**The Angels of Electricity  
Will,  
Visualization  
and the  
*Sun***

Also known as

The Angels  
of

***Methaera***

Beloved,

**We inspire and teach the children of light to use the power of the SUN!  
Remember that a persons physical body is the most dense of four integrated  
bodies.**

**The next most dense is the astral soul or emotional body.**

**Next is a mental or causal body and finally the spiritual body, which is desire,  
intention, and will.**

**These four bodies correspond to earth, water, air and fire,**

which are also the Beta, Alpha, Theta and Delta brainwave states.

These states correspond to sensation-memory-logic, emotions, thoughts and desires.

Of course, the core truth of everyone and everything is the all penetrating  
akashic body,  
that is one with Divine Being and all creation.

This body is omnipresent.

*I and the Father are ONE.*

*Just as your physical body houses your emotions, mind, and spirit, so does*

*the physical sun that you see in the sky, also houses emotions, mind and spirit.*

This is because the sun is the physical body of a great being.

Different religions and cultures have given this being that appears as the sun different names.

"As above, so below."

The solar system itself is the body of a great being.

It too has emotions, thoughts, and will.

All solar systems do.

Just as each organ in a body performs specific functions,  
and corresponds to different divine virtues,

so does each planet in our solar system.

The SOLAR SUN is a step down transformer from the central sun of the galaxy,  
just as our individual spirits are step down transformers of central ONE divine  
will and mind omnipresent.

Just as our spirits radiate divine will and thought,

so does the sun radiate OMNIPOTENT DIVINE INTENTION, WILL AND DESIRE,  
for the highest good of all.

The moon, ever rhythmic and changing, reflects the sunlight at night  
to affect the emotional nature of earth.

**The three outer planets are also step down transformers of the sun.**

**Neptune, which has a mass 17 times that of earth, broadcasts wisdom.**

**Uranus further broadcast divine will operating in the moment, bringing changes.**

**Pluto is the aspect of divine love, overcoming all to do what loves does best,  
to heal, nourish and perfect, to manifest harmony.**

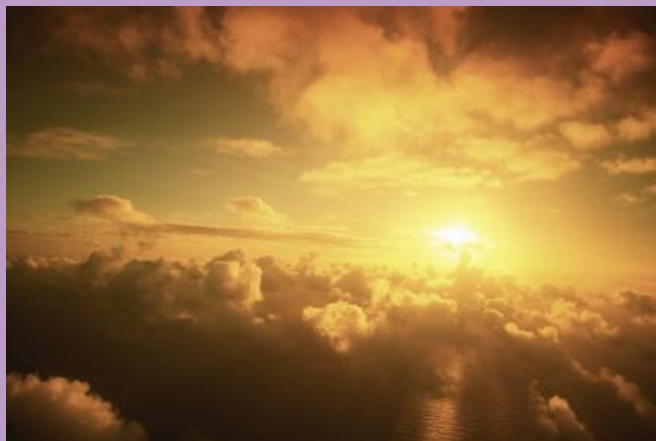

**There are two planets, a positive and receptive, under each of these three  
outer planets, that further channel these energies.  
Jupiter and Mercury, positive and receptive respectively, channel wisdom from  
Neptune.**

**Earth and Saturn channel divine will from Uranus.**

**Mars and Venus channel divine love from Pluto.**

**Looking at the sun, in a safe and natural way, such as at sunset or sunrise,  
allows waves of physical natural light of Divine Will and thought  
to physically enter the body temple of each person through the optic nerve.**

