The Angels of The Power of the Word

Also known as

The Angels
of

Abagrion

Beloved,

The Power of The Word is a natural birthright of each person, and is the activity of Delta, Theta, Alpha, and Beta brainwaves working together, in perfect harmony, in conscious awareness.

When this conscious harmony occurs, the power to create and attract new realities into form on every level of being is natural.

Simply put, when a person realizes their oneness with all creation [Delta-low frequency] and creates an intention [Delta-higher frequency], and creates a visual image of this intention [Delta], and then follows with inner thoughts about this intention and visual image [Theta], followed by flowing emotions of this happening in real now time [Alpha], along with imagined sensations of this visual image happening in real now time [Beta], then this new reality is attracted into being out of the quantum field.

*Delta is the state of pure being.
Theta is awareness of deep inner thoughts.
Alpha is flowing emotions.
Beta is awareness of the five senses and logic, of linear thought and memory.*

Practicing these four levels of awareness with imagined emotions is

*By aligning these four levels of awareness with imagined creations in meditation,
a person works miracles.*

*In this way an information "packet" is created, and implanted, in the quantum field.
This is actually a holographic lens, made from the internalized visual image in imagination,
that projects new realities into manifestation.*

*This imagined visual image, of what is desired, stimulates the pineal gland,
often referred to in history as the 'third eye'.*

The pineal gland then secretes a unique combination of psychoactive chemicals into the blood stream.

*This causes appropriate 'gifts of the spirit' to manifest according to the original desire, intent, visual image of what is desired,
according to the original deep concepts about this desire-image, and according to the imagined tangible feelings in the body and sensations.*

**Each person is a Child of Divine Being,
and manifested accordingly,
a unique expression of Divine Being,
in the image and likeness of Divine Being.
"All that I do ye shall do and more."**

**Because this likeness exists on the levels of awareness explained above,
a child of light functions accordingly to the creator.**

Each person creates his or her reality either consciously or unconsciously, through The Power of The Word as explained above.

It is our province to help people on the path of enlightenment to consciously master this process,
so that Heaven on Earth is created,
bringing grace and happiness to all.

We guide, step by step, the understanding of this cosmic language,
this Power of the Word,
which uses the imagination,
as it has been taught and passed down through the ages.

This knowledge is used to perform miracles,
that teachers have demonstrated in ages past,
miracles that out picture Omnipotent Will of Divine Providence,

planted in each seed of creation,
for the highest good of all concerned.
The original Will, desire, and intent of Divine Providence,

is for supreme happiness to flow within each child of God and in all of creation,

and for Heaven to manifest on Earth.

When flowing EMOTIONS are attuned to this Perfect Will for the highest good of all,
then inner guidance inspires which intentions, visualizations, and virtues to use in every situation,
outpicturing whatever brings forth highest perfection.

Use The Power of the Word to manifest Divine Perfection.

Here is the ancient practice to activate all four brainwaves to manifest divine qualities.

Go deep within.

Experience yourself as pure being, before and beyond thought, as pure life and one with Divine Mind and all creation.

This activates the Delta brainwave of pure being.

In this state of omnipresent pure being, the Delta brainwave state, locate yourself in your physical body as a tiny dot in the solar plexus.

Now, in deep meditation, enliven a divine intention, visualization, or, if you enliven a virtue, do it by visualizing it as a tiny sun shining in its elemental region.

*This is a higher delta brainwave state,
bordering on Theta brainwaves.*

Here is an example on meditating on a divine virtue.

*Fire virtues, such as omnipotence, the letter K,
are visualized as tiny suns shining in the head region.*

The sun will blaze forth a color corresponding to its virtue.

Letter K is a silvery blue color.

Visualize a silvery blue sun blazing forth in the head region.

*Meditate on the meaning of letter K,
which is original divine omnipotence,
or original divine willpower for the highest good of all.*

*This divine quality gives faith that is strong enough to manifest any
miracle.*

*Deep inner thought or contemplation with visualization activates the
Theta brainwave state.*

*Omnipotence as an original quality is visualized and contemplated in
this case.*

*As you visualize and contemplate original omnipotence, flow with
emotions of omnipotence,
the faith that gives the ability to bring forth miracles.*

*Sound enlivens emotions and feelings, so use sound either inwardly or
outwardly to potentize
the emotions of omnipotence and faith to attract new realities into
form.*

Emotions and sound activate the alpha brainwave state.

