The Angels of the Elements

Also known as

The Angels of

Mahra

Beloved,

**We teach how miracles in nature are brought about
through the use of intent and will,
visualization,
and
accompanying flowing divine emotions, feelings, and
sensations in the body.**

By studying the qualities of the four elements: fire, air,

**water, and
earth,
and their corresponding brainwave patterns and
development,
and how they evolve one into the other,
keys to creation are revealed through analogy.**

It was written that Gods handiwork in NATURE is
The Book in which is written all wisdom and understanding.

This is easy to understand for the seeker who grasps that
creation is
the out picturing of Divine Consciousness.

"As above, so below."

We, the Angels of the Elements, the Angels of Mahra, guide
enlightenment step by step,
as a person studies the four elements of nature
with the intent of penetrating the secrets of Divine
Creativity.

The grandeur, the beauty, the intelligence, the exquisite
perfection
of The Almighty
is present in even the least of the objects of Divine
handiwork.

Everything in nature is connected to everything else.

Harm or help cannot be done in isolation,
when one is harmed or helped, on any level,
be it harming or helping of will, visualization,
thought, emotions, or
form,
all are affected.

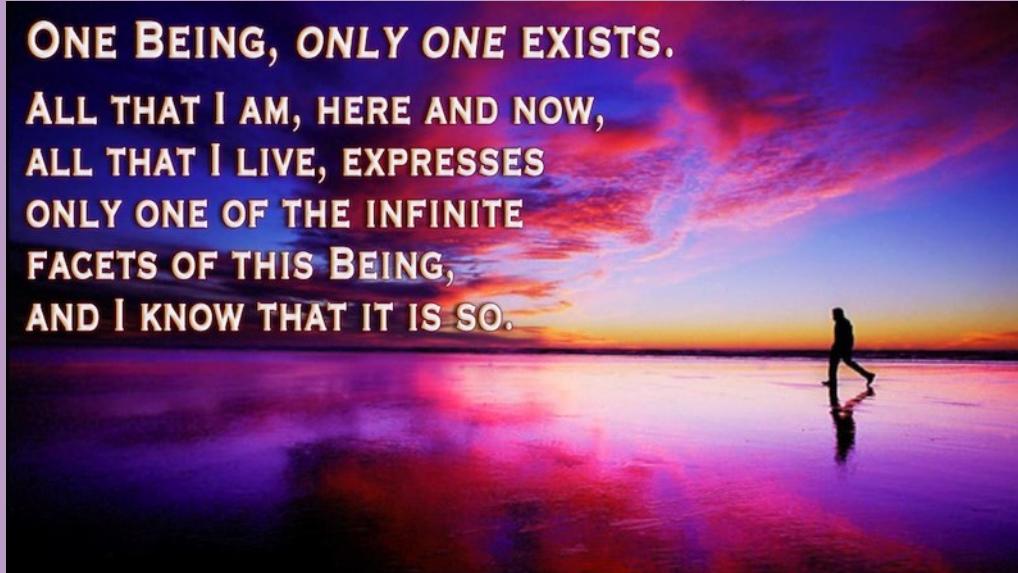

The more that scientists and philosophers contemplate the
intricate
perfection and interrelationships of creation,
the more that Divine Intelligence becomes obvious.

We help people understand not only the four elements,
but also the fifth, the akashic...
which is the unifying principle,
as they manifest in nature.

Remember that everything in manifest creation out pictures

divine
qualities.

We awaken the deep delta brainwave state in meditation,
to know and understand and use this fifth element,
the element of akasha,
which is unity with the all penetrating omnipresent cosmic
life
substance of Divine Being.

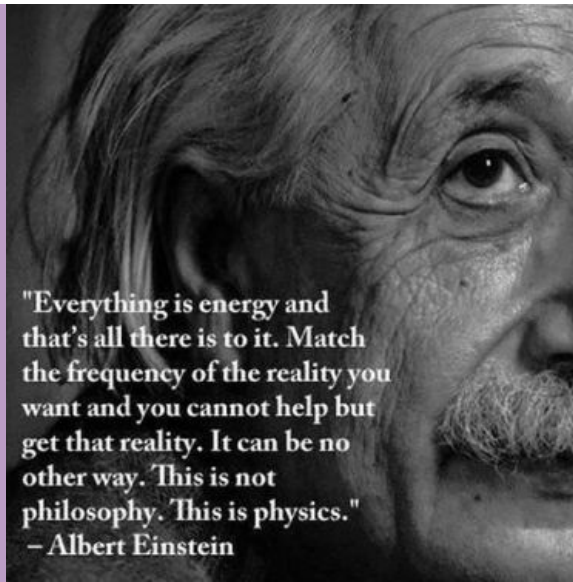

This fifth element,
plus the four elements of fire, air, water, and earth,
are the secrets of creation made manifest in form.

