**Trusting One's own guidance is the key
to achieving a successful, fulfilling lifetime.**

The 15th day of the 28 day Moon Cycle

The Angels of Divine Virtues

Also known as

The Angels of

Emnepe

Beloved,

**We teach the children of God to transform day to day tangible feelings
flowing in the body into
frequencies of the splendor and majesty of divine emotions,
so that only the highest good comes into manifestation on the earth
plane.**

**We help each person attune to the original purity and clarity of divine
blissful feelings,
feelings of rapture and happiness and other divine qualities,
that are fully felt in the body
that are flowing from original Divine Virtues in Universal
Consciousness.**

**In doing this, because emotions are compressed information that
govern
which realities manifest out of the quantum field,
omnipotent, omniscient, and omnipresent loving feelings
attract powerful miracles of beauty and grace.**

To manifest miracles with maximum efficiency and minimum effort,

**the mind's eye is kept singularly focused
on the fifth element, which is the primordial pre-matter
that is the unity underlying diversity.**

**In this way, nothing is felt to be outside of self
and the self is not felt to be separate from anything.**

**This state of awareness signals the superconscious and subconscious
minds
to communicate easily
within all parts of the unified strata of being in the outer worlds,
just as they do within all 72 trillion cells of the physical body and
corresponding
elements of the astral, mental, and spiritual bodies
of the inner worlds of consciousness.**

Suppose you are flowing feelings of contentment and happiness.

**Emotions of contentment and security relate directly to Supreme
Happiness,
which is represented by the letter N in the ancient language.**

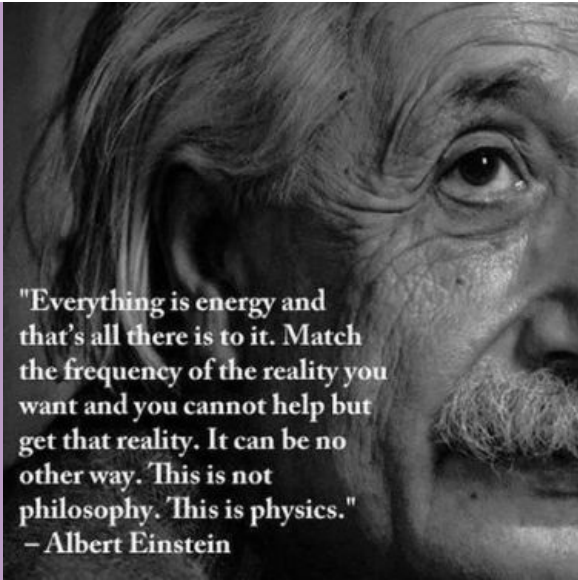

**The divine virtue of harmony and justice also brings satisfaction and
success.**

This virtue is the letter O.

**By meditating on these virtues in their original form in Universal
Consciousness,
tangible body felt feelings of happiness,**

**contentment and security grow until they become most powerful and
sweeping
in intensity and magnetism.**

**The power and intensity is now strong enough to magnetize great
changes
out of the quantum field of infinite potential
into form and reality in the material world.**

"Everything is energy and that's all there is to it. Match the frequency of the reality you want and you cannot help but get that reality. It can be no other way. This is not philosophy. This is physics."
– Albert Einstein

A meditation on Supreme Happiness, according to the ancient language, would look like this:

Imagine yourself as a small dot in your solar plexus.

Imagine that your body is a vast swirling universe all around you.

Now imagine that a tiny sun with a deep red light is shining from the abdomen area.

This deep red sun fills the entire body and creates flowing waves of emotions of supreme happiness.

Imagine a sensation of refreshing coolness, like waters flowing, and inwardly chant, with choirs of singing Angels, the note of A.

Take as much time on this meditation as is necessary to become completely infused with flowing wonderful emotions of Supreme Happiness.

Once this skill is perfected, imagine breathing IN this color, virtue, tone, and sensation from the omnipresent consciousness of God in space, through the pores of the skin over the liver, and breathe OUT the same from within.