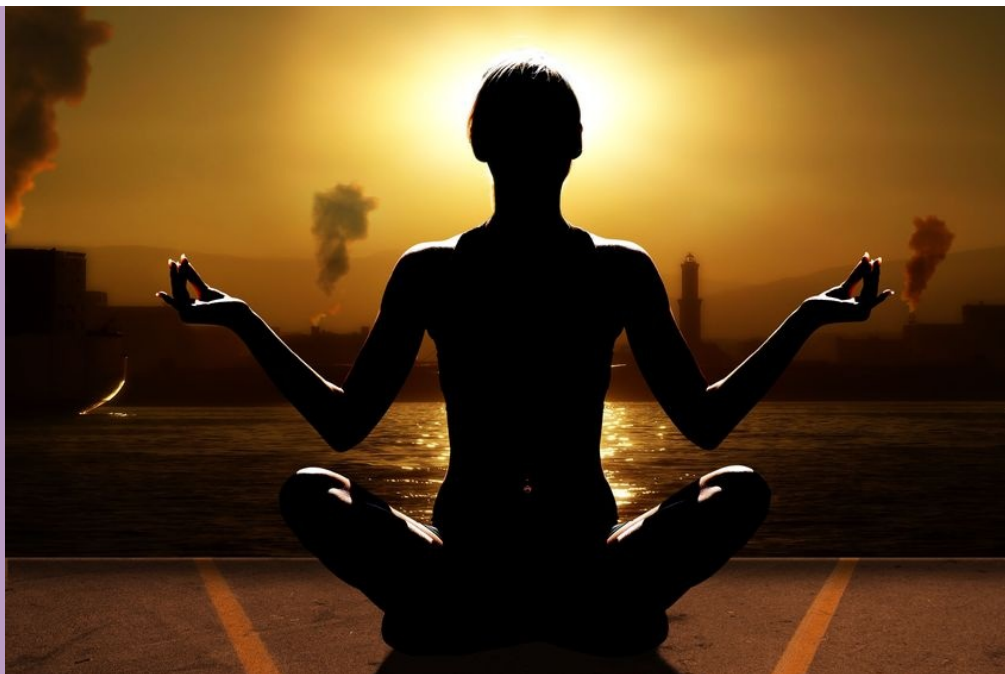

**In meditation on sunlight, these waves change into particles.  
Each particle is an information packet.**

**The optic nerve directly connects to the pineal, pituitary and hypothalamus  
glands.**

**These are master glands of the body.**

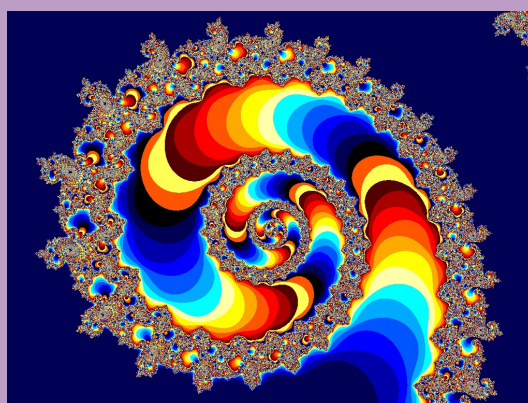

**When a person looks at the rays of the sun,  
information dances into the optic nerve as light waves.**

**These waves turn into light particles through the effects of attention in meditation.**

**These light particles are information packets that inform the pineal, pituitary and hypothalamus so that they secrete corresponding powerful healing and enlightening psychoactive chemicals and neuropeptides into the bloodstream.**

**Rays of the sun also inform and charge liquids and crystals with healing and**

**enlightenment.**

**The waters of earth, plants, animals and stones also absorb the sun's rays  
and vibrate with the messages of the sun!**

***and in the end days, even the stones will cry out.***

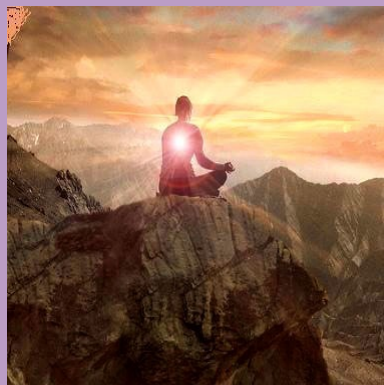

**The sun's rays catalyze unity with Omnipotent Divine Intention to manifest  
what the Mayans have called The Ancient Future.**

**This is The Alpha and The Omega, The Kingdom of Heaven on Earth,  
The Original Divine Will and Blueprints of Cocreation and Joy.**

***As a person meditates on the sun and on the divine virtues of the  
letters of our name, we awaken fiery  
enlightened intent connected to the sun, to become flowing divine  
emotions of the heart.***