As these five elements manifest through and as the natural
worlds
of pure being in stillness that is one with all,
intentions and desires,
visualizations, thoughts, emotions and forms.

These elements contain within them, and out picture,
secrets of the nature of Divine Being,
and therefore of Divine Man and Woman,
who are made in the image and likeness of Divine Being
on every level.

The element of Akasha is Cosmic Energy,
the most subtle life essence of Omnipresent Divine Being
Itself.

The element of fire expresses Divine Will and visualization.

The element of air expresses Divine thoughts and mind.

The element of water expresses Divine flowing feelings and emotion.

The element of earth expresses Divine Sensations.

As people prove themselves to be harmless,
to themselves and others and all life,
we open up deep secrets written in the elements and their
relationships one to another.

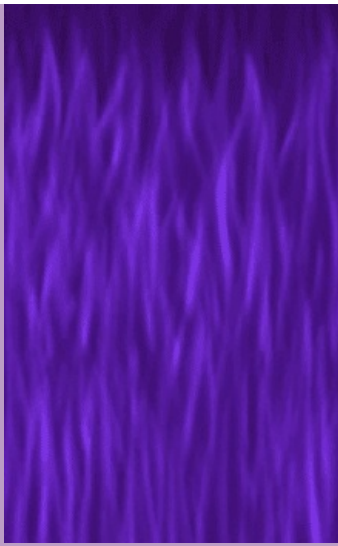

Such people will come to understand their own true natures
as sons and daughters of God,
and also come to understand the nature of All That Is.

Hearts that flow with Divine emotions of all encompassing
unconditional
faith and love,
and that values love above all else,
so that they carefully safeguard the use of will power,
knowing that All is One,
are given this enlightenment to
MANIFEST THE TRUTH
of Heaven on Earth.

"All that I do, ye shall do and more."

The elements, as well as all else in creation,
look to humankind for direction,
for we are the children of Divine Being.

"For I have given you dominion over all things."

It is possible to command the beings of the elements,
but this must be done in love, faith, and clear inner
guidance from
Divine Providence,
so that no harm is done, only the highest good of all
concerned in any
situation.

The beings of the elements are intelligent aware beings,
that respond to love, faith, and clear direction.

It is possible and necessary for a child of Divine Being to
control
fire, air, water, and earth.

Fire, and the beings of fire, the Salamanders, are Electrical
Will
manifest in forms, just as Divine Being Itself is manifest in
the forms of people.

There is consciousness in each fire, from the smallest
candle,
to the vast fires of inner earth.

Fire is the original Masculine Power of Will, Visualizations,
and
Electricity,
and these beings of fire,
who serve the Father in faithfulness,
will also obey the sons and daughters of God when they
radiate love
as the Father in Heaven radiates love.

Fire, in a son or daughter of God,
is generated in the Delta brainwave frequency,
which is a state of pure being and oneness with Divine
Energy.

Delta brainwaves are dominant in infancy and in deep
dreamless sleep
each night.

"Ye must be as little children to enter the kingdom of
heaven."

Will becomes a visualized image of what is desired.
This activates the pineal gland, the third eye,
to secrete powerful psychoactive chemicals
that are a thousand times stronger than similar chemicals
in the plant kingdom and from synthetics.

This visual image enters the mind, which is thought.

Air, and the beings of air, the Sylphs,
are Divine thoughts manifest in form.

Thoughts are generated in the Theta brainwave frequency,
which is deep inner meditation.

Theta is dominant in childhood.

Both will and thought, or Fire and Air, are Masculine
electric expressions of
Divine Consciousness, or Spirit.

As fire, or will, passes through thought, original electric
energy
becomes magnetic and turns into flowing emotions.

This is the sacred marriage of fire and water,
of electricity and magnetism,
expansion and contraction,
of spirit and soul.

The alpha brainwave frequency is emotion.

Alpha is dominant in adolescence.

Water, and the beings of water, the Undines, are emotions
manifesting in form.

Emotions, and the manifest forms of water, are the original
feminine
principle, the power to 'give birth' to what has been
intended, visualized.

