Angels of Divine Love and Legality of Virtues

Also known as

The Angels

of

Ysquiron

Beloved,

**The cycles and rhythms of life,
based on omnipotent, omnipresent, and omniscient divine awareness,
propel people and all creation to change in perfect harmony.**

**Through beneficial Divine Love that constantly flows through all of
space,**

**lessons of harmlessness grow within hearts over time,
so that harsh teachings of negative karmic return
are finally understood,
and mastery of cause and effect leads to
good causes and good effects.**

"Ye reap what you sow."

**Through understanding cause and effect,
and listening to inner guidance,
divine love opens the eyes to transform and transmute imperfections**

into supreme happiness.

**We inspire the children of divine being
with awareness that unhappy fates
are supposed to be changed,
by changing causes,
to manifest supreme divine happiness.**

**Divine Mercy allows the power of love to heal Earth and bring forth
the Kingdom of Heaven without additional suffering.**

Love creates mercy and its parallel virtues.

**Divine Love in its manifestations as mercy fulfills the Laws of Justice
and Karma.**

**We answer when a child of light asks, *"How does Divine Love operate in
the spheres and planes of spirit, mind, emotion, and form?"***

**Remember that the Created Worlds are part of one Web of Life,
one Unified Field.**

**As people seek Love, unity with Divine Light,
and the highest good of all concerned,
in the rhythms and cycles of life,
we inspire unity with omnipotent divine will and cognition
brought about by seeing through the eyes of love.**

**If one of you sows or creates harm,
according to the Laws of Karma and Justice,
this same energy must be reaped, it must return to you so that
the importance and desirability of harmlessness is
learned through personal experience.**

**By experiencing the same harm that one has caused another,
lessons of cause and effect are learned through trial and error on the
path to spiritual maturity.**

**Through cause and effect, the lesson that what
goes around comes around
is learned.**

**To manifest supreme happiness and cohesion in the Unified Field,
harmlessness and harmony of all participants,
both self and others,
all sentient beings,
human and animal, must be enlivened,
to the point of overriding certain situations of negative karma,
through divine grace.**

We answer when a child of light asks,
*"If, through an act of Divine Mercy, a guilty person is protected from
the harmful results of a past mistake,
how can justice and harmony be served and the lessons of harmlessness
learned?"*

This great mystery is explained.

**Emotions of True Divine Blessing and Mercy can flood into a person
in pure being, will, thought, emotions, and sensations
and thereby create within that person higher awareness.**

It is a gift.

**It is a gift of flowing love in the form of emotions of higher
awareness, from one being to another.**

The recipient is gifted a higher spiritual experience, a higher knowing.

**This true divine blessing and higher knowing awaken deep heartfelt
realizations of the necessity of harmlessness.**

**Memories of indwelling divinity, or inner innocence and purity, are then
awakened to some extent.**

**This higher realization raises the energy field so that it no longer
vibrates to and attracts more harmful energy.**

**This results in protection from suffering of self and others
when returning negative karmic energies arrive.**

**These returning energies at this point will manifest symbolically,
in a much softer symbolic way.**

**In lessening the harm and suffering of returning negative karmas
through receiving divine grace,
lessons are received and awakened through miraculous breakthroughs
in
consciousness from higher sources.**

**Thus, returning negative karma manifests symbolically, bouncing off a
persons energy field
without causing much actual harm or suffering to anyone.**

**Therefore, as the Sun traverses the frequency of Divine Love in its
manifestation as Mercy,
we inspire the flowing of magnetic Love and true divine blessing to all**

creation and for all sentient beings.

Divine Blessing opens each heart to the Wisdom of Ages and cycles of life, healing the past and the future.

Through Divine Grace, possible future results of past mistakes of mankind go through transmutation.

Know that within Divine Mercy lies the power to heal Earth and bring forth the Kingdom of Heaven without additional suffering.

We bless you with Love Divine.

