awe, and the vitality and true spiritual morality of perfection and unity with divine light and beauty dwells within all creation.

As each Divine packet of information is processed, meditation reveals EFFECTS in spirit, mind, emotions, and body that are safe, natural, and in harmony with the highest good.

Within one minute of having a thought, over a hundred thousand chemical reactions occur in the human body.

In addition, even if you are not in deep meditation, or looking at the sun or other sources of natural light such as stars etc., know that by INTENDING to attune to divine virtues in a super conscious way, we reveal cosmic laws through FLOWING DIVINE EMOTIONS.

**Heaven and Earth are one.
"On Earth as it is in Heaven."**

KA-L-O-TE

KWe teach the children of God to have true faith, the faith that moves mountains and makes the crooked straight.

A and umlaut A, aeWe inspire gifts of the spirit to manifest within the intellect, such as clairvoyance and clairaudience, and the art of levitation.

We inspire the recognition of and release of imperfections on every level, for changes into other states that are the highest good of all.

LWe teach how to become one with the divine virtues and

umlaut O, eu, and Ohow to transform anything through cognition brought about by Love Divine.

We teach how to invoke any situation in the emotional world and bring about harmony.

TWe confer high inspiration, and true communication with divinity

Eand teach communication with all beings and the art of materialization and dematerialization.

The heavenly hosts of Kalote oversee all of the divine virtues.

Each of these virtues has a certain color or hue, a musical tone, a smell, an emotion, and sensation.

In these ways you will know them in time, for as these divine qualities are remembered within you, we help open gifts of clairvoyance, clairaudience, clairsentience, and gifts of psychic taste and smell.

We rejoice as you clothe yourselves in many hues and sounds and emotions of qualities of all divine virtues that indwell within you.

We rejoice as each of you become masters of Cosmic Law at appropriate times in your spiritual journey to unity with Divine Light.

First experience yourself as pure being that is one with Divine Being and all Creation.

In that deep inward meditation, it is natural to be aware of the virtue of original Divine omnipotent faith and will for the highest good of all.

In this way individual will is one with Divine Will for the highest good of all.

This awakens wisdom and enlightenment, and opens the heart to unconditional, all encompassing love.

"Love conquers all."

We teach the children of light and love about cosmic laws, especially The Law of One, which is the original law.

The Law of One is The Law of Laws.

We teach how the divine virtues, in their cause and effect, become valid in the legality of the micro- and the macrocosm.

"As above, so below."

Remember that The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are healed.

Therefore, in the name of who I AM ,

and I AM one with all there is;

I ask that THE HIGHEST GOOD OF ALL happen.

I give thanks that this is done.

SO BE IT!

So it is.

**We inspire using cosmic law with clear divine
inspiration in each situation,
and divine virtues to create changes,
so that the highest good of all concerned,
and spiritual perfection,
manifests for all beings.**

"All that I do, ye shall do and more."

Note from a student of divine virtues:

Everyone's voice has a unique signature.

Each person pronounces letters a little differently.

*Go with inner guidance and pronounce each letter the way it feels the best to
you.*

*Below is a wonderful explanation of the sound of the letters as Franz Bardon
would have used them, since his original language was German.*

The pronunciation of the letter

It may be no coincidence that Franz Bardon incarnated with German as his mother tongue since German (in contrast to English and French, for instance) is a phonetic language, which means that nearly every vowel and consonant is consistently pronounced exactly as it is written. So the letter "a" (aah) will always sound like an "a" (aah), the letter "i" (ee) will always sound like an "i" (ee) etc. This phonetic consistency allows a much easier study of letters. Also, German has additional vowels (such as ü and ö (u and o umlaut), e (é) and the "simple o") and a consonant ("ch") which are unknown in the English language.

*There are two sound files included: **alphabet.wav** and **alphabetpuresounds.wav** (courtesy of Ralf <http://home.arcor.de/ralflehnert>). A third one is just for fun - a child's recording of the complete German alphabet. The letters in **alphabet.wav** and **alphabetpuresounds.wav** have been recorded in the order listed below.*

(Note: The following list uses the French letter "é" (which isn't used in English and the pronunciation of which corresponds exactly to the German "e") to help describe pronunciation. The vowels and consonants which strongly differ from their equivalents in the English alphabet appear in bold type.)