The sound of letter K is the musical note of B.

Sensations activate the Beta brainwave state.

Sense the warmth and expansion of the fire element.

***Keeping the rhythm of the breath natural, experience this energy
radiating via the out breath
through the pores of the skin over the organ controlled by the virtue.***

For letter K, this is the left ear.

***On the exhale, it is sent to whatever your inner guidance directs in the
outer world.***

***With the in breath, it comes back into the body in the same way,
through the left ear.***

Keep the rhythm of the breath natural.

This may be difficult at first, but with practice is easy.

Dissolve the silver light when you are finished

to protect the natural balance of elements in the body.

Air virtues are seen as tiny suns in the lung region.

Water virtues are seen as tiny suns in the abdomen.

Earth virtues are seen as tiny suns in the leg region.

Study each virtue.

Meditate on each one according to the pattern above.

Ask for our help.

This is how The Power of the Word works.

***As you can see,
The Power of the Word is a four part language,
it is the original language.***

**Remember that sound enlivens flowing emotions of a divine virtue
as it is spoken in the four-sense way
of being-will, thought, emotion, and sensation
[Delta, Theta, Alpha, and Beta brainwave states].**

**Emotions contain compressed information, like a zip file,
and are also magnetic, and attract out of the quantum field new
physical realities
that correspond to the information contained within the emotions
themselves.**

Sound combined with emotion is charged with creative power.

If the sound is spoken inwardly, it will change the astral or emotional world.

**If it is spoken aloud, physical reality will be changed directly.
As with any language, sounds are joined together to form words**

**which are spoken using pure being,
intent-visualization, meaning, emotions, and sensations.
Because of the necessity of strong emotion to attract new realities,
many masters on the path to illumination
reach their final transformations of consciousness
in extreme moments of crisis.**

**Through using The Power of the Word in perilous moments,
to visualize a new and more beautiful reality,
the four-sense speaking of Divine Virtues can transform any polarity.**

It will transform negativity into goodness and enlightenment.

**Calling forth creative powers of Divine Virtues through The Power of the
Word
can enliven resurrection and enlightenment when Divine Providence permits.
The soul on its journey to perfection learns how to transmute negativity and
control negative beings,
through the mastery of recognizing and releasing imperfections through
The Power of the Word.**

**By understanding the original blueprints of perfection, and controlling will
and emotions,
the speaking of the virtue of letter umlaut A, ae,**

**releases negative limitations for transformation into states that are the
highest good.
Call on inner guidance to know exactly what to do in any situation,
how to activate any Divine quality on any level.**

**Divine Love opens the eyes to see indwelling Divinity,
to transmute into inner perfection, bringing forth supreme
happiness**
The mysteries of Divine intentions and virtues to transform any situation
are understood through The Power of The Word.
Call on us
Our joy is the well being of all.
We are all ONE!

From a friend:

"I had made this chart as a quick reference to the tones, colors, meaning, element, sensation, and body area.

Perhaps this will help everyone in deciding which colors, pictures, will be complements to the messages."

**Note: Not all browsers see colors exactly the same.
If these colors don't look or feel right, please use inner knowing.**

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions:

Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth,

**and the angels who work with him or her.
The being and the angels share the same name.
This name is a key to their powers and influence.**

* Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6, and information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4).

Publisher is Dieter Rüggeberg, Wuppertal/W Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.
Franz Bardon's last autobiographical book, "Frabato the Magician",

gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

*The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.*

THE LAW OF ONE

**We are all one.
When one is harmed, all are harmed.
When one is helped, all are helped.
Therefore, in the name of who I AM,
and I AM one with all there is;
I ask that ONLY THE HIGHEST GOOD OF ALL CONCERNED happen,**

**I give thanks that this is done.
SO BE IT!