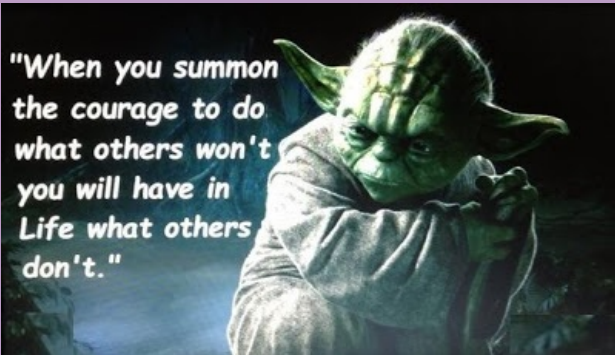

Breathe it in not only through the nose or mouth, but through all of the pores of the body.

Visualize it filling the entire body and especially the liver.

Breathe it out not only through the nose or mouth, but through the pores of the body, emanating from the liver.

Be sure to keep the rhythms of the breath normal, and dissolve the deep red light when you are finished, to protect the natural balance of elements in the body.

The longing for spiritual growth requires that all emotions are brought into a state of perfection and intensity of power.

"When you summon the courage to do what others won't you will have in Life what others don't."

We help the children of God take ordinary emotions and change them through meditation so that their emotions vibrate in sympathetic resonance with original Divine Virtues in Universal Consciousness.

**This allows the magnetizing of heaven to earth.
When a child of God has negative emotions,**

**these emotions can heal and become positive by flowing safely and non-destructively in an atmosphere of gratitude for surviving,
and for all that was learned from them.**

This is done with an attitude of all encompassing and unconditional love for life itself.

Tangibly felt feelings, like water, change and cleanse themselves through flowing, therefore,

**unblocking previously resisted painful emotions leads to healing.
The process of allowing emotions to flow promotes insights**

**into the underlying conditions that caused the unhappiness and negativity in the first place.
As emotions flow and heal, and insights come, the resulting positive emotions**

are then taken up into a state of meditation that relates them to original emotions of divine Universal Consciousness.

**In this manner, newly healed emotions are attuned to Universal Emotions
and become very powerful and magnetic.**

This emotional energy is then used to attract and manifest solutions to the inharmonies that were present in the traumatic event

that caused the original negative emotions.

In this way, impure emotional vibrations that attract painful situations to earth are cleansed and purified.

**By meditating on the divine virtues associated with the letters of our name,
and calling on our help, the following is gained:**

E-M-N-E-P-E

E...Universal Consciousness is everywhere and exists in all things.

***Universal Consciousness has will, intellect, and emotion.
We teach the ability to unite individual
consciousness with Universal Consciousness.***

***M...Emotions are the magnetic power that shape physical reality,
and therefore flowing emotions control change.***

***We teach a child of God to attune individual
to Divine Universal Emotions.***

***N...By attuning to the virtue of supreme happiness,
the feeling for self-preservation becomes so strong
that a child of God remains free and independent of
all other influences in order to feel whatever they chose.***

***E...In attuning to Universal Consciousness,
a person goes into a state of high intuition.***

In this state there exists no sense of time and space.

Divinity in its highest form speaks in this manner.

***P...The longing for purification and transformation
of one's character drives a person***

to attune their emotions to the divine emotions

of Universal Consciousness on an on-going basis.

**[P is the letter for the divine virtue of the longing for spiritual
perfection.**

Dark grey color. Musical note B.

Element of earth with a sensation of weight.

The right side of the nose is formed from this virtue.]

***E... By feeling Divine Consciousness in everything,
control over one's own emotions and the emotions of others is attained.'***

**On the 15th day of every 28-Day Moon Cycle we flood the emotional
energies of earth**

**with the emotions of the Divine Virtues
so that the children of God are**

**revitalized by divine emotions of the majesty and splendor of Divine
Consciousness.**