A is pronounced "aah"

B is pronounced "bé"

C is pronounced "tsé"

D is pronounced "dé"

E is pronounced "é". This sound doesn't exist in English but I think in many other languages (it's also widely used in French, for instance, where it is spelled "é"). English people usually turn it into an "ay" when trying to pronounce it. It is like a lighter, higher version of the English "a" as pronounced in "hat".

F is pronounced as the English "f"

G is pronounced "gé" ("g" as in "get")

H is pronounced "hah" (as in "hut")

I is pronounced "ee" (as the I in "sit" or "see" (i.e. it is not a composite sound as the "I" of the English alphabet. This would be spelled "ai" in German).

J is pronounced "yot" (as in "yacht"). The pronunciation of "j" corresponds exactly to the English "y". For instance "yes" is "ja" (pronounced "yah") in German.

K is pronounced "kah"

L is pronounced like the French word "elle"

M is pronounced as the English "m"

N is pronounced as the English "n"

O is pronounced similar to the British pronunciation of the "o" in "dot". (The "o" of the English alphabet is a composite sound consisting of a pure "o" followed by "oo", while the German "o" is a simple, pure or "mono" "o".)

P is pronounced "pé"

R is pronounced "airr", less rolling than the English "r" In fact, there are two Rs: one commonly used "pharyngeal" R (not featured on the sound files; this R will be part of a typical German accent when the speaker is unable to pronounce the English R), and one lingual R which can be heard on the files. (To pronounce the English R, one needs to "employ" both the tongue and the back of the throat.)

S is pronounced as the English "s"

T is pronounced "té"

U is pronounced "oo"

*V is identical to the F consonant (not contained in **alphabetpuresounds.wav**)*

W is pronounced "vé"

*X is pronounced "IKS" (not contained in **alphabet.wav** and **alphabetpuresounds.wav**)*

Y is pronounced as ü (u umlaut)

Z according to Bardon should be pronounced as a soft humming "dz" (in normal usage, "z" is pronounced in the same manner as the "c", i.e. "ts"). Bardon writes, "while the c (tsé) is to be pronounced hard/harshly, the z is to be pronounced in a humming (or buzzing) fashion, similar to an s, i.e. softly.

CH is a widely used sound formed with/in the pharynx (back of the

throat) which in the English-speaking world only has a Scottish equivalent ("Loch Lomond"). For instance, "I am" corresponds in German to "Ich bin".

SCH corresponds to the English "sh" and is pronounced in the same manner.

Ä (a umlaut) is pronounced like the "a" in the English word "had".

(ä is spelled ae when the keyboard doesn't allow to print it.

However, the angel groups Bardonia mentions such as Adae have to be pronounced a-d-a-e, i.e. each letter individually, as far as I have seen.)

Ö (o umlaut) is pronounced similarly to the ö sound in bird, curd, herd etc.

Ü (u umlaut) is pronounced as the "u" in the French word "sucre" and, as far as I know, not found in English (with the exception of a certain Northern English dialect).

Light and love,
Ulla

TODAY'S REFLECTION

Follow high inspiration and inner guidance.

The intuitive mind is a sacred gift and the rational mind is a faithful servant.

We have created a society that often honors the servant and has forgotten the gift.

Albert Einstein

Power of the Circle

You have noticed that everything an Indian does is in a circle, and that is because the Power of the World always works in circles, and everything tries to be round. In the old days when we were a strong and happy people, all our power came to us from the sacred hoop of the nation, and as long as the hoop was unbroken, the people flourished. The flowering tree was the living center of the hoop, and the circle of the four quarters nourished it. The east gave peace and light, the south gave warmth, the west gave rain, and the north with its cold and mighty wind gave strength and endurance. This knowledge came to us from the outer world with our religion. Everything the Power of the World does is in a circle. The sky is round, and I have heard that the earth is round like a ball, and so are all the stars. The wind, in its greatest power, whirls, Birds make their nests in circles, for theirs is the same religion as ours. The sun comes forth and goes down again in a circle. The moon does the same, and both are round. Even the seasons form a great circle in their changing, and always come back again to where they were. The life of a man is a circle from childhood to childhood, and so it is in everything where power moves. Our teepees were round like the nests of birds, and these were always set in a circle, the nation's hoop, a nest of many nests, where the Great Spirit meant for us to hatch our children.

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.*

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4].

Publisher is Dieter Rüggeberg, Wuppertal/W. Germany.

These books have very important information for these studies.

The book " Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

If you have these, it's helpful to read Frabato the Magician first, with appendixes, and then read appendixes from the other three for background.