The power of Magnetism is compressed information of what
has been intended,
and like zip files,
contain the compressed information that attracts
the new intended realities into form on the plane of matter .

The beings of earth are called gnomes.

They are the enlivening, conscious, spirits of manifestations
in form,
with length, width, depth, and weight.

Emotions and Form, or water and earth, and the beings of
water and
earth, the Undines and Gnomes,
are Feminine expressions of Divine Consciousness, or Soul.

All together, the four elements of Fire, Air, Water, and Earth
are the
electro-magnetic,
the male and the female, energy of the unified field, the
akashic, the Web of Life.

Mahra instructs in the magic of elements,
which enable a child of God to make practical use of the
electro-magnetic fluid in nature.

Come, come with us, the Angels of the Elements, as we
teach of the
mysteries of the elements in Nature
and the miracles that are possible in their use.

In doing so, learn of the nature of Divine Consciousness and
therefore
how to manifest miracles in the physical bodies of
everything in creation,
especially in Man and Woman, who are made in the Image
of Divine
Consciousness, in the natural world.

As above, so below.

M-A-H-R-A

The letter M represents the divine virtue of flowing emotions.

This virtue creates magnetism that attracts physical forms into manifestation on the material plane.

Everything on the physical plane in nature was formed through the effects of flowing divine magnetic emotions.

This is why supreme divine happiness and other divine emotions are so important.

Emotions are the element of water.

Water is the material manifestation of emotions.

Emotions,
 and the material forms that are the result of emotions,
 are the Divine Feminine soul energy.

The water element is the virtue of letter M of our name,
 and has sensations of chill and vibrates to the
 musical note of D.

Its color is blue green and the abdomen as a hollow space is formed from it.

The letter A represents the divine virtue of wisdom and enlightenment.

This virtue represents air, and air is the material expression of this virtue.

The air element has a sensation of ease and vibrates to the musical
 note of G.

Its color is light blue and the lungs are formed from it.

The letter H represents the mystery of life and death and
 transformation,
 and confers control of destructive passions and negative beings,
 and gives freedom from clinging to any value or possession that no
 longer serves the highest good of all concerned .

This virtue is of the earth element with sensations of weight and the musical note of C.

Its color is loamy brown and the anus is formed from it.

HThis letter represents The Power of the Word.

This virtue is the out picturing of divine virtues through pure being that is one with divine being and all creation.

This is done in meditation by desiring a virtue into will, thought, emotions, and then into sensations through using whole brain awareness.

This is known as speaking the ancient language.

The ancient language is the use of each virtue and its letter so that the entire brain is utilized.

In speaking the letter A [soft A as in ahhhhh, for instance, the element of akasha, of unity with Divine Being and all creation, and the four elements of will, thought, emotion and sensation are used.

There is a visualization of the color light blue, the WILL to unite with all wisdom and enlightenment of Divine Mind.

Then there is CONTEMPLATION of wisdom and enlightenment with the intellect, and then, flowing with tangible feelings in the body of emotions of eloquence, music and poetry, clairaudience, and clairvoyance etc.. with SENSATIONS of ease.

The sound of A is toned with the musical note of G.

In other words, the Delta brainwave, which is the brainwave pattern of pure being and unity with Divne Being and all creation, is used with WILL and visualization, the Theta brainwave of deep inward thought is used with CONTEMPLATION, the Alpha brainwave of emotion is used with heartfelt flowing, and the Beta brainwave of the five senses, memory, and logic is used with SENSATIONS.

This is done from the point of view of the As above, so below.

In this case, the 'as above' is the visualized intent and thought, and the 'so below' is the emotions and form.

With the letter soft A, after experiencing yourself as one with Divine Being and all Creation, imagine yourself as a tiny dot located in your own solar plexus with your body as an infinitely huge universe all around you.

>From this vantage point, visualize the light blue color shining from a tiny sun in the lungs.

Visualize its light filling the lungs or whatever inner guidance directs.

At the same time, contemplate wisdom and enlightenment with visualizations of light blue and sensations of ease filling the entire body.

This becomes easy and automatic with practice, as in learning any language.

Imagine toning the letter A in the musical note of G.

With the out breath, keeping the rhythm of the breath natural, see and feel this light blue virtue radiating out through the pores of the skin over the lungs and filling whatever inner guidance directs, even the entire outer universe.

With the in breath see and feel this radiance coming back in through the pores of the skin and filling whatever inner guidance directs, even the entire body.