**We inspire inner guidance and high inspiration from Divine Providence,**

**and using of The Power of the Word to cocreate with Divine Being.**

**The power of the word is the fourfold use of the Delta, Theta, Alpha and Beta brainwaves,  
the consciousness of all four bodies, to intend, visualize, understand, emote and sense divine  
qualities.**

***In doing so, we inspire divine Creativity,  
for we inspire the dance of creating Heaven on Earth.***

***"Thy kingdom come, thy will be done, on Earth as it is in Heaven."***

**Manifest creation is made possible through electrical and magnetic energy.**

**Electro-magnetic energy is the masculine and feminine, the positive and  
negative,**

**the creative and receptive, it is fire and water, IT IS Flowing WILL and Flowing  
EMOTIONS.**

**It is a scalar wave, the birth canal of new creation.**

**The element of air allows the fire of will to become the water of emotions.  
Emotions attract physical realities into form, the element of earth.**

**With divine will and divine emotions, divine perfection is created and  
attracted into manifestation out of infinite possibilities.**

**In the oriental philosophies of health, it is said that a balance of 5 to 1  
yin/yang is optimum.**

**Yin is magnetic emotional and earth energy and is the water and earth  
elements,  
and yang is electric will and thought energy and is the fire and air elements.**

**The Earth is mostly a water planet, a planet whose true divine nature is  
emotional love and joy.**

**"I have not given you the spirit of fear, but of love and life everlasting."**

**The earth is 80% water.**

**The human body at birth is 95% water and is always more than 70% water.**

**Emotions, the water element of magnetism, attract what has been visualized  
through divine guidance,**

**into forms.**

**In this way, emotions are most important to determine reality.**

***We help attune emotions to divine perfection through fiery great will, high intuition, wisdom and transformation.***

**Always remember that flowing emotions ATTRACT new realities into form.**

**By downloading packets of information from the sun,  
new emotions of visualizations of divine beauty take form in the imagination!**

**Beautiful flowing emotions of these visualizations attract them into actual  
physical reality.**

**Learning to master emotions through healing them and keeping emotions  
beautiful is to master the astral body.  
This is necessary to master physical reality.**

**Emotions and feelings are the change agent of the physical realm of the five  
senses.**

***To manifest HEAVEN ON EARTH the nature of emotions,***

***and therefore the nature of change,***

***must be pure and the highest good of all.***

***Emotions that are the highest good CREATED through individual  
willpower and visualization  
attuned to omnipotent DIVINE WILL for the highest good.***

**The fire principle of intent must pass THROUGH THE MIND, through  
visualization and THOUGHTS,  
to become the water principle of flowing emotion in the astral body.**

**Visual images are the language of divine mind, they are holographic in nature,  
and inform the quantum field to specific requirements of length, shape, width,  
and weight etc.**

**This visual hologram determines which chemicals are secreted into the  
bloodstream from the inner eye, the third eye, the pineal gland.**

**Thoughts about the visual hologram causes corresponding emotions.  
Emotions corresponding to this visual hologram additionally cause the body to  
secrete other chemicals  
which cause manifestations of this visual image into form.**

**For this reason we help each person meditate and master the divine virtue of**

wisdom and enlightenment.

**Meditating on enlightenment reveals the original purity of all ideas in Divine Mind.**

***The process of Divine Fire passing through mind creates an eminent mind,***

***a mind in which the divine virtue of wisdom and enlightenment makes capable visualization,***

***reasoning, perception, the cognition of the most profound truths, highest knowledge, high intelligence, etc.***

**As clear pure ideas are formed, imperfect ideas and visualizations are acknowledged to be released back to Divine Being for transformation**

**into other higher states that are the highest good of all concerned.**

**Miracles are performed this way in the inner and the outer worlds.**

**We HELP each child of light understand ELECTRICITY,**

**which is the physical expression of will and intention and visualization.**

**WE TEACH WILL, the POWER OF ACTIVE CREATIVE INTENT AND VISUALIZATION.**

**We are ONE with The Omnipresent Creator of All Life,  
we are ONE with you.**

**We are ONE with ALL for ALL are ONE.**

**Our love for you is as powerful as lightening.**

***Here is the meaning of our name.***