*Thanks to Simona for passing this on!
REMEMBERING HOW TO PRODUCE MANNA*

Sit quiet, spine erect. Envision and connect with all of your glands - pituitary, pineal, thalamus, hypothalamus, parathyroid, thyroid, lymph, renal, all ethereal glands etc. etc. -, see them igniting, ie for instance see white light flashing out, or other images, just feel guided by your own inner inspiration. It does not matter to know all the glands in the body and energy bodies and to know where they are exactly located. Just intend that your divine self guides you and trust that everything proceeds as it should be. Then talk to your glands and intent by saying: "Thank you for producing manna now." Envision your spine and place this intent into the spine, your nerval messaging system to the brain. Automatically your body produces manna.

*Repeat this technique as often as needed and take as much time as wished to ingest the manna.**

**Personally, I move on quite quickly because I have a big working schedule and often do it at work or whenever I feel like it, but it can also be done during meditation time and can be savored and enjoyed while ingesting manna in my Body Temple of Light.*

Personally, I live on manna without physical food one day per week and the other days I only have one vegan meal per day but produce manna daily. I also noticed that I do not need any supplements like minerals, vitamins or enzymes any more. The body is divinely and perfectly nourished.

Liquid Manna is a unique form of nutrition.

Nutrition is one of the strongest dependencies of the human being. In these times of changing paradigms, we all have the opportunity to move into a life without dependencies and ascend into complete freedom: freedom from aging, freedom from creating diseases in order to learn, freedom from physical needs. It is time to take back our power and

return to feeding and nourishing our own body. Producing liquid Manna is an extraordinary way to break restrictions and needs. Liquid Manna's availability is unlimited. It can be accessed at any time, resulting in a sense of autonomy and freedom in the area of nutrition.

It is nonmaterial, and its energetic qualities come from an internal Divine source. Liquid Manna can be ingested on a daily basis and can have profound effects on the body, mind and spirit.

Liquid Manna is generated, ingested, distributed, and self-regulated within the body. The composition is unique to the individual invoking the process. Manna is produced to create the needed substances with regards to each individual nutritional and physical shape. Each human being can create their own Liquid Manna in a form which is perfect and unique to them.

Liquid Manna generation is a natural ability. Producing manna is remembering who we really are. Our ability to produce Liquid Manna for ourselves reestablishes our connection to our Divine remembrance where this knowledge lies, and through applying this method we strengthen that connection.

The activation of our own natural divine gift - the ability to manufacture Liquid Manna to nourish and support our bodies - is both revolutionary and absolutely natural. It is a connection to new levels of our Divine Self. It is not a program we have to learn, we just have to activate this dormant ability and switch the button on. Once activated, this program is at our disposal for the rest of our life. With the activation we allow the divine energy which is already there to flow through us and to manifest itself.

Our ascending bodies today need a highly spiritual and essential nutrition which we can manifest and produce ourselves. The integration of manna inside the bodies is very easy and effortless. Producing manna is different from fasting where the body has to get used to food again. After some days of manna we can continue to eat physical food as usual. With manna food we do not experience headaches, cravings, energy lows or other pains.

We can decide to live only with manna or can produce manna in addition to regular, physical food. We can also change and live one or some days on manna and the others days eat physical food.

In any case, taking manna two times per day provides the cells with all the energies they need and which physical food does not provide. Manna contains everything the physical and energy bodies need for perfect functioning.

Manna takes your body to new energy levels and heals and detoxifies the entire system. It is different from prana and chi, because manna is produced by ourselves in complete autonomy. It is not an energy from an outside source.

Footnotes

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her. The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others. Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

If you have these, it may be helpful to read Frabato the Magician first, with appendixes, and then read appendixes from the other three for background.

The Law of One is the original law of Creation, and is the supreme Law over all laws in all dimensions.

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM,

and I am one with all there is;

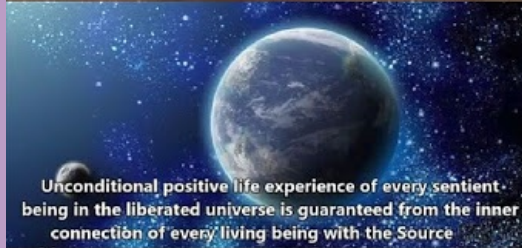

I ask that THE HIGHEST GOOD OF ALL concerned happen.

I give thanks that this is done.

SO BE IT!
So it is.