Because of the law of correspondences, the As above, so below law, wherever you direct the light in the outer universe becomes filled with the divine virtue of wisdom and enlightenment at the same time that the body does, through breath, during this use of the letter A.

Be sure to dissolve the light in the body when you are finished to protect the natural balance of elements in the body.

Keep the rhythm of the breath natural at all times.

This will take practice, but with time will become easy to do.

In doing this, a child of light learns to understand how Divine Providence created everything through the Power of The Word.

The letter H, The Power of The Word, is followed by R in our name.

R This letter represents the virtue of freedom and independence of following inner guidance.

This virtue manifests as complete security and attunement to Higher Consciousness, with unfailing inner guidance that leads to the highest good of all concerned.

This letter is the earth element with a sensation of weight and the musical note of C.

The color is golden light and the left side of the nose is formed from it.

A and umlaut A, ae The virtue of wisdom and enlightenment gives one the

understanding of the purity of all ideas in their original form,
so that imperfections are recognized and released back to Divine Being
for transformation.

The melody of our name is D, G, C, A, C, G, and C.

Footnotes:

The names and meaning of angel groups come from Quaballah, which is a very ancient set of teachings which together form a common precursor, or root, of three of the world's religions: Judaism, Islam, and Christianity.

Each degree of the zodiac is ruled by a high being of the heavenly host in the zone girdling the earth, and the angels who work with him or her.

The being and the angels share the same name. This name is a key to their powers and influence.

Names, phrases, or sections in the angel messages are quoted or paraphrased from the books of Franz Bardon.

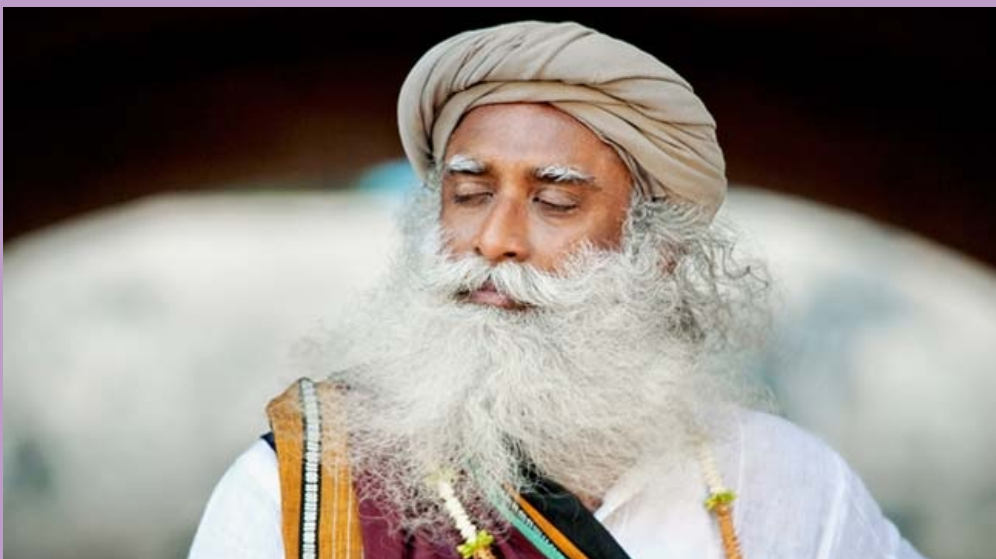

Information of the heavenly hosts of the zone girdling the earth is referenced from THE PRACTICE OF MAGICAL EVOCATION, ISBN 3-921338-02-6,

and Information of the divine virtues and the letters are referenced from THE KEY TO THE TRUE QUABALLAH, ISBN 3-921338-12-4]. Publisher is Dieter Rüggeberg, Wuppertal/W. Germany. These books have very important information for these studies.

The book "Initiation into Hermetics" ISBN 3-921338-01-8, is a preparatory book for the others.

Franz Bardon's last autobiographical book, "Frabato the Magician", gives historical background and was compiled by his German publisher from notes written by Franz Bardon.

Feel free to share these messages.

*The Law of One is the original law of Creation,
and is the supreme Law over all laws in all dimensions.*

THE LAW OF ONE

We are all one.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of who I AM ,

and I AM one with all there is;

**I ask that only THE HIGHEST GOOD OF ALL
concerned happen.**

I give thanks that this is done.

SO BE IT!

So it is.

*On the spirit's path of the soul
We find that when we do something because of love
it is right.
But if we do something because we were told it is right,*

*it is sometimes wrong.
The longest journey anyone ever makes
is from
the head
to the heart.*
